MINUTES

OF THE

PROVINCIAL COUNCIL OF PENNSYLVANIA.

At a Council held at Philadelphia in the Council Chamber, on Fryday the 18th of October, 1771.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor.

James Hamilton,	Thomas Cadwallader,	Esquires.
Joseph Turner,	James Tilghman,	
William Logan,	Andrew Allen,	
Richard Peters,	Edward Shippen, Junior,	

The Governor having yesterday received a Message from the Assembly, acquainting him that they propose to present him an address, and to claim the usual priviledges of the House, and his Honour having appointed this day for that purpose, about twelve o'clock he directed the Secretary to acquaint them that he attended his appointment in the Council Chamber, and was ready to Receive the House with their Speaker. The whole House immediately waited on him, and the Speaker delivered the following address, Viz^{t}:

"*To the Honourable RICHARD PENN, Esquire, Lieutenant Governor of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, upon Delaware.*

The Address of the Assembly.

"May it please your Honour:

"The Representatives of the Freemen of the Province of Pennsylvania, in General Assembly met, sincerely congratulate your Honour on your safe Arrival and accession to this Government.

"The appointment of a Gentleman who has resided several years among us, and acquired a knowledge of the Circumstances of

the Province, is extreamly agreeable to us, and induces to hope, that while he pays a due Regard to the Prerogatives of our most Gracious Sovereign, the just rights of his Subjects, and a faithful execution of the Laws, those Essential Supports to the Honour and Dignity of Government, cannot fail to become Objects of his care and attention, and the people we represent to be made happy under his administration.

"Permit us to assure your Honour, that on our part, nothing shall be wanting to support you in the exercise of the Just rights of Government, and to render your residence among us easy and happy

"Signed by order of the House,

"JOSEPH GALLOWAY, *Speaker.*

"October 18th, 1771."

To which the Governor was pleased to return an answer in these Words, Viz^{t}:

"Gentlemen:

"I heartily thank you for your kind Congratulation on my arrival and appointment to the Government.

"My former Residence among you, at the same time that it afforded me some insight into the Circumstances of the Province, could not fail to add considerably to my Regard for it, And as I shall on all Occasions study to protect the People committed to my Charge in the full Enjoyment of all their just Rights and Priviledges, as well as to support the Prerogatives of the Crown, I flatter myself that your kind Expectations in my favor will be in some measure answered, and that my administration may be easy to myself and happy to the Publick."

The Speaker then, addressing himself to the Governor, claimed the several usual Privileges in behalf of the House, which his Honor was pleased to say were undoubtedly essential in a Representative Body, and that he should at all times endeavor to protect the House in the enjoyment of them. The Speaker thereupon presented to the Governor a Certificate for £600, for which his Honour returned thanks to the House, and then they withdrew.

A Draught of a Message to the Assembly being prepared by a Member of Council at the Governor's Request, the same was read, and being approved, the Secretary Transcribed it at the Table and carried it Immediately to the House, and at the same time laid before them, by direction of the Board, the Depositions of Ashur Clayton and Joseph Morris.

"Gentlemen:

"I am sorry to be under a Necessity at my first arrival among you, to apply for your Assistance in a very disagreeable Affair, which I understand has given great Trouble to the Government.

"It is a matter of public Notoriety that those daring Offenders, Lazarus Stewart and his Accomplices, with a number of adherents,

have, in the most hostile and Warlike Manner, expelled our people from their Settlements at Wyoming, where these intruders remain, in Defiance of the Powers of Government, which have hitherto proved ineffectual to restrain their daring and Insolent Behaviour.

"Your own Reflections, Gentlemen, will point out to you the fatal Consequences of suffering these lawless People to remain quiet in a possession which they have obtained as it were by Open War.

"It is more than probable that, encouraged by their late Success, they may extend their Possessions to other parts of the Province, and put our frontier into a state of Disorder and Confusion.

"When you come Seriously to attend to the many mischiefs with which this important Affair is pregnant, I cannot Doubt but you will readily give me your Assistance in Speedily Suppressing these disorders, and bringing to Condign Punishment a set of People who have in the most audacious manner put the Government and its Laws at Defiance; and as one Mean proper for the Accomplishment of so desirable an end, and of Preventing Disorders of the same kind, I would remind you of Reviving the late Riot Act.

"I am informed, Gentlemen, that some Provision will be wanted for Subsisting His Majesty's Troops now in the Barracks of this Province, which I likewise recommend to your Consideration.

"RICHARD PENN.

"October 18, 1771."

At a Council held at Philadelphia on Saturday 19th October, 1771.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c[a].

Joseph Turner, Lynford Lardner,
Richard Peters, James Tilghman, } Esquires.
Edward Shippen, Junior,

Mr. Hamilton having delivered to the Governor a Letter which he received last Night from the Governor of Connecticut, in answer to the one he had dispatched by express the forth Instant, His Honour by the advice of the Council, ordered the Secretary to lay it before the Assembly for their Perusal. The said Letter follows in these Words, Viz[t]:

"NEW HAVEN, 14th October, 1771.

"Sir:

"I have the Honour of your favor of the Fourth Instant, and am extreamly sorry to find that the peace of His Majesty's Subjects has been disturbed in the manner you represent.

"The Persons concerned in these Transactions have no Order and direction from me, or from the General Assembly of this Colony,

for their proceedings upon this Occasion; and I am very Confident that the Assembly, Friends as they have ever been to peace and good order, will never Countenance any Violent, much less Hostile, Measures in Vindicating the right which the Susquehanna Company suppose they have to the lands in that part of the Country within the limits of the Charter, to this Colony. You will see by the representation from the Committee of the Susquehannah Company, which I had the Honour to Transmit to Governor Penn, that the Claimants under that Company (who no doubt are the people Concerned in the late Transactions), Complain that they were first attacked and Ill treated by the People of your Province, when they meant only a peaceable Possession of the Lands they claim a Title to, and wished to vindicate that Title in due course of Law. Your People, on the other hand, insist, it seems, that the Susquehannah Claimants have been the aggressors. Which have been most in fault it is not my part to determine.

"I can only assure you that it is with the deepest Concern that I see this Controversy conducted in so Violent and Hostile a Manner, and that I wish to Contribute all in my power to preserve Peace & good Order.

"I am, with the greatest Esteem, Sir,

"Your most Obedient Humble Servant,

"JONT^{H}. TRUMBULL.

"Hon^{o}. JAMES HAMILTON."

A Committee of two Members of Assembly waited on the Governor and presented him two Bills for his Honor's Concurrence, entituled "An Act for preventing Tumults and Ryotous Assemblies, and for the more speedy and effectual punishing the Ryoters;" And "An Act for the support of the Light House erected at the mouth of the Bay of Delaware, and the Buoys placed in the said Bay and the River Delaware, and for the re-payment of the monies borrowed for the Erecting the said Light House and placing the said Buoys."

The Committee at the same time acquainted the Governor that the House were inclined to rise to-day, and proposed to adjourn to the first Monday in January next, if his Honour had no Objection thereto.

The Governor replied to them that he should take the Bills into Consideration immediately, and had no objections to their proposed time of adjournment.

The Bills were then read and duly considered, and being approved by the Board, the Secretary was Ordered to return them to Assembly immediately, with a Verbal Message to the House that the Governor gave his assent to them.

In considering the last mentioned Bill it was found that the names of the Commissioners and Collector of Tonage therein, were the same with those appointed by the Act for erecting a Light

House, &c^a^ passed in September, 1763, whom the Governor did then approve of, for which Reason His Honour waved any objection to this Bill on account of the nomination of the Officers; And it appeared also to the Board to be freed from the Objections made by the Lords of Trade to the Supplement to the last mentioned Act, passed in September, 1764, and repealed by the Crown in June, 1766.

The Council then adjourned to the Council Chamber, and the Secretary was sent with a Message to the Assembly, to acquaint them that the Governor was ready to enact into Laws the two Bills which had Received his assent. The whole House accordingly attending, the Speaker presented the said two Bills, which the Governor enacted into Laws, and signed a Warrant for affixing the Great Seal to them. They were accordingly Sealed, and afterward deposited in the Rolls Office.

Edom die, P. M.

The Governor received a Verbal Message from the Assembly by three Members, that the House had met pursuant to the Charter and laws of the Government, and had chosen their Speaker, and desired to know when and where they should wait on his Honour in Order to present him. His Honour made answer, that he was now ready to receive the House with their Speaker. The Assembly attended accordingly, and presented David Hall, Esquire, as their Speaker, who, being approved by the Governor, claimed the usual Privileges, which were granted, and then the House withdrew.

A Committee of three members of the House waited on the Governor and acquainted him that the House having taken the usual Qualifications, were ready to receive any Business which His Honour might have to lay before them; to which the Governor made answer, that he intended to speak to the House to-morrow, and would acquaint them by the Secretary at what hour he should require their attendance.

Wednesday, 23d October, 1771, A. M.

The Governor acquainted the Assembly by the Secretary that He proposed to speak to them this forenoon, and therefore now required their attendance at Mis^{ses}. Clay's House. The Speaker and the whole House attending immediately, the Governor made them a speech, which follows in these words, vizt:

"Gentlemen:

"It gives me great pleasure to have so early an opportunity after my arrival, of acquainting you with my appointment to the Government of these Counties, and to assure you of my sincere Inclinations upon all Occasions to promote the true Interest and prosperity of the people committed to my Charge.

"I have a sensible pleasure in reflecting upon the harmony which has subsisted between my predecessor and the representative Body of these Counties; and I do assure you that nothing shall be wanting on my part which can contribute to preserve the like good understanding with you.

"I have no particular Business to lay before you at this time, but shall always be ready to Concur with you in any measures which may promote the happiness and Welfare of the People you represent."

Edom die, P. M.

Three Members of Assembly waited on the Governor in the Evening, and acquainted him that the House had prepared an address which they Intended to present to his Honour; and requested to know when he would be pleased to receive the same. The Governor answered that he would be ready for that purpose in about half an hour. The House having accordingly waited on the Governor; The Speaker delivered an address to his Honor in the following words, Viz^{t}:

"May it please Your Honour:

"We the representatives of the Freemen of the Counties of New-Castle, Kent and Sussex, upon Delaware, beg leave to Congratulate your Honor on your appointment to and safe arrival in this your Government; and to return you our most sincere and hearty thanks for your very kind and affectionate Speech.

"The knowledge we have of your Honour from your residence in your other Province for several years, your condescending affability, candor, and the perfect assurance you are pleased to give us of your sincere inclination upon all occasions to promote the true Interest and prosperity of the People Committed to your Charge, cannot fail of procuring the Esteem of our Constituents, and exciting in us the warmest emotions of Gratitude.

"The many amiable Qualities, your honoured predecessor was possessed of, very justly endeared him to the representative body of these Counties, as well as to all who had the honor of his acquaintance, and we cannot but retain the deepest sence of the happiness the good people of this Government enjoyed under his administration. The pleasing prospect we have of a continuance of that Harmony in the Legislative, that always subsisted between him and the Assemblies here, affords us a very singular satisfaction.

"We thank your Honor for the most obligeing manner in which you have declared your readiness to Concur with us in any Measures that may promote the happiness and welfare of our Constituents.

"In return for so much goodness, permit us, Sir, to declare that, as well from Inclination as duty, we will do every thing on our parts, both in our public and private Characters, that may have a tendency to render your Honor's administration easy and happy.

"Signed by Order of the House,

"DAVID HALL, Speaker.

"October 23d, 1771."

To which the Governor was pleased to return the following Answer, Viz$^{t.}$:

"Gentlemen:

"I heartily thank you for your affectionate address to me, as well as for the kind regard you have expressed for my predecessor.

"It gives me great satisfaction to find that the good People of this Government entertain so favourable an opinion of me. I do assure you I have nothing more at heart than their true Interest, and I flatter myself that you will at all times find my Actions Correspond with my Professions.

At a Council held at Philadelphia, on Saturday 23d November, 1771.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c$^{a.}$

Richard Peters, } Esquires.
Benjamin Chew, }

The Governor having Received information that Lieutenant Robert Hamilton, of his Majesty's eighteenth Regiment of Foot, who stands charged with the Murder of Lieutenant Tracy, of the same Regiment, in the County of Bedford, is very desirous of Receiving his Tryal, acquainted the board that he thought a special Commission for holding a Court of Oyer and Terminer should be Issued for that purpose, as it would be inconvenient for the Judges of the Su-

pream Court to take a Journey at this Season so far as Bedford. The Board thereupon desired desired the Governor to Issue a Special Commission, appointing the three Eldest Justices of the Peace in Bedford County to hold the said Court; and His Honor accordingly Issued a Commission, Directed to John Frazer, Bernard Docherty, and Arthur St. Clair, Esquires.

The Secretary laid before the Board a Petition from a number of Germans, settled at the Glades, upon Stony Creek and Youghiagany, in the County of Bedford, representing the great inconvenience they are under for want of a Magistrate, there being none nearer to them than thirty miles, and praying the appointment of one residing in or near that Settlement.

The Board, on considering the said Petition, advised the Governor to commissionate for that purpose Mr. Abraham Keble, who is recommended as a man of Property and Reputation, and the best quallified of any person in that quarter to execute the duty of a Magistrate. His Honor accordingly issued a special commission, appointing the said Keble a Justice of the Court of General Quarter Sessions of the Peace and of the County Court of Common Pleas for the said County of Bedford.

At a Council held at Philadelphia, on Monday the 1st of December, 1771.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c[a].

Richard Peters, Benjamin Chew, } Esquires.
Lynford Lardner, Edward Shippen, jun[r], }

The minutes of the Preceeding Council were read and approved.

John Swift, Esquire, Collector of his Majesty's Customs for this Port, appeared at the Board and presented to the Governor for his perusal several depositions taken before the Chief Justice, setting forth that Thomas Mushett, Commander of a Schooner in the Service of the said John Swift, did on Saturday, the 23d of last month, near Chester, in the river Delaware, seize as forfeited to his Majesty a Pilot Boat laden with a Variety of contraband Goods; that the said Thomas Mushet, after setting one the of Men who worked the said Pilot Boat on Shore, at his own Request proceeded up the river for this City, with the said Pilot Boat; That when they reached Red Bank they were met by the Tide of Ebb, and came to an Anchor, lashing both Vessels together; that between nine and ten o'clock the same night they were boarded by upwards of 30 Men in disguise, armed with Cutlashes, Clubs, and other Offencive Weapons, who violently attacked and Cruelly cut and wounded the

said Thomas Mushet and two of his People, and Confining them and the rest of the Crew in the Hold of the said Schooner, did considerable damage to her by cutting her sails and Rigging, &c., and afterwards Rescued and carried off the said Pilot Boat with her lading.

The said Depositions being read, Mr. Swift requested the Governor would be pleased to issue a Proclamation offering rewards for the apprehending and bringing to Justice the several persons who had committed the assault and rescue mentioned in the said Depositions, or were otherwise Concerned in that illegal and Ryotous proceeding.

The Board taking this matter into consideration, advised the Governor to issue a Proclamation agreeable to Mr. Swift's Request, if the Speaker and the other Members of the Assembly who were in Town, would engage that the House will pay the Rewards which may be offered and become payable on that occasion, and the Secretary was directed to wait on the Speaker to request he would consult the Members of Assembly on this matter, and to acquaint the Governor with their Sentiments and Resolutions thereon.

The Governor laid before the board a Letter he had just received from three of the Principal Magistrates in Kent County, representing the great inconveniences the people of that County labour under for want of a sufficient number of Magistrates conveniently situated to do the public business, owing to the Death and removal of some of the Magistrates appointed in the last General Commission of the peace, and recommanding John Chew, Richard Smith, Richard Lockwood, and Zadok Crapper, as the most proper persons to supply the present deficiency in the Magistracy. The Governor, therefore, by the advice of the Board, directed the Secretary to make out a new Commission, assigning the following Gentlemen Justices of the Court of General quarter Sessions of the Peace and of the County Court of common Pleas for the said County of Kent, Viz^{t}:

Charles Ridgley,
Andrew Caldwell,
James Sykes,
William Rhodes,
John Clark,
Jacob Stout,
Finwick Fisher,
Thomas Tilton,
Warner Mifflin,
James Boyen,
Thomas Hanson,
Jonathan Emmerson,
Samuel Chew,
John Chew,
Richard Smith,
Richard Lockwood,
Zadok Crapper.

Christian Lehman, a Conveyancer in this City, having lately petitioned the Governor to grant him a Commission to be a Notary and Tabellion Public, and produced Recommendations from several Gentlemen of Reputation of his being properly Qualified to execute that office, His Honour was this day pleased to issue a

Commission appointing the said Christian Lehman a Notary and Tabellion Public within this Province.

The Delaware Captain named Killbuck, and two other Indians of the same Tribe, who lately came to town from the Ohio, with a Message to this Government from the Western Indians, were introduced by the Secretary, and the Governor having bid them welcome and acquainted them that he was ready to hear what they had to say, Killbuck spoke to them as follows, Viz^t:

"Brethren:

"I am glad to see you here face to face; It is twenty Days since I came from Fort Pitt, and I am pleased we are now met together to do Business at our old Council Fire at Philadelphia.

"Brethren:

"I am sent down with a Message to the Governor from the Delawares, Munsies, Mohickons and Shawanese.

"Brethren:

"The Great God has established among us Indians the method of using Belts of Wampum to convey our sentiments to each other as you do by means of writing.

"Brethren:

"The Message I have now to deliver by the three Belts which I have now in my hands, is not only addressed to you, but to the Governors of Maryland and Virginia likewise; We have the same Request to make of you all.

"Brethren:

"But before I deliver the Message I have in Charge, I by this String wipe all your Faces Clean, and remove the sweat and dust from your Eyes, and cleanse your Hearts of all Foulness, that you may hear and understand all that your Brethren the Delawares, Mohickons, Munsies and Shawanese, have to say to you.

A String.

"Brethren:

"Sir William Johnson told me at his own House, about six years agoe, that there should be some one sent by the King of England to reside at Fort Pitt, with whom the Indians might confer and do their Indian Business.

"Brethren:

"As you are at a great distance from us, and it is therefore Difficult to do Business with you, I am greatly afraid that our young men will act foolishly and Commit many disorders for want of some such Person as we have mentioned to reside at Fort Pitt.

"Brethren:

"I request you will be so good as to take care of your own young People, and restrain them from acting foolishly, and we shall do so on our part with respect to our young men, as far as lies in our power.

"Brethren:

"About three years agoe you made a Council Fire at Fort Pitt, and we think that that fire is now almost out and wants to be rekindled.

"Brethren:

"The Six Nations meet with Sir William Johnson every year in order to brighten and strengthen the Chain of Friendship. We also observe the same thing is done at Charlestown, at which place the Cherokees and Catawbas meet every spring to renew their Friendship with their Brethren; And there was formerly a Council Fire in these middle Provinces, kept up by your and our forefathers, but we perceive *that* fire is almost extinguished, and we desire now that it may be renewed, that we may meet together as our forefathers used to do, and strengthen our Friendship.

"Brethren:

"Now, I have from the bottom of my Heart opened all the Business that I am sent upon, and as it is not only directed to you, but to the Governors of Maryland and Virginia, I desire that this Message may be sent along with the Belts which I have brought with me to those two Governments, and that you will let the King of England know that we have made this request to you and them.

"Now let us join together heartily and engage with one another to build up a Council Fire at Fort Pitt, and if we do this Heartily in the beginning, our Children and Grand Children will keep it up, and it will in time become a very great Fire, sufficient to preserve frienship between us and our latest Posterity.

"Now, Brethren, I repeat it again, that tho' we come with this Message to you, we desire you may not understand that it is intended for you alone, but equally to the Governors of Maryland and Virginia, and we request they may be informed of this.

Delivered three Belts and Three Strings.

"Brethren:

"I desire, by this Belt, that as we are helpless and poor, you will assist us on our Return Home."

A Belt.

At a Council held at Philadelphia, on Tuesday 2d of December, 1771.

PRESENT:

The Honourable RICHARD PENN, Esq., Lieutenant Governor, &c[a].

Richard Peters,	Benjamin Chew,	Esquires.
Lynford Lardner,	Andrew Allen,	
Edward Shippen, jun[r],		

The Council being met, pursuant to a Summons sent them yesterday by the Governor's directions, requesting their attendance

this morning to consider of the addition of a new Member to the Board, His Honour expressed his Inclination to Introduce William Hicks, Esquire, to a seat in the Council, and proposed him for that purpose, and none of the Members present making any Objections thereto, it is ordered that that Gentleman be Summoned to attend at the next meeting of the Council, in order to take the usual qualifications, and be admitted to his seat at this Board.

At a Council held at Philadelphia, on Thursday 5th December, 1771.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c^{a},

Richard Peters,
James Tilghman,
Edward Shippen, jun^{r}, } Esquires.

William Hicks, Esqr, having been summoned to attend the Council, this day appeared at the Board, and took and Subscribed the usual qualification and also took an Oath for the Faithful discharge of his duty as a Member of the proprietary and Governor's Council, and was then admitted to his seat at the Board.

Killbuck and the two other Delaware Indians from the Ohio being sent for to receive the Governor's answer to the Message he lately brought from the western Indians appeared; and being seated, the Governor delivered to them his answer in the following words, Viz^{t}:

"Brethren:

"By this String I perform the same Ceremonys towards you, which agreeable to custom, were observed by you towards me.

A String.

"Brethren:

"Now attend to the answer I am going to give to your speeches, and that you may know I have rightly understood you, I shall repeat the substance of what you spoke.

"You told me you was deputed by four Nations, namely: Delawares, Munsies, Mohickons, and Shawanese; that the Business was weighty and of great Consequence, relating not only to this Government, but equally to the Governments of Virginia and Maryland, as well as this province, and accordingly you had a Belt for each of us, which you delivered to me, with a Request that I would send the other two to the other Governors, together with the Message you was charged with. You then proceeded to the Business itself, informing me that about six years agoe, at a visit you paid

to Sir William Johnson, He, by you, informed the Indians on the Ohio that there should be some person of a Public Character sent to reside at Fort Pitt, to whom the Indians might have Recourse when any Business was wanted to be done with any of their Brethren, the English; and that this was Solemnly promised again to the Indians at the great Treaty which was held on the part of the King about three years agoe, at Fort Pitt; That you were the only Tribes of Indians who were without such a public person, for the Northern Indians of the Six Nations had opportunity of holding annual Treaties with Sir William Johnson, and the Southern Indians with a person appointed like him and Residing at Charles Town.

"And you further said that, as you had many disorderly Indians, and especially among your young Men, who only could be Restrained by the presence of a person who should have authority to call all such disorderly Persons forthwith to account, if so necessary and useful a measure should be any longer delayed, it was highly probable that the peace now so happily subsisting between us would not last long, for quarrels were every day arising, and more would arise, that must break the Chain of Friendship, and therefore desired that on the part of these middle Provinces of Virginia, Maryland, and this Province, there might be a person sent to reside at Fort Pitt, invested with powers to do Indian Business, in the same manner as is done for the Northern and Southern Indians.

"You concluded with desiring that the three Governments would send a particular account of this request of yours to His Majesty.

"Brethren:

"I shall not fail in Compliance with your request, to forward Your Message and Belts to the Governors of Virginia and Maryland.

"I make no doubt but Sir William Johnson has had Conferences with the Six Nations, and likewise has corresponded with his Majesty's Ministers on so Important a subject as the placing of a person to do Indian Business at Fort Pitt. I shall therefore send a copy of your request to him, that I may know every thing that has been done in Relation to this affair, in order thence to be able to write properly on this subject to his Majesty."

A Belt.

The Secretary acquainted the Board that he had waited on Mr. Galloway, the Speaker of the Assembly, in order to know the minds of himself and the other Members of Assembly in Town, respecting the payments of such Rewards as might be offered for apprehending the persons concerned in the Rescue of the Pilot Boat which had been seized last month by the Custom-House officers, and that Mr. Galloway had desired him to inform the Governor that he had Consulted all the Members of Assembly who were in Town, and that as the matter was entirely new and without a precedent, they

could not undertake to say what might be the sentiments of the House thereon, and therefore they declined any engagements on their Behalf, for the payment of any Rewards that should be offered, or advising the Governor at all on this Occasion.

The Council thereupon advised the Governor to issue a Proclamation requiring all officers and others to use their utmost endeavours for apprehending and securing the persons concerned in the above mentioned outrage, and promising a pardon to any one of the Offenders who should inform against, or make known one or more of his accomplices, so that they be brought to Conviction.

The following Proclamation being prepared by the Secretary, was approved and accordingly Issued, Viz$^{t.}$:

"*By the Honourable RICHARD PENN, Esquire, Lieutenant Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of Newcastle, Kent, and Sussex, on Delaware.*

"A PROCLAMATION.

"WHEREAS, an Information hath been made to me by John Swift, Esquire, Collector of his Majesty's Customs for the Port of Philadelphia, Supported by the depositions of several Persons taken before the Chief Justice of this Province, That Thomas Mushet, commanding a Schooner belonging to the Custom House of the said Port, on the twenty-third day of November last, did seize, as forfeited, in the River Delaware, a certain Pilot Boat, laden with a variety of Contraband goods, and that between the Hours of nine and ten in the Night Time of the same day, upwards of thirty men, Armed with Clubs and Cutlasses, and disguised in Sailors' dresses, with their Faces smutted, did, in a most violent and outrageous Manner, enter on Board the said Schooner, then lying at anchor together with the said Pilot Boat near Red Bank, in the River aforesaid, and Immediately attacking the people belonging to the said Custom House Schooner, did most cruelly and inhumanly beat, cut, and wound the said Thomas Mushet, and two of his People, and after Confining them and the rest of the crew in the Hold of the Schooner, they cut her sails and Rigging to pieces, and rescued and carried off the Pilot Boat with her lading, which had been seized as aforesaid; I have therefore thought fit, by and with the Advice of the Council, to issue this Proclamation, and do hereby strictly Charge, enjoin, and Require all Officers, Civil and Military, and all other His Majesty's liege Subjects within this Province, to make diligent Search and Enquiry after the principal Perpetrators of the said Outrage, and all others who were in any Manner concerned therein; and if any of the Offenders shall be found within this Province, to use their utmost endeavours to apprehend and Secure them, that they may be proceeded against according to Law. And

for the better discovering the said Offenders, I do hereby Promise His Majesty's most Gracious Pardon to any one of the Persons concerned therein, who shall inform against or make known any one or more of the Principals or their accomplices, so that he or they be prosecuted to Conviction within this Province.

"*Given* under my Hand and the Great Seal of the said Province, at Philadelphia, the fifth day of December, in the twelfth Year of His Majesty's Reign, and in the Year of our Lord one thousand seven hundred and seventy-one.

"RICHARD PENN.

"By His Honour's Command.

MEMORANDUM, the 1st of January, 1772.

The Governor was this day pleased to appoint Peter Miller, Esquire, a Justice of the Court of General Quarter Sessions of the Peace and of the County Court of Common Pleas for the City and County of Philadelphia, by a Special Commission, in order to accommodate him in his office of Notary and Tabellion Public, by enabling him to take the Acknowledgements of Deeds, &ca.

MEMORANDUM, the 7th of January 1772.

Two Members of Assembly waited on the Governor with a Verbal Message, acquainting him that the House were met pursuant to Adjournment, and desired to know if His Honour had any Business to lay before them, to which the Governor Replyed that he had no particular Matter now to Recommend to their Consideration, but as soon as any occurred he should Communicate the same to the House.

At a Council held at Philada, on Wednesday 8th January, 1772.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &ca

William Logan, James Tilghman, Lynford Lardner, Edward Shippen, William Hicks, } Esquire.

The Governor laid before the Board a Letter from Captain Sutherland, commanding the King's Troops in the Barracks of this City,

with a Report of the Deficient state of the Barracks, and the Furniture and Necessaries wanted to Accommodate the Troops therein, which were Read, and the Letter follows in these Words, Viz^{t}:

"PHILADELPHIA, Janu$^{y.}$ 5th, 1772.

"Sir:

"I have taken the Liberty of enclosing to you a return of the Bedding, Barrack Furniture, &c., wanting for the Regiment under my Command, which I beg may be, through you, laid before the Honourable House of Assembly, that Provision may be made for supplying them. You will see by the inclosed state that the allowance hitherto made, is in every Respect inadequate, particularly with regard to the article of Bedding, which the present Severity of the Weather renders absolutely Necessary, as they have at present only one Blankett per man. The allowance of small Beer, &$^{ca.}$ which is allways made to his Majesty's Troops wherever they are quartered, will, I flatter myself, meet with no Obstruction when Represented by you, particularly from a Province which has always been Remarkable for providing in a proper manner for the Troops quartered with them.

"I hope the absolute Necessity there is for this application, will, in some part, apologize for this trouble, being well assured that if it solely depended upon Yourself, the solicitation would be unnecessary. I have the honor to be, Sir,

"Y$^{r.}$ most obedient Servant,

"NICHOLAS SUTHERLAND.

"The Hon$^{b.}$ RICH$^{d.}$ PENN, Esq$^{r.}$"

The Governor thereupon, by the advice of the Board, immediately sent the following Message to the Assembly by the Secretary, directing him at the same time to lay before them the report therein Referred to, which was accordingly done.

"Gentlemen:

"Having received from Captain Sutherland a report of the Present State of the Barracks, with an Account of many Articles said to be wanting for the accommodation of the Officers and Soldiers quartered there, at his request I have ordered the Secretary to lay the same before you for your Consideration, with an Assurance that I shall be ready to join you in any thing you may Judge proper, or that can reasonably be expected to be done on this Occasion.

"May it please your Honour:

The Remonstrance a papers being Transmitted accordingly, his Honour, in February, 1771, Communicated to the House a Letter from his Excellency, assuring him that 'the Papers transmitted should be laid before the Proper Officers for examination, with as little delay as Possible, and that he would do all that depends on him to redress the Grievances Complained of.' Neither the late or present House having heard any thing further on this Subject, and the Sufferers remaining unredressed, we request your Honour would obtain Information from his Excellency of what has been further done relative to this Affair.

To which the Governor soon after returned the following answer by the Secretary, vizt:

"Gentlemen:

"Upon Enquiry, I do not find that either the late Governor, or the President and Council after his leaving the Province, have Received from General Gage any further Information than what has already been Communicated respecting his proceeding upon the application made to him in Behalf of the people of Cumberland and Lancaster Counties, on account of their Demands for Carriages employed by Colonel Wilkins on his March to Fort Pitt: I will, therefore, agreeable to your Request, immediately write to his Excellency upon the Subject, and when favoured with his answer, make the House acquainted with it.

The Governor having received a Letter last Saturday from His Excellency General Gage, in answer to a Letter he had wrote to him the ninth Instant, sent the following Messuage to the Assembly by the Secretary, which he delivered this afternoon to the House, and at the same time laid before them the said Letter, with the several papers which accompanied it, and are therein Referred to:

"Gentlemen:

"In Compliance with the request you were pleased to make at the Begining of this Session, I immediately wrote to General Gage, desiring that I might be acquainted with the Result of the application made to him respecting the demands of the People of Lancaster and Cumberland Counties, for Carriages employed by Colonel Wilkins, in his March to Fort Pitt. I am just now favoured with his Excellency's answer, which I have Ordered the Secretary to lay before you, together with several other papers relating to the Matter, transmitted to me at the same time.

"RICHARD PENN.

"January 25, 1772."

"New York, January 19, 1772.

"Sir:

"I have received your Letter of the Ninth Instant, respecting the Papers transmitted to me, which contain Demands of the People of Lancaster and Cumberland Counties for Carriages employed by Lieutenant Colonel Wilkins, on his March to Fort Pitt, with Several Companies of His Majesty's Eighteenth Regiment, in the year 1768.

"The distance of Time betwixt the March of said Troops and the Demands of the People concerned, together with the very great Distance of the Regiment, has rendered it difficult to ascertain the Propriety of these Demands, though I have taken every step in my power to do it.

"The papers have been laid before the deputy Quarter Master General, to whose department the Contents properly belong, and I transmit you his Report to me thereupon.

"It became necessary likewise to send Copies of them, with a Copy of the remonstrance of the Assembly to their late Governor, to Lieutenant Colonel Wilkins, and I inclose you a Copy of his Letter to me in answer thereto, with Copies of Orders given by him relative to the Carriages, and of the Certificates of the Officers who commanded the Several Companies, two excepted, who are since dead, of the Sums they respectively paid to the Waggoners.

"If the Waggoners have Received the Sums directed to be paid them by Act of Parliament, Viz^{t}: Fourteen pence Sterling per Mile, for a Waggon that carries Twenty-four Hundred Weight, for as many Miles as they Marched with the Troops, it is as much as they were intitled to receive. It appears from the Deputy Quarter Master General's Report and other Papers, that the paymaster of the Regiment has Received the amount thereof, and from the Officers' Certificates that the same was paid to the Waggoners, and no greater Charge can be made to Government on the Head of Carriages for the Marching of Troops in time of Peace; When they are in the Field, different Methods are pursued.

"Some of the Drivers having alledged that they received provisions from the King's Magazines, and were made to pay double what is stopped from the Soldier, I ordered the Commissary General to Inspect into the Issues of 1768, in the Pennsylvania department from Philadelphia to Fort Pitt, who has sent me a Return thereof, and acquainted me by Letter that the Contractors have made no Charge for Rations to Waggoners, and that the whole of the Receipts for Provisions issued, are Included in Lieutenant Colonel Wilkins' General receipt for Stoppages from the Soldiers.

"It is, however, possible, that the Drivers may have been victualled with the Soldiers and Receipts given for them as soldiers, in which case we may suppose Stoppages were made from them, as the Soldiers have paid for all that was Issued. This is only Conjecture; but if it proves true, and that the Waggoners can ascertain the Ra-

tions they received, and the Stoppages made from their Hire on that Account, properly Certified, it will be in my power to redress them on that point, it having been usual to allow Waggoners carrying Baggage on a march with Troops, a ration of Provisions Gratis when they passed the Frontiers.

"One of the Claimants, vizt: Kilheffer, charges for the loss of a Horse, but there is no regular appraisement of his Value, or Certificate that the Horse was lost in the service; there is, however, a Voucher of his Value, an if Kilheffer produces a proper certificate from the Officers that the Horse was actually lost in the Service, he shall be paid accordingly; this is all in my power to do.

"Captain Chapman, of the eighteenth Regiment, at Present in Philadelphia, was on the march with Lieutenant Colonel Wilkins, and may be able to give some account of these matters, and shall be wrote to.

"Many unforseen accidents will happen on Marches, which occasion Damage and Loss to the owners and Drivers of Waggons, and the acts of Parliament made in these Respects, as well for Great Britain as America, direct in What manner they are to be indemnified.

"I inclose the People's Demands,
"and have the Honor to be, Sir,
"Your most Obedint and most humble Servant,
"THOMAS GAGE."

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &ca.

Lynford Lardner,	Andrew Allen,	Esquires.
Benjamin Chew,	Edward Shippen, jun^{r},	
James Tilghman,	William Hicks,	

The Board resumed the Consideration of the Bill intituled "An Act for enabling the Justices of the Supream Court and Common Pleas to Issue Commissions for taking the examinations of Witnesses in foreign Parts and for perpetuating Testimony,"—which being intended to vest in the Courts of Common Law, some of the Powers of a Court of Chancery appears to be expressly Contrary to one of the Proprietary Instructions which the Governor shewed to the Board. The Council therefore concurred with the Governor in Opinion, that he could not Consistent with his duty give his assent to it, and the Governor accordingly ordered the Secretary to Return the Bill to the Assembly, with a Verbal Messuage to the House that he could not agree to pass it into a Law.

At a Council held at Philadelphia, on Saturday 8th February, 1772.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c.

Benjamin Chew,
James Tilghman, } Esquires.
William Hicks,

The Board resumed the Consideration of the Bill entituled "An Act to regulate the assize of Bread and for other purposes therein mentioned," to which a few amendments were made, and the Bill was returned with the same to the House.

The Governor laid before the Board two Bills sent up by the Assembly for his Honor's concurrence, entituled as follows, vizt:

"An Act for the sale of Goods destreined for Rent, and to secure such Goods to the Persons destreining the same, for the better security of Rents, and for other Purposes therein mentioned."

"An Act to prevent Frauds and abuses in the manufactoring of Leather," which were read and refered to further Consideration.

The Governor also laid before the Board a letter he just now Received from Sir William Johnson, which was read and is as follows, vizt:

JOHNSON HALL, Janr^{y} 29th, 1772.

"Sir:

"I am just favoured with your Letter of the 9th instant, and take this first opportunity which has offered, thro' the want of a Personal acquaintance, to Congratulate you on your taking upon you the Government of Pennsylvania which I do with great sincerity, from the Esteem I have for all the Branches of your Family.

"I have perused the Papers you transmitted, the design of which I can easily Comprehend, and that you may understand the same, I shall explain the Affair in such a manner as will sufficiently account for the application of the Indians.

"The Shawanese, Delawares, Munsies, &c^{a}, have been, and are to be Considered as Dependants on the Five Nations, and having Nothing to do with the western Indians further than in an Intercourse common with all Indians in time of Peace. But as they resided at a distance from the Chief Residences of the five Nations, I thought it necessary to appoint a Deputy for the District of the Ohio, &c^{a}, in which they were comprehended; during the War, and afterwards for a time, they partook liberally of his Majesty's Bounty, and another officer was appointed as a Commiss^{ry}, to Inspect the Trade at Fort Pitt and prevent abuses, but the expences of Presents and additional Establishments were thought too Great by the Crown, and therefore, by his Majesty's Orders, the Commiss^{ry} &c^{a}, were

discontinued, the affairs that merely Regarded Trade, recommended to the care of the Colonies, and the allowance for my department limited to a Certain sum, which, after deducting the Sallaries of necessary officers, and other Incidental Expences would by no means admit of any of those Largesses which they had formerly experienced from the various wants of so many Nations as are within the Northern Department. The Deputy agent was still retained at Fort Pitt to receive their Speeches, and to treat with them from time to time, as he should be directed, and occasionally furnished them with necessary Presents; and this office has not been discontinued, but a proper officer is now at the Ohio to hear them whenever they have any Business, so that this Application to you is only from a few People, who want more favors than they deserve, or than Government inclines to bestow, not only without the Knowledge, but Contrary to the Inclination of the Five Nations, whose names (as they are a busy people) they but too often make use of, because that they are Connected with some Emigrants from the Senecas, and some others of the Five Nations who have removed from under the Influence of their Chiefs to the Ohio. It is Certainly to be wished that all the Colonies Concerned may unite in regulating the Trade, and appointing Proper Persons to Inspect it. This has been long Promised, and is expected by all the Indians. But all other matters are by His Majesty's Express Orders, Solely confined to one Channel, namely: that of my department; for the conducting of which the same Officers are kept Up as formerly, and in the same places, except those regarding Trade, which I have already mentioned, have been struck off by his Majesty's Command. You will from hence easily perceive the motives which Occasioned the Application of these two Tribes to you, the answer to which is obvious, as they cannot complain of the want of any Officers but those for the Regulation of Indian Trade, which no longer depends on the Crown.

"I am, with much Esteem, Sir,

"Your most obedient,

"And very humble Servant,

"W. JOHNSON.

The Loan office Bill was again read and Considered, and the Board conceived it liable to several Material Objections, and that

the number of amendments necessary to be made to the Bill in order to remove them, would occasion so great an alteration in its Frame that they thought it most adviseable for the Governor to return it to the Assembly, with a Messuage pointing out to the House his Objections to the Bill in General Terms.

—

Tuesday, the 10th of March, 1772, A. M.

The Governor returned to the Assembly the Bill for emitting the sum of £200,000, in Bills of Credit on Loan, &c^a., with a Messuage to the House in the Following Words, Viz^t:

"Gentlemen:

"After mature deliberation on the Bill for emitting the sum of two hundred thousand pounds in Bills of Credit on Loan, and providing a fund for the payment of public Debts, I am sorry to acquaint you that I find it liable to such Objections as prevent my passing it in its present Form into a Law. Those Objections I at first intended to Communicate to you by way of amendments, but in attempting this, I found the necessary Alterations would make so very great a Change in the Frame of the Bill, that I rather chose to return it to you in this manner, with an assurance that I shall have no objection to the passing a Bill for the same purpose, provided the sum to be emitted be considerably less than what you have proposed, and the plan of it more Similar to Former Laws of this kind, the utility of which the People of this Province have had a long experience of.

Wednesday the 11th of March, 1772, A. M.

Two Members of Assembly waited on the Governor and again presented to him the Loan Office Bill, with the following Messuage from the House in answer to his Honour's Messuage of yesterday, Viz:

"May it please your Honor:

"We have attentively Considered your Messuage relating to the Bill 'for emitting two hundred thousand Pounds in Bills of Credit on Loan, and providing a fund for payment of the public Debts,' and as the objects of it are publick revenue, and the Improvement, Population, and Commerce of the province, we are sorry it should appear to the Governor liable to such Objections that he cannot pass it in its present form into a Law.

"The House finding themselves under a necessity from the change which the Province has undergone by its late extensive Settlements, to deviate from the plan of Former Loan Office Bills, and desirous that the one under Consideration should meet with the Governor's Assent, spent much time in digesting its Form and adapting its several parts to the present local Circumstances of the People and their estates, adhering as much as reasonably might be to the Plans of Former Laws.

"In doing this they thought, and still think, that they had framed the Bill on the most eligible Plan.

"Under this opinion, they cannot but wish that the Governor had put in Practice his first intention of Communicating his objections to the House by way of amendment, or at least by Generally pointing out in his Messuage those principals of the Bill which he conceived to be improper for his assent. Either of those methods would have enabled the House to consider the objections which sibsist with the Governor, to have given them their due weight, and on a Concurrence of sentiments with him, to have either adopted his amendments or Framed a new Bill more suitable to Answer the Good purposes intended.

"But the Governor, we hope, will easily perceive the difficulty he lays us under, when he assures us 'that he shall have no objection to the Passing a Bill for the same purpose, provided the Plan of it be more similar to former Laws of this kind," without particularly pointing out his Objections or informing us in what parts he would wish it to be 'more similar,' and thereby leaving it an impossibility for us to discover the reasons of his Dissent.

"We thank the Governor for the Assurance he gives us that he 'shall have no Objections to the passing a Bill more Similar to former laws of this kind,' and we hope the same good disposition will induce him to reconsider the Bill sent up, and either pass it into a Law, or be more explicit in Communicating his Objections.

"Signed by Order of the House.

The same Committee also delivered to the Governor an address from the Assembly, in these words, Viz^{t}:

To the Honourable RICHARD PENN, Esquire, Lieutenant Governor of the Province of Pennsylvania.

The Address of the Representatives of the Freemen of the said Province.

"We, the Representatives of the Freemen of the Province of Pennsylvania, in General Assembly met, having received repeated Complaints against Charles Jolly, Esquire, one of the Justices of

the Peace for the County of Philadelphia, charging him with divers misdemeanors and corrupt Practices in his public Offices, and heard the Witnesses and Proofs in his presence, as well for as against him, and being fully convinced that, regardless of the Important trust reposed in him by Government for the Safety of the People, and influenced by an avaricious and Corrupt Disposition, he hath greatly Oppressed divers of his Majesty's Subjects in the said County, by issuing Original Process, and thereupon, and Execution without finding any Debt due, or passing judgement in a case where he had no Jurisdiction, in granting Warrants and proceeding to Judgements and executions against one person for the Debt of another, in entering judgement against the Party without hearing him, or giving him an Opportunity of being heard, and in Marrying Persons without any Publication of the Bans of Matrimony, contrary to Law.

"Firmly persuaded your Honour is Sensible that the Respect due to Government, and upon which its Authority and the Security of the rights of the Subject greatly Depend, cannot be well maintained by Men exercising its executive Powers, without either abilities or Integrity, we intreat the Governor to remove the said Charles Jolly from his Offices of Judge of the Common Pleas and Justice of the Peace.

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c^{a}.

} Esquires.

The Assembly's Messuage of Yesterday was read, and a Draught of a Messuage in answer thereto, being prepared, was laid before the Board and approved.

The Messuage was immediately transcribed and sent to the House by the Secretary, with the Loan Office Bill. The Message follows in these words, Viz^{t}:

"Gentlemen:

"As I sincerely wish to promote the real Interest and welfare of the Province, so I would readily and chearfully concur with you in any Measure which I conceived might effect so desirable a Purpose. When I communicated to you by my last Message the Terms on which I was willing to pass a Loan Office Bill, I imagined I had

been sufficiently explicit in pointing out my principal Objections to the Bill before me, so as to enable the House to frame another within the compass of any short and reasonable amendments which might appear necessary. I am, however, very willing to give you the satisfaction you desire, of explaining myself further on the subject.

"When I proposed for your Immitation the Plan of former Loan Office Laws, by which one General Loan Office was established at Philadelphia, under the direction of Trustees named in the acts, I meant to signify my Disapprobation of such a total Deviation from them as the Establishment of Offices in the several Counties, and the manner of appointing Trustees by the Commissioners of the Counties, in Conjunction with any three Justices of the Peace, a Measure which appears to me Liable to many great Inconveniencies. And as a great part of the Bill relates to the duty of such Trustees, my amendments to it, had I proceeded in that way, would of course have been very numerous.

"Besides these Objections to the General Plan of the Bill, I think it proper to mention another of no less Consequence; I mean the manner of Providing for the Succession of the joint Treasurers and Trustees, in Case of Death or Resignation, which appears to me very exceptionable, in excluding the Governor from a Share with the Assembly in the appointment of the new Trustees.

"If Gentlemen, you should, on further Consideration, concur with me in these sentiments, and think proper to Frame a New Bill conformable thereto, I shall with pleasure agree to pass it into a Law.

"RICHARD PENN.

"March 12th, 1772."

The Governor at the same time sent to the House by the Secretary an answer to their address, in the words following, Viz^{t}:

"Gentlemen:

"I shall take such notice of your address Requesting the removal of Charles Jolly from his offices of Judge of the Common Pleas and Justice of the Peace, as I hope will prove satisfactory to the House.

"RICHARD PENN."

"March 12th, 1772."

The Board resumed the Consideration of the Bill entituled "An Act for granting to his Majesty the Sum of four thousand Pounds for the purposes therein mentioned," and the Governor returned the same to the assembly by the Secretary, with a Messuage in these words, vizt:

"Gentlemen:

"As you have made the Bill, 'for Granting to his Majesty the sum of four thousand Pounds for the purposes therein mentioned,'

dependant upon that for altering and extending the excise laws, when you thought proper to drop the one by rejecting my proposed amendments, you put it out of my power to pass the other. I must therefore request that you would Consider of some means to raise the necessary supply for his Majesty's Troops quartered in this Province.

"RICHARD PENN.

"March 12th, 1772."

Then were read the three following Bills, sent up yesterday to the Governor by the Assembly, entituled

"An Act for the relief of such Persons as conscientiously scruple the taking of an Oath in the Common Form."

"A Supplement to the Act entituled 'An Act against adultery and Fornication;" and

"An Act for confirming the Estate of Adam Simon Kuhn, in and to a Certain Lot of Ground, with the Buildings thereon, in the Borough of Lancaster, one of the Title Deeds whereof is lost,"—and there appearing to the Board no objection to either of them. The Governor returned them to the House by the Secretary, with a verbal Messuage that he gave his assent to them.

At a Council held at Philadelphia, on Saturday 14th March, 1772.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c^{a}.

Richard Peters, James Tilghman, } Esquires.
Edward Shippen, Junior, }

The Governor laid before the Board three Bills sent up by the Assembly for his concurrence, entituled

"An Act for Erecting a part of the Counties of Lancaster, Cumberland, Berks, Northampton, and Bedford, into a Separate County."

"An Act for the safe keeping and preserving the Records and other Public papers of the County of Bucks," and

"An Act for raising a Fund to pay the Damages done by Dogs within the City and County of Philadelphia, and the County of Bucks."

Which were severally read and Considered, and it was ordered that they should be returned to the Assembly by the Secretary, with several Amendments made to the first mentioned Bill, and a Verbal Messuage to the House that the Governor gave his Assent to the two others.

The Governor acquainted the Board that the Assembly had again sent up to him the Excise Bill, and the Bill for Granting £4000

Pounds to his Majesty's Service, with a Messuage in Writing, which he laid before the Board, and it follows in these words, Viz^{t}:

"May it Please your Honor:

"In the Begining of this Sitting, the House finding it necessary to provide for paying the arrears of the public Debts and Supplying his Majesty's Troops in their Quarters, prepared two Bills for those purposes. One of them for raising the money by extending and making the Excise on Spiritous Liquors more Equal; the other granting to His Majesty Four Thousand Pounds out of the Bills to be emitted by the first for Supplying the Troops in their Quarters. These were sent up for the Governor's Assent, but he was Pleased to propose amendments to the first, which, on mature Consideration, the House could by no means admit, and adhering to their Bill, they again sent it up to the Governor for his further Consideration, in hope that its importance to His Majesty's Service and the Province, with the reason and equity on which, in all its parts, it was founded, would prevail on him to pass it into a Law.

"As the House was Sincerely disposed to concur with the Governor in every Measure tending to the Public Welfare, and particularly in Granting the necessary supplies to his Majesty, it gave them Real Concern to find, on the return of the Bill, that he had rejected it by adhering to his proposed amendments.

"Thus matters respecting this Bill have rested until your Message of this day, requesting that 'we will consider of some means to raise the necessary supplies for his Majesty's Troops.' Upon which we beg leave to Observe, that Continuing in our former Sentiments respecting the Bills rejected by the Governor, we know of no means of Complying with his desire so proper as that of putting it once more in his power to pass those Bills into Laws, which we do, by again Submitting them to his candid Consideration.

"Signed by order of the House.

"JOSEPH GALLOWAY, *Speaker*.

"March 12th, 1772."

It is agreed to postpone the Consideration of the Message till Monday next, when a more full Board may be convened.

At a Council held at Philadelphia, on Monday 16th March, 1772.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor.

Richard Peters,	James Tilghman,	Esquires.
Lynford Lardner,	Andrew Allen,	
Benjamin Chew,	Edward Shippen, Junr,	

The Governor laid before the Board the Message he received last week from the Assembly with the Excise Bill, with a Draft of a Message he had prepared in answer thereto.

Which follows in these words, Vizt:

"Gentlemen:

"When in my last Messuage to the House, I requested that you would consider of some means to raise the Supplies necessary for the support of his Majesty's Troops quartered within this Province, I did not expect that you would again have returned to me the Bill for 'extending and making the excise on Spiritous Liquors more equal.' However, since you have thought proper, in so particular a manner, to recommend it once more to my Consideration, I shall not decline bestowing on it such further attention as it may Require.

"I have no doubt of your being perfectly Convinced that this Bill is in all its parts founded in reason and Equity, and that it is of Great importance to the Service of the Crown and the Welfare of the Province. At the same time, give me leave to assure you that, upon the most deliberate Consideration, I can at present discover no cause to apprehend that this Bill, under the amendments proposed, would answer all its purposes less effectually than if it should continue in its Original Form.

"This is at present my Candid unbiased opinion, and I cannot willingly recede from my amendments, unless the House, by communicating the reasons upon which they have formed their Judgment, may happily correct mine. As I realy wish to promote the welfare of the Province, so far from declining to receive information upon any occasion relative to this Important End, I hope the House will do me the Justice to believe that I shall ever be ready to pay a proper Regard to it.

"RICHARD PENN.

"March 16th, 1772."

The said Message being read and approved of, the Secretary was directed to Transcribe the same and deliver it to the Assembly in the afternoon.

The Governor also laid before the Board two Bills which had been sent up to him by the Assembly for his concurrence, entituled as follows, Vizt:

"An Act for confirming the Estate of John Pawling and others, in and to Certain Lands in the County of Philadelphia;" and

"An Act for the relief of William Faries and others, Languishing prisoners in the Goals of Philadelphia and York Counties, with respect to the Imprisonment of their persons," which was read and referred to further Consideration.

At a Council held at Philadelphia, on Wednesday the 18th March, 1772.

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c.

Lynford Lardner, Benjamin Chew, James Tilghman, Andrew Allen, Edward Shippen, Junr, } Esquires.

The Board resumed the Consideration of the Bills entituled "An Act for confirming the Estate of John Pawling and others, in and to Certain lands in the County of Philadelphia;" and "An Act for the Relief of William Faries and others, Languishing prisoners in the Goals of Philada and York Counties, with respect to the Imprisonment of their Persons," and the Secretary was ordered to return them both to the House, with two small amendments made to the first mentioned Bill, and a Verbal Message that the Governor gave his assent to the other.

The Governor laid before the Board a Message he received yesterday from the Assembly, in answer to his Message of the 16th Instant, which was read, and follows in these words, Viz:

"May it please your Honour:

"When we last sent up to your Honour the Bill 'for extending and making the Excise on Spirituous Liduors more equal,' we did not apprehend we acted a part disagreeable to your Inclination, But were induced so to do from the intimation in your former Message attending the Bill for granting to his Majesty £4000, that we had, by 'dropping the one, put it out of your power to pass the other.' After your Honor had rejected this first-mentioned Bill, by adhering to your amendments, we conceived that, according to the strict rules and usage of Parliament, it was 'drop'd' by your Honour's own act, not ours. Yet to set matters in their Proper Light, and to prevent any inconveniencies which might arise from a mistaken apprehension in your Honor that we had 'drop'd' the Bill, we thought it necessary to wave those rules, under an expectation founded in your Message, that his Majesty's service and the Good of the Province would be sufficiently prevalent to induce you to enact it into a Law. And it is with pleasure we find that you have not, by your last Message, deprived us of that hope.

" Your Honor is pleased to inform us that you 'have no Doubt of our being perfectly convinced that this Bill is, in all its parts, founded in Reason and Equity,' and at the same time to assure us 'that upon the most deliberate Consideration, you can at present discover no cause to apprehend, under the amendments proposed, it would answer all its purposes Less effectually than if it should continue in its original Form,' upon which we beg leave to observe that, as the Bill is intended to Raise the revenues of the Province, and to enable us to Grant necessary aids to His Majesty, If, under those amendments, it would not answer all its purposes more effectually, we cannot conceive why your Honour should reject it, especially as it cannot, with propriety, otherwise be said to be amended.

" However, as your honour is further pleased to intimate that you cannot willingly Recede from your amendments, unless the House, by Communicating the Reasons upon which they have formed their Judgment respecting 'the Reason and Equity of the Bill,' may happily Correct your Honors, And as we are sincerely desirous to obtain a Measure of such Public Consequence, we shall chearfully endeavour to do it. The Bill, in the Part to which your Honor's proposed amendments relate, renders Spirituous Liquors Imported by Persons for their own Consumption, and drawn without entry, Subject to forfeiture, and their Houses liable to search, in the day time, upon its appearing to a Magistrate, on Oath made, that the importer has drawn such Liquors without entry. Now we apprehend it both Reasonable and just that such Persons who will be so dishonest as to defraud the Government of those Revenues which are necessrry to its support, and Consequently to their own safety and Protection, can merit but little Favor, and deservedly ought to incur a forfeiture of the Goods. And when we considered that the duty is not to arise on the Importation but on the Draught for Consumption, and hence, that any person Importing may suffer his Liquors to remain by him for years in his Vault or Cellar, and of Course not enter but conceil them during the time of Drawing, we know of no mode so Proper to detect and to prevent Frauds, as to vest the officer with a power, on Good Cause of Suspicion, to search for the Liquors so drawn Contrary to the Intent of the Act.

" In this we did not proceed without Precedents set before us, both by the British Parliament and preceding assemblies. In several statutes for preventing Frauds in collecting the Revenue in Great Britain, we find the like and more severe provisions and penalties. By the Act of Assembly passed in the 31st of his late Majesty, the officer held the like power without any oath made or Warrant Issued, and by the Excise law now in force and extended by the Bill before your Honor, there have been for many years, and still are, severe penalties and Restrictions laid on Retailers, than are by this Clause on the Importers for their own Consumption. In the act for raising County Rates, and the several acts for granting aids to the Crown, to be sunk by a land Tax, the Houses of

every Inhabitant of this Province, and the most secret parts of them, are liable to be broke open and entered in case of Non-payment of the assessment on a Precept from the County Commissioners; besides, to subject the numerous Retailers within this Province to an entry of their Houses without oath or Warrant, as is declared in a part of the Bill to which your Honor makes no objection, and at the same time to exempt from such Entry, tho' upon Oath and Warrant, and impose a Penalty only on a few Importers for an equally Injurious Breach of the Law, would in our opinions, be such a Deviation from the Rules of Equity and Impartiallity, that we cannot think it justifiable to adopt.

"It is with much pleasure that we receive the Governor's Assurance that he 'wishes to promote the Welfare of the Province, and that he is so far from declining to receive Information on any occasion Relative to that important end, that he hopes we will do him the justice to believe that he shall ever be Ready to pay a proper regard to it,' as it induces us to hope, after these Reasons and Precedents offered to his Consideration, in favor of so important and necessary a Bill, he will pass it without further Hesitation.

"JOSEPH GALLOWAY, *Speaker.*

"March 17th, 1772."

The Governor thereupon declared to the Board that, though he continued of the same mind with respect to the Reasonableness and propriety of his Amendments to the Exercise Bill, he should now consent to pass it as it stands; and the Secretary was directed to Carry it down to the Assembly, with the Bill for granting Four thousand pounds to his Majesty's use, and to acquaint the House that the Governor agreed to Enact them both into Laws whenever they should be presented to him for that Purpose.

Two Members of Assembly then waited on the Governor and presented to him a Message from the House, which was read at the Board, and follows in these Words, Viz^{t}:

"May it please your Honor:

"Having spent much time in forming the Loan Office Bill, on such principles as we apprehend, would secure the solidity of the Funds and Credit of the Bills, and at the same time give to all the Counties an Equal opportunity of participating in the benefits to arise from the Loans, we thought we had performed that part of our duty on a Plan the Local Circumstances of the Province considered the most unexceptionable. But as we find ourselves, notwithstanding, so unfortunate as to differ in Sentiments with the Governor on the subject, and as he might otherwise be a stranger to the reasons and motives of our Conduct in this particular, we think it necessary to Communicate them, so far as they relate to objections mentioned in his last Message.

"In our Estimation, this Bill is one of the first Consequence to the Public Interest and Welfare. We expected by it greatly to

advance the Improvement, Population and Commerce of the Province, besides raising on the People in the most easy and eligible manner, a Considerable Revenue. These important Objects in view, and earnestly desirous to accomplish them, we first debated and fully considered a Bill brought in on the Plan recommend by Your honor, of Former Loan Office Laws. In these 'the establishment of Offices in the several Counties' were omitted, and the Legislature Contented themselves with instituting only one in Philadelphia; nor were more necessary to the Infant state of the Province, when it consisted of four Counties only. The People and their Settlements were confined within a Narrow Compass; the Trustees from the Neighboring Counties could attend their duty, and the borrowers procure the money and make their annual Payments with little Trouble and expence, on the days appointed. But, upon applying this Plan to the Present Circumstances of the Province, so essentially varying from those which existed at the time it was adopted, and taking into our Consideration the addition of five new Counties, the great extent of their Settlements, the Distance of their Inhabitants from the City, the Difficulties, Trouble, and expence which their Trustees in attending their Duty, and their People in procuring the Money and making their Annual Payments, would incur, it appeared to us, that adhering to the form of the old Bills in Establishing but one Office, and that in Philadelphia, would operate in a great measure to exclude the People who were particular Objects of the Bill, and as many of them are indebted to the Proprietaries for Lands, stand most in need of its aid from a participation in the Benefits to arise from the Loans. From these Inconveniences, however calculated those Laws might be to the situation of the Province at the time they were formed, it seemed to us necessary, in our present Bill, so far to deviate from them as to put the five new Counties in a Capacity to partake of the Loans, in common with the rest of the People. To effectuate a purpose so desirable and just, we knew of no mode so adequate as that of instituting an 'Office in the several Counties.' If, then, an Office in each County is Necessary, impartially and extensively to diffuse the advantages to be derived from the Loans, and it be just (which your Honor does not seem to Controvert) to oblidge the Several Counties to the payment of their Respective Deficiencies, which might Arise from defective Titles and want of Value in the Estates mortgaged, we thought it also but Reasonable and just that the People on whose property those Deficiencies were to be Levied, should have a Share in the appointment of the Trustees who were to judge of the Validity of those Titles and that Value. Nor were we apprehensive that 'Great inconveniencies,' if any, would arise from 'Vesting the Power of appointing them' in the Commissioners of the 'Counties, in Conjunction with any three Justices of the Peace,' as in this, as well as in constituting an Office in each County, we did not Materially deviate from that Policy which the Legislatures

of neighbouring Colonies, whose Circumstances are, in the point before us, Similar to those of this Province, have for the like reasons, thought proper to adopt. Thus your Honour will perceive, that if we have deviated from old Forms, we have followed more applicable Precedents of a Modern date, which have met with his Majesty's Royal approbation.

"We assure the Governor, as he has been pleased to intimate that he has no Objection to a Loan Office Bill, it is with real concern we find that we have failed in Obtaining his Concurrence in a measure of so much Public importance, on a Difference in Sentiment respecting the Form.

"But after the unusual length of our sitting, we must content ourselves with thus explaining the Reasons which moved us to fix on the Present Plan of the Bill, in hope that on Consideration of them they will have their due Weight with the Governor.

Two Members of Assembly waited on the Governor, and acquainted him that the House, intending to adjourn to-morrow, requested he would be pleased to appoint in the meantime two Members of Council to join with two Members of Assembly in Comparing the Engrossed Copies of the Bills which have been agreed to with their Originals; His Honor reply'd that he would Comply with their Request.

The same Committee acquainted the Governor that the House proposed to adjourn to the 18th of May next, if His Honour had no objection thereto, and also Requested the Governor would be pleased to appoint a time for passing the Bills for which he had given his assent. "An Act for the Relief of James Kain, a languishing Prisoner in the Goal of New Castle County, with respect to the Imprisonment of his person."

"An Act for the appointing and Constituting David Hall, Esquire, a Trustee of the General Loan Office in Sussex County."

"An Act for the embanking and draining the Marshes on Black bird's Creek, in New Castle County."

"An Act for establishing the market in the Town of New-Ark, and for regulating the same."

The Governor having acquainted a Committee of Assembly, who waited on him in the Evening to know when and where he would be pleased to pass the Bills, that he should be ready to receive the house for that purpose at his Lodgings, whenever it was most Convenient to them. The Speaker and the whole house soon after attended accordingly, and Presented the thirteen Bills above mentioned, which the Governor Enacted into Laws, signed a Warrant for affixing the great Seal to them, and directed the Secretary to accompany two Members of Assembly to see them sealed and deposited in the Rolls office.

The Speaker then Presented to the Governor Orders on the Trustees of the Loan Office for £100, for which his Honor returned the House his Thanks.

At a Council held at Philadelphia, on Saturday June 20th, 1772.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c[a].

Richard Peters, James Tilghman, } Esquires.
Benjamin Chew, Edward Shippen, jun[r], }

The Governor laid before the Board a Transcript of a Record of the last Court of Oyer and Terminer held for the County of Philadelphia, by which it appears that John Thomas was convicted of Burglary, and had received sentence of Death for the same. The Matter being taken into Consideration, the Governor Observed that the Judges had not Recommended the said Criminal as an object of Mercy, nor reported any Circumstances in his Favor.

It was, therefore, the Opinion of the Board, that the Sentence of the Court should be executed against him on Saturday the 4th day of July next, and the Governor directed a Warrant to be issued for that Purpose accordingly.

Then was read the Transcript of a Record of the last Court of Oyer and Terminer held in York County, by which it appears that Thomas Ross was convicted of a Robbery on the Highway, for which he had received Sentence of Death. The Board taking this matter into Consideration, were of opinion that, as the Judges had not reported to the Governor any Favourable circumstances respecting the said Criminal, the Sentence of the Court against him ought to take place, and the Governor accordingly directed a Warrant to be issued for his Execution on Saturday the 11th day of July next.

The Board taking into Consideration the Petition of Hugh Rippey, who was convicted (at the last Court of Oyer and Terminer held in Cumberland County) of Counterfeiting and passing Dollars, and the recommendation of Several of the Magistrates and other reputable Inhabitants of the same County, representing him as an Object of Mercy and Compassion, advised the Governor to Grant the said Hugh Rippey a Pardon, which the Secretary was accordingly directed to Prepare.

Mr. Tilghman laid before the Board a Letter he had received yesterday from Mr. Charles Stewart, dated Easton, the 17th Instant, acquainting him with a Message he had received from Garret Brodhead, Esquire, that a Considerable number of Connecticut people were now forming a Settlement on the Proprietaries' Manors at Shoholy and Lechawaxin, and other places on the River Delaware, within this Province. The said Letter being read and Considered, the Governor, by the advice of the Council, directed that a Proclamation be immediately drawn and published, commanding those intruders, in his Majesty's name, to evacuate their illegal Settlements, and to remove from the Proprietaries' lands without delay, and also

forbiding all persons whatsoever, to intrude upon or settle any lands within this Province without the express Permission of the Proprietors of this Government.

The Secretary presented to the Board a return and Draught of a Road laid out pursuant to an Order of Council of the eighth of November, 1769, on the line dividing the lands of Richard Vandyke and Peter Rambo from the land of John Holmes, in the township of Lower Dublin, and there appearing no objection to the said Road as laid out and returned by the Viewers,

The Board, on Due Consideration thereof, do hereby confirm the said Road, and adjudge the same to be forever hereafter a part of the King's Highway which leads from Philadelphia to Bristol.

It is, therefore, Ordered by the Board, that the Supervisors of the Highways for the Township of Lower Dublin, do forthwith Cause the said Road to be Cleared and opened of the Breadth of Fifty feet at least, according to the Courses mentioned in the said return, which follows in these words, vizt:

"In obedience to the annexed order from the Governor and his Council, We the subscribers, have carefully viewed the Ground along the line dividing Richard Vandyke's and John Holmes' Land, and find that, as to the Ground a good Road may be conveniently made along the said line. But if we extend the new Road only from the Oxford Church Road to the end of Vandyke's line, it will not strike the old road as now laid out, but there make a sudden turn, which we apprehend, in a Road so much used, will be of Great Disadvantage to the Public, but if we extend the said New Road the same strait Course as far as Pennypack Mill Race, it will there strike the old Road. We therefore, for the Reasons above, and with Consent of Peter Rambo, the owner of the land whereon the whole of the new Road runs, with all Submission return the same for Public use as follows, and according to the Plan hereunto annexed, Viz^{t}: Beginning at a marked white oak standing on the West side of the Mill Race, and on the North side of the Bristol Road; thence by a line of marked trees, dividing the Land of John Holmes from the land of Peter Rambo and Richard Vandyke, South sixty-eight degrees fifteen Minutes, West Three hundred and fifty-two perches, to a corner on the South side of the said old Bristol Road, and East side of a Road leading from Oxford Church to the River Delaware; and recommend the same to be fifty feet wide, and to be laid out altogether on the Lands of Peter Rambo and Richard Vandyke, along the line of John Holmes' land.

At a Council held at Philadelphia, on Friday 21st August, 1772.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &ca.

Richard Peters,	James Tilghman,	Esquires.
Benjamin Chew,	Edward Shippen, Junior,	

The Governor laid before the Board a Petition from John Durkee, a Prisoner in the Goal of Philadelphia, Setting forth that he was Indicted for a Riot on the Lands at Wyoming, at the Sessions for the County of Northampton, in April 1770, and from September following has been closely Confined in Goal;

That some time afterwards he was sued for a large sum of Money due to a Gentleman in New York, with whom he has now Compounded and obtained a discharge from his suit; that he has a Wife and Children in Connecticut, who are in Great distress, occasioned by his imprisonment, &c., and therefore humbly praying Relief by means of a Nolle proseque or otherwise, &c.

The said Petition being read and Considered by the Board, it was their opinion that, in Consideration of the Prisoner's long Confinement, and that he has now obtained a discharge from his Creditors, at whose suit he has hitherto been detained in Prison, as well as at the suit of the Crown, a Noll Proseque should be entered on the Indictment and the Petitioner be discharged from his Confinement, which the Governor accordingly directed to be done.

mature deliberation, he could not think it proper to pass it into a Law. At the same time his Honor Returned the Bill for the Support of Government and Payment of the Public Debts, with his Assent.

Soon after, two members of Assembly waited on the Governor with a Message, Requesting to know when it would be agreeable to his Honor to receive the House, in order to pass the Bill which he had agreed to; to which the Governor answered that he was now ready to receive the House for that purpose, if it was Convenient to them. The whole House thereupon attended in the Council Chamber, and the Speaker presented to the Governor the Bill for the Support of the Government and payment of the Public Debts, which he enacted into a Law, and Signed a Warrant for affixing the Great Seal thereto, and the Secretary was directed to accompany two members of Assembly to see that the said Law was Sealed and deposited in the Rolls office.

The Governor laid before the Board a Letter he had just received from Sir Ralph Payne, Captain General and Governor of the Leeward Islands, which was read and follows in these Words, vizt:

"Sir:

"It is with the most poignant Concern that I acquaint you, that on Monday the 31st day of August last, it pleased the Almighty to visit this, and all the other Islands of my Governments, with a Huricane more violent and dreadful than perhaps ever before happened in the Memory of man, and unparralled (I believe) in its Effects by any Recorded in the annals of History. The scene of Ruin and Desolation which this Event has laid, as well over the Face of the Country as in all our Roads and Harbours, where most if not all the shipping has perished, cannot be described to you; but the terrors of the storm are Scarcely Superior to the Misery of its Consequences, and among the other dreadful Shapes in which these have already appeared, is the Malencholy Prospect of an Approaching Famine, unless this Terrible disaster is averted by the early arrival of Provisions from the Continent of America. The Legislature of this Island have come to the Resolution of dispatching Vessels Immediately to the Neighbouring Collonies from whence such Succour may be expected, and it is upon this account, Sir, that I trouble you at Present, as I persuade myself that you will not only very Sincerely simpathize in our distress, but will Contribute your best Assistance to relieve it, by making our Necessities Known throughout your Government, and by promoting a Commerce with us at this time, which is Immediately and indispensably essential to our very Existance.

"It will be a very alleviating Circumstance to my Concern, while I Contemplate the Calamitous state of my own Government, to hear that the unparalleled ferocity of the late Tempest in the Leeward Islands, has not extended so far Northward as Philadelphia; but that your Government, Sir, with the rest of his Majesty's American Collonies, has been preserved from the Desolating Hand of a Destiny, whose Vengeance will long Continue to be felt and deplored, when its immediate Terrors are past away and buried in Oblivion.

"I hope you will forgive this Trouble, and be perswaded of the very sincere Pleasure which I shall enjoy in Co-operating with you, Sir, at all Seasons and upon all Occasions, for the Service of our most Excellent Sovereign, as well as in testifying to you by every Opportunity, the very high esteem and Respect with which I have the honor to be,

"Sir, your very faithful and most
"Obedient humble Servant,
"RALPH PAYNE.

"Antigua, September 14th, 1772."

The Board taking the said Letter into Consideration, were of opinion that the request therein Contained should be Complyed with without the least delay, by notifying to the Publick by a Proclamation the distressed Situation of his Majesty's Subjects in the

Leeward Islands, Occasioned by the late dreadful Hurricane, and warmly recommending it to the Merchants and others of this City and Province to afford them assistance and Relief, by dispatching Vessels with Provisions and such other articles as were necessary to supply their immediate Wants. A Draught of a Proclamation was drawn at the Table and ordered to be published in the Publick papers, and it follows in these words, Viz^{t}:

"*By the Honourable RICHARD PENN, Esquire, Lieutenant Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware:*

"A PROCLAMATION.

"WHEREAS, his Excellency Sir Ralph Payne, Captain General and Governor in Chief in and over all his Majesty's Leeward Charibbee Islands in America, by his letter of the fourteenth of September last, hath informed me that on Monday the thirty-first of August last, it pleased the Almighty to visit the Island of Antigua, and all the other Islands of his Government, with a Hurricane, more violent and dreadful than perhaps ever before happened in the Memory of Man, and (as he believed) unparalleled in its Effects by any Recorded in the Annals of History; That the scene of Ruin and Desolation which that event had laid, as well over the face of the Country, as in all their Roads and Harbours, where most if not all the shipping had Perished, was not to be described; but that the Terrors of the Storm were Scarcely superior to the Miseries of its Consequences, and among the other dreadful Shapes in which those already appeared, was the Melancholy Prospect of an approaching Famine, unless that terrible disaster was averted by the early arrival of Provisions from the Continent of America; that the Legislature of the said Island of Antigua had come to the Resolution of dispatching Vessels to the neighbouring Collonies, from whence Such Succour might be expected; and on that account, he hath been pleased to request of me that I would Contribute my best assistance to relieve their Distresses, by making their Distresses known throughout my Government, and be promoting a Commerce with them at this time, which is immediately and indispensably Essential to their very Existence. *Wherefore*, being most sincerely affected with the Distresses of our fellow Subjects in the said Islands, and anxious that no time may be lost in relieving them from their Calamitious Situation, I have thought proper, by the advice of the Council, to Issue this Proclamation, not only to make their necessities known to the Good People under my Government, but most earnestly to Recommend it to them, and more particularly to the Merchants and Traders, to give immediate assistance to the afflicted Inhabitants of the said Islands, by dispatching Vessels there with

Provisions, and such other necessaries as they may be supposed to be most in want of.

"*Given* under my hand and the Great Seal of the said Province, at Philadelphia, the ninth day of October, in the twelfth year of his Majesty's Reign, and in the year of our Lord one thousand seven hundred and seventy-two.

"RICHARD PENN.

"By his Honour's Command.
"JOSEPH SHIPPEN, Jr., Secr'y.

"GOD SAVE THE KING."

The Returns of Sheriffs and Coroners for Northumberland and Bedford Counties being now made, the following persons were appointed and Commissionated as Sheriffs and Coroners for the Counties where they respectively reside, Vizt. :

Council Chamber, Memorandum, the 15th of October, 1772.

A Committee of the Assembly waited on the Governor yesterday, and acquainted him that pursuant to the Charter and Laws of this Province, a Quorum of the Representatives had met, and had proceeded to Chuse their Speaker, and desired to know when his Honour would be pleased to receive the House, that he might be presented for his Honour's Approbation.

The Governor having appointed this day, at twelve o'clock, for that purpose, acquainted the House, by the Secretary, that he attended his appointment in the Council Chamber, and was ready to receive the House with their Speaker.

The whole House waited on the Governor, and presented Joseph Galloway, Esquire, as their Speaker, who, after receiving the Governor's Approbation, claimed the usual Privileges in the name and behalf of the House, to which the Governor Replied that he thought those privileges essentially requisite in a Representative Body, and he should be careful to protect the House in the full enjoyment of them.

At a Council held at Philadelphia, on Friday 16th of October, 1772.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c.

Benjamin Chew,
James Tilghman, } Esquires.
Andrew Allen,

Two Members of Assembly waited on the Governor, and acquainted him that the House proposed to adjourn to the 4th day of January next, if his Honor had no Objection thereto, to which the Governor replied that he had no Objection to their proposed Adjournment, but that he had something to lay before the House, which he should Communicate to them Immediately by a Messuage. The Secretary was then ordered to deliver the following Verbal Message to the House, with Sir Ralph Payne's letter therein referred to:

"Sir:

"The Governor commands me to lay before the House a Letter he received a few days ago from Sir Ralph Payne, Captain General and Governor-in-chief of the Leeward Islands, acquainting him with the Extream Distress the Inhabitants of the said Islands are reduced to, occasioned by a most Violent Hurricane in the month of August last, and to inform the House that if they are disposed to take any Measures for their Relief, he will most Chearfully Concur with them therein.

"October 16th, 1772."

—

MEMORANDUM, the 17th October, 1772.

Two Members of Assembly waited on the Governor, and delivered him the following Verbal Message from the House, in answer to his Message to them of yesterday:

"Sir:

"We are Commanded by the House to inform the Governor, in answer to his Verbal Message of this Morning, that they have taken into their Consideration the Letter from Sir Ralph Payne, Captain General and Governor-in-Chief of the Leeward Islands, and very sincerely commisserate the extream distress the Inhabitants of those Islands are reduced to by the late violent Hurricane; but as they find that your Honour has wisely pursued the most proper Measure to relieve them, by your late Proclamation in their behalf, and that, in Consequence thereof, a number of Vessels with Provisions and

other Necessaries have already sailed, and more will soon be ready to depart from this Port for those Islands, the House have no doubt but the unhappy Sufferers will be relieved, and the Good intention of Sir Ralph Payne's Letter effectually answered by those means.

At a Council held at Philadelphia, on Monday 23d November, 1772.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c.

Benjamin Chew, James Tilghman, } Esquires.

The Governor laid before the Board the Transcript of two Records of Conviction, by which it appears that at the last Court of Oyer and Terminer and General Goal delivery, held at Philadelphia for the County of Philadelphia, Michael Magary and Thomas McFeteridge, both of the said County of Philadelphia, Labourers, were severally tried for and Convicted of Felony and Burglary, and have each of them received Sentence of death for the same. The said Records being taken into Consideration, and the Jurors having petitioned the Governor in Behalf of each of the above-mentioned Criminals, and recommended them as proper Objects of Mercy, his Honour, with the advice of the Board, was pleased to order a Pardon to be made out for each of them, under the Great Seal of the Province.

Then was read the Transcript of a Record of the last Court of Oyer and Terminer held in New Castle County, by which it appears that John Keener, of the said County of New Castle, was tryed for and convicted of Felony and Burglary, and hath received Sentence of Death for the same; but the Governor of the said Court having recommended him to the Governor for Mercy, His Honor, with the advice of the Board, was pleased to order a Pardon to be made out for him also, under the Great Seal of the Province.

At a Council held at Philadelphia on Thursday 26th November, 1772.

PRESENT:

The Honorable RICHARD PENN, Esquire, Lieutenant Governor, &c.

William Logan, James Tilghman, Richard Peters, } Esquires.

Joseph Peepy, and another Delaware Indian came to Town last week, from the Ohio, with a Message from Netattwallaman, or new

Comer, Chief of the Delawares on the Ohio, which Jo Peepy delivered to the Governor, with a String and Belt of Wampum, on the 19th Instant, in the following words, Viz^{t}:

"Brothers and Friends:

"I have been often told that there is a great King over the Great Waters.

"Brothers and Friends:

"I am ready to go over the Great Waters to see that Great King. Now Brother Governor and Friends, I desire you to prepare a Ship for me next Spring. I am your Brother and I am your friend, and I hope we shall soon be united together."

The Governor having since taken the said Message into Consideration, returned the following answer thereto, by the advice of the Council, Viz^{t}:

"Brother Netattawalaman:

"I received Your Message by Jos. Peepy, and have considered it well. I have been looking over what past between us last Spring was twelve Months. You then mentioned to me the same business you have now repeated by Jos. Peepy; You may remember I then told you that Sir William Johnson was appointed by the Great King, my Master, to confer with and advise all our Brethren, the Indians, in any matters of Importance; all Indians know this Well. I then recommended you to go to him and Inform him of your Intentions of going over to England to see the Great King, and tell him what you had particularly to say to him. You have not informed me by Jo. Peepy, whether you follow'd my advice in going to Sir William, and if you did, what passed between him and you. When I hear this I shall be better able to Judge of this Important Matter, and give you my Sentiments and advice thereon; at present I can only once more request, if you have not already been to Sir William Johnson, that you would go to him and lay this matter before him to consider of, and know his mind thereon, before you determine to go over Sea. When you have done this, I shall be ready to hear what you may have further to say to me, and do every thing in my power to please and Serve you in this or any other affair."

Delivered a String of Wampum.

"Dear Brother Governor:

"I have considered very well at my Council Fire of what you said in your answer to the Message I sent you by Killbuck, respecting my design of going over the Great Waters to see the Great King, and I cannot agree to what you then recommended to me of going to Sir William Johnson to consult him upon that Business. You know there was formerly a Council Fire established at Philadelphia by our forefathers, where we have always been since used to do all our Business with our Brethren the English; and I do not think it necessary at this time for me to give myself the Trouble of

going to Sir William Johnson to talk with him about my going to England; for I can much better step on Board of a Ship here at Philadelphia.

"Brother Netattawallaman:

"Since I delivered my Message to Jo. Peepy in answer to yours by him, Jo. tells me that you have not followed the advice I gave you last Spring was twelve months, to go to Sir William Johnson and consult him on your Intention of going over Sea to see the Great King.

"Brother:

"You and all the Indians know well it has been told you at all the late Treaties, that the Great King has appointed Sir William Johnson Superintendant of all Indian Affairs, and that all business of any Importance between the King and the Indians, was to be laid before him; I am, therefore, much surprized you have not followed my advice in going to Sir William, and informing him of your Inclination to go over Sea to visit the Great King and talk with him.

"Brother:

"It is long since I gave you this advice; You have had sufficient time to go there and hear his Sentiments, and know his mind; I cannot think what reasons you can have for not going to him.

"Brother:

"I know very well that our Brother Onas and all our United Brethren the Indians, kindled a Great Council Fire at this Place, where all Business was to be transacted between us. I know also, and you should remember, that when any Business was to be done, it was to be by all the tribes of Indians united with the six Nations, and with their Approbation and Consent; They were all linked in one Chain of Friendship, and Brother Onas with them. Nothing was to be done without the Knowledge of the General Indian Council. You cannot, therefore, my Brother, expect that I can comply with your request in providing a Ship to carry you to England to see and talk with our Great King 'till Sir William has been informed of it, and has Consulted your Uncles, the Six Nations, at their Great Council Fire. If I did so, I should break one of the Strongest links of the Chain of Friendship, and the Solemn treaties entered into between me and all the Indians, they would be very angry with me, and blame me much for doing so.

"Brother:

"I must further inform you that I have lately received a letter from Sir William Johnson, informing me that he has instructions and orders from the Great King, his and my Master, to Transact all Business of Importance with the Indians, excepting that of fixing and regulating the Trade, which is left to me to manage; that he expects when any Indians apply to me on any other Business, I shall send them to him.

"Brother:

"As this is the true state of the Case, I cannot, I dare not, interfere with the Great King my Master's Orders. I cannot Provide

a Ship to carry you and your Companions to England to see and talk with the Great King without Sir William's being first informed of your intentions; It would not only be a breach of trust in me to my King and Master, but, as I have said, it would be a Breach of That faith and Friendship entered into between me, the good people of this Province, and the Indians of all the six united Nations. Let me therefore, my Brother, recommend it to you in the strongest terms, to go to Sir William Johnson and lay your intentions before him and know his mind thereon."

MEMORANDUM.

The Governor sent to New Comer by Jos. Peepy, a Copy of both his answers to the foregoing Messages delivered by Jos. Peepy.

At a Council held at Philadelphia, on Saturday 12th December, 1772.

PRESENT:

The Honorable RICHARD PENN, Esquire, Lieutenant Governor, &c[a].

Richard Peters, Edward Shippen, jun[r], } Esquires.
James Tilghman,

The Governor laid before the Board a Transcript of a Record of Conviction, by which it appears that at the last Court of Oyer and Terminer and General Goal Delivery held at Chester, for the County of Chester, Henry Phillips, late of the said County of Chester, Labourer, was tryed for, and Convicted of Felony and Murder, (committed on the Body of a certain Richard Kelley,) and hath received Sentence of Death for the same; and the Justices of the said Court having acquainted the Governor that no favourable Circumstance appeared in the Course of the whole Tryal to Induce them to recommend the Criminal to him as an object of Mercy, his Honor with the advice of the Board, Ordered a Warrant to be made out for his Execution on Saturday the 26th of December Instant.

—

MEMORANDUM, the 5th of January, 1773.

Two Members of Assembly waited on the Governor with a Verbal Message, acquainting him that the House were met pursuant to adjournment, and desired to know if his Honor had any Business to lay before them, to which the Governor Replied, that he had no particular matter now to Recommend to their Consideration, but as soon as any Occurred he should communicate the same to the House.

At a Council held at Philadelphia, on Monday 11th January, 1773.

PRESENT:

The Honorable RICHARD PENN, Esquire, Lieutenant Governor.

Richard Peters, Benjamin Chew, } Esquires.
James Tilghman,

The Secretary laid before the Board three Petitions from divers Inhabitants of the City of Philadelphia, and Counties of Chester and Lancaster, which were Severally read, setting forth that since the return of Survey of a Certain Public road or King's high way, Laid out from the middle ferry, on Schuylkill, to the sign of the Ship upon the Conestogoe Road, and from thence to the Village of

Strasburg, in the County of Lancaster, and the Confirmation of the same on the 10th day of November, 1770, it has been discovered that some Errors were committed in the return of the Courses and Distances of the said Road, one of which Errors is in the first of the said Petitions pointed out to be thus, Viz^{t}: The return of Survey, after mentioning "a White Oak standing fourteen perches from the Southermost part of John Sellers's Mill race," describes the next course to be, "thence North Seventy-three degrees, West eleven hundred and forty-four perches," when in fact, the true distance to the Spot to which that course was run and measured, is Eleven hundred and eighty-four perches, and is so called in the Field notes of the Surveyor, taken at the time of Survey; that by reason of this mistake, the whole Course of the Road will be altered from the place where this Error was Committed, and instead of passing over ground which is proper and Convenient for making a good Road, It would lead over a broken, Hilley Country, very Improper for that purpose; and therefore, praying the Board would be pleased to Order John Morton, John Sellers, Jacob Lewis, James Webb, Joseph Fox, and Daniel Williams, or some of them, to resurvey the said Road, and Correct any Errors that may appear in the Return of Survey which they before made of the same, or to direct such other Measures as shall appear to them more proper, to rectify those mistakes.

A Petition (or Remonstrance) from six of the Free holders of Chester County, was likewise read, setting forth several Objections to the above mentioned road as it stands Confirmed, besides the mistakes that have been made by the Viewers in their return of Survey thereof; and therefore, praying this Board "to appoint a sett of Impartial Gentlemen, not only to review the Crooked Road already laid out by the sign of the Ship, but also to view the Ground nearly on a line from the Corporation Ferry to Gravenor Marshes or Strasburg, and that if it should appear to the Reviewers that a road can be had nearly on a line, that would be more advantageous to the Public than the Former, they may have leave to lay out one there."

The Board proceeded to take the said Petitions into Consideration, but as none of the Petitioners nor the Gentlemen who laid out the Confirm^{d} Road were present, It was Ordered that the further Consideration of this matter be postponed till the fourth day of February next, and that the Secretary give the Several Parties Notice to attend this Board on that day, to be then fully heard on the Subject of their respective Petitions.

At a Council held at Philadelphia, on Saturday 23d January, 1773.

PRESENT:

The Honorable RICHARD PENN, Esquire, Lieutenant Governor, &c.

Benjamin Chew, Lynford Lardner, } Esquires.
James Tilghman, }

The Governor laid before the Board two Bills sent up to him by the House of Assembly for his Honour's Concurrence, entituled as follows, Viz$^{t.}$:

"An Act for emitting the sum of one hundred and fifty thousand pounds in Bills of Credit on Loan, and providing a fund for the payment of Public Debts;" and "An Act for making Perpetual An Act entituled 'An Act directing the Choice of Inspectors, and for holding the General Elections in this Province,'" which were both read, and referred to further Consideration.

At a Council held at Philadelphia on Wednesday 27th January, 1773.

Benjamin Chew, Andrew Allen, }

The Board resumed the Consideration of the Bill entituled "An Act for emitting the sum of one hundred and fifty thousand Pounds in Bills of Credit on Loan, and providing a fund for the payment of Public Debts," to which the following amendments being made and agreed to, the Secretary was ordered to carry the same to the House of Assembly with the Bill:

Page 59, line 8. After the word [the], insert the words [Governor and].

Same pa., line 10. Dele the word [who], and instead thereof insert as follows: [unless such neglect, refusal, Death, or removal,

Page 60, line 9. After the word [the], add the words [Governor and].

Then was also considered the Bill entituled "An Act for making perpetual An Act entituled 'An Act directing the Choice of Inspectors, and for holding the General Elections of this Province,'" and there appearing no Objections to the same, it was ordered to be returned to the Assembly, with a Verbal Messuage that the Governor gave his assent to it.

—

Thursday 28th January, 1773.

A Committee of Assembly waited on the Governor, and again brought up the Loan Office Bill, with an answer to His Honour's amendments, wherein the House agreed to them all, proposing only to make one alteration in the 7th amendment by striking out the words [appointed to], and instead thereof inserting the words [residing in]; and the Governor taking the same into Consideration, and having no Objection to the said Proposal, immediately returned the Bill to the Assembly by the Secretary, with a Verbal Message that he agreed to the proposed alteration of the s^d. amendment.

—

Friday, the 29th January, 1773.

The Governor, by the advice of the Council, sent to the Assembly the following Message by the Secretary, who at the same time laid before the House two Petitions from the Inhabitants of Bedford County, to which the Message refers:

"Gentlemen:

"I think it incumbent upon me to inform you that the late evacuation of Fort Pitt, by order of the Commander-in-Chief, hath greatly alarmed the Inhabitants of this Province settled beyond the Allegheny Mountains, who have been used to look upon that Fortress as their Safeguard against the Incursions of the Indians.

"I have received from the People in that quarter several Petitions (which I have ordered the Secretary to lay before you) expressing their Apprehensions, of the dangerous situation to which they are reduced, and praying from Government a suitable Relief.

"Upon the receipt of these Petitions I wrote to General Gage by Express, requesting the Continuance of a small Garrison at that

Post, at least 'till the Meeting of the Assembly; But the General was of Opinion that the Execution of his Orders was too far advanced to be countermanded, Nor did he seem to think it Expedient for him to have continued any of the Troops there, had my letter been in time. It cannot be doubted but that the late Military Establishment at Fort Pitt, did very greatly Contribute to the rapid Population of the Country beyond the mountain, and that the withdrawing the King's Troops must of course not only depress the Spirits of the Present Settlers, but retard the progress of the Settlement.

"I perswade myself that you will view the safety and protection of that Extensive and Flourishing district as an object of General importance, and worthy of the Public attention; And as it appears to me that the most proper, and indeed the only assistance which can be afforded these people, is the supporting a small Garrison at that Post or Place, I find myself under the Necessity of applying to you to enable me to carry that Measure into Execution.

"RICHARD PENN.

"January 29th, 1773."

At a Council held at Philadelphia, on Thursday 4th February, 1773.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieu[t] Governor, &c.

Benjamin Chew,
James Tilghman,
Andrew Allen,
} Esquires.

This Day being appointed by order of Council of the 11th of January last, for the Consideration of the Petitions then laid before the Board, representing that some Errors had been made in the return of survey of the Public Road laid out from the middle ferry on Schuylkill, to the sign of the ship upon the Conestogoe Road, and from thence to Strasburg in Lancaster County, which had been by an Order of Council of the tenth of November, one thousand seven hundred and seventy, approved and Confirmed, and praying that the Persons who laid out the said Road, may be ordered to re-survey the same and correct any errors that may appear in their said Return, The several Gentlemen who laid out the said road, as well as the Petitioners against it, in pursuance of notice given them by the Secretary, did this day attend the Board, and were severally heard. The Board thereupon, taking the said Petitions into their serious consideration, are of opinion that the several mistakes which have been made in the return of the said Road ought to be rectified; and it is therefore ordered that Joseph Fox, Jacob

Lewis, Daniel Williams, John Morton, John Sellers, and James Webb, or any four of them, do re-examine and compare the courses and distances of the said Road, mentioned and set forth in their return thereof to the Governor and Council, dated the fifteenth day of August, one thousand seven hundred and seventy, with their Field works taken at the time of their laying out and running the same, and Correct by their Field-works any error or errors that they may have made in their said Return; and if necessary, to review and re-measure any part of the said Road so as aforesaid by them laid out, and make a new return and Draught of the whole Road, with such Errors and Mistakes Corrected, to the Governor and Council, for their further Consideration.

The Governor having received from the Assembly a Written Message in answer to his Message of the 29th Ultimo, laid the same before the Board. The Message was read, and follows in these words, Viz^{t}:

"May it please your Honour:

"We have taken into our Consideration your Message of the 29th Ulto., respecting "the apprehensions of the Inhabitants of this Province, settled beyond the Allegheny Mountains, of the Dangerous situation they are reduced to by the evacuation of Fort Pitt," and request that your honour would acquaint us whether, from any Hostile Transactions or other Circumstances, Government has reason to believe that there is a disposition in the Indians to Violate the Solemn Treaties which have been repeatedly made and ratified between them and his Majesty's Colonies, and hitherto so well observed. And also, that you will be pleased to lay before us all Treaties or Intelligence lately held with, or received from the natives, to enable us to judge of their Temper, and the most proper measures to preserve that Harmony with them which is of the highest importance to the prosperity of the Province.

"Signed by order of the House.

"JOSEPH GALLOWAY, *Speaker.*

"Feb'ry. 3d, 1773."

A Committee of two Members of Assembly waited on the Governor in Council, and presented to him for his concurrence two Bills, entituled:

"An Act appointing the Wardens for the Port of Philadelphia, and for other purposes therein mentioned;" and

"An Act for preserving the Navigation in Shearman's Creek, in the County of Cumberland, and to prevent the Destruction of Fish in the same;" which were laid before the Board, and referred for Consideration To-morrow.

At a Council held at Philadelphia, on Friday 5th Febr'y, 1773.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c^{a},

Richard Peters, James Tilghman, } Esquires.
Benjamin Chew, }

A Member of Council having prepar'd a draught of a Message in reply to the Assembly's Message of the 3d Instant, the same was read and approved, and the Secretary was directed to Transcribe it, and carry it to the House in the afternoon, the Message follows in these words, Viz^{t}:

"Gentlemen:

"My Message to you of the 29th of January, respecting the Propriety of keeping up a small Garrison at Fort Pitt, was not founded on any Certain Intelligence that the Western Indians had immediate designs of Committing acts of Hostility against us. The petitions now before you demonstrate that the Inhabitants of our Frontier have considered that post as their principal security against Indian Incursions, and an Assylum in Case of a sudden attack, for their Women and Children; the evacuating it has therefore filled their minds with Fears and apprehensions. When I consider, Gentlemen, the unspeakable sufferings and distress which attended those unhappy People and their Families, who were settled on the Western Frontier in the last Indian War, which was as unexpected as it was unprovoked, I confess I cannot help being greatly affected, and do not wonder that they now apply to Government for some Assistance to protect them against the like Calamities in future, and altho' there may be no prospect of a speedy renewal of Hostilities on the part of the Indians, it may yet be good policy to guard in time against the worst that can happen, especially as the Measure Proposed will be attended with no great expence to the Public; A Garrison of 25 or 30 men to keep possession of that Important Place, being perhaps sufficient for the Present. These reasons induced me at first to lay the matter before you as an object worthy of your attention, and have still so much weight with me, that I think myself obligated again to recommend it to your serious Consideration.

"RICH'D PENN.

"February 5th, 1773."

The Board resumed the Consideration of the Bill for preserving the Navigation in Shearman's Creek, &c, and one amendment being made to it, it was ordered to be returned with the same to the Assembly.

The Bill appointing Wardens for the Port of Philadelphia was then in part Read and Referred to further Consideration.

The Governor having received a Petition from the Inhabitants of the Northern parts of Lancaster and Berks Counties, praying that those parts may be erected into a new County, The Secretary was directed to carry the same to the Assembly, and to acquaint them that, as his Honor Conceived that Petition ought rather to have been addressed to the House than to him, he therefore thought proper to lay the same before them for their perusal and Consideration.

At a Council held at Philadelphia, on Friday the 11th February, 1773.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &ca.

The first mentioned Bill was read and Considered, and being approved, was ordered to be returned to the House with the Governor's assent. The other four Bills were in part considered and referred for further Consideration.

At a Council held at Philadelphia, on Wednesday 17th February, 1773.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c.

Richard Peters, James Tilghman, } Esquires.
Benjamin Chew, Edward Shippen, jun^r^, }

The Board resumed the Consideration of the Bill for regulating Venders, &c^a^, and several amendments being made to it, the Bill was ordered to be returned with them to the Assembly.

A Member of Council acquainting the Governor that a new Commission was wanted for the tryal of Negroes in Lancaster County, his Honour was pleased to direct that a Commission be accordingly made out, appointing Emanuel Carpenter and Isaac Sanders, Esquires, Justices for holding Courts for the Tryal of Negroes in the said County.

At a Council held at Philadelphia, Monday 22d February, 1773.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c^a^.

Richard Peters, James Tilghman, } Esquires.
Benjamin Chew, }

The Governor laid before the Board four Bills sent up by the Assembly for his Concurrence, entitled as follows, vizt:

"An Act to erect a new Gaol, Work-house, and House of Correction in the City of Philadelphia."

"An Act appointing Trustees to take care of the Person and Estate of Richard Gardner, a Lunatic."

"An Act for Vacating a part of a Road in the township of the Northern Liberties, and for Confirming a new Road laid out and made instead thereof;" And

"A Supplement to the Act entituled "An Act for making the River Schuylkill navigable, and for the Preservation of the Fish in the same."

Which Bills being severally read and considered by the Board, the Secretary was directed to return them to the Assembly in the Afternoon, with a few amendments made to the first, and to acquaint the House that the Governor could not consent to pass the second Bill into a Law; but that he agreed to the two last mentioned Bills, and would be ready to pass them whenever presented to him for that purpose.

The Vendue Bill being again sent up to the Governor by the Assembly with a Message that the House adhered to the Bill, The Governor, by the advice of the Board, directed the Secretary to return the said Bill to the Assembly, with a Verbal Message that the Governor adhered to his proposed amendments.

The Governor also laid before the Board a Message he received last week from the Assembly, which was read, and follows in these Words, Viz^{t}:

"May it Please your Honor:

"When we considered your Message of the 29th of January, recommending the support of a Garrison at Fort Pitt, founded on apprehensions in the Back Inhabitants of Danger from the Indians, at a time when we imagined the treaties of Friendship were perfectly observed between his Majesty and them, we thought it our duty to enquire into the Reason and Grounds, if any, for those apprehensions. We were, therefore, induced to apply to Government for information whether there appeared a disposition in the Natives to Violate those Treaties; and from your last Message we cannot find that there is the least Cause for such a suspicion, otherwise we have no doubt you would, on our Request, have communicated it; From whence we are led to conclude that the uneasiness of the Back Settlers is without Foundation, and by no means a sufficient Reason for a Measure which we fear may be productive of the very mischiefs it may be intended to avert.

"We well known that from the first Settlement of the Province, down to the late French and Indian War, the most perfect good understanding and Friendship were preserved between this Government and those People, by a Conduct uniformly just and kind towards them; that since the late Indian War, the like happy effects have been produced by the like Policy, and that on the Contrary, the maintaining of Garrisons in or near their Country, has been frequently an object of their Jealousy and Complaints; to this we may add, that it appears by Intelligence now before us, from the Deputy Superintendant of Indian Affairs in that Quarter, that having in pursuance of his Majesty's Orders communicated to the Western Indians the Evacuation of Fort Pitt, that Measure is so entirely agreeable to them, that it is likely to effect a Removal of their Jealousies, and a Conciliation of their Affections to this Province.

"We might offer other Reasons for not concurring in Sentiments with your Honour, on the Propriety of supporting a

Garrison at Fort Pitt, but being of Opinion that any warlike Preparations, even within our own Frontiers, at a time of prevailing Harmony between us and the Natives, may be attended with more Ill than good Consequences, we shall wave them as unnecessary, and Content ourselves with assuring you that we shall, and we have no doubt but all future Assemblies will be ever Ready when there shall be real Occasion, to afford every kind of Protection to the back Inhabitants the Circumstances of the Province will allow.

A Committee of Assembly presented to the Governor a Bill entituled " An Act for the amendment of an Act entituled 'a further

Supplement to the Act entituled ‘ An Act to enable the owners and Possessors of the Meadow, Marsh and Cripple on Red Lyon Creek, in New Castle County, to keep the Banks, Dams, Sluices, and Flood-gates in repair, and to raise a Fund to defray the Expence thereof.’ ’ ”

Eodem Die, P. M.

A Committee of Assembly delivered the Governor the following Written Message on the Subject of the County Rate and Levy Bill :

“ May it please your Honor,

“ We return your Honor thanks, for so readily assigning your Reasons for refusing your assent to the Bill entituled ‘ An Act for raising County Rates and Levies ; We have taken them into our Serious Consideration, and beg leave to make the following observations thereon :

“ Your honor is pleased to say ‘ that the present Bill is a total Subversion of the mode of Taxation now used, and which has been long found beneficial to the People.’ We answer, that it appears to us only to take away the Power of the Justices of the Peace and the Grand Jury of taxing those who do not choose them ; and that not only the mode of taxation, but also the very words and Clauses of the Present Law for raising County rates and Levies, are retained in the Bill now under consideration, and the principal difference between them is a change of some of the Persons who compose the Levy Courts as now Constituted. According to the English Constitution, no person whatsoever has a right to take away the property of another without his consent, given in person or by his representative.

“ The present Law therefore, in this appears to be unconstitutional, and on experience we know it to be injurious to the People.

“ Your Honor is pleased to say, ‘That the Sheriff is chosen by the people, and he returns the Grand Jury.’ This we agree is the fact, but when your honor is informed that the accounts of the Sheriffs annually exhibitted to the Levy Courts generally amount to a considerable sum, We do not apprehend your Honor will think it Reasonable or just, that he should have the nomination of the Persons who are to audit and allow them ; and if the Recommendation of the Justices of the Peace of the County should be thought the only way for Gentlemen elected Candidates for the Sheriff’s office to obtain the Commission, it is more than probable that they will fix upon the man who may be most pliant to their Will.

“ You think it strange, that Gentlemen of Property when put into the Commission of the Peace should become enemies to their

Country.' We humbly conceive there is nothing in the Present Bill which imports any such declaration; it only implies that it is thought unconstitutional and unsafe, that officers appointed solely by the Crown during pleasure, should have the power of taxing the Subject.

"We would further remark, that tho' men of Property may have been put into the Commission of the Peace, (which has not always been the case,) yet if they should be of an arbitrary disposition, want abilities or integrity, they might under the Law now in force, be very oppressive the People. Besides, the Assessors and Grand jurors, not being on an equallity with the Justices of the Peace in rank or power, (their power in these Counties being much greater than that of the Justices of the Peace in England, or any other of His Majesty's Dominions,) are known to have little influence in the Levy Courts, and many of them, through fear of giving offence, too easily assent to what the Magistrates propose.

"You are pleased to say, 'that if by the change of Circumstances in the Country, the Magistrates have got the superiority in the Levy Courts, that may be amended,' for which We are much obliged to your Honor; but we are of opinion, the most effectual remedy is the present Bill, and if your Honor proposes any alteration or amendment to any particular provision therein, or part thereof, we do assure your Honor We will receive the same with the greatest deference, and pay all the Regard to it in our power consistent with our duty to our constituents. 'The Law which is repealed by the present Bill now before you,' your Honor says, 'has been in use for thirty years, and is a good one.' In answer, we would observe, that an Act of Assembly founded on the Principle of this present Bill, and nearly similar to it, has been in force in your Province of Pennsylvania for a much longer time, and found on experience to render the greatest satisfaction.

"Upon the whole, We humbly beg your Honor to believe, that we have nothing in view by the present Bill (which has been petitioned for several years since, as well as now, by a very respectable number of People of this Government) but the good of our constituents, and to reduce their taxes, which in some of the Counties are now enormous; and we flatter ourselves that no Credit will be given to any insinuations to the Contrary.

"We therefore hope that your Honour will be so good as to reconsider the Bill; and that as it is only to have continuance for six Years, and no probable inconveniencies, in our opinion, can arise from it, that you will be pleased to enact it into a Law.

"Signed by Order of the House.

"THOS. M'KEAN, *Speaker*.

"April 12th, 1773."

To which the Governor wrote the following answer, and sent the same to the House with the Bill by the Secretary, who at the same

time, by the Governor's directions, returned the Red Lyon Creek Meadow Bill to the assembly, with his assent thereto.

"Gentlemen:

"When I received an application from the House on Saturday last, for a conferrence upon the Bill entituled "An Act for raising County Rates and Levies," which I so readily assented to, I imagined the Committee would have offered some reasons in support of it; and, by pointing out to me the advantage and utility of such an Act to the Good people of this Government, have inclined me to alter the resolutions I had formerly respecting it; But, contrary to my expectation, the Conferrence desired by the House proved to be only a request that I would acquaint the Committee with my reasons for objecting to the Bill, which, with the greatest willingness, I endeavoured to do, in the most explicit manner I was Capable of; in consequence of which, I have this day received a very long Message, containing many observations thereon. I have since carefully examined into what the House have been pleased to call such Observations, and after the most serious consideration, I do not find any thing Contained in them that has, in the least degree, given me reason to change my opinion with regard to the Bill. I therefore return it, and cannot agree to pass it into a Law.

"RICHARD PENN.

"April 12th, 1773."

The Governor having acquainted a Committee of the Assembly who waited on him to know when and where he would be pleased to pass the Bills to which he had given his assent, that he should be ready to receive the House for that Purpose at his Lodgings in half an Hour, the Speaker and the whole House attended accordingly, and Presented twelve Bills, which the Governor enacted into Laws, Signed a Warrant for affixing the Great Seal to them, and directed the Secretary to accompany two Members of Assembly to see them Sealed and deposited in the Rolls Office. The titles of the said Laws follows in these words, Viz^{t}:

"A Supplementary Act to an Act entituled 'an Act' for Limitation of actions and proving accounts against the Estates of Persons dying within this Government."

"A Supplementary Act to an act entituled 'a Supplement to an act entituled 'an Act for the better Confirmation of the Owners of Lands, &c^{a}' in their just rights and Possessions."

"An Act for the relief of Mark McCausland and James Adams, Languishing Prisoners in the Goal of New Castle County, and James Parey, a Languishing prisoner in the Gaol of Sussex County, with respect to the Imprisonment of their Persons."

"An Act for Continuance of a former act, entituled 'A Supplement to an act entitlued 'an Act for regulating Fences within this Government.'"

"An Act for vesting the Presbeterian Church and the yard or Burying Ground adjoining the same, in the Town of New Castle, and the Burying Ground at the North-east end of the said Town, in Trustees."

"An Act to enable certain Trustees to sell Lands in the County of Kent, settled in Trust for the use of the Minister of Duck Creek Church, and for other purposes therein mentioned."

"A Supplement to an Act 'entituled 'An Act to enable the owners and Possessors of the Marsh Meadow on the North side of Christiana River, called Brandywine Marsh, and of a Tract of Meadow, Marsh and Cripple on the South side of the said River, called Holland's Creek Marsh, and also of a Tract of Marsh Meadow near New Port, called Conrad's Cripple, to keep the Banks, Dams, and Sluices in repair, and Raise a Fund to defray the Expense thereof, so far as the same relates to the said Holland's Creek Marsh."

"An Act to enable the owners and Possessors of the Marsh Meadow on the North side of Christiana River, in the borough of Wilmington, to keep the Banks, drains, and Sluices in Repair."

"An Act for Stopping Mill Creek, in Christiana Hundred, and for keeping the Dam to be erected across the same, and the Sluices to be laid therein, in Good order and Repair, and for raising a Fund to Defray the Expence thereof."

"An Act for the stopping Muddy Branch, in little Creek hundred, in Kent County, on Delaware, and embanking, draining, and Improving the Marsh, Cripple, and Lowlands.

"An Act to repeal so much of an Act entituled 'An Act for regulating and establishing Fees,' as relates to imposing a Fine of six pence on defaulting Jurors,'" and

"An Act entituled 'an Act for the amendment of an Act entituled 'a further Supplement to the act entituled 'An Act to enable the owners and Possessors of the Meadow, Marsh and Cripple on Red Lyon Creek in New Castle County, to keep the Banks, Dams, Sluices, and Floodgates in repair, and to raise a Fund to Defray the Expence thereof.'"

Before the House withdrew, the Speaker presented the Governor an Order on the Trustees of the Loan Office for £150, for which his Honor returned the House his Thanks.

At a Council held at Philadelphia, on Friday 11th June, 1773.

PRESENT:

The Honourable RICHARD PENN, Esquire, Lieutenant Governor, &c[a].

James Tilghman, Esqr.

Upon reading and Considering a Letter from Robert Moody, Esquire, to D[r] William Plunkett, and one from him to Mess[rs] Ship-

pen or Tilghman, concerning the motions of the New England People, which are as follows:

VALLEY FIELD, June 6th, 1773.

"Sir:

"One Justice Bennet, on his way from York Government to Munsey, has just now declared upon Oath that, about 25 miles this side of Wyoming, he was taken up by a party of Men, 60 or 70 in number, headed by John Dougherty, junior, all arm'd with Guns, &c., bound for the West Branch, with an Intent to build a Fort on J. Dougherty's place; they expected more men from Wyoming, and was to march this day. If you think it necessary the Sheriff should be apprised of the matter, pray do it, and advise me by return of the Bearer what step you intend to take, and I will join with you.

"I am S'r, your Humble Servant,

"ROBT. MOODIE."

—

"Sir:

"The inclos'd piece of Intelligence being Confirmed beyond a Doubt from different quarters, I can't refrain the freedom of letting Government know our situation, through the Hands of the Secretary.

"Although cautious of murmering, we can't help wondering at it as strange that such a number of desperadoes should so long have residence unmolested, within the limits of this respectable Province, and in the Neighborhood of so feeble and defenceless a Body of Inhabitants as we are.

"This morning we are Hurrying up to the place were the inclos'd mentions they intend to Fortify, if Possible to check them a little, but some are of opinion that they mean for 'tother side of Munsey, or the unpurchased Land; if so I can't conjecture what will follow, as of the majority of the People there I have a mean opinion: in haste I beg leave to subscribe myself,

"Sir, your most Obedient Humble Servant,

"WM. PLUNKET.

"Northumberland, June 7th, 1773."

—

The Governor concluded to write the following Letter to Dr. William Plunket, in answer thereto:

"PHILADELPHIA, the 11th June, 1773.

"Sir,

"I have considered the intelligence you communicated in your Letter to Messrs. Shippen and Tilghman, concerning the motions of

the New England People, and am both concerned and offended at their daring attempts to disturb the Peace of the Province, and Possess themselves of the Property of our People. Should they proceed to your parts, (as it seems Probable they will,) I doubt not but you and the rest of the Magistracy, with the Sheriff and other Peace officers, will exert yourselves in the execution of the Laws, in which you may be assured of all the Countenance, Protection and Support in my Power. So great a number of People appearing in arms is undoubtedly of itself a high and aggravated Breach of the Peace, and such as any Magistrate may take notice of, and cause the Partys to be arrested and bound to answer, and the Sheriff hath upon occasions of this kind, a Power to raise the Posse of his County, to assist in the Execution of the King's Process. Should the suppression of these dangerous and riotous proceedings prove beyond the ordinary power of your County, (which however, I am in hopes they will not,) I shall certainly apply to the Assembly for their assistance. I rely upon the Spirited Conduct of the Magistracy and the People of the County upon this occasion, who will not fail to recommend themselves to the Government by shewing a disposition to support it against the Lawless intrusions of these Insurgents.

"You will not fail to inform me of their further Motions, and of your Proceedings against their Hostile designs.

"Should a number of them be arrested, more than can be conveniently confin'd in your Gaol, I would have you send them under a proper Guard to Philadelphia.

"I am Your most humble Servant,

"RICHARD PENN.

"To WILLIAM PLUNKET, Esquire, President of the Court of General Quarter Sessions of the Peace, &c., for the County of Northumberland."

slave of William Drewry, both of the County of Philadelphia, of Felony and Burglary, at a Court held at Philadelphia for the Tryal of Negroes on the 29th day of July last, was laid before the Board, and it appearing that the said Criminals had been recommended by several reputable Inhabitants to the late Governor as objects of Mercy, and the Execution of the sentence of the said Court had been suspended by him, and the Governor having acquainted the Board that the same recommendation had lately been renewed to him, His Honour, by the advice of the Board, after due consideration of the Matter, agreed to Grant a Pardon for the said Criminals on this special Condition, that they be Transported, and that they never Return into the Province; The Secretary was directed to make out the Pardons accordingly.

Then was also laid before the Board a Transcript of a Record of a Court of Oyer and Terminer held at Chester, for the County of Chester, on the 23d day of August last, by which it appears that a certain John Jones of the same County, was convicted of Felony and Burglary, and had received Sentence of Death for the same, and on a due Consideration of the Matter, the Governor, by the advice of the Council, agreed to Grant a Pardon for the said John Jones, on Condition of his being Transported, and never returning into this Province, and the Secretary was ordered to make out a Pardon.

The Governor informed the Board that he had received Information that several Families had lately seated themselves on Lands on the North side of the West Branch of Susquehanna, beyond the Boundaries of the last purchase made of the Indians at the Treaty of Fort Stanwix, and it being Considered that the making settlements on the Indians' Lands would create Great uneasinesses among them, and if not immediately removed, and prevented for the future, might be attended with Fatal Consequences, it was the opinion of the Board that a Proclamation, commanding the Magistrates and other Peace Officers to enforce and carry the Laws for preventing Persons settling on any of the unpurchased Lands in this Province into Execution, against all Persons who had already made any such settlements, or should hereafter Transgress the same Law; The Secretary was accordingly directed to prepare a Draught of a Proclamation for that purpose.

"*The Address of the Representatives of the Freemen of the said Province, in General Assembly met:*

"May it Please your Honour:

"Permit us very sincerely to congratulate you on your safe return to this Province and re-accession to the Government.

"The Harmony subsisting between the two Branches of the Legislature at the time your private affairs called for your presence in Europe, and the Happiness which that Harmony promised to the People, induce us to receive you again in the same Station and Character, with very sensible pleasure.

"But, independent of this Consideration, the Resolution of one of the Proprietaries to assume the immediate Superintendance of the Province, gives us additional satisfaction, as it is a measure which has been wished and even Solicited for by our Predecessors in Assembly, and is Certainly founded in the soundest Policy, For we are Confident the true Interests of the Proprietaries, and the People Committed to their Care and Protection, are so firmly united that they cannot be separated without doing Violence to the Welfare and happiness of both.

"Impressed with these Sentiments, and convinced of your Good disposition to unite with us in promoting the common Weal, no endeavors shall be wanting on our Part to support the Honor and dignity of your Government, and to secure to the Proprietaries and people their Just rights and Liberties.

"Gentlemen:

"I accept with particular Pleasure your kind Congratulations, and the assurances you are pleased to give me, that you will support ye Honor and dignity of my Government, for which I most heartily return you my warmest thanks.

"As it was ever my sincere Inclination to Cultivate Harmony between the two Branches of the Legislature, during my former administration, so you may be assured it shall be my future Care, while I have the Honor to Preside in the Government of this Province, to Cherish the same good Dispositions, as the surest means of Contributing to the Happiness and Prosperity of the People committed to my care, with which I am thoroughly Sensible the Interest of my Family is inseparably Connected.

"The Representatives of the Freemen of this Province may, therefore, rely on the Sincerity of my Professions, when I assure them that while my duty calls upon me to support the just Prerogatives of the Crown and Rights of the Proprietaries, I shall be happy in promoting the welfare of the People, and protecting them in the enjoyment of their invaluable Liberties and Privileges.

I likewise transmit to you, in order to their being published, two Instruments which have passed under the Privy Seal, signifying his Majesty's adjudication and declaration of two of the Acts therein mentioned to be void.

"I am, Sir,

"Your most obedient humble Servant,

"DARTMOUTH.

"Deputy Gov'r of Pennsylvania."

[Here follows a blank of six pages in Council Book.]

At the Court of St. James's, the 19th day of May, 1773.

PRESENT.

[*L. S.*] THE KING'S MOST EXCELLENT MAJESTY.

Lord President,	Earl of Bristol,
Duke of Queensberry,	Earl of Pomfret,
Duke of Ancaster,	Viscount Falmouth,
Lord Chamberlain,	Lord Edgecumbe,
Earl of Denbigh,	Lord Hyde,
Earl of Sandwich,	James Stuart Mackenzie, Esqr.

Whereas, there was this day read at the Board, a Representation from the Right Honorable the Lords of the Committee of Council for Plantation affairs, upon an Act passed in the Province of Pennsylvania in March 1772, for Naturalizing William Hembell, which representation is dated this day, and is in the words following, vizt:

"Your Majesty having been pleased by your order in Council of the 15th of January last, to referr to the Lords Commissioners for Trade and Plantations, several acts passed in the Province of Pennsilvania, and amongst others an act Passed there in March 1772, entituled

"An Act to enable William Hembell of the City of Philadelphia, Taylor, to hold Lands, and to invest him with the Privileges of a natural born Subject of this Province.

"The said Lords Commissioners for Trade and Plantations, pursuant to your Majesty's aforementioned order of Referrence, have reported to this Committee, that this act contains the like Clauses and Provisions with an Act passed for similar purposes, stated in a Report of the said Lords Commissioners of the 13th of April 1772, to which they Referr, and submit what advice may be proper to be given to your Majesty thereupon; And the Lords of the Committee having thought Proper to refer this Matter to your Majesty's attorney and Solicitor General, to Consider thereof, and report to this Committee their opinion, whether the exercise of such Powers by the Legislature of the Province of Pennsylvania be not repugnant to the act of Parliament, passed in the 13th year of King George the second, entituled 'An Act for naturalizing such Foreign Protestants, and others therein mentioned, as are settled or shall settle in any of his Majesty's Colonies in America,' and to the several acts of Parliament passed in this Kingdom for regulating the Plantation Trade, your Majesty's said Attorney and Solicitor General have accordingly reported to this Committee,

"That there is nothing in the act which is repugnant to the act of the Thirteenth of King George the Second, but they are of Opinion, that the Privileges which this Act offers to confer, are considerably more extensive than any Provincial Assembly hath Authority to give. That it hath been doubted whether the Parliament of Ireland, which is a Kingdom, & of Great antiquity, could Naturalize to any

effect, and proved irrefragably; that it could not give, as this act imports, all the Privileges of a natural Born Subject in any other place than that Island. The doubt was conceived upon this, that the King cannot Naturallize, and their Power is derived from his Majesty's Charter, and it had never been used before the tenth of King Charles the first; which Objections apply much more distinctly in point of Fact and History to the American Colonies. But supposing they are thought competent to naturalize to Effects merely local, and which don't interfere with the Laws of Great Britain, The act now under Consideration is exceptionable, because it purports to give all the qualities of a natural born Subject of Great Britain, and particularly the Liberty of Trading contrary to the Plantation Act." The Lords of the Committee, upon Consideration of what is above stated in the report of your Majesty's Attorney and Solicitor General, do agree humbly to represent to your Majesty as their opinion, that it may be adviseable for your Majesty to adjudge and declare, under your Privy Seal, the aforementioned Act for naturalizing William Hembell to be void.

"His Majesty taking the said representation into Consideration, is pleased with the advice of his privy Council to approve thereof, and having adjudged and declared void the aforementioned act passed in Pennsylvania in March, 1772, entituled "An Act to enable William Hembell of the City of Philadelphia, Taylor, to hold Lands and to invest him with the Privileges of a natural born Subject of this Province."

"His Majesty hath thought proper to direct the Lord Privy Seal to prepare and pass, under the Privy Seal, a proper instrument signifying such his Majesty's Adjudication and Declaration of the said act to be void, and the Proprietaries of the province of Pennsylvania, their Lieutenant or deputy Governor, and the Assembly of the said Province, and likewise all others whom it may Concern, are to take notice and Govern themselves accordingly.

"STEPH. COTTRELL."

The Board having Considered of the manner of Publishing his Majesty's Repeal of the two Laws mentioned in the above Instruments, agreed that the same should be done by a Proclamation, which was prepared by the Secretary, and being approved, was ordered to be published in the several News-Papers.

The Proclamation follows in these words, viz:

"*By the Honourable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of Newcastle, Kent, and Sussex, on Delaware:*

"A PROCLAMATION.

"WHEREAS, His Majesty, by an Instrument of Writing under the Privy Seal, bearing date the twenty-seventh day of April Last,

Lately Transmitted to me by one of his Majesty's principal Secretaries of State, has been pleased to adjudge and declare void an act of Assembly of this Province, passed in March, 1772, intituled "An Act to dissolve the Marriage of George Keemple of the City of Philadelphia, Barber, with Elizabeth his wife, late Elizabeth Miller, and to enable him to marry again." *And Whereas*, his Majesty, by a like Instrument, under the Privy Seal, bearing date the eighth day of June last, did also adjudge and declare void one other act of Assembly of this Province, passed in March, 1772, intituled "An Act to enable William Hembell of the City of Philadelphia, Taylor, to hold lands, and to invest him with the Privileges of a natural Subject of this Province." I have therefore thought fit to signify and make known the same to all persons within this Government, in order that they may take notice thereof, and Govern themselves accordingly.

"*Given* under my Hand and the great Seal of the said Province, at Philadelphia, the eleventh day of October, in the Year of our Lord one thousand seven hundred and seventy-three, and in the Thirteenth year of the Reign of our Sovereign Lord George the Third, by the Grace of God of Great Britain, France, and Ireland, King, defender of the Faith, and so forth.

A Committee of Assembly waited on the Governor with a Message, desiring to know when and where he would be pleased to receive the House, in order to pass the several Bills to which he had given his assent; To which his Honor replied that he should be ready to receive the House for that Purpose at his Lodgings in half an hour. The Speaker and the whole House attended accordingly, and presented the six Bills above mentioned, which the Governor enacted into Laws, signed a Warrant for affixing the Great Seal to them, and directed the Secretary to accompany two members of Assembly to see them sealed and Deposited in the Rolls office.

Before the House withdrew, the Speaker presented to the Governor orders on the Trustees of the Loan office for £250, for which his Honor return'd the House his Thanks.

At a Council held at Philadelphia, on Monday the 6th December, 1773.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

William Logan,	James Tilghman,	Esquires.
Richard Peters,	Andrew Allen,	
Benjamin Chew,	Edward Shippen, jun^{r},	

The Governor laid before the Board a Transcript of a Record of the last Court of Oyer and Terminer held at Lancaster, for the County of Lancaster, by which it appears that Samuel Brandt, of the said County of Lancaster, was Convicted of Felony and Murder, committed on the Body of a certain Valentine Brandt, and had received Sentence of Death for the same, and the Judges of the said Court having reported no circumstances in favor of the Criminal, it was the opinion of the Board that the Sentence of the Court should be executed against him on Saturday the 18th of December Instant, and the Governor directed a Warrant to be Issued for that Purpose accordingly.

At a Council at Philadelphia, on Thursday 9th December, 1773.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

Richard Peters, Andrew Allen,
Thomas Cadwallader, Edward Shippen, junr., } Esquires.
James Tilghman,

The Board taking into due consideration an Application made to the Governor by Mr. Judah Foulke, the Present Clerk of the Market of the City of Philadelphia, to be appointed the Officer for keeping the Standard Weights and Measures for the County of of Philadelphia, advised the Governor to appoint Mr. Foulke to the said Office, and the Governor directed the Secretary to make out a Commission accordingly.

The Governor laid before the Board a Petition from the Magistrates, Grand Jury, and other principal Inhabitants of Northumberland County, which was read, and follows in these words, Vizt.

"*To the Honourable JOHN PENN, Esquire, one of the Proprietaries, and Governor and Commander-in-Chief of the Province of Pennsylvania, &c.*

"*The Petition of divers of the Inhabitants of Northumberland County, in the said Province, humbly Sheweth:*

"That your Petitioners being seated, in Consequence of regular Purchases from the Proprietaries of Pennsylvania, in the said County of Northumberland, within the known Limits, and under the Protection of the Laws of the Province of Pennsylvania, have nevertheless been under the necessity of Combating and struggling with many Difficulties and Embarrassments of so alarming a nature as scarce to be parallelled in the History of any Civilized Country; that the Colony of Connecticut sets up a Claim to the lands seated, improved, and rendered Valuable by your Petitioner's Labour; happy might your Petitioners be, would those Claimants bring their Pretensions to some Tribunal whose decision would equally bind both Parties, but with them Violence usurps the Place of Argument, and force of Legal Decision; that about two years agoe a number of your Petitioners were in a Hostile manner ousted of their Possessions at Wyoming, and Cruelly Stripped and Plundered of their Effects; that, not content with the acquisition of Wyoming and the Parts adjacent, sundry attempts have been made to extend their Conquests. A large Body of Armed Men from Connecticut in June last attempted to dispossess the Inhabitants of the West Branch of Susquehanna, and, though prevented, it was not without much Fatigue, Expence, and Great Danger of Bloodshed;

these People, lawless among themselves, afford an Assylum and secure Retreat to disorderly Persons, not only of this Government, but of all the neighbouring Provinces, by which accessions, and the Constant Countenance of the Colony of Connecticut, their numbers have of late greatly increased; that the avowal of their Intentions is uniformly the same, especially since the account from Connecticut that "the Government has openly espoused their Cause, and taken them under their Protection." Deplorable indeed must be the situation of your Petitioners, if called on to defend by Force of Arms their Infant Settlements against the Power of a whole Colony; that the Consequence must be ruin to their fortunes and Families in their present distracted Situation; as common Subjects of the Province, and entituled to the Protection of the Laws, your Petitioners cannot help looking up to your Honor for the aid of Governm't; they have hitherto maintained an unequal Contest, possessed of Property themselves, they have been obliged with arms in their hands to defend it against those who had no property, subject themselves to Law; they have had to Contend with those who refused Subjection to any Law, and have not been able to reduce them to order, which is confessing a Weakness they can no longer conceal; that the whole Posse of the County is not sufficient to enforce the Laws at Wyoming, and as the Inhabitants have not hitherto been able to prevent the Continuance of the Connecticut Intruders in that Part of the Province contrary to Law, and the Repeated Proclamations of Government, they fear their utmost Efforts will not be sufficient to keep their Possessions without the Interposition and Protection of the Legislature, which therefore, they Implore, and from the known Clemency and Justice of the administration, consider themselves as having reason to expect."

The said Petition being taken into Consideration, it was the opinion of the Board that the same should be laid before the Assembly, accompanyed by a Message from the Governor to enforce it; Mr. Chew, Mr. Tilghman, Mr. Allen, and Mr. Shippen, are appointed to prepare a Draught of a Proper Message for that Purpose.

The Secretary laid before the Board a new Return and Draught of the Public Road or King's Highway, from the Middle Ferry on Schuylkill to the Village of Strasburg, in Lancaster County, as the same was resurveyed and laid out, with the Errors and Mistakes made in the former Survey Corrected pursuant to an Order of Council of the fourth day of February last. The said return and draught being taken into Consideration by the Board, it is ordered and adjudged, that the Road as therein mentioned to be resurveyed and laid out, be forever hereafter a Public Road or King's Highway. And it is further Ordered that the Supervisors of the High Ways for the Several Townships in the Counties of Philadelphia, Chester and Lancaster, through which the said Road leads, do, with all convenient speed, cause the same to be Cleared and opened of the Breadth of sixty feet through their Respective Townships, accord-

ing to the Courses and distances set forth in the said Return of Survey, which follows in these words, Viz^{t}:

"*To the Honourable RICHARD PENN, Esquire, Lieutenant Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware, and to his Council.*

"We, the Subscribers, do Certifie that in pursuance of an Order of the said Governor and Council, bearing date the fourth day of February, in the year of our Lord, one thousand Seven hundred and seventy-three, directing 'Joseph Fox, Jacob Lewis, Daniel Williams, John Morton, John Sellers, and James Webb, or any four of them, to re-examine and Compare the Courses and Distances of the late laid out Provincial Road from the Middle Ferry, on Schuylkill, to the Village of Strasburg, and to correct any Error or Errors that were made in the Former return of the said Road, &c^{a};' We, the said Subscribers, have re-surveyed and Measured the most part of the said Road, and having corrected the few mistakes made in the former Survey, do dow, in Obedience to the said Order, make return of a new Survey and measurement thereof in manner following, to wit: Begining at the middle of the West end of the said Middle Ferry Wharf; thence extending North seventy degrees, West four hundred and eighty-nine perches to a marked Black Oak, standing eleven perches and two Links from Thomas Harris's House, in Range with the East side thereof; thence West thirteen perches to a stone, thence South seventy-one degrees, west twenty-four perches to the Mill creek; thence the last Course continued ten perches to a marked Hickory; thence North Eighty-three degrees, West five hundred and sixty-seven perches to a marked white Oak, within four perches of Cob's Creek, and half a perch below the present Bridge; thence North Fifty-seven degrees, West, crossing said Creek, thirty-six perches to a heap of Stones, (three perches southwest of a Ditch or Water Course); thence South eighty-two degrees and a half, west one hundred and fifty-eight perches to a marked White Oak, standing fourteen perches and two links South, seventeen degrees west of the Southernmost point of John Sellers's Old Meadow and Mill Race; thence as near as may be, North seventy-three degrees and a half West so as to strike a marked White Oak in the Northwest corner of John Lewis's Field by the Bars, one and a quarter perch from said Lewis's Meadow Water Course, and on the South side of the Road leading from said Lewis's House to Haverford Road, and to continue said Course with little variation in the whole eleven hundred and eighty-eight perches to a stake and heap of Stones in William Laurence's Field near the Head of a spring, in which stands a Hollow Maple; South Forty-nine degrees West distant four perches

The Honorable JOHN PENN, Esquire, Governor.

Benjamin Chew, James Tilghman, } Esquires.
Edward Shippen, Junr. }

The Committee appointed on Thursday last to prepare a Message to the Assembly, laid a Draught of one before the Board, which being read and approved, was ordered to be fairly Transcribed and carried to the House by the Secretary, with the Petition to which it refers. The Message follows in these Words, Viz^t:

"Gentlemen.

"The distresses of the Inhabitants of the County of Northumberland, expressed in their Petition, which will be delivered to you by the Secretary, appear to be of a very alarming Nature, and justly to call for the particular attention of this Government.

"The Insolent Outrages of a set of Men who have long bid defiance to the Laws of the Country, and have afforded Protection to Offenders of the most Henious kind, ought not, Certainly, in a Well regulated Society, to be suffered to pass with Impunity; but when these men embody themselves, sally forth with arms in their Hands, and in a Warlike Manner attempt to dispossess the peaceable Inhabitants of the County lately laid out and Established by act of Assembly, within the known bounds of the Province, it is a

procedure of so dangerous a Tendency as not only to threaten the Destruction of that Infant County, but strikes at the Peace of the whole Province.

"I think it therefore Incumbent on me, Gentlemen, to recommend this Matter to your most serious Consideration, and to request you will Fall upon such Measures as will Strengthen the Hands of Government on this Extraordinary and alarming Occasion, repel the Violence of these lawless Intruders, and afford the Petitioners that Immediate Protection and Relief which their Necessities and Situation Require.

"JOHN PENN.

At a Council held at Philadelphia, on Wednesday the 15th December, 1773.

PRESENT:

The Honorable JOHN PENN Esquire, Governor.

Richard Peters, Benjamin Chew, James Tilghman, Edward Shippen, junr., } Esquires.

Eliphalet Dyer, William Samuel Johnson, and Jedediah Strong, Esquires, of Connecticut, appeared at the Board, and being Introduced to the Governor, delivered him a letter from Jonathan Trumbull, Esquire, Governor of that Colony, acquainting him with the appointment of those Gentlemen by the General Assembly of the said Colony, as a Committee to Treat with the Honorable John Penn, Esquire, and the Agent or Agents of the Proprietaries of Pennsylvania, relative to Lands within the Limits of this Province, and claimed by the Governor and Company of the Said Colony of Connecticut, which Letter was read, and follows in these words, Vizt.:

"LEBANON, 22d November, 1773.

"Sir:

"The case hath been stated, and Council of the first Emminence in Great Britain Consulted, on the Right and Title of the Governor and Company of the Colony of Connecticut to the lands within the Limits and Bounds of their Patent, lying Westward of the Province of New York. Nothwithstanding the several Settlements of Boundaries between the Colony on the East and the Province on the West, made as well by agreement between the Parties as under the Royal Authority, and notwithstanding the Subsequent Charter to Sir William Penn, their Opinion is in favor of the Right and Title of the said Governor and Company to such Lands. They have also directed the Course of Proceedings which will be legal and expedient for the Governor and company to pursue. This was done in order to give greater Satisfaction and to terminate all Disputes and Differences relative to such Lands.

"The General Assembly of his Collony, holden at New Haven, in October last, Resolved to make their Claim to their Lands, and in a legal manner to support the same. Thereupon, Coll°. Dyer, Doct^r Johnson, and Mr. Strong, are duly appointed and Commissioned to treat with your Honor and the Agent or Agents of the Proprietaries of Pennsilvania, on that Subject. And further, to Consult and agree with you upon such Measures as shall tend to preserve Peace and good order among the Inhabitants on such Lands, and prevent mutual Violence and Contention during the time the Boundaries between this Colony and your Province remain undetermined.

"We do not doubt the Complyance of the Proprietaries of Pennsylvania to a legal and constitutional decision of the Case in question, nor your readiness to agree on proper Measures to preserve Peace and Good Order in the mean time.

"I am with great Truth and Regard, Sir,

"Your most Obedient and Humble Servant,

"JON^TH. TRUMBULL.

"The Honorable JOHN PENN, Esquire."

The said Committee then produced to the Governor Copies of two Resolves, and of an Act of the General Assembly of Connecticut, respecting their Claim to Lands within the Bounds of this Province, which were severally read in their Order, and are as follows, Viz^t :

The Board, after a Conferrence with the Committee, and on a due Consideration of the several Matters contained in the said Resolves and act of Assembly, acquainted the Committee as their Opinion, that it was necessary for them to lay before the Governor the precise extent of their Claim in Writing, to Lands within the Bounds of this Province, before the Board Could properly give any answer to their Proposals, to which the Committee made no Objection, but desired that this requisition should likewise be made to them in Writing, which was agreed to; Whereupon, after the Committee had withdrawn, the following Letter was prepared at the Table, and sent by the Governor to the Committee, Viz$^{t.}$:

"PHILADELPHIA, the 15th of December, 1773.

"Gentlemen:

"I have taken into consideration the Letter you this day delivered me from Governor Trumbull, and the act of Assembly and the Several Resolves of the Governor and Assembly of the Colony of Connecticut, respecting their Claim of Lands within the Province of Pennsylvania, and appointing You a Committee, with power to treat with me and the Proprietary Agents, respecting an amicable Settlement of That Claim.

"As a step previous to my treating with you on this Subject, it appears to me necessary and proper that you should lay before me in *Writing*, the precise extent of their Claim, which I request you will favor me with as soon as possible, and am, Gentlemen,

"Your most obedient Humble Servant,

"JOHN PENN.

"To ELIPHALET DYER, WILLIAM SAMUEL JOHNSON, and JEDEDIAH STRONG, Esq$^{rs.}$, a Committee from the Collony of Connecticut."

At a Council held at Philadelphia, on Friday the 17th of December, 1773.

PRESENT:

The Honourable JOHN PENN, Esq$^{r.}$ Governor.

Benjamin Chew,
James Tilghman,
Edward Shippen, jun$^{r.}$ } Esquires.

The Governor received a Letter yesterday from the Connecticut Commissioners, which follows in these Words, Viz$^{t.}$:

"PHILADELPHIA, 15th December, 1773.

"S$^{r.}$

"We beg leave to return your Honor our sincere thanks for the early attention you have been pleased to give to the Papers we had the Honor to lay before you this Morning.

"From those Papers it is apparent that we are directed to treat only upon the Claims therein mentioned, and are to negociate rather a mode of obtaining an amicable Settlement of the Controversy between the Colony and the Proprietaries, than an Actual and precise Settlement of the line and Boundaries between them. We therefore apprehend that the Claim on the part of the Colony of Connecticut is, to the purpose of the Negociation with which we are Charged, sufficiently designated in the Acts of Assembly now before you. But as we bring with us the most sincere Disposition to effect, if Possible, an Amicable Settlement of this Controversy, that we may give every Facility in our Power towards the Accomplishment of so very desirable an Object, we will further mention to you that the Title to the Lands in Question, on the Part of the Colony of Connecticut, is principally founded upon the Royal Charter to the Governor and Company of that Collony, from his late Majesty, King Charles the Second, dated at Westminster, Anno. 1662. The Boundaries of which are thus Expressed, Viz^{t}: "All that part of our Dominions in New England, in America, bounden on the East by Narraganset River, commonly called Narraganset Bay, where the said River falleth into the Sea, and on the North by the line of the Massechusets Plantation, and on the South by the Sea, and in Longitude as the line of the Massechusetts Collony, running from East to West, That is to say, from the said Narraganset Bay on the East, to the South Sea on the West, with the Islands thereunto joining, together with all firm Lands, &c., which Limits and Boundaries do include a Considerable part of the Lands afterwards Granted by the Crown to Sir William Penn in 1681, and which Constitute a part of the Province of Pennsylvania, as now claimed by the Proprietaries, but what part, in Certain of those Lands, are so contained within the Limits of the Pryor Patent to Connecticut, can be known only by actually runing and ascertaining the Lines of that Patent, which we conceive will be best done by Commissioners mutually appointed by the Colony and the Honorable Proprietaries; and we, on the part or the Colony, are now ready to agree to such Commissioners, who shall be fully authorized to execute the same in the most effectual manner, as soon as possible. We are at the same time sensible that a doubt may arise in what direction the Southern Line of the Patent of Connecticut shall cross the Patent to Sir William Penn, whether agreeable to the ancient Boundary of New England, at the 40th degree of North Lattitude, according to the Course of the Sea or Sound, upon which the Grant to Connecticut is in part bounded, Viz^{t}, in a Course nearly W. S. W., or according to the Course of the Southern line of the Province of the Massechusets Bay, which is the Northern line of Connecticut, and is nearly East and West, which we conceive may well be left to be discussed before such Commissioners, and by them decided, in which we will acquiesce, unless by mutual concessions, to which, for the sake of

Peace, we shall not be averse, we can agree to fix precisely the course by which that line shall be run.

"We are, with great Truth and Esteem, Sir,
"your most Obedient and Most Humble Servant,
"ELIPHT DYER,
"WM. SAMEL. JOHNSON,
"J. STRONG,
"Commissioners for the Colony of Connecticut.
"Honble. JOHN PENN, Esqr."

The Members of Council Present, to whom the above Letter has been referred for Consideration, now laid before the Governor the Draught of a Letter they had prepared, and which they thought adviseable for the Governor to send to the said Commissioners, in answer to their Letter above mentioned, and the Governor approving of the said Answer, immediately sent the same to the Commissioners, and it follows in these Words, Vizt.:

"PHILADELPHIA, ye 17th of December, 1773.

"Gentlemen:

"I yesterday received your favor in answer to my Requisition that you would lay before me the precise Extent of the Claim of the Colony of Connecticut, But must own I am much disappointed to find that, instead of Complying with my Request, you have only in General refered me to the Expressions of your Charter of 1662, which are by no means determinate, and you yourselves admit to be of doubtful Interpretation.

"The uncertainty in the Bounds and Extent of that Charter, as well as of other of the New England Grants, occasioned a Royal Commission to issue so early as within two years after the Date of your Charter, for the declared Purpose of settling the Bounds and Limits of their Several Charters and Jurisdiction. In Consequence of which a North North-West line drawn from Mamoroneck River to the line of the Massechusets, was declared and expressly fixed and Established to be the Western Bounds of the Colony of Connecticut, which Boundary was then Solemnly assented to, ratified, and Confirmed by the Governor and Commissioners of the Colony.

"After this Settlement of your Western Boundary, the Grant of Pennsylvania was made to William Penn. The Duke of York also relinquishing his Claim to the Lands comprized therein, and it was never understood by the Crown, at that time, nor by the Grantee, William Penn, nor by any other persons, for near eighty years, so far as I have heard, that the Grant of Pennsylvania any way intrenched upon or approached near any of the New England Grants, till the late Claim was set up on the Part of your Collony.

"Being Clearly of Opinion, for these and many other Reasons, that the present Claim made by your Government of any Lands Westward of the Province of New York, is without the least Foun-

dation, you cannot reasonably expect that I should accept of the Proposal of "Settling and ascertaining the Boundaries between the Collony of Connecticut and this Province," or enter with you into a Negotiation on that Subject, nor can I with any propriety agree to the alternative proposed in the act of Assembly of your Colony which you have laid before me, vizt: "that if we cannot agree amicably to ascertain those Boundaries, then to join in an application to his Majesty to appoint Commissioners for that Purpose, because in either of these cases I should admit a Claim on the part of your Colony, which the Proprietaries of Pennsylvania are well advised, cannot be Supported without giving your Charter a Construction different from what has been determined to be the sense of other Charters of the like kind, nor without allowing your Limits to extend far beyond those heretofore fixed by the Royal Authority.

"But if your Colony, Gentlemen, should still apprehend they have a just Claim to Lands within the Grant of this Province, and should adhere to their late resolve to assert and support it, you may be assured that the Proprietaries of Pennsylvania most ardently wish to have the matter brought to the most speedy Issue possible, and that upon a Petition to be preferred by your Government to his Majesty in Council, which it is apprehended is the Proper Constitutional Tribunal to apply to on this Occasion, they will appear on the first notice and answer such petition, and give all the Dispatch in their power to bring the Matter to a Final Decission.

"It gives me the greatest Concern when I call to mind the Repeated Outrages which have been committed by a number of lawless people from your Colony, who without any Warrant or authority from the Government of Connecticut, have for some years past forcibly, and in an Hostile Manner, dispossessed the Tenants who were settled on Lands under Warrants and by the Licence of the Proprietaries of Pennsylvania.

"I shall however, be ready to hear any reasonable proposals you may have to offer for putting an end to such Violences, and restore the Public Tranquility in future, and shall chearfully Join with you in any proper and Equitable Measures to effect so valuable a Purpose.

"I am, Gentlemen, your most Obedient
"Humble Servant,
"JOHN PENN.

"To Eliphalet Dyer, William Samuel Johnson, and Jededia Strong, Esquires, a Committee from the Collony of Connecticut."

At a Council held on Saturday the 18th December, 1773.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

Benjamin Chew, Edward Shippen, Esqr., } Esquires.
James Tilghman,

The Connecticut Commissioners having requested a Conferrence with the Governor and Council on the several matters contained in the Governor's Letter, they attended at the Board for that purpurpose, on notice being sent them by the Governor.

A Conferrence was accordingly held, during which several expedients were proposed on both sides for preserving Peace and good Order among the Inhabitants of that part of the Susquehanna Lands which is included in the Claim now set up by the Colony of Connecticut, till the matter in dispute between the Proprietaries of Pennsylvania and the said Collony shall receive a final determination before the King in Council.

But as the Board could not think themselves Justifiable in adopting the Measures proposed by the Commissioners in the Course of the Conference, it was agreed that the Commissioners should give an answer to the Governor's Letter, in which they might make any further Proposals they thought proper respecting the Preservation of good Order among the settlers on the Lands in Contest; and that the Governor would take the same into Consideration, and in case he could not agree to such Proposals, send them an answer thereto, pointing out any other Method which he might judge more expedient; Whereupon the Commissioners withdrew.

At a Council held at Philadelphia, on Tuesday 21st December, 1773.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

James Hamilton, Andrew Allen,
Richard Peters, Edward Shippen, jun^r., } Esq^rs.
James Tilghman,

The several Letters which have passed between the Governor and the Commissioners from Connecticut, as also Governor Trumbull's Letter, and Resolves and act of Assembly of that Colony, were again severally read in their Order; and then the Governor laid before the Board a Letter he received yesterday from those Commissioners, which was also read, and follows in these words, Viz^t:

"PHILADELPHIA, 18th December, 1773.

"Sir:

"We are extreamly sorry to find, by your favor of yesterday, That all Hopes of an amicable settlement of the Controversy between the Colony, of Connecticut and the Proprietaries of Pennsylvania are at an end; that you are of opinion that you cannot, with any propriety, enter into any Negotiation with us for that Purpose, nor even accept the Alternative proposed in the act of Assembly of our Colony of a joint application to his Majesty to appoint Commissioners to decide it.

"That his Majesty in Council is the Constitutional Tribunal by which we must be finally decided, in all disputes of this Nature, we agree, and are persuaded that all its decisions will ever be founded in the strictest Impartiallity and Justice, yet it must be admitted that it is a Tribunal which, from its distance, Constitution, and other Circumstances, is attended always with great expence, frequently with much delay, to the Suitors; We cannot, therefore, but be of opinion, that it would have been more eligible for the Collony and the Proprietaries to have settled this dispute by agreement between themselves, or by referrence to Gentlemen of Judgement and Impartiallity in the Neighbouring Colonies, who might have immediately decided it upon the Spot with little Expence, or, even if it was judged more expedient to apply to his Majesty in Council, we apprehend much Delay and expence might have been saved, and a more conclusive Decision obtained by a joint Application. The reasons which you have been pleased to mention as the Ground of your Opinion upon this Subject do not appear to us to be conclusive; There is a clear distinction between a Claim and a Right, and however ill founded the claim of the Collony may by you be imagined to be, yet that it is an existing claim cannot be denied, And how the Admission of such Claim, so far as to negociate upon it, to attempt to settle it, or to join in an application to his Majesty for an adjudication upon it, can in any respect prejudice the Right, we cannot comprehend; The Colony and the Proprietaries both claim the same Country; the right to that Country can be in but one of them. The Claim on both sides must be admitted, the Right alone will be disputed. It can, therefore, prejudice neither party, or must effect both equally, to submit in any proper manner that Right to be discussed and adjudicated.

"We apprehend that your Honor is much mistaken in imagining that the settlement of the line between the Colony of Connecticut and the Grant to the Duke of York, in 1664, was in any degree occasioned by the Uncertainty of the Bounds and extent of the Charter to Connecticut, and the other New England Grants. That Determination had another and a very Different Foundation, viz.: The Possession on the part of the Dutch of that Territory, which was afterwards Granted to the Duke of York, a Possession which occasioned its being excepted out of the Original Grant to the Coun-

cil of Plymouth, and in fact prevented its being ever vested in the Crown untill the Conquest thereof by Col. Nichols, in August, 1664; as that Territory therefore was not in 1662, in the Crown to Grant, no part of it could pass by the Patent to Connecticut, and it became absolutely necessary after the Conquest and the Grant to the Duke of York, to ascertain what extent of Territory had been so possessed by the Dutch and excepted out of the antecedent Grants from the Crown, and accordingly, the Commission under which that Settlement was made, was not merely a Commission to settle Boundaries, but an Authority to hear and receive, and to examine and determine, all complaints and appeals, in all causes and matters, as well Millitary as criminal and civil, and proceed in all things for the Providing for and settling the Peace and Security of the said Country; and was applyed upon that Occasion Only to the Determination of what part of the Country the Duke of York was entituled to in virtue of the Dutch Possession; it is Obvious, therefore, both from the occasion and the Spirit of that agreement and Settlement, that it could not extend to or affect any other Country than that Claimed by the Duke of York, which was expressly Limited in Point of Western Extension by the River Delaware, and Consequently, can be of no use to the Proprietaries of Pennsylvania, who claim not under the Duke of York, but immediately from the Crown, by their Grant in 1681. The Country now Claimed by the Proprietaries under that Grant, within the Boundaries of the Colony of Connecticut, was in 1662, undoubtedly in the Crown, and Consequently, passed by the Royal Grant to the Governor and Company of that Colony, and clearly could not be re-vested in the Crown by a Settlement in 1664 (to which the Crown was not Party) with the D. of York, who was but a Private Subject; and not having been re-vested in the Crown, it is impossible it could pass by the Grant to William Penn, in 1681.

"That Settlement, therefore, we conceive, Ought to have no Weight in Your Deliberations upon this Subject, much less to form an Objection against your entering into a Settlement of the Controversy with Connecticut, in the most expeditious and least expensive Mode that can be devised.

"Of the same nature is the doubt which you imagine we admit with respect to the Course in which the Southern Line of the Grant to Connecticut shall pass the Grant to William Penn. Though we chose to leave that Question open to Discussion untill a Negotiation was actually entered upon, yet when all parts of the Grant and other Circumstances of the case are Considered, we apprehend very little doubt can remain with respect to it. Indeed, we imagine your Honor could not reasonably expect from us a different Answer than that which was given to the Requisition made us; as we had received no Intimation from you of any Dipositions towards an amicable Settlement of the Controversy, we apprehend You could not expect but that we should save to the Colony, whom we have the

Honor to represent, all the advantage of the most favourable Construction of their Grant, in case they must be put to an adversary Suit, and a legal decision of the Controversy. But to the purpose of the Negotiation we proposed, the most narrow Construction of the Grant to Connecticut was, we apprehend, abundantly sufficient, since a line parrallell to the Massechusetts Line, drawn from the South-western Boundary of Connecticut with the Province of New York, will include at least one degree in Width of the Lands claimed by the Proprietaries as part of this Province, an Object of Sufficient Importance to Merit your attention, and to be the Ground of such a Negotiation as we had the Honor to propose to you.

"However, as your Sentiments are decisive upon this subject, We beg pardon for giving you further Trouble upon it, which we should not have done, but to evince to you with how much Reluctance we resign the Hopes we had entertained of an amicable Settlement of the Controversy.

"It is, however, with very great Satisfaction, that we receive the Intimations you are pleased to give us of your wishes to preserve peace among the Inhabitants settled under the different Claims, and your readiness to receive Proposals tending to that beneficial Purpose.

"It is with equal concern that we also recollect the mutual Violences which have been committed upon the Contested Lands. We will not take upon us absolutely to Justify, or to condemn either party. Give us leave only to remark, that as the Settlers from Connecticut and other Colonies, (for but a part of them were from that Colony), ent'red under the Susquehanna Company, who imagined themselves to have also the Connecticut Title, with a declared purpose of gaining an actual Possession, without which they were advised they could not advantageously try their Title; they entered under the Indea of Right, and in Point of Intention, may be excused. But as the Colony has now taken up the matter, and expressly asserted their Claim, That the like Mischiefs may in future be prevented, and Peace and good Order preserved in that part of the Country, We propose that, without prejudice to the Rights of the Colony, or the Proprietors, a Temporary line of Jurisdiction be agreed upon, which neither Party shall exceed, and within which Each respectively may exercise such power and authorities as they judge proper, without Interruption or Control; And as the Settlement, under the Proprietaries are Chiefly upon the western, and those under Connecticut principally upon the Eastern Branch of the Susquehanna River, We apprehend such Temporary line may be so drawn, as that Jurisdiction may be exercised by each, over their respective Settlers, without much Inconvenience. If this Idea shall

meet with your Honor's approbation, we will immediately proceed to delineate and fix such line with Precision.

"And are, with much Respect and Esteem,
"Your Honor's most Obedient,
"Humble Servants,
"ELIPHT DYER,
"WM. SAMEL. JOHNSON,
"JEDEDIAH STRONG,
"Commissioners."

"Hon'ble JOHN PENN, Esquire."

The Board taking the said Letter into Consideration, and having Conferred some time thereon, appointed Mr. Tilghman and Mr. Shippen a Committee to prepare an answer to it, agreeable to the Sentiments of the Board, and to lay the same before the Board to-morrow for their Consideration.

At a Council held at Philadelphia, on Wednesday 22d December, 1773.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

James Hamilton, Andrew Allen,
Richard Peters, Edward Shippen, Junr, } Esquires.
James Tilghman,

The Members of Council appointed to prepare an answer to the Last Letter from the Connecticut Commissioners, laid a Draught of a Letter before the Board, which was read and Considered, and some alterations being thought necessary to be made in that part of the Letter which respects the Proposal for establishing Peace and order amongst the Settlers on the Land in Dispute, it was agreed that the same should be made, and laid before the Board to-morrow morning for Consideration.

The Records of the Conviction of Alexander Buchanan for Burglary, and Thomas Wilson, alias John Hurrin, alias John Green, for Murder, at the last Court of Oyer and Terminer, and General Goal Delivery held at Easton, for the County of Northampton, on the 17th day of December last, before John Lawrence and Thomas Willing, Esquires, were laid before the Board, and Considered, and there being no Circumstances the least favorable in the Case of either of the said Criminals reported to the Governor by the Judge of the said Court, it was the opinion of the Board that the Sentences of the said Court against them should be executed on Saturday the first day of January next, and Warrants for that purpose were ordered to be issued accordingly.

At a Council held at Philadelphia, on Thursday 23d December, 1773.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

James Hamilton, Andrew Allen,
Richard Peters, Edward Shippen, junr } Esquires.
James Tilghman,

The Draught of the Letter preposed to be sent by the Governor, in answer to the last Letter from the Connecticut Commissioners, with the alterations agreed to be made thereto, was laid before the Board; and being approved, was immediately transcribed and sent to the said Commissioners, which Letter follows in these words, Viz^{t}:

"PHILADELPHIA, 23d Decem'r, 1773.

"Gentlemen:

"I do assure you I did not decline your Proposal of an amicable Settlement of the Controversy between your Colony and the Proprietarys of Pennsylvania, or of a joint application to the Crown to appoint Commissioners to settle Boundaries between them, with a view either of protracting the time or enhanceing the Expence of a Decision; nor can I be of Opinion that an adversary Suit in which both sides are desirous of a Speedy Conclusion, can be attended with any extraordinary Delay or Expence.

"In the Case of Commissioners to settle Boundaries, they must probably be chosen in different Colonies, and their Meeting and attendance would be both difficult to obtain and in itself very expensive; and perhaps after much time spent in bringing the matter to a Period, the Determination might not be satisfactory to all parties, and only prove the foundation of an appeal to His Majesty in Council.

"Had I been inclined to an amicable Settlement of the Matter, I was not at Liberty, being concerned, as I told you in our Conference of Saturday last, only one-fourth of the Province, and being without Powers from the other Proprietor, who could not foresee, when I left England, that the Colony of Connecticut would have taken up this dispute, or adopted a Claim which they had hitherto declined to meddle with.

"I am Sorry to find myself misapprehended when I speak of the admission of a Claim, which I meant to guard against; I well know there is a clear distinction between a bare Claim and a Right, but a just Claim and a Right I take to be the same Idea; and upon the whole of my Expression, I think I must be understood to mean the admission of a just Claim; and as in my Opinion, the Colony of Connecticut, in its Western extent, can never be advanced beyond the Eastern Limits of New York, I conceived there would have been

an impropriety in my agreeing to a joint application for Commissioners to Settle Boundaries, that carrying with it an implied Acknowledgement that your Claim ought to extend so far as to join upon, or interfere with the Province of Pennsylvania.

"You apprehend I was mistaken in imagining that the Settlement of the line between the Colony of Connecticut and the Grant to the Duke of York, was in any degree occasioned by the uncertainty of the Bounds and extent of the Charter of Connecticut, and the other New England Grants, and attempt to Explain the Motives of the Settlement, and then you proceed in a Course of Reasoning upon the Merits of your Claim.

"I am still of opinion that a supposed uncertainty in the Bounds of the New England Grants, is clearly to be inferred from the Terms of the Commission under which the Settlement of 1664 was made; but I do not conceive it at all material at this time to enter into any Debate upon the Inducements to the making the Settlements of 1664, or the extent of your Charter, or that of the Plymouth Company, or what Construction may at this time of Day be put upon the Terms of them. The mode of Decision I consider as our Principle object, not the Merits of the Dispute.

"Were it expedient or proper on this occasion to have entered into a Discussion of the Right, I should not content myself with pointing out the Settlement of 1664, conclusive as I esteem it to be; the several Purchases made from the Indians by the Proprietaries, without any Objections on the Part of your Colony; The sales made by them, and the Settlement and long Occupation of the Purchases under those Sales without opposition; the Impracticability of exerciseing a Jurisdiction over the vast Territory which lies between the Atlantic Ocean and the South Sea; The Interjacency of two Provinces between your Seat of Goverment and the places to which you would now extend your Jurisdiction, together with the acquiescence of Your Colony under the Grant of Pennsylvania, ever since the year 1681 to the Present time, and many other Transactions and Circumstances attending the Case, afford abundant Matter for insuperable Objections to your Claim, and no doubt will be urged before the Tribunal which is to decide the Controversy between us.

"I am now to consider your proposed Method of establishing Peace and good order, by drawing a Temporary Line of Jurisdiction; and to this too there appear to me objections which cannot be got over.

"The Legislature of this Province have erected that Part of the Country where the Connecticut People are Settled into a County. There exists a Legal Jurisdiction, which it is not in my power to restrain, much less can I transfer it to another Government. Great quantities of Land have been Granted under this Province before your Government took up this matter, which will fall within any Line that can be devised, and it is not in my Power to Prohibit the

Purchasers from Settling them, nor can I, with Justice, take any steps to Restrain them.

"These are difficulties which unavoidably obstruct Your Proposal.

"Moreover, Gentlemen, you are in the Prosecution of a Claim which has long lain Dormant, and Surely that Claim ought to be established by proper Authority, before you can, with any Degree of Propriety, think of extending your Jurisdiction over a Country which hath been Legally Possessed, and where the regular Jurisdiction of another Goverment hath taken place long before your Colony had concluded to prosecute their claim to it.

"As I cannot, for the Reasons assigned, accede to your proposal of a Temporary line of Jurisdiction, so neither can I forsee any means that appear to me likely to effectuate Peace and order, and to prevent for the future such Violent Outrages as have been lately perpetrated in that part of the Country where the People of Connecticut are now settled, but their entirely vacuating the Lands in their Possession, untill a legal Decision of our Controversy may be obtained.

"And when it is considered that this Possession was effected by armed Bodies of People in an hostile Manner, expelling from their lawful Possessions those who had purchased their Lands, and Settled them under the Sanction of this Government, and that this was done without any Warrant or authority from the Collony of Connecticut, nay, long before that Colony had ever avowed a Claim to those Lands, I cannot but think it highly reasonable that such a tortious and unjustifiable Possession should be relinquished by the Colony at a time when they are pursuing a Claim on the Principals of Right, and in a legal way.

"Indeed, I cannot conceive, from the Measures that have been adopted by the Colony of Connecticut since they have made their Claim, that they can wish to avail themselves of a Possession extorted by such lawless and Violent Proceedings; or that they can imagine themselves under the least Obligation to support or abet a Set of People who have been capable of acting in so outrageous and unjustifiable a manner. I am, therefore, induced to Hope, Gentlemen, that when this Matter comes to be coolly considered by your Government, if their Views are like mine, directed to a steady and Peacable Dicision of this Dispute, they will use all possible means to withdraw the People thus settled in the most expeditious and effectual Manner.

"I observe, Gentlemen, you have not thought proper to say any thing in answer to that part of my Letter where I propose you should exhibit a Petition to His Majesty, and that, on the first Notice, the Proprietors would appear and answer such Petition, and expedite a Decision. I therefore think it necessary to inform you that, in case there should be any Delay on your part to exhibit such Petition, as your Colony have at length adopted, a Claim which they

have always heretofore declined, the Proprietaries of Pennsylvania will immediately make their application to his Majesty to take the Matter under his Royal Consideration. I am, Gentlemen,

"Your most Obedient Humble Servant,

"JOHN PENN.

"To ELIPHALET DYER, WILLIAM SAMUEL JOHNSON, and JEDEDIAH STRONG, Esquires, a Committee from the Colony of Connecticut."

Saturday 25th December, 1773.

MEMORANDUM.

The Governor this day received a Letter from Coll°. Dyer, Dr Johnson, and Mr. Strong, the Connecticut Commissioners, dated the 24th Instant, which was ordered to be entered in the Council Books, and is as follows, Viz^t^:

"PHILADELPHIA, 24th December, 1773.

"Sir:

"It is with great satisfaction that we receive the assurances contained in your favor of Yesterday, that you do not decline the Proposals we have made, of an amicable Settlement of the Controversy between the Colony of Connecticut and the Proprietors of Pennsylvania, or a joint application to the Crown to appoint Commissioners to decide it, with a view of protracting the time or enhancing the expence of a Decision. We can therefore, only lament that you see this affair in a very different Light from that in which it presents itself to our minds, as notwithstanding the additional Observations you have made, We are still clearly of Opinion that much time, Expence, and Trouble, might have been saved by a reference to Gentlemen in America, or a joint application to his Majesty, since with respect to the former, We do not apprehend that his Majesty will Determine a Controversy of this Magnitude and importance without first issuing a Commission to hear and examine in America, reserving an appeal to himself in Council, so that the whole expence and delay of soliciting such Commission, and of the subsequent appeal, (which must be very Great), would have been saved in the mode we proposed, and that both the Colony and the Proprietaries would have acquiesced in the Decision of such Referees, We cannot Doubt. In Point of Honor, neither of them could have receded from the Determination of impartial Judges of their own appointing; and with respect to the latter, We imagine we foresee Difficulties (unnecessary now to be mentioned), of Great and real Weight, which will attend an adversary Suit by either party, which would have been totally Obviated by a joint application.

"Your want of full powers from the other Proprietaries of the Province, we acknowledge, is a real Difficulty, which must have prevented an immediate Settlement of the Controversy. But were your desires to effectuate such a Settlement as ardent as those with which we are impressed, such is now the Facility of Communication between this Country and Great Britain, that the Delay which would attend the obtaining of full Powers would be of very short duration.

"We do not yet see that the admission of our Claim, whether just or imaginary, so far as to join in an Application to his Majesty for Commissioners to decide it, could in any Respect Prejudice the Proprietaries, and the Impropriety, or the implied acknowledgment you apprehend it would carry with it, seem to be founded in too narrow an Idea of the Powers to be applied for. We do not apprehend that the Commission to be issued upon this Occasion, should be simply to settle Boundaries, tho' this too must be included, but a Commission Delegating a Complete jurisdiction to hear and adjudge the whole Controversy, in what ever Light it may present itself. To this purpose it is clearly enough, that the Colony claim as their Right a large Country which the Proprietors conceive belongs to them.

"In the Idea you Inculcate, That it is not at all material at this time to enter into the Merits of the Dispute, any further than Respects the most eligible mode of deciding it, We very fully Concur. If we have done more, we very freely acknowledge it was totally improper, and we beg leave to assure you, that we should have said Nothing upon the Merits of our Claim, had not the Settlement in 1664, seemed to have been understood by you as being of so decisive a Nature, as absolutely to preclude all further Controversy, and been stated in your Letter as a Conclusive Objection against your entering into any Negotiation upon the Subject. It was therefore necessary for us, if we hoped to succeed in any measure on the Negotiation with which we were charged, if Possible to remove that Objection. In this Light, and in this purpose only, it was that we took the Liberty to Submit to your Consideration the short Hints we threw out upon that Subject, sensible that the full discussion of it must be referred to another time and another Occasion, before a proper Forum.

"It is for the like reason only that we will not upon this Occasion make any Strictures upon the other Objections you have hinted at, to the Connecticut Title, To all which the most satisfactory answers may be given.

"It were easy to observe that the purchases from the Indians by the Proprietaries, and the sales by them made, were they more ancient than they are, could add no strength to the Proprietary Title, since the Right of Pre-emption of the natives was by the Royal Grant exclusively vested in the Colony of Connecticut, and consequently, those purchases and Sales were equally without any legal

foundation. They could neither acquire any right by the one, or Transfer any Title by the other. But that both the one and the other have been too recent to be the Ground of any argument, since we are advised that the Proprietaries made no purchase of the Natives of any Consequence to this dispute, pryor to the treaty at Fort Stanwix.

"That the actual Occupation under the Connecticut Title of the Contested Lands, was as early, and in some parts of the Country Prior to that under the Proprietaries; That the imagined Impractability of exercising Jurisdiction by the Colony, over so extensive a Country, is a Question of Policy, not an objection to the Right, and can have no more weight against the Colony Title than the Impropriety and ill policy of Vesting so Large a Territory as that of Pennsylvania in a single subject, will have against that of the Proprietaries, and are considerations both equally Improper to be mentioned on either side; That of the same Nature is the supposed Difficulty of the Intervention of another Province between our seat of Government and the Country over which we thus Claim Jurisdiction, which is also a Question of Policy, and yet has, in fact, in one instance at least, in America, been found to be attended with no difficulty of any Consequence; That the Acquiescence of the Colony under the Grant of Pennsylvania is of no more force than the Acquiescence of the Proprietaries under the Grant to Connecticut, and can have little weight on either side, since till very lately, the Indians refused to give up the Country to either, and neither can be considered as having suffered their claim to have lain culpably Dormant, under the Particular Circumstances of the case, and the situation of the Country, and especially that this cannot be imputed to Connecticut, whose Grant was expressly for the Purpose of Settlement, but without Limitation of Time, and they had not, till within a very few years past, settled the Country to the Eastward of New York, and consequently could not, upon any proper Grounds, sooner pursue their claim, or attend to the actual Settlement of this Western part of the Colony; But these and many other Circumstances and Considerations, tending to elucidate and to establish the claim of the Colony beyond all Contradiction, We will make no mention of, as proper only to be explained and enforced before a Tribunal Competent to the Determination of the whole Controversy.

"But as the application to such a Tribunal, whether on the part of the Colony, or, as you propose, by the Proprietaries, (to which we have no objection,) will necessarily take up much time, we are extreamly sorry to find that you cannot agree, in the mean Time, to the Methods we have proposed for preserving peace and Good Order among the Inhabitants in that part of the Country, neither to that of a Personal Distinction, for the purpose of Jurisdiction of the Claimants under the several Titles, by entering their names in some proper office, which we offered at the Conference with you

on Saturday last; nor that of a Temporary line of Jurisdiction, which we proposed in our Paper of the 18th Instant; and that nothing Less will satisfie you than a Total evacuation of the Country by the Settlers under Connecticut.

"This is a measure which we do not think ourselves authorized by the Colony to Consent to, and which we have no Imagination that they will adopt.

"We consider, therefore, our Negociation with you as at an End, and have only to Console ourselves that, whatever happens, we have on our part faithfully endeavoured not only to terminate the Controversy with all Possible Dispatch, but also to provide for the quiet of the Country while the Dispute shall be depending. Give us leave, however, at parting, to remark, in answer to the reasons you mention for not acceding to our Proposals, that we never imagined that it was in your power, by your own authority, to Controul the Jurisdiction erected in that part of the Country, or to Prohibit or restrain the Purchasers from Settling, under the Grants Actually made to them under this Province, but we did Imagine, and of this we have yet no Doubt, that the Legislature of the Colony, of which you are a part, would, at your desire, have added the Sanction of their authority to any agreement you had thought Proper to have come into for preserving the Peace of the People; your want of Power in your personal Capacity, or as one of the Proprietaries of the Province, can therefore, with us form no Objection why you should not have accepted one or the other of our Proposals, since we are Perswaded the Assembly of the Province would have given every Aid in their Power to so salutary a Design.

"It is with much concern that we find your attention so strongly turned Towards the Proceedings of the Susquehanna Company, in settling under the Connecticut Title, and that you have conceived so ill an Opinion of those Proceedings.

"This is a Subject which we were not instructed to Discuss, and which we waived entering into, particularly in our former papers; but since you recall our attention to it in the manner you have done, We cannot forbear observing to you that the primary Possession of the People under Connecticut, was taken at a time when the Country was entirely a Wilderness, under an Indian Purchase, approved of by the Colony, and made under their title of Pre-emption from the Crown, when there was no person upon the Land, much less any Body holding under the Proprietaries, and of Course could not be attended with any Force or Violence. This Possession was interrupted by the Indians of the Far Nations in open War, and again without force resumed in 1762, And was only suspended while the Matter could be laid before his Majesty, in Consequence of a Letter from the Earl of Egremont, one of his Majesty's principal Secretaries of State, founded upon representations made by the Governor of this Province, transmitted by Sr Jeffery Amherst, Commander-in-Chief of his Majesty's forces in North America,

Suggesting that the Settlement was disagreeable to the Indians, and might Occasion an Indian War, and the Devastation of the Frontiers. When that Representation to his Majesty had been made, and all apprehensions of Displeasure from the Indians were effectually removed by their Resignation of the Country at the Treaty of Fort Stanwix, they apprehended they might very Justifiably resume their Possessions, which they attempted to do in a Peaceable manner, but were, as we are advised, interrupted and opposed by Persons claiming under the Proprietaries. Then it was that Violence Commenced and force was opposed to Force, on the one Hand to regain, on the other to prevent, an actual Occupation of the Lands; on either side perhaps, justifiable in the Degree, but on both founded on a Real Idea of Right, and therefore not Meriting the Severe Construction that have been put upon it, or the harsh Epithets you have applied to it. When you add to this that they were advised, as in fact they were, that the Could not try their Right or the title of the Colony of Connecticut, but upon the Ground of an actual Possession, which should put the Proprietaries to such an action at Law for the recovery of the Possession, as might bring the title in Question; That the first Possession, and the subsequent struggles to regain and maintain that Possession, were with the avowed Purpose of trying the Title in the most regular and effectual manner; that they expressly Offered both here and in Europe, to submit to and be concluded by a legal Decision; That their situation was such that they could bring no Possessory Action themselves, and that the Proprietaries and those who held under them refused, or at least neglected, to bring any Action of that nature on their Part, but on the Contrary, that those unfortunate people were repeatedly harassed with Criminal Prosecutions, in which the Title could not come in Question, and even in one of those Cases, when a Plea to the Jurisdiction of the Court was offered, it was absolutely rejected, and even with Circumstances of Contempt. When you consider these Circumstances, and many others which are capable of the Clearest Proof, we cannot but hope you will entertain, in future, more favorable Sentiments of the Connecticut Settlers and their former Proceedings, than have been attempted to be impressed upon you by the Representations of Interested Individuals, willing to magnify past services or to procure future favors, and will not be surprized that the Colony should be Content to avail themselves of the Possessions which began, and has been Continued with such views, and under such Circumstances, or be willing to take under their Protection a People who have uniformly Claimed under their Title, and Laboured indefatigably to bring it to a legal Decission.

" We cannot omit, finally, to remind you, that the Established Jurisdiction under this Province, of which you avail yourself, and to which you wish our People to submit, was erected not only after the Possession above referred to, but after it was publickly known

that the General Assembly of Connecticut had directed a state of their claim to be drawn up and laid before learned Council in England for their opinion, and was perhaps precipitated to prevent if Possible the Probable Consequences of that Measure.

"Upon the whole, tho' we thought it our Duty, drawn to it by some expressions in your Letter to mention some of these Circumstances, and the grounds of the former Proceedings in this Matter, yet we wish not to dwell upon them, or to recall to mind Occurrences which can afford no Pleasure in the Review, and will have little influence upon the Case in its present state, since it must finally be determined, not by these incidental Circumstances and Occurrences, but upon great and General Principles. By them we are content to stand or fall, and will be finally decided, when the Cause shall be duly adjudged.

"In the meantime, we beg leave to return you our sincere thanks for the Politeness and Candor you have discovered upon this Occasion, of which, and every other Circumstance of the Present negotiation, We assure you we will make a faithful report to our Constituents, and are with great Esteem and Respect, your Honors

The Governor laid before the Board a Letter from Arthur St. Clair, Esquire, with other Papers inclosed therein to the Secretary, brought last night by Express from Westmoreland County, which were read, and follow in these Words, Vizt:

"Ligonier, January 12th, 1774.

"Sir:

"Late last Night I received from Pittsburgh the inclosed Copy of an Advertisement, which I think of so dangerous a tendency that I have forwarded it by Express, and to prevent all danger of Delay, have sent my own Clerk with it, that if possible I may receive the Governor's Directions before the 25th.

"Should it so happen that Mr. Hoofnagle cannot return in Time, but which he will do if it be possible, what occurs to me is previous to the Day appointed for the Assembly to demand such Security of Mr. Conolly for his good Behaviour as he will not be able to procure, and in Consequence to have him committed; to direct the Sheriff to have a sufficient Number of such as can be depended upon, to protect the Gaol, should a rescue be attempted, which perhaps may be the Case, and to write to the Magistrates, some to attend at the Gaol, and some at Pittsburgh.

"I have wrote to Mr. Wilson for his Council on this Thought, and to know if there is any other legal way of securing Mr. Conolly, and to desire he would suggest any other Method to preserve the Peace of the County, which will certainly be greatly endangered.

"I need not press you to dispatch Mr. Hoofnagle; the shortness of the Time is too evident; suffer me, however, to hint that this Service is foreign to his Engagements with me.

"I am, Sir, your very humble Servant,

"Ar. St. CLAIR.

"Pittsburg, 11th January, 1774.

"Dear Sir:

"Here inclosed you will find a Copy of Doctor Conolly's Advertisement, put up at different parts in this Village, the 6th Instant, several Copies of which were dispersed through the Country at the

same Time. This impudent Piece will, I am much afraid, be the means of creating great Confusion and disturbance in this County, unless proper Steps will be taken to check it in Time.

"The Doctor informs us that Lord Dunmore has made Application to General Haldiman for a Serjeant and 12 Men, to be sent immediately to this Place, in order to support his Authority.

"The Capt. has already appointed six or seven Magistrates, among whom are Major Smallman, John Campbell, and John Gibson; the rest I have not heard their Names yet. There is no doubt but all the Disaffected and Vagabonds that before evaded Law and Justice with so much Art, will now flock in Numbers to the Captain's Standard, if not prevented in Time, the consequence of which we have just Cause to dread. I hope to have the Pleasure of seeing you soon here; I think your Presence is absolutely necessary at this Time.

"I remain, Dear Sir,
"Your most humble Servant,
"ÆNEAS MACKAY.

"ARTHUR St. CLAIR, Esquire.

"P. S. I have been greatly concerned that it has been out of my Power to forward the inclosed to you sooner, owing to the badness of the Weather, and besides, was at a Loss for a Person whose fidelity could be depended upon. Polly joins me in Compliments to Mrs. St. Clair and the Children.

"ÆNs. MACKEY.

"Since I wrote the above, Mr. Espy happened in Company with the new Captain, to whom Espy said he thought the next Court for Westmoreland would be held at Pittsburg; to which the Captain replied in a Rage, Damn him if he would not oppose it; from which, and many other Circumstances of the like kind, it appears how determined he will be to Carry his Designs into Execution. It's thought here that 'tis all Colonel Croghan's Intrigues.

"ÆNs. MACKEY."

Here follows Doctor Conolly's Advertisement:

"WHEREAS, his Excellency John Earl, of Dunmore, Governor-in-Chief and Captain General of the Colony and Dominion of Virginia, and Vice Admiral of the same, has been pleased to nominate and appoint me Captain, Commandant of the Militia of Pittsburgh and its Dependencies, with Instructions to assure His Majesty's Subjects settled on the Western Waters, that having the greatest Regard to their Prosperity and Interest, and convinced from their repeated Memorials of the grievances of which they complain, that he purposes moving to the House of Burgesses the Necessity of erecting a new County, to include Pittsburgh, for the redress of your Complaints, and to take every other Step that may tend to afford you that Justice for which you Sollicit. In order to facilitate

this desirable Circumstance, I hereby require and command all Persons in the Dependency of Pittsburg, to assemble themselves there as a Militia on the 25th Instant, at which Time I shall communicate other Matters for the promotion of public Utility. Given under my Hand, this 1st day of January, 1774.

"JOHN CONOLLY."

The Board taking into Consideration the Commission of the Peace for Westmoreland County, and being of Opinion that an Addition should be made to it, and several Persons living at Pittsburgh and other Parts of the County, being recommended to the Governor for that Purpose, it was agreed that a new Commission be issued, and that the Names of those who were now recommended be inserted therein; and a Commission was accordingly Issued, appointing the following Gentlemen Justices of the Court of General Quarter Sessions of the Peace, and of the County Court of Common Pleas for the said County, vizt:

Robert Hanna,

The Governor laid before the Board a Message from the Assembly, which was read and follows in these words, Viz^{t}:

A Message to the Governor from the Assembly.

"May it please your Honor:

"We have taken into our serious Consideration your Message of the 14th Ult^{o}, the Petition from the Inhabitants of Northumberland County, with the Papers respecting the Claim of Connecticut Government to a Part of Pennsylvania, and as we esteem a due Obedience to the Laws, and the preservation of the Public Peace,

to be of the first Moment to the Happiness and Welfare of the People, we heartily concur in Sentiments with your Honor, that the violent Outrages committed within the known Limits of this Province, by the Emigrants from the Colony of Connecticut, and the Protection they have given to the most atrocious Offenders, in open defiance of the Laws of the Country, call for the particular attention of Government.

"Since we find, from repeated Experience, that the mild Laws of this Province have proved insufficient to restrain these lawless Disturbers of the Peace within any Bounds, we have thought it necessary to prepare and pass a Bill with more severe Penalties, which we hope will, in future, deter them from the Execution of their unwarrantable Designs, and restore the public Tranquility.

"The Hands of Government being thus strengthened, we have no doubt but your Honor will pursue the proper measures to effect so desirable a Purpose; and yet, that we may not seem deficient in our Duty on so extraordinary and alarming an Occasion, which portends the greatest Mischiefs to the Province, and that those ill-disposed People may know that they are acting in Opposition to the weight of the whole Government, we cannot avoid shewing our abhorrence of their Conduct by most earnestly entreating your Honor to give special Directions to the Magistrates, Sheriffs, and other Officers concerned in the Administration of Justice, to be Vigilant and active in the discharge of their Duty within their respective Jurisdictions, and to exert themselves in suppressing all acts of Violence, and every illegal attempt to dispossess the peaceable Inhabitants of this Province, by putting the Laws in strict Execution.

"From the Papers communicated by the Secretary, we are sorry to find the Government of Connecticut has given Countenance to the lawless Possession of these Emigrants, by resolving to prosecute a Claim, not only to Lands they have lately seated themselves on, but to a great Part of the Province. We do not mean, nor is it our Duty, to decide on the Merits of the Dispute between them and the Proprietaries, and yet we cannot help thinking it very extraordinary, that after a total Silence with respect to any Claim, the most perfect acquiesence with the Settlements made under the Royal Grant of this Province for the space of near a Century, and their late refusal, when called on by His Majesty in Council, to prosecute such Claim, if any they had, we should now find them of a sudden adopting so contrary a measure. But what appears to us still more extraordinary, is their declining in their late Negotiations with your Honor, after they have assumed their Claim, to prosecute it on the Merits before His Majesty in Council, the only proper Judicature where this unhappy Controversy can be decided, as this Conduct carries with it the appearance of a Design to delay a matter of which the Peace and Tranquility of both Colonies require an immediate Determination, if not to continue their unjustifiable Proceedings in support of their Claim.

"To prevent the mischievous Effects of this unkind and unneighbourly Disposition in the Government of Connecticut, we beg leave earnestly to request, that your Honor will pursue every effectual measure to call the Claimants before His Majesty in Council, and to bring their claim to an immediate Decision.

"Signed by Order of the House.

"JOSEPH GALLOWAY, *Speaker.*

January 18th, 1774."

The Governor also laid before the Board three Bills entituled as follow, Viz^{t}:

"An Act to prevent Tumults and riotous Assemblies, and for the more speedy and effectual punishing the Rioters."

"An Act to prevent Frauds in the packing and preserving of Shadd and Herring for Exportation."

"An Act for regulating Pedlars, Vendues, &c^{a}."

Which were severally read, and the two first being considered, were ordered to be returned to the House, with a Verbal Message that the Governor agreed to pass the first, and with the following Amendments made to the second, vizt:

Amendments to the Bill entituled "An Act to prevent Frauds in the packing, and preserving of Shadd and Herring for Exportation."

Page 14, Lines 3 & 4. Dele the words [the Assembly appoints another] and instead thereof, insert the words [another shall be appointed by Act of General Assembly].

Page 16, Lines 2 & 3. Fill up the Blank with the Name of [William Milnor].

And the other Bill was referred for further Consideration.

The Consideration of the two following Bills was then resumed, vizt: "An Act for regulating the Fishery in the River Conestogo, in the County of Lancaster."

"An Act to oblige the Trustees and Assignees of Insolvent Debtors to execute their Trusts."

Which being agreed to, were also ordered to be returned to the Assembly, with the Governor's Assent.

At a Council held at Philadelphia, on Thursday 20th January, 1774.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

Richard Peters, Andrew Allen,
Benjamin Chew, Edward Shippen, Junr, } Esquires.
James Tilghman,

The Draught of a Letter of Instructions to Arthur St. Clair, Esquire, was laid before the Board, and some Alterations being

made thereto, it was ordered to be transcribed and dispatched by the Express without Delay, with the new General Commission of the Peace; the said Letter follows in these Words, Viz^{t}:

"PHILADELPHIA, 20th January, 1774.

"Sir:

"I am extreamly obliged to you for your great Attention to the Interest of this Government in transmitting, with so much dispatch and Care, the Intelligence contained in your Letter of the 12th of this Month, to Mr. Secretary Shippen, and the Papers it inclosed.

"I cannot help being greatly surprised to find that Dr. Conolly hath published an Advertisement, asserting his Appointment by Lord Dunmore, Governor of Virginia, to act as Captain Commandant of the Militia of Pittsburgh, and its dependencies; and that, in consequence of such appointment, he had taken upon him to Assemble the People as a Militia, under the Government of Virginia, and to appoint Magistrates of Pittsburg.

"As his Lordship must certainly know that the Jurisdiction of Pennsylvania hath been exercised at Fort Pitt, and in the Neighbourhood of it, for several years past, and hath not given me the least intimation of any Design to extend his Government there, I am much inclined to conclude that Mr. Conolly hath, on this Occation, assumed Powers which Lord Dunmore never gave him. However, I shall, without loss of Time, dispatch a Messenger to Williamsburg, with a Letter to his Lordship, in order to obtain an explanation of this very strange Affair. In the mean Time I would, by all means, have you and the other Magistrates of your County assert the Right of Pennsylvania, and protect the People in every Part within its known Limits, as Fort Pitt most certainly is.

"The Meeting of a number of People under Arms, in Consequence of Mr. Conolly's Summons, will undoubtedly be an Act of a criminal Nature, for which they may be indicted and punished, and comes properly under the Idea of an unlawful Assembly, with an intention to disturb the public Peace; you will, therefore, do right in apprehending him and some of his principal Partizans, after such meeting, and holding them to reasonable Security for their appearance at the next Sessions, to answer for their Conduct.

"I expect the magistrates, on this Occasion, will do their Duty with Spirit, in which they shall be supported by the Government; and if any of Conolly s pretended Magistrates shall presume to proceed judicially within the known Limits of the Province of Pennsylvania, I desire that proper Actions may be commenced by the Party aggrieved, not only against the Officer who executes the Process, but the Magistrate also under whose Authority he shall act; And you may be assured that such actions shall be prosecuted and supported at the Expence of this Goverment.

"In order to strengthen the Hands of the Magistracy on this Occasion, in the course of their Duty, I send you a Copy of the Riot Act made by the present Assembly, which has received my Assent, and will pass the Seals before this comes to your Hands, and extends to all parts of the Province. But, as the execution of it may be attended with the most serious Consequences, the proceedings under it should be conducted with the utmost Caution, and great Care must be taken to extend it only in such Places as are certainly within the Limits of the Province, of which you can make the best Judgment of any body, by the share you had in running a Line to ascertain the Situation of Fort Pitt.

"I have made an Addition to the Bench of your County, and send the Commission for the new Magistrates by this opportunity.

"I would have you get Possession, if you can, of some of Connolly's original advertisments.

"I am, Sir, Your most Obedient, humble Servant,

"JOHN PENN.

"To ARTHUR ST. CLAIR, Esquire,

"at Ligonier, in Westmoreland County."

A member of Council laid before the Board a Draught of a Message proposed to be sent by the Governor to the Assembly, recommending it to them to make further provision for compleating the Fortification carrying on at Mud Island, the money appropriated by the Legislature for that Purpose appearing to be wholly expended; which, being approved, was ordered to be transacted, and carried to the Assembly this afternoon. The said Message follows in these Words, Viz^t:

A Message from the Governor to the Assembly.

"Gentlemen:

"I am to inform you that the Commissioners appointed by the Act of General Assembly, passed in the eleventh Year of his present Majesty's Reign, and empowered with the Consent and Approbation of the Governor to apply and dispose of the Sum of fifteen thousand Pounds theretofore granted, for and towards the building such Fortifications as might be necessary for the Security and Defence of the City of Philadelphia, have lately laid before me their Accompts, by which it appears to me, that they have expended the whole Sum appropriated to that Use in the Purchase of a small Island, about eight miles down the River, most conveniently situated for the Purpose intended, and in constructing a great Part of such a Fortification, as by the Opinion and Advice of a Skilful Engineer, recommended by General Gage, was absolutely necessary to answer the End proposed. You will, on enquiry, find that the Work, so far as it has been executed, is done in a Masterly Manner, and that Materials, to a considerable Value, are on the Spot, ready to continue it as soon as

the Season will admit it. The Plan of the Fort and the Commissioners Accompts will be laid before You, by which you will perceive how much remains to be done, in what Manner the Money has been disposed of, and how much is yet in arrear to the Workmen, &c[a]. From hence you will be enabled to judge what further Sum will be wanting to compleat a Work which has for many years been considered by the Legislature of this Province as an Object of the greatest Importance for the Defence and Protection of this flourishing and populous City against His Majesty's Enemies in Time of War.

"I think it incumbent on me, Gentlemen, to recommend this Matter to your most serious Consideration, and to request that you will make the proper Provision for carrying on and compleating this important Work in the most speedy and effectual Manner, in which you may be assured of my hearty Concurrence.

"JOHN PENN.

"January 20th, 1774."

The Governor laid before the Board the following Answer, which he received last Night from the Assembly, to his Amendments to the Bill for preventing Frauds in the packing and preserving of Shadd and Herring, &c[a]:

Amendment 1st. The House adhere to the Bill.

Amendment 2d. Agreed to by the House.

And the Secretary was Ordered to carry the Bill back to the House, with a Message that the Governor could not recede from his proposed Amendment.

The Board then resumed the Consideration of the four following Bills, Viz[t]:

"An Act to prevent infectious Diseases being brought into this Province."

"An Act for repealing a part of An Act entituled 'An Act for regulating Pedlars, Vendues, &c[a]."

"An Act for confirming the Estate of John Steel, of Carlisle, in the County of Cumberland, in and to a certain Plantation and Tract of Land, in the Township of Middleton, in the County aforesaid, several of the Tittle Deeds whereof are lost."

"A Supplement to the Act entituled 'An Act for raising of County Rates and Levies.'"

And the Secretary was directed to return the said Bills to the Assembly, with a Verbal Message to the House that the Governor gave his Assent to the two first, but could not agree to pass either of the other two.

Friday 21st January, 1774.

MEMORANDUM:

The Assembly having yesterday sent up to the Governor for his Concurrence, A Bill entituled "An Act to increase the Allowance to Members of Assembly, for their attendance on the public Service," and the same being agreed to, was this Day returned to the Assembly with the Governor's Assent.

—

Saturday 23d January, 1774.

A Committee of Assembly waited on the Governor and delivered him a Message in answer to His Honor's Message of the 20th Instant, and a Copy of the Resolves referred to therein, and at the same Time, acquainted the Governor that the House inclined to ad-adjourn on the 12th of September next, and requested him to appoint some Members of Council to assist in comparing the Bills that had been agreed to, with their engrossed Copies, to which the Governor replied, that he had no objection to their proposed Adjournment; that he would appoint some Members of Council to collate the Bills and meet the House in the Council Chamber at one o'Clock, to enact them into Laws.

—

Eodem Die.

Council Chamber, 1 o'Clock, P. M.

The several engrossed Bills being compared with their Originals and found to agree, The Governor sent the Secretary to the House with a Message requiring their attendance, that he might pass the Bills which had received his Assent.

The Speaker then in behalf of the House, presented to the Governor a Certificate for £400 towards his support, for which his Honor returned them his thanks. The Laws are entituled as follows, Viz[t]:

MEMORANDUM, 31st January, 1774.

The Governor, taking into Consideration the Letters and other Papers received from Arthur St. Clair and Æneas M'Kay, Esquires, relating to the proceedings of Dr. Conolly, as they stand upon the Council minutes of the 19th of this month, this day thought proper, with the advice of the Council, to write the following Letter to Lord Dunmore, Governor of Virginia, upon that Subject, viz[t]:

"PHILADELPHIA, 31st January, 1774.

"My Lord,

"A few Days ago I received by Express, from the Western Frontiers of this Province, the inclosed Copy of an Advertisement, lately set up at Pittsburg and divers other Places in that Quarter of the Country, by one John Conolly, who has taken upon him as Captain Commandant of the Militia at Pittsburg, and its dependencies, by virtue of your Lordship's Commission, as he says, to command the People to meet him there as a militia on the 25th Instant, and to exercise Jurisdiction over them, as Settlers under your Government within the Dominion of Virginia.

"A Step so sudden and unexpected could not but be matter of great Surprise to me, as well as very alarming to the Inhabitants of those Parts, who have taken up, improved, and hitherto peaceably enjoyed their Lands under Grants from the Proprietaries of this Province.

"Being, however, too well acquainted with your Lordship's Character, to admit the least Idea that you would countenance a measure injurious to the Rights of the Proprietaries of Pennsylvania, or which might have a tendency to raise Disturbances within their Province, I flatter myself that the laying before you a short

state of the Limits of this Province, so far as regards the present Question, and acquainting you with the steps which have been taken to ascertain its Western Extent, and the Situation of Pittsburg, will be abundantly sufficient to satisfy you that that Place is, beyond all doubt, within this Province.

"The Western Extent of the Province of Pennsylvania, by the Royal Grant, is five Degrees of Longitude from the River Delaware, which is its Eastern Boundary.

"In the year 1768, an East and West Line was run from Delaware, at the mouth of Christiana Creek, to the crossing of Dunkard Creek, a Branch of the Monongahela, by Messieurs. Dixon and Mason, two Surveyors of Distinction, who were sent over from England to run the Division Line between Maryland and Pennsylvania. These Artists fixed the Latitude and Extent of that Line with the utmost exactness and precision, to the satisfaction of the Commissioners on both Sides. From the 233d mile Stone on this Line, a North Line hath been since carefully run and measured to the Ohio, and from thence up to Fort Pitt; the several Courses of the River have been taken with all possible Care. From the Line of Dixon and Mason to a known Point in the South Line of the City of Philadelphia, the true Course and Distance hath been discov^{d} by actual Survey, as also from the Point aforesaid, to that part of the River Delaware which is in the same Latitude as Fort Pitt; and from these several Data, the most exact Calculations have been made by Dr. Smith, Provost of our College, Mr. Rittenhouse, and our Surveyor General, in order to ascertain the difference of Longitude between Delaware and Pittsburg, who all agree that the latter is near six miles Eastward of the Western extent of the Province.

"The better to illustrate this Matter, and enable your Lordship to form a Judgment of the accuracy with which the work has been done, and the Calculations made, I have inclosed a Map or Draught of the several Lines above mentioned, with explanatory Notes, as delivered by them to me. Should your Lordship, however, contrary to my Expectation, still entertain any doubt respecting this matter, I hope you will at least think it reasonable for avoiding those mischiefs which must naturally arise in Cases of clashing and disputed Jurisdiction, to defer the appointing of Officers, and exercising Government in that neighbourhood, and suffer the People to remain in the quiet and undisturbed Possession of the Lands they hold under this Province, till some temporary Line of Jurisdiction can be agreed on by Commissioners, to be appointed by both Governments, to confer on this Subject, or until the Affair can be settled by His Majesty in Council, before whom a Petition, exhibited by the Proprietaries of Pennsylvania, for the Settlement of their Western as well as other Boundaries is now depending.

"I shall hope to receive your Lordship's Sentiments of this matter by the first Opportunity, and am, with great Regard,

"Your Lordship's most Obedient

"Humble Servant,

"JOHN PENN.

"To The Right Honorable the Earl of Dunmore, Governor & Commander-in-Chief of His Majesty's Province of Virginia."

MEMORANDUM.

The Governor having lately received a Letter from Jonathan Trumbull, Esquire, Governor of Connecticut, dated the 31st January last, this day sent him an answer thereto, which Letter and answer are as follow, Viz^{t}:

"LEBANON, 31st January, 1774.

"Sir:

"I am not favoured with any of yours, yet think it proper to acquaint you with some of the public acts of this Colony, passed since mine of the 22d of November last, Viz^{t}:

"At a General Assembly of the Governor and Company of the Colony of Connecticut, holden at Hartford, by Adjournment, on the second Wednesday of January, 1774:

"It is enacted that the Inhabitants dwelling within the Bounds of this Colony, on the West Side of the River Delaware, be, and they are hereby made and constituted a distinct Town, with like Powers and Priviledges as other Towns in this Colony by Law have, within the following Bounds and Limits, vizt: Bounded East by Delaware River, North by the North Line of this Colony, West by a North and South Line across the Colony at fifteen miles distance from a Place on Susquehanna River called Wyoming, and South by the South Line of the Colony, which Town is hereby annexed to the County of Litchfield, and shall be called by the name of Westmoreland: That Zebulon Butler and Nathan Denison, Esquires, Inhabitants of said Town, are appointed Justices of the Peace in and for the County of Litchfield; That the former is authorized and directed to issue a Warrant, as soon as may be, to notify the Inhabitants of the said Town of Westmoreland in said County, to meet at such Time and Place as he shall appoint, within said Town, to choose officers, and to do any other Business proper to be done at said Meeting; and

"That the Governor of this Colony is authorized and desired to issue a Proclamation, forbidding any Person or Persons whatsoever taking up, entring on, or settling any of the Lands contained or

included in the Charter of this Colony, lying Westward of the Province of New York, without Liberty first had and obtained from the General Assembly of this Colony.

"These Acts are made and passed by our Assembly, for the Protection and Government of the Inhabitants on the Lands mentioned, to preserve Peace and good Order among them, to prevent Hostilities, Animosities and Contentions among the People there, to promote public Justice, to discourage Vice and Iniquity, and to put a Stop to Intruders entering on those Lands.

"I am, with great Truth and Regard, Sir,

"Your most Obedient,

"Humble Servant,

"JON$^{TH.}$ TRUMBULL.

"Honorable JOHN PENN, Esquire."

—

"PHILADELPHIA, 24th February, 1774.

"Sir:

"I have received your Letter of the 31st January last, informing me of the proceedings of your Government with respect to the Colony's Claim of Lands within the Province of Pennsylvania, and particularly of your having erected a Town within certain Boundaries, and annexed it to your County of Litchfield. In my turn, I must acquaint you that the jurisdiction of this Province hath been extended over this Town by Acts of our Assembly, and a very great Part of it hath been granted to the Inhabitants of this Province, and paid for long before your Colony ever determined to set up their Claim. Some of the People who purchased have settled their Lands, and the others have a right to settle them; so that, however your Proceedings may be intended to preserve Peace and good Order, and to prevent Hostilities, Animosities and Contentions, I fear they will have a contrary Effect. In my Opinion, a much more probable Method of promoting those valuable Ends, would have been a forbearance to exercise Acts of Government in that part of the Province of Pennsylvania, until your new Claim had been heard and adjuged to have any real Foundation, by His Majesty in Council, before whom you say you are preparing to lay your Case.

"I shall do every Thing in my Power to avoid Contentions and Disorders among His Majesty's Subjects. At the same Time both my Duty and Interest will prompt me to assert the Rights of this Government, and support its lawful Jurisdiction; and if any disagreeable Consequences shall follow the Proceedings your Colony have adopted, I shall not look upon myself to be at all chargeable with them.

"I am, Sir,

"Your Obedient humble Servant,

"JOHN PENN.

"To The Honorable JONATHAN TRUMBULL, Esq$^{r.}$ Governor and Commander-in Chief of the Colony of Connecticut, Lebanon."

MEMORANDUM, 28th February, 1774.

"The Governor received by Express from two of the Justices of Northumberland County, a Copy of an Advertisement which had been lately dispersed through the Counties of Northampton and Northumberland, by Zebulon Butler, at Wyoming, in the Words following, Viz^{t} :

[Here follows half page of blank in Council Book.]

The Governor and Council taking the same, together with the Letter lately received from the Governor of Connecticut, into Consideration, His Honor, by their Advice, issued a Proclamation in the following Words, Viz^{t} :

"*By the Honorable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware.*

"A PROCLAMATION.

"WHEREAS, the Assembly of this Province in their last Sessions made the following Resolves, vizt :

"*Resolved*, that a number of Persons emigrating from the Colony of Connecticut, under a pretence of Right to Lands within the Limits and Boundaries of the Royal Grant to the Proprietaries of this Province, without prosecuting their Claim before His Majesty in Council, the only proper Place of Decision, have in a riotous and tumultious Manner, taken Possession of a Tract of Country within the said known Limits and Boundaries, and have held, and still retain their said Possession, in an hostile Manner, to the great disturbance of the Peace of the Province.

"*Resolved*, that the said Emigrants, together with a number of ill-disposed Persons with whom they have confederated, have, in defiance of the Laws of the Country and executive Powers of this Government, afforded Protection to offenders of the most heinious kind, and have, moreover, embodied themselves, and in an hostile manner attempted to dispossess the peaceable Inhabitants, Settled far within the Limits of this Government.

"*Resolved*, that this House will concur with the Governor in every reasonable measure to strengthen the Hands of Government, in preserving the Peace and suppressing all Riots and Tumults, and illegal attempts whatsoever, to disturb the Inhabitants of this Province in their peaceable Possessions.

"*Resolved*, that the Governor be earnestly requested to give special Directions to all the Magistrates, Sheriffs, and other Officers concerned in the administration of Justice, to be vigilant and active in the discharge of their Duty within their several Jurisdictions, and to exert themselves in suppressing all acts of Violence, and every illegal Attempt to dispossess the peaceable Inhabitants of this Province.

"AND WHEREAS, the said Assembly, in order the more effectually to restrain those lawless disturbers of the Peace, and preserve the Public Tranquility, did also, at ther last Sessions, frame a Bill 'for preventing Tumults and riotous Assemblies, and for the more speedy punishing the Rioters,' which has been enacted into a Law; In compliance, therefore, with the said Requisition of the House of Assembly, and to promote the Salutary Ends proposed by the said Resolves and Act of General Assembly, I have thought proper, with the advice of the Council, to issue this, my Proclamation; *And do* hereby strictly enjoin and require all Magistrates, Sheriffs, and all other Officers concerned in the administration of Justice, to be vigilant and active in the discharge of their Duty within their several Jurisdictions, and to exert themselves in quieting and suppressing all acts of Violence, and every illegal attempt to dispossess the peaceable Inhabitants of this Province, and also to enforce and carry the said Riot Act into strict Execution.

"*And Whereas*, I have received information that a certain Zebulon Butler, under pretence of Authority from the Government of Connecticut, hath lately presumed to issue and disperse through the Counties of Northampton and Northumberland, in this Province, a Summons or Advertisement, setting forth that the General Assembly of the Colony of Connecticut had appointed him a Justice of the Peace for the County of Litchfield, and in a Town lately made and set off by the Assembly of the said Colony, called by the Name of Westmoreland, beginning on the West side of Delaware River, at the Bank of said River, extending westerly fifteen miles from Wyoming, North and South, as the Grant of the said Colony extends, requiring all the Inhabitants of the said Town to meet at Wyoming on a Day therein mentioned, to chuse the several Town Officers, by the Laws of the said Colony, to be chosen at their annual Town Meeting, and to do any other Business proper to be done at the said Meeting. Now I do hereby strictly prohibit and forbid the Inhabitants of the said Counties of Northampton and Northumberland, and all other the Inhabitants of this Province, to yield any Obedience, or pay the least Regard whatsoever to the aforesaid Summons or Advertisement, or to any Orders which may be hereafter given or issued by the said Zubulon Butler, or any other Person or Persons whatsoever, who shall presume to act under his authority, or exercise any Jurisdiction within the said Counties of Northampton or Northumberland, or any other Parts within the Limits of this Province, by virtue of any Powers or Instructions from the Government of Connecticut; And I do, in His Majesty's Name, Charge and Command all Persons whatsoever, within the said Counties, as well as all other Inhabitants within the Limits of this Province, to yield due Submission and Obedience to the Laws of this Government, as they will answer the contrary at their Peril; And I do hereby, also, strictly forbid all His Majesty's Subjects of this or any other Province, or Colony, on any pretence

whatsoever, to intrude upon, Settle, or possess any Lands within the said Counties of Northampton or Northumberland, or any other Lands within the Limits of this Province, without a Grant or Licence obtained from the Proprietaries of the said Province; And I do further hereby enjoin and require all Magistrates, Sheriffs, and other Officers, as well as all other His Majesty's Liege Subjects within this Province to exert themselves, and use their utmost Endeavours to prosecute and bring to Justice all Offenders in the Premises.

"*Given* under my Hand and the Great Seal of the said Province, at Philadelphia, the twenty-eighth day of February, in the Year of our Lord one thousand seven hundred and seventy-four, and in the fourteenth year of the Reign of our Sovereign Lord George the third, by the Grace of God of Great Britain, France, and Ireland, King, Defender of the Faith, and so forth.

"JOHN PENN.

"By his Honour's Command.

MEMORANDUM, 16th March, 1774.

The Governor this day received the following Letter from Lord Dunmore, Governor of Virginia, by Express, in answer to His Honor's Letter of the 31st of January:

"WILLIAMSBURG, 3d March, 1774.

"Sir:

"I have been favoured with your Letter of the 31st January, 1774, and Duplicate of the same, the occasion of which having been the appointment of certain Officers by me in a remote District of the County of Augusta, in this Colony, which includes Pittsburg, which having been done as is always my Rule, with the advice of His Majesty's Council, I could not till I had an Oppurtunity of Laying your Letter before them return you an Answer, and it is not till now that I am enabled so to do.

"From the Opinion, therefore, of His Majesty's Council of this Colony, I must inform You that, although the Calculations on which you rely, in the Plan accompanying your Letter, may possibly be found exact, yet they can by no means be considered by us, as the Observations on which they were founded were made without the participation of this Government, or the Assistance of any Person on the part of the Crown; and even if they were admitted, we apprehend they would decide nothing in the present Case, for the Right of the Proprietaries of Pennsylvania to the Country about Pittsburg, must be founded on better Authority than is there adduced to make it valid, and we are strengthened in this Opinion by

the Principles you yourselves adopt, and the opinion of Lord Cambden, which you have produced in your dispute with Connecticut, with respect to the Right of this Colony to that Country; the Transactions of the late War shew sufficiently what was ever the Sense of the Government of Virginia, with regard to it, and it seems to me that the Step which I have taken ought not to have been either unexpected or surprizing, as you are pleased to say it was to You, when it is well known that formal Declarations were made by the Assembly of Pennsylvania, that Pittsburg was not within the Jurisdiction of that Government at the Time that Requisitions were made to them for the Defence of that Place, the burden of which, on that Account, fell on this Government.

"In Conformity to these Sentiments, you will easily see I cannot possibly, in Compliance with your Request, either revoke the Commissions and Appointments already made, or defer the appointing of such other Officers as I may find necessary for the good Government of that part of the Country, which we cannot but consider to be within the Dominion of Virginia, until His Majesty shall declare the contrary; and I flatter myself I can rely so far on the prudence and Discretion of the Officers whom I have appointed, that the measure which I have pursued may have no tendency to raise disturbances in your Province, as you seem to apprehend, and if any should ensue, I cannot but believe they will be occasioned, on the Contrary, by the violent proceedings of your Officers, in which Opinion I am Justified by what has already taken place, in the irregular Commitment of Mr. John Conolly, for acting under my Authority, which, however, as I must suppose it was entirely without your participation, I conclude he is before this time released; but nevertheless, the Act having been of so outrageous a Nature, and of a tendency so detrimental to both Colonies, that with the Advice of His Majesty's Council of this Dominion, I do insist upon the most ample reparation being made for so great an Insult on the authority of His Majesty's Government of Virginia, and no less can possibly be admitted than the dismission of the Clerk (St. Clair) of Westmoreland County, who had the Audacity, without any authority, to commit a Magistrate acting in the legal discharge of his Trust, unless he (St. Clair) can prewail, by proper Submission, on Mr. Conolly to demand his Pardon of me.

"I am Sir,

"your most obedient humble Servant,

"DUNMORE.

"JOHN PENN, Esquire."

MEMORANDUM, 31st March, 1774.

The Governor, having taken the foregoing Letter into Consideration, with the advice of the Council, wrote a Letter this day to

the Earl of Dunmore, in answer thereto, and sent the same by Express, which Letter follows in these Words, Viz^{t}:

PHILADELPHIA, 31st March, 1774.

"My Lord:

"I was favored with yours of the 3d of this Month by Express, which arrived when several of the Gentlemen of the Council were out of Town; and it being also my Rule to consult the Council upon all Occasions of a Public Nature, I could not possibly give your Lordship's Letter an Answer by the return of your Messenger, who stayed but a very short Time in Town.

"I am sorry the Papers I enclosed you had not the desired effect. I never expected they would be taken as decisive of the Boundaries of Pennsylvania, or conclusive upon your Government, but I had reason to hope they contained such information as would shew at least a very strong probability that Pittsburg, the Place of dispute, was within this Province, and not Subject to the Government of Virginia, and from thence I concluded you would be convinced of the Impropriety of a Step which I conceived must have been taken upon a Supposition that that Place was certainly beyond our Limits. But I perceive your Lordship hath taken up an opinion that it is not material whether it be within our Charter Bounds or not, and that the Right of the Proprietors of Pennsylvania to the Country about Pittsburg, must be founded on better Authority than the Royal Grant. And as your Lordship seems to imagine yourself supported in this Sentiment by our own Principles, in Lord Cambden's Opinion, upon our Case with Connecticut, the Transactions of the late War, and the declarations of our Assembly some Time ago, I will take the Liberty of endeavouring to set you right in some matters which you do not seem to be fully informed of, being persuaded that if I can be so happy as to place them in a different Point of Light from what you have hitherto viewed them in, you will be candid enough to change your Sentiments.

"In the year 1752, the Proprietors of Pennsylvania, understanding that the Government of Virginia were about to erect Forts upon the Ohio, in order to repel the Encroachments of the French on the Properties of the Subjects of His Britannic Majesty, they instructed their then Governor, Mr. Hamilton, to assist in any Measures of that sort, taking an acknowledgment from the Governor of Virginia, that such settlement should not be made use of to prejudice their Right to that Country, and at the same time allowed him to give Assurances that the People should enjoy the Lands they bona fide settled on the common Quit Rent. Of this Instruction Mr. Hamilton, not long after, gave notice to Governor Dinwiddie.

"In the year 1754, Mr. Dinwiddie came to a Resolution of raising Men and building Forts to the Westward, in order to repel the invasions of the French. He had fixed upon the Forks of Mo-

nongahela as a proper Situation for one of these Forts, supposing it to be on His Majesty's Lands, and issued a Proclamation expressing his purpose of erecting a Fort at that Place, and inviting the People to enlist in His Majesty's Service against the French, and as an Encouragement, promising that the quantity of 200,000 acres of Land should be laid out and divided amongst the adventurers, when the Service should be at an end, 100,000 Acres of which to be laid out adjoining the Fort, and the other 100,000 acres on the Ohio.

"Upon the appearance of this Proclamation, Mr. Hamilton wrote to Governor Dinwiddie the 13th March 1754, reminding him of his former Intimation respecting these Lands, and inclosing an abstract of the Proprietaries' Instructions, and also requesting from him such an acknowledgement as the Proprietaries expected; to which Mr. Dinwiddie, in his Letter of the 21st March 1754, answers, 'Your private Letter of the 13th current I have duly received, and am much misled by our Surveyors if the Forks of Mohongialo be within the Limits of your Proprietors' Grant. I have for some Time wrote home to have the Line run, to have the Boundaries properly known, that I may be able to appoint Magistrates on the Ohio, (if in this Government,) to keep the Traders and others in good order, and I presume soon there will be Commissioners appointed for that service. In the mean Time, that no hindrance may be given to our intended Expedition, it is highly reasonable, if these Lands are in your Proprietor's Grant, that the Setlers should pay the Quit Rent to Mr. Penn, and not to His Majesty, and therefore, as much as lies in my Power, I agree thereto, after the Time granted by my Proclamation to be clear of Quit Rent ceases.

"From this Correspondence between the Governors of Virginia and Pennsylvania, it appears beyond a doubt, that the Terms upon which Forts were built, and Settlements made in that country, by the Government of Virginia, were well understood, and the Rights of Pennsylvania carefully guarded, and these Transactions entirely exclude the Idea of that kind of Settlement, and Acquiescence, or Agreement, of which Lord Cambden speaks, and which are the only Principles in his Opinion, from which your Lordship can draw any Conclusions in favor of the Right of Virginia.

"From this view of the matter, I flatter myself your Lordship will readily perceive, that the Principles of Lord Cambden's opinion do not at all apply to the present Case.

"As to the opinion of our Assemblies, on which you seem also to rely, the case is shortly as follows:

"When Governor Dinwiddie resolved to erect Forts on the Waters of the Ohio, and to carry on an Expedition against the French, who had fortified themselves in several Parts of the Country to the Westward, he applied to Governor Hamilton to procure him the Assistance of this Province. Unfortunately, at

this Time, there was no very good Understanding between the Government and the Assembly; and when Mr. Hamilton laid Mr. Dinwiddie's Requisition before them, they declined complying with it, and urged for Reasons that, by the Royal Orders to the several Governors, they were not to act as principals out of their own Governments; that they (the Assembly) would not presume to Determine upon the Limits of the Province; and that, by the Papers and Evidences sent down to them and referred to by the Governor, the Limits of this Province had not been clearly ascertained to their Satisfaction.

"It is to be observed, that at this Time there had been no real Mensurations from Delaware to the Westward, except the Temporary Line between this Province and Maryland, which extends only 144 miles from Delaware. From this Line, and from sundry Informations of Indian Traders, founded on computed Distances, over Mountains and crooked Roads, Mr. Hamilton concluded that the French Forts were considerably within this Province, and it hath since appeared with certainty that the Fact was so, though the Assembly were not satisfied with those Proofs; and it appears by a Report of a Committee of Assembly, appointed to examine those Evidences, that they laid no great Stress upon the Opinions of Traders, founded on computed Distances.

"Upon the whole, I cannot find that the Assembly ever made any thing like formal Declarations 'that Pittsburg was not within this Government,' but that they rather declined making any Determination upon the extent of the Province; but, if their Declarations had been ever so formal or positive, I cannot conceive how any proceedings of theirs could affect the State of the Province, controul the Jurisdiction, or prejudice the Rights of the Proprietors.

"Your Lordship is pleased to say 'with respect to the Right of this Colony to that Country, the Transactions of the late War sufficently shew what was ever the Sense of the Government of Virginia with regard to it.'

"I do not know to what particular Transactions you allude, nor can I apprehend upon what Principle the sense of the Government of Virginia can prejudice the Right of Pennsylvania, especially when the Governor of this Province was so far from concurring in any such Sense, that he took the most effectual measures to guard against any Conclusions which might be drawn from it; and I may say, with the strictest Truth, that the Government of Virginia, with great Justice, concurred in this precaution.

"Upon the whole then, My Lord, I hope the Papers I heretofore had the Honor of sending you, when properly attended to, will satisfy you that Pittsburg is at least probably within the Charter Limits of this Province, and I flatter myself that what I have now urged will be sufficient to convince you that nothing can be inferred from the Transactions of the late War, the Correspondence between the Governors of the two Provinces, the proceedings of our Assembly,

or the Principles of Lord Cambden's Opinion, to contract the Extent of our Charter Bounds, or establish the Right of Virginia to any part of this Province. I therefore, still hope that your Lordship will, upon a review of the Subject, be induced to defer attempting to extend the jurisdiction of Virginia within the Bounds of this Province, and thereby avoid the Occasions of Disturbances and Dissentions amongst His Majesty's Subjects, which will probably ensue such a Step, however prudent and cautious the Magistrates on each Side may be inclined to be, and the rather as a Petition for a Commission to run out, and mark the Boundaries between us, is now depending before His Majesty; And to prevent the setting up claims and making conclusions of Right by the Government of Virginia from the Circumstances of Settlement on the one side and non-Claim on the other, I must take this Opportunity of notifying to your Lordship, that the Proprietaries of Pennsylvania do claim, by their said Petition, as part of their Province of Pennsylvania, all the Lands lying West of a South Line to be drawn from Dixon and Mason's Line, as it is commonly called, at the Westormost part of the Province of Maryland, to the beginning of the fortieth Degree of North Latitude, to the Extent of five Degrees of Longitude from the River Delaware, and I must request your Lordship will neither Grant Lands nor exercise the Government of Virginia within those Limits, till His Majesty's pleasure be known.

"I am truly concerned that you should think the Commitment of Mr. Conolly so great an insult on the authority of the Government of Virginia, as nothing less than Mr. St. Clair's dismission from his Offices can repair.

"The Lands in the Neighborhood of Pittsburg were surveyed for the Proprietaries of Pennsylvania early in the Year 1769, and a very rapid Settlement under this Government soon took Place, and Magistrates were appointed by this Government to act there in the beginning of 1771, who have ever since administered Justice without any interposition of the Government of Virginia, 'till the present Affair; It, therefore, could not fail of being both surprising and alarming, that Mr Conolly should appear to act on that stage under a Commission from Virginia, before any intimation of Claim or Right was ever notified to this Government; The Advertisement of Mr. Conolly had a strong Tendency to raise Disturbances, and occasion a Breach of the Public Peace, in a part of the Country where the Jurisdiction of Pennsylvania hath been exercised without objection; and, therefore, Mr. St. Clair thought himself bound, as a good Magistrate, to take a legal Notice of Mr. Conolly.

"Mr. St. Clair is a Gentleman who, for a long Time, had The Honour of Serving His Majesty in the Regulars with Reputation, and in every Station of Life has preserved the Character of a very honest, worthy man, and though perhaps I should not, without first expostulating with You on the Subject, have directed him to take

the Step, yet you must excuse my not complying with your Lordship's requisition of Stripping him on this Occasion of his offices and Livelihood, which you will allow me to think not only unreasonable but somewhat dictatorial.

"I should be extremely concerned that any misunderstanding should take place between this Government and that of Virginia; I shall carefully avoid every occasion of it, and shall always be ready to join You in the proper Measures to prevent so disagreeable an incident, yet I cannot prevail on myself to accede, in the Manner you require, to a Claim which I esteem, and which I think must appear to every body else, to be altogether Groundless.

"I am Your Lordship's

"Obedient humble Servant,

MEMORANDUM, 11th April, 1774.

A few Days ago The Governor received the following Letter from Jonathan Trumbull, Esquire, Governor of Connecticut, Vizt.:

"Lebanon, 24th March, 1774.

"Sir:

"I received your Letter of the 24th February last. It is with Pleasure I observe 'That you will do every thing in your Power to avoid Contentions and Disorders among His Majesty's Subjects.'

"A great Number of People possessed of, and Settled on a Part of the Lands of the Colony of Connecticut, at or near a Place called Wyoming, lying West of the River Delaware, within the Boundaries and Descriptions of our Royal Charter, made their Application to our Assembly for Protection and Government. In Consequequence thereof, the Town of Westmoreland was made, constituted,

and annexed to our County of Litchfield, thereby forbearing the exercise of our Jurisdiction over a great Number of others, who have more recently entered under Grants from the Proprietaries of Pennsylvania, and Claim other Parts of the Lands belonging to Connecticut.

"It is not to be doubted that your Power and Influence may prevent the Attempts of others to settle under your Claim, and the disagreeable Consequences which may follow the want on your Part of a similar forbearance towards the People of Westmoreland, until a legal and constitutional Decision of the Point in Question may be obtained, which both you and Mr. Wilmot, sollicitor of the Proprietaries, have acquainted us they will never decline.

"It is the Duty of our Governor and Company, in faithfulness to the Trust reposed in them, to assert and support the Rights of this Government and its Inhabitants. They do not look upon themselves chargeable with any Fault for their exercise of Jurisdiction over the People who Inhabit Land they have good Reason to think themselves entituled to by legal Purchase from the aboriginal true Proprietors thereof, and hold the primary possession of, under the right of Pre-emption, for the Benefit and within the Limits of this Colony.

"I am to acquaint you that several Gentlemen from hence, by Virtue of an Act of our Assembly, are employed and instructed to ascertain the Latitudes of certain Places, at and beyond Delaware River. They design to set out the 18th of next Month for that Purpose.

"I am, with Truth and Regard, Sir,
"Your Obedient humble Servant,
"JONTH TRUMBULL.

"Honorable JOHN PENN, Esquire."

The said Letter being taken into Consideration, The Governor, with the advice of the Council, wrote a Letter in answer thereto, in the words following, Viz^{t}:

"PHILADELPHIA, 11th April, 1774.

"Sir:

"I have your Letter of 24th March last, by the Post. My sentiments of exercising the Jurisdiction of this Government in every part thereof, and the impropriety of extending your Jurisdiction within our Bounds, before you have laid your Claim before His Majesty, are so plainly expressed in the several Letters I have wrote you, and in those which passed between your Commissioners and me, that they need not be repeated; and I cannot but think it strange that you should persist in attempting to support a Possession gained from the People of this Province in a course of absolute Hostility, before your Government had made any Claim to Lands within the Bounds of this Province.

It appears to me that your taking the Latitudes at or beyond Delaware, within the Bounds of this Province, is premature, and that no Act of your Assembly can authorize any such proceeding. I therefore, cannot concur in that Step, but, on the contrary, must protest against it, and desire it may not be done, lest it should produce Effects which may be injurious to the Public Peace.

"I am, with due Regard,

"Your most Obedient humble Servant,

"JOHN PENN.

"To the Honorable JONATHAN TRUMBULL, Esqr, Governor and Commander-in-Chief of the Colony of Connecticut, Lebanon."

At a Council held at Philadelphia, on Wednesday April 20, 1774.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

Richard Peters, Andrew Allen, James Tilghman, Edward Shippen, jun^r, } Esquires.

The Governor laid before the Board a Letter which he received this morning by George Wilson, Esquire, Express from William Crawford, Esquire, President of the Court in Westmoreland County, with several Papers inclosed, relative to the Disturbances created, and still continued, by the People of Virginia, within that County, which were severally read, and are as follow, Viz^t:

WESTMORELAND COUNTY, April 8th, 1774.

"Sir:

"As some very extraordinary Occurrences have lately happened in this County, it is necessary to write an account of them to you. That which I now give, is at the Request and with the approbation of all the Magistrates that are at present attending the Court.

"A few Weeks ago Mr. Conelly went to Stanton, and was sworn as a Justice of the Peace for Augusta County, in which it is pretended that the Country about Pittsburg is included. He had, before this, brought with from Williamsburg, Commissions of the Peace for several Gentlemen in this Part of the Province, but none of them, I believe, have been accepted of. A number of new Militia Officers have been lately appointed by Lord Dunmore, several Musters of the Militia have been held, and much Confusion has been occasioned by them.

"I am informed that the Militia is composed of Men without Character and without Fortune, and who would be equally averse to the regular Aministration of Justice under the Colony of Virginia, as they are to that under the Province of Pennsylvania. The Disturbances which they have produced at Pittsburg, have been par-

tinually alarming to the Inhabitants. Mr. Conolly is constantly surrounded with a Body of armed Men. He boasts the Countenanee of the Governor of Virginia, and forcibly obstructs the execution of legal Process, whether from the Court or from Single Magistrates. A Deputy Sheriff has come from Augusta County, and I am told has Writs in his Hands against Captain St Clair and the Sheriff, for the Arrest and confinement of Mr. Conolly.

"The Sheriff was last Week arrested at Pittsburg for serving a Writ on one of the Inhabitants there, but was, after some Time, discharged. On Monday last, one of Conolly's People grossly insulted Mr. McKay, and was confined by him in order to be sent to Gaol; The rest of the Party hearing of it, immediately came to Mr. McKay's House and proceeded to the most violent outrages. Mrs. McKay was wounded in the arm with a Cutlass; the Magistrates and those who came to their Assistance, were treated with much abuse, and the Prisoner was rescued.

"Some Days before the meeting of the Court, a Report was spread that the Militia Officers, at the Head of their several Companies, would come to Mr. Hanna's, use the Court ill, and interrupt the Administration of Justice. On Wednesday, while the Court was adjourned, they came to the Court House and paraded before it; Centinels were placed at the Door, and Mr. Conolly went into the House. One of the Magistrates was hindered by the Militia from going into it, 'till permission was first obtained from their Commander. Mr. Conolly sent a Message to the Magistrates, informing them that he wanted to communicate something to them, and would wait on them for that Purpose. They received him in a Private Room. He read to them the inclosed Paper, together with a Copy of a Letter to you which Lord Dunmore had transmitted to him, enclosed in a Letter to himself, which was written in the same angry and undignified Stile. The Magistrates gave the enclosed answer to what he read; and he soon afterwards departed with his men. Their number was about 180 or 200. On their return to Pittsburg, some of them seized Mr. Elliot of the Bullock Penn, and threatened to put him in stocks for something which they deemed an affront offered to their Commander. Since their Return a certain Edward Thompson, and a Young Man who keeps Store for Mr. Spear, have been arrested by them; and Mr. Conolly, who in person seized the young Man, would not allow him Time even to lock up the Store. In other parts of the County, particularly those adjoining the River Monongahela, the Magistrates have been frequently insulted in the most indecent and violent Manner, and are apprehensive that unless they are speedily and vigorously supported by Government, it will become both fruitless and dangerous for them to proceed in the Execution of their offices. They presume not to point out the measures proper for settling the present Disturbances, but beg leave to recommend the fixing a temporary Line with the utmost Expedition,

as one step, which in all probability, will contribute very much towards producing that Effect.

"For farther particulars concerning the situation of this County, I refer you to Colonel Wilson, who is kind enough to go on the present Occasion to Philadelphia.

"I am Sir, your very Humble Servant,

"W. CRAWFORD.

"To the Honorable JOHN PENN, Esquire."

Here follows Dr. Conolly's Address to the Magistrates of Westmoreland County, referred to in the foregoing Letter:

"Gentlemen:

"I am come here to be Occasion of no Disturbances, but to prevent them. As I am countenanced by Government, whatever you may say or conceive, some of the Justices of this Bench are the cause of this Appearance, and not me. I have done this to prevent myself from being illegally taken to Philadelphia. My Orders from the Government of Virginia not being explicit, but claiming the Country about Pittsburg, I have raised the Militia to support the Civil Authority of that Colony vested in me.

"I am come here to free myself from a Promise made to Captain Proctor, but have not conceived myself amenable to this Court, by any Authority from Pennsylvania, upon which Account I cannot apprehend that you have any Right to remain here as Justices of the Peace constituting a Court under that Province; but in order to prevent Confusion, I agree that you may continue to act in that capacity, in all such Matters as may be submitted to your determination by the acquiesence of the People, until I may have Instructions to the Contrary from Virginia, or until His Majesty's Pleasure shall be farther known on this Subject.

"J. CONNOLLY."

—

The Answer of the Magistrates of Westmoreland County to the foregoing Address of Dr. Conolly, vizt:

"The Jurisdiction of the Court and officers of the County of Westmoreland rests on the legislative Authority of the Province of Pennsylvania, confirmed by His Majesty in Council. That Jurisdiction has been regularly exercised, and the Court and Officers will continue to exercise it in the same regular manner. It is far from their Intention to occasion or foment Disturbances, and they apprehend that no such Intentions can with Propriety be inferred from any part of their conduct, on the Contrary, they wish and will do all in their Power to preserve the public Tranquility. In order to contribute to this very salutary Purpose, they give Information that

every step will be taken on the part of the Province of Pennsylvania to accommodate any Differences that have arisen between it and the Colony of Virginia, by fixing a temporary Line betwixt them."

The Deposition of Henry Read, relative to the Disturbances made in Westmoreland County by the Virginians, Vizt:

"*Westmoreland County, ss*:

"The Deposition of Henry Read, of Pittsburg, Yeoman, (he being of full age,) taken before us, two of His Majesty's Justices of the Peace for the County aforesaid, on his solemn Oath of the Holy Evangelists of Almighty God, is as follows, vizt: That on this day about eleven o'Clock, Doctor John Connolly, at the Head of a number of armed Men on Horseback, came into Pittsburg, and alighted near the Houses of John Ormsby and Joseph Spear, Esquire, when said John Connolly came into Mr. Spear's House, and soon after went out again; that this Deponent, William Amberson, and some others, were tying up Mr. Spears Skins at his Door; that Connolly then ordered one Reily to lay hold of that Fellow, pointing to said Amberson, who is Mr. Spears, and acts for him as store-keeper and Clerk; that Reily laid hold of Amberson by the Arm—that Amberson then requested he might have liberty to lock up the Store, and was endeavouring to go towards the Store Door, when Mr. Connolly came up and seized Amberson by the Breast, and said let the Skins and Store go to the Devil, if your Master was here I would serve him in the same manner; that then Connolly, with several armed Men, took said Amberson down to the Fort; that after some Time this deponent saw said Amberson and Edward Thompson brought up from the Fort to the Town, and guarded by a number of armed Men; that after they had drank some Toddy at Mr. Ormby's Porch, they took Amberson and Thompson to William Christy's House, and placed several armed Men at the Door; that in this State this Deponent left them, and came off Express to give information to Mr. Spear at Westmoreland Court—that there was in Mr. Spear's House a large Quantity of Goods and Skins; and further this Deponent saith not.

The Board taking the above Letters and Papers into Consideration, thought it adviseable for the Governor to defer writing an Answer thereto, or taking any Steps in consequence of the Intelligence they contain, till the return of the Express from Williamsburg, who was lately dispatched by this Government to the Earl of Dunmore, on the Subject of the above mentioned Disturbances.

At a Council held at Philadelphia, on Thursday 21st April, 1774.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

Richard Peters, Andrew Allen, James Tilghman, Edward Shippen, Junr., } Esquires.

The Express sent to Williamsburg being returned without any Answer from the Government of Virginia, The Governor recommended to the Board the Consideration of the Subject relative to the Disturbances and violences committed by the People of that Colony, within the County of Westmoreland, and laid before them three Letters he received two days ago by Express from Æneas McKay, Devereux Smith and Andrew McFarlane, Esquires, Magistrates of that County, each dated the 9th of April Instant, which were severally read, and Messrs. McKay and Smith's Letters follow in these words, Vizt.:

"PITTSBURG, 9th April, 1774.

"Sir:

"I have just Time to inform your Honor that the Justices Devereux Smith, Andrew McFarlane and myself, returned from Court late last night to this Place, and that we were all three taken Prisoners at half an Hour past nine o'clock this morning, by order of Dr. Conelly, and because we refused giving Bail, we are ordered to be sent off this Afternoon to Stanton, in Virginia, where I suppose we will spend the most of this summer, which gives me no manner of Concern so far as it affects my own Person, altho' I can't but feel for, and lament the distressing situation of my Wife and Children, left here exposed to the Insults and Tyranny of a lawless Mob, whose aim is to subvert Government and good order, and enrich themselves with the Spoils of their Neighbors.

"I am, with due Respect, Sir,

"Your humble and most Obedient Servant,

"ÆN'S MACKAY."

—

"PITTSBURGH, April the 9th, 1774.

"Sir:

"When Justices McKay, McFarlane, and I, returned from attending the Court last Evening, we were informed that Doctor Connolly was determined to issue King's warrants for us, which were served on the above mentioned Gentlemen and myself this day, by Mr. Conolly's Sheriff. The Crime which we are charged with, is for the Answer we gave Doctor Conolly in writing, by the Concurrence of the Court at Westmoreland, a Copy of which was inclosed

to your Honor p^r favor of Colonel Wilson. Mr. Connolly offered to enlarge us, on condition of giving Bail to take our Trial at Stanton Court in Virginia, which the other Gentlemen and I refused, so that we are to go to Jail this day, where we intend to remain 'till your Honor's Pleasure is known, which we make no doubt will be in a short Time. 'Tis true our going away from our Families and Business at this Time will be attended with very great Inconveniencies, but we are willing to suffer that, and a great deal more, rather than bring a disgrace on the Commission which we bear under your Honor.

"I am with great Respect, Sir,
"Your Honor's most Obedient,
"and most humble Servant,
"DEVEREUX SMITH."

Mr. McFarlane's Letter is of the same Tenor with the foregoing one from Mr. Smith.

The Board taking into Consideration the said Letters, as well as the Letters and Papers laid before them at their last Meeting, are of opinion that the most adviseable step to be taken on this occasion by the Government, will be to appoint Commissioners, to go as soon as possible to Williamsburg, in order to represent to the Government of Virginia the ill Consequences which may happen to the Persons and Properties of His Majesty's Subjects, if an immediate stop be not put to the Disorders and violent proceedings which have been begun and are now carrying on, under the Authority of that Government, within the Western Bounds of this Province, and also to confer with the said Government on the most proper Measures for establishing Peace and good Order among His Majesty's Subjects of both Governments, and for that Purpose to endeavor to agree upon a temporary Line of Jurisdiction; and further to request the said Government will, without Loss of Time, join with the Proprietaries of this Province in an application to the Crown to appoint Commissioners for running and ascertaining the true Boundary Lines between Pennsylvania and Virginia.

The Board were likewise of Opinion that a Letter should be wrote to the three Magistrates who have been put under an Arrest by Mr. Connolly, thanking them for their spirited Behaviour, and acquainting them that proper Care shall be taken to supply them, at the Expence of this Government, with all Necessaries which may render their Situation as comfortable and easy as possible, until their Discharge can be obtained; And also, that a Letter of Instructions be sent to the other Magistrates of Westmoreland, respecting their future Conduct.

At a Council held at Philadelphia, on Friday 22d April, 1774.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

Richard Peters, Andrew Allen,
James Tilghman, Edward Shippen, Junr., } Esquires.

A Member of Council laid before the Board Draughts of two Letters proposed to be sent to the Magistrates of Westmoreland County, which were read, and after a few Alterations made to them, were ordered to be fairly transcribed and dispatched to-morrow by the Express who came from that County. The Letters follow in these Words, Vizr:

"PHILADELPHIA, 22d April, 1774.

"Gentlemen:

"I received Your several Letters informing me of your Arrest and Confinement, on Warrants issued by Doctor Conolly, and cannot but greatly approve your Spirit, and the Attachment you have shown to the Interests of this Province. But as the Confinement of your Persons, at so great a Distance from your Homes, must be very injurious to your private Concerns, if you can procure your enlargement by finding Bail, I shall by no means disapprove such a Step. I shall, with all possible Expedition, send Commissioners to my Lord Dunmore, to apply for your Discharge; and as Colonel Wilson is so obliging as to offer to call at Stanton in his way home, I have instructed him to procure for you any Security or Credit you may stand in need of, and shall do every Thing in my Power to free you from your disagreeable Situation, or to make it as comfortable as may be.

"I am, Gentlemen,
"Your very humble Servant,
"JOHN PENN.

"To Æneas Mackay, Devereux Smith, and Andrew McFarlane, Esquires, Justices of the Peace for the County of Westmoreland."

—

"PHILADELPHIA, 22d April, 1774.

"Gentlemen:

"The present alarming Situation of our Affairs in Westmoreland County, occasioned by the very unaccountable Conduct of the Government of Virginia, requires the utmost Attention of this Government, and therefore I intend, with all possible Expedition, to send Commissioners to expostulate with my Lord Dunmore upon the Behaviour of those he has thought proper to invest with such power as hath greatly disturbed the peace of that Country. As the Government of Virginia hath the Power of raising a Militia,

and there is not any such in this Province, it will be in vain to contend with them in the way of Force; the Magistrates, therefore, at the same Time that they continue with steadiness to exercise the Jurisdiction of Pennsylvania with respect to the distributions of Justice and punishment of Vice, must be cautious of entering into any such Contests with the Officers of my Lord Dunmore, as may tend to widen the present unhappy Breach; and therefore, as Things are at present circumstanced, I would not advise the Magistracy of Westmoreland County to proceed by way of criminal prosecution against them for exercising the Government of Virginia.

"I flatter myself that our Commissioners to Virginia will succeed according to our expectations, and that our Affairs to the Westward will soon be put upon a peaceable and quiet Footing.

"I am Gentlemen,

"Your very humble Servant,

"JOHN PENN.

"To WILLIAM CRAWFORD, Esquire, and his Associates, Justices of Westmoreland County."

—

The Governor laid before the Board the several Records of the Conviction of Joseph Price, Thomas Stephens, Richard Burch and Conrad Founder, for Burglary, James Swain and Mulatto Elizabeth, for Murder, and Bernard Repton, for counterfeiting the Bills of Credit of this Province, at the last Court of Oyer and Terminer held at Philadelphia, for the County of Philadelphia, in April Instant, before William Allen, John Lawrence and Thomas Willing, Esquires, Justices of the said Court; and also the Record of the Conviction of William Wright for Burglary, at a Court of Oyer and Terminer held on the 5th Instant, at Newtown, for the County of Bucks, before John Lawrence and Thomas Willing, Esquires, by which Records it appears that the said Criminals had all received Sentence of Death.

The Governor at the same Time informed the Councils that the Judges, in their Report made to him this day, had recommended three of the said Criminals as Objects of mercy, vizt: William Wright, James Hamilton and Conrad Founder, and had mentioned no Circumstances in favor of either of the others. *The Board* duly considering the several Cases of the said Criminals, are of Opinion that Warrants should be issued for the Execution of Joseph Price, Thomas Stephens, Richard Burch, James Swain, Mulatto, Elizabeth and Bernard Repton, on Saturday the thirtieth of this Instant, and they advise the Governor to issue a Reprieve for Conrad Founder, during Pleasure, and to give Orders that he be transported out of this Province, and also to grant Pardons to James Hamilton and William Wright. It is, therefore, Ordered that Warrants of Execution, Reprieve and Pardons, be forthwith made out accordingly.

At a Council held at Philadelphia, on Friday 29th April, 1774.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

Benjamin Chew, Andrew Allen,
James Tilghman, Edward Shippen, junr, } Esquires.

The Office of Chief Justice of the Supreme Court of this Province being now vacant by the resignation of William Allen, Esquire, and it being necessary that some other proper Person be appointed to succeed him, The Governor was pleased to name Benjamin Chew, Esquire, a member of this Board, as a Gentleman whose Knowledge in the Law and well known Abilities, sufficiently qualify him for that important Station. The Board unanimously approving the said nomination, It is Ordered that he be commissionated Chief Justice accordingly.

It being also thought proper by the Board that a fourth Justice of the Supream Court should be appointed, pursuant to an Act of Assembly passed in Year of his present Majesty's Reign, entituled "An Act to amend the act for establishing Courts of Judicature within this Province, and the Governor having named John Morton, Esquire, of Chester County, as a Gentleman whom he had thought of to execute that office, The Board concurred in that nomination, and it is ordered accordingly, that he be commissionated as Fourth Justice of the Supreme Court.

It is likewise agreed by the Board, and Ordered, that new Commissions be issued this Day to John Lawrence and Thomas Willing, Esquires, appointing them Second and Third Justices of the said Court respectively; And also, that a new Commission be issued, assigning and appointing the four Gentlemen above mentioned Justices of the Court of Oyer and Terminer and General Gaol Delivery for this Province.

At a Council held at Philadelphia, on Saturday 7th May, 1774.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

Benjamin Chew,
James Tilghman, } Esquires.
Andrew Allen,

Mr. Tilghman and Mr. Andrew Allen having agreed, at the particular Request of the Governor, to undertake a Journey to Williamsburg, as Commissioners from this Government, to treat with the Governor of Virginia, on the subject of the Disturbances in

Westmoreland County, occasioned by his extending the Jurisdiction of his Government within the Western Limits of this Province, and to negociate such other Matters with him as were agreed upon in Council the 21st of last Month, one of the Members laid before the Board a Draught of a Commission and a Letter of Instructions to the above named Gentlemen, and also a Letter to be sent with them to the Earl of Dunmore, which being severally considered, were fairly transcribed and signed by the Governor, and follow in these Words, Vizt:

"*JOHN PENN Esquire, one of the Proprietaries of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware:*

"*To James Tilghman and Andrew Allen, two of the Council of the said Province and Counties, Esquires, Greeting:*

"WHEREAS His Majesty, King Charles the Second, by his Letsers Patent bearing Date the Fourth day of March, Anno Domini, 1681, did for the Considerations therein mentioned, Give and Grant the Province of Pennsylvania, by the Bounds and Limits therein particularly set forth and described, to William Penn, Esquire, his Heirs and Assignes forever, constituting him and them Proprietary and Proprietaries thereof, with divers powers, Franchises, and Jurisdictions, for the better Government thereof, as by the said Letters Patent may at large appear: *And Whereas*, the Western Lines and Bounds of the said Province, specified in the said Letters Patent, having never yet been regularly and precisely run, marked out, or ascertained, divers Differences and Disputes have of late arisen between the Right Honorable The Earl of Dunmore, Governor and Commander-in-Chief, &c^{a} of His Majesty's Colony or Dominion of Virginia, and the Honorable the Proprietaries of the Province of Pennsylvania, their respective Grantees, Tenants, and Officers, respecting the Western Bounds and Limits of the said Province, and the Jurisdiction of the said Colony or Dominion and Province, which have been productive of Great Troubles and Disquiets to the Settlers and Inhabitants there, and endanger the King's Peace and the public Tranquility. To the End therefore, that the Evils which have already arisen, and which are likely to arise in the Premises, may be remedied and prevented, I have nominated and appointed, and do by these Presents nominate and appoint you, the said James Tilghman and Andrew Allen, Esquires, to be Commissioners on the Part of the Proprietaries of this Province, to confer and treat with His Excellency, The Right Honorable the Earl of Dunmore, of and concerning the Premises, and to agree upon such measures as you shall judge most expedient for Settling and composing the said Differences, Troubles and Disquiets, either by a temporary Line or Boundary of Jurisdiction, or otherwise, as may best answer the good Purposes of preserving His Majesty's Peace, and quieting the Minds of the Inhabitants on or near the Borders of the two Colonies or Provinces, until the final

Settlement of the said Boundaries shall be effected; hereby ratifying and confirming whatever you shall do in the Provinces.

"*In Testimony* whereof I have set my Hand, and caused the Great Seal of the said Province to be hereunto affixed, at Philadelphia, the seventh day of May, 1774.

"JOHN PENN.

"Instructions to James Tilghman and Andrew Allen, Esquires, Commissioners appointed to treat and agree with the Right Honorable John Earl of Dunmore, Governor of Virginia, concerning the Settlement of the Western Bounds and Limits of the Province of Pennsylvania, and preserving the Public Peace and Tranquility on the Borders 'till a final Settlement of the said Lines.

"1st. You are to proceed without loss of time to Williamsburg, the Place of His Lordship's Residence in Virginia, and enter upon the Execution of your Commission as soon as possible after your Arrival. Should his Lordship be from Home, and not gone to too great a Distance, you will wait his Return, or send an Express (as you judge most proper), to acquaint him with your being sent from this Government to treat with him on Public Business and request his return.

"2d. Your first Point should be to prevail with him to join with the Proprietaries of this Province in a Petition to His Majesty in Council to appoint Commissioners to run and mark out the Boundary or Division Line, such as His Majesty shall please to order and direct, between this Province and Virginia, the expence of which to be equally borne by the two Colonies.

"3d. Whether his Lordship should accede to the above Proposal or not, you should urge every Argument in your power to induce him to agree to the settling a Temporary Line of Jurisdiction between the two Colonies, 'till the said Boundary Lines shall be settled, or His Majesty's Orders and Directions can be obtained respecting the same.

"4th. Should his Lordship come into the last mentioned Measure, you will no doubt endeavour to fix the Temporary Line of Jurisdiction as favorably as possible for this Province, and as near to the Charter Bounds as you can; and in Order thereto, you will refer yourselves to the Map, or plan heretofore transmitted by me to him, which shews to Demonstration that Fort Pitt is near six miles to the Eastward of our five Degrees of Longitude. At any Rate, however, you are not to accede to any proposed temporary Line which shall give Jurisdiction to Virginia over any Lands lying to the Eastward of the River Monongahela.

"5th. Whatever may be the temporary Line agreed on, you should take Care to insert a Clause in the Articles to be drawn up, containing a saving of the Rights on both sides to the Lands up to the true Lines or Boundaries, where they shall be finally settled.

"6th. If the Business is not carried on by the interchange of Letters or written Proposals between you, You should take private Notes or Minutes, by way of Diary, of every Thing material that passes, not only to enable you to make an exact Report of the whole Transaction, but to found Affidavits on, to be sent to England if necessary. As great reliance is had on your Knowledge and Abilities, any further Instructions are unnecessary.

"JOHN PENN.

"PHILADELPHIA, 7th May, 1774."

Here follows the Governor's Letter to the Earl of Dunmore, Governor of Virginia, Viz^{t}:

"PHILADELPHIA, 7th May, 1774.

"My Lord:

"By Accounts received from the Westward since my last Letter to Your Lordship, I find that the Disorders in that Quarter are greatly increased by your Lordship's extending the Jurisdiction of Virginia to Pittsburgh, and the Country thereabouts, and that Doctor Conolly's Proceedings have been such as are very alarming, and have a tendency to put the whole Country beyond the Allegheny Mountains into a State of Confusion.

"The Consideration of these unhappy Circumstances have induced me to send two Gentlemen of my Council, Mr. Tilghman and Mr. Allen, to wait on your Lordship, in order to confer with you on this important Subject, and, if possible, to conclude with you upon such Measures as may restore and establish the Public Tranquility until the Lines and Boundaries of this Province can be finally settled by His Majesty's Authority, for which good Purpose I flatter myself your Lordship will not hesitate to join with us in representing to His Majesty the necessity of such a Settlement. In the mean Time, I am in hopes such Temporary Expedients may be fallen upon as may put an End to the present Disturbances, secure the Public Peace, and quiet the Minds of the People concerned in the unhappy differences which at present subsist between the Governments of Virginia and this Province.

"I am, with great Respect,

"Your Lordship's most Obedient humble Servant,

"JOHN PENN,

"To the Right Honorable the Earl of Dunmore, Governor and Com-Commander-in-Chief of His Majesty's Province of Virginia, Williamsburg."

MEMORANDUM, 1st June, 1774.

The Reverend Dr. Peters having, at the Instance of the Governor, wrote a Letter to Henry Wilmot, Esquire, the same was ordered to

he entered on the Minutes of Council, and follows in these Words, Viz^t:

PHILADELPHIA, 18th May, 1774.

"Sir:

"I am desired by the Governor to give you an Account of what I know with respect to an Indian Deed, under which some private People, calling themselves the Susquehanna Company, Inhabitants of the Colony of Connecticut, claim all the Lands in Pennsylvania between the 41st and 42d Degree of Latitude. This, then, that follows, will give a true Notion of the whole Transaction, as far as my Remembrance will enable me to recollect Matters.

"In the Year 1741, The Proprietor, Thomas Penn, went from here for England, and from that Time to this, I have been well acquainted with all sorts of Indian Negotiations, and have had a great Share in the management of them, either as Proprietary Secretary, or as a Member of Council, or as Provincial Secretary, so that I can speak from the best Grounds of every Matter relating to Indians for above thirty Years; and I can with Truth declare, that before the Year 1753, I never, that I can remember, heard of any Claim set up by the Government, or any of the Inhabitants of the Colony of Connecticut, to any Lands within this Province.

"In the Year 1753, I received Information of a Claim set up by some Connecticut People, to a Degree of Longitude within this Province, in virtue of the Connecticut Charter, and that there was a party gone into the Indian Country to make a Purchase of Lands, between Susquehanna and Delaware, to begin at or near Wyomink. Mr. Hamilton and several others were alarmed at this wicked attempt, and Conrad Weiser, the Indian Intrepreter, was ordered to give the Six Nation Indians an account of this Intelligence, and to put them upon their Guard. Colonel Johnson, the Indian Agent for His Majesty in the New York Government, was likewise made acquainted with this new Project, and desired likewise to apprise the Indians of it. The Intelligence was likewise communicated to the Governor and Deputy Governor of Connecticut, who both disavowed the Thing, and declared that the Government had no Concern in it; and the Letters which passed between Mr. Hamilton and the Government of Connecticut were put into the Council Books, and a Copy of those Minutes of Council are exemplified under the Great Seal and sent to you.

"The Year following, namely: in the year 1754, there was a Congress, by Order of the Crown, at Albany, between the whole Body of the Six Nations and the King's Agent, together with the Governments of all the Northern Colonies. Four Commissioners were sent on the part of Pennsylvania, Mr. John Penn and myself on the Part of the Governor, and Mr. Isaac Norris and Mr. Benjamin Franklin, on the part of the Assembly, were the four Commissioners for this Province, at that Congress. This being deemed

a proper Time to get a Purchase from the Indians of more Lands, and which was become absolutely necessary by the Numbers of People that had come into the Province and could not be kept within the Bounds of the purchased Lands, Mr. John Penn and myself were instructed and empowered to make as extensive a Purchase as the Indians could be prevailed on to make, and Belts were sent to the Onondago Council by the Governor, to signify to them his Desire to make another Purchase of them when they should be all together at this Public Treaty at Albany. Accordingly, as both sides were before hand prepared for a new Indian Purchase, the Matter was gone upon, and a large Extent of Country, even as far as the Western Boundary of the Province, was treated for and agreed to in open Council, and a Deed executed by the Indians; and likewise another Deed was executed by them, confirming to the Proprietaries a former Deed, wherein the Indians bound themselves not to sell to any Persons whatever any of the Lands comprized within the Bounds of His Majesty's Charter to the Proprietaries. The Connecticut attempt was likewise made known by the Indians to us, and they, in their Speeches, declared their absolute refusal to make any Grant to them of any Lands they were solliciting for; and, indeed, in their Public Treaty, they over and over declared that they would sell none of the Wyoming Country either to them or to us, it being what they had reserved for their own use, and for the reception of such other Indians as would want to come and reside amongst them. These, and further Particulars, are to be seen in the exemplied Copy of the Report of that Treaty, made by Mr. John Penn and myself to Governor Hamilton, as the same is entered in the Minutes of Council.

"This will serve to shew that at that Time there was no Indian Deed made to the Connecticut People by the Onondago Council, and that if any Deed is set up it must have been obtained in a clandestine Manner from private Indians. Indeed it was then currently reported that one Lydins, of the City of Albany, had undertaken this Matter for the Connecticut People, and as he lived (and I think kept a Public House) at Albany, he made it his Business to get the Indians, as they came to Trade there, into his House, and by Liquor or private Bribes, by twos or threes, as he could find Opportunity, to prevail with them to execute a Deed, which was lodged with him for this infamous Purpose.

"I have further to observe, that the Persons to whom this pretended Indian Deed was made were private People, and acting in direct Opposition to their own Laws, and in open Violation of the Right if any, of the Colony of Connecticut to those Lands. The Indians themselves in public Treaties, made mention that these very Lands were formerly given by them to Colonel Dungan by Deeds regularly and duly executed, but in Trust for them as they said, and that Colonel Dungan sold those Lands to the late Proprietor, Mr. Penn who, notwithstanding this Purchase from Colonel

Dungan, did not hesitate to buy them over again of the Indians, and to give them the full Consideration for them.

"Let it be further observed that, in the General Treaty held at Fort Stanwix by Sir William Johnson, His Majesty's Indian Agent with all the six Nation Indians, in 1768, for the King's Purchase of Lands from them, and to settle a General Boundary between the Indians and the King's Subjects, at which The Governor of Jersey and Commissioners from the other Provinces, and from Pennsylvania in particular, were present, and assisting the Indians, executed a Deed to the Proprietors of Pennsylvania for all the Lands within the Bounds of this Province, so far as they had then settled the General Boundary with His Majesty. That this Purchase contains all or most of the Lands claimed by Connecticut, and that the Consideration Money, together with the Expences attending that Treaty, amounted to the Sum of eight thousand Pounds, or some Sum near that, and in that very Treaty, this Attempt of the Connecticut People was solemnly mentioned and as Solemnly condemned by all the Indians.

"As this Great Treaty is deservedly esteemed the Basis and Foundation of all Matters relating to Lands between the Indian Nations and His Majesty, it was transmitted by Sir William Johnson to the King's Ministers, and lies among the Public Papers in the Privy Council, and may be consulted for the Truth of what is here set down by the Proprietarie's Sollicitors at any future Time.

"As it is supposed that the Susquehanna Company have assigned over their Right under this Deed to the Government of Connecticut, I have been thus particular, and this Detail of the Circumstances that attended the obtainment of the Indian Deed may be kept among the Proprietary Papers, together with the exemplified Minutes of Council that have been sent to you, and may be made use of in order to furnish ample Proofs for the invalidating of this pretended Indian Deed, if it should ever be set up by the Connecticut Government.

"I am, Sir,
"Your most humble Servant,
"RICHARD PETERS.

"To HENRY WILMOT, Esquire, in Bloomsbury Square, London."

At a Council held at Philadelphia, on Thursday 7th June, 1774.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

James Hamilton,
James Tilghman, } Esquires.
Andrew Allen,

The Governor laid before the Board the Copy of a Petition from sundry Inhabitants of the Province, to call the Assembly on occa-

sion of the late Act of Parliament respecting the Port of Boston, which is to be presented to-morrow, and requested their Advice as to a proper answer to be given to the same, upon which the following answer was drawn up and approved :

"Gentlemen :

"Upon all Occasions when the Peace, Order and Tranquility of the Province require it, I shall be ready to convene the Assembly, but as that does not appear to me to be the Case at present, I cannot think such a Step would be expedient or consistent with my Duty."

At a Council held at Philadelphia, on Monday 27th June, 1774.

PRESENT :

The Honourable JOHN PENN, Esquire, Governor.

William Logan,	James Tilghman,	Esquires.
Richard Peters,	Andrew Allen,	
Benjamin Chew,	Edward Shippen, jun^{r},	
Thomas Cadwalader,		

The Governor laid before the Board several Letters he received by different Expresses from Westmoreland, all informing him of Sundry Murders, committed on the Frontiers of this Province by the Indians, and representing the great Distress and Confusion of the Inhabitants of that Country, from the Apprehensions of an Indian War; which being read and duly considered, it was the opinion and Advice of the Board that Writs be issued for convening the Assembly on the 18th of July next, which was done accordingly ; that a Letter be wrote by the Governor to Sir William Johnson, acquainting him with the Intelligence received of these hostile Transactions and Troubles, and to request his Interposition with the Six Nations to use their Influence and Endeavours, with the Shawanese and Delawares, to prevent further Hostilities on their Part, and to assure them of the sincere Intentions of this Government to continue their pacific Dispositions towards all our Indian Brethren ; that a Letter be wrote to Lord Dunmore on this Subject, to complain of Dr. Conolly's oppressive and tyrannical Conduct at Pittsburg, and the dangerous tendency his Military Operations, &c^{a}, have to involve the Colonies in a general Indian War; that a Letter he wrote to Captain St. Clair, advising him of the above Measures, that the Governor approves of what has been done by him and the Inhabitants, for preventing the Desertion of the People, and requesting him to use his Endeavors to encourage the People to stand their Ground, and Mr. Tilghman, Mr. Allen, and Mr. Shippen, are appointed a Commitee to prepare Draughts of the said Letters.

It appearing by the Letters received, that the People in Westmoreland were in great Necessity of Ammunition, the Board advised the Governor to order a further Supply immediately to be sent to them.

The Chief Justice presented to the Governor Records of the Conviction of two Criminals at the last Court of Oyer and Terminer held at Carlisle, for the County of Cumberland, on the eighth day of June Instant, by which it appears that James Anderson was convicted of the Murder of William Barnet, his Son-in-Law, and that Peter Gillespie was convicted of the Murder of Bridget Gillespie, his Wife, and had each received Sentence of Death. The Chief Justice at the same Time, in his Report to the Governor, observed that no Circumstances appeared on the Trials in favor of either of the said Criminals which could induce him to recommend them for Mercy. It was therefore ordered that Warrants be issued for their Execution on Saturday the 16th of July next.

Mr. Tilghman and Mr. Allen laid before the Board a Report of their Proceedings in Virginia, pursuant to the Commission and Instructions of the 7th of May last, given to them to treat with the Earl of Dunmore, Governor of that Province, concerning the several Matters therein contained, together with Copies of their several Letters to his Lordship, and his Original Letters to them, which passed in the Course of their Negotiation at Williamsburg, all which were ordered to be entered on the Minutes of Council, and follow in these Words, Viz^{t}:

"*The Report of James Tilghman and Andrew Allen, Commissioners appointed by the Honorable JOHN PENN, Esquire, Governor of Pennsylvania, to treat with the Right Honorable the Earl of Dunmore, Governor of Virginia, on Sundry Public Matters mentioned in the Commission, and the Governor's Instructions, bearing equal date therewith.*

"May it please your Honour:

"In Pursuance of Your Honor's Commission, and Your Instructions attending it, we set out on our Journey on Thursday the 12th of May, 1774, and on Thursday the 19th, we arrived at Williamsburgh, and went to Lord Dunmore's. He was not then at Home. We waited on him next Morning to pay our Respects, and to know when it would be agreeable to him to have our Business laid before him. Saturday Morning at ten O'Clock, was appointed to wait upon him on the Occasion. We met him at his House, and informed him our Business was to apply to him to join the Proprietaries of Pennsylvania in a Petition to the Crown to appoint Commissioners to Settle and run the Lines of Pennsylvania to the Westward, and in the mean Time to agree with his Lordship upon some Line of Jurisdiction to remedy the inconveniences of the present clashing jurisdictions between Virginia and Pennsylvania, and to prevent them for the future. To the first he readily agreed, and said he had

already written to Lord Dartmouth on the Subject, pointing out the Necessity of Settling the Boundaries, but he informed us that the Colony of Virginia would not bear any Part of the Expence. As to the other Point, His Lordship answered that he should be glad our Propositions relating to a Line of Jurisdiction were stated in Writing, that he might be the better able to consider them, and give us an answer, and desired to have a Sight of any Draughts or Papers we had which might illustrate the matter. This Request we promised to comply with as soon as possible, and on Monday the 23d, at ten O'Clock, we sent our written Proposals, Copies of which, and of the several other Letters which passed from us to Lord Dunmore in the Course of the Negotiation, as also, his Original Letters to us, are hereunto annexed, numbered in proper Order, and to which we beg leave to refer, and request that they may be taken as part of our Report. We have the Honor to be, with great Regard,

"Your Honor's most obedient humble Servants,

"JAMES TILGHMAN,
"ANDREW ALLEN,

"To the Honorable JOHN PENN, Esquire.

(No. 1.)

Letter from James Tilghman and Andrew Allen, Esquires, to Lord Dunmore.

"My Lord:

"In compliance with your Lordship's Request, We are now to state in Writing our Proposal of a Line or Lines to ascertain for the present the Jurisdiction of the Colonies of Virginia and Pennsylvania. And we would beg leave first to observe that, by the Terms of the Royal Grant, the Province of Pennsylvania is to extend five Degrees of Longitude from its Eastern Boundaries, which are the River Delaware, and the twelve Mile Circle of New Castle; And we do presume that all the Settlements to the Westward, under Grants from Pennsylvania, are within that Extent. But in order to ascertain that Matter, and to prevent for the future such disagreeable Differences and Disquiets as have of late unhappily subsisted between those Colonies by the clashing of their Jurisdictions, We would propose that as accurate a Survey as may serve the present Purpose, be with all convenient Speed taken by Surveyors to be appointed by the Governments of Virginia and Pennsylvania, of the Courses of the River Delaware, from the Mouth of Christiana Creek, or near it, where the Line run between Maryland and Pennsylvania, by Messrs. Mason and Dixon, intersects the said River, to that part of the said River which lies in the Latitude of Fort Pitt, and as much further as may be needful for the present purpose. That then the Line of Dixon and Mason be continued to the

end of five Degrees of Longitude from the River Delaware, and from the end of the same five Degrees a Line or Lines corresponding to the Courses of the Delaware be run to the River Ohio, as nearly as may be at the Distance of five Degrees from the said River Delaware in every Part. And that the said Line of Dixon and Mason, continued from the Western extent of Maryland to the end of five Degrees of Longitude from the Delaware, and the said Line or Lines, similar to the Courses of the Delaware, be taken, deemed, and reputed, to be Lines of Jurisdiction between the Colonies of Virginia and Pennsylvania, until the Boundaries of Pennsylvania can be settled, and run and marked, by Royal Authority, for which Purpose your Lordship hath been pleased to consent to a joint Application with the Proprietaries of Pennsylvania to the Crown. That these Lines of Jurisdiction shall be established for the good Purpose only of quieting the Disturbances which at present subsist between the two Colonies, without any Prejudice to the Crown or the Proprietors of Pennsylvania, to the Southward of the said Line of Dixon and Mason, continued as far as the fortieth Degree of North Latitude, (all which Land the Proprietors of Pennsylvania claim,) until the Limits of Pennsylvania can be finally settled as aforesaid. And we would further propose to your Lordship, that until the said Lines of Jurisdiction can be run, the Jurisdiction of Virginia be suspended at Fort Pitt, and the Country thereabouts, as the Jurisdiction of Pennsylvania was unquestionably first extended and executed in that part of the Country, as we think we can clearly satisfy your Lordship.

"If these Proposals, or the Maps we send with them, Should not be sufficiently clear and explicit, we shall be ready at any Time to attend your Lordship, in Order to explain them.

"We have the Honor to be,

"your Lordship's most obedient and most humble Servants,

"JAMES TILGHMAN,
"ANDREW ALLEN.

"Williamsburg, May 23d, 1774."

"To His Excellency the Right Honorable the Earl of Dunmore, Governor and Commander-in-Chief of the Colony and Dominion of Virginia.

(No. 2.)

Letter from Lord Dunmore to James Tilghman, and Andrew Allen, Esquires.

"Williamsburg, 24th May, 1774.

"Gentlemen:

"Having considered your Proposals of a Boundary Line or Lines to ascertain for the present the Jurisdiction of the Colonies of Vir-

ginia and Pennsylvania, and the Terms of the Royal Grant, I am of Opinion that the latter cannot admit of the Construction which you give to them, or that it could possibly be the Intent of the Crown that the Western Bounds of your Province should have the very inconvenient, and so difficult to be ascertained, Shape as it would have if, as you say, it were to correspond with the course of the River Delaware; but I think from the words of the Grant, rather than your Western Boundary should be determined by a Meridian Line at five degrees of Longitude from the River Delaware, to be computed from that Point upon it which is at the extent of the 42d degree of Latitude, and the Line drawn from that Point to the aforesaid Meridian, is your North Bounds; and your South Bounds should be a Strait Line Westward from the Circle drawn at twelve Miles distance from New-Castle Northward, and Westward unto the beginning of the fortieth degree of Latitude, until that Strait Line Westward intersect the Meridian above mentioned, which is the Limits of Longitude mentioned in the Royal Grant, and no other, as it appears to me. Conformable to this, I am willing to agree to a temporary Line, that may serve to ascertain the Jurisdiction of both Colonies, and quiet the Disturbances which subsist, and prevent them in future; but if you are already determined not to depart from the Proposals now given in to me, I must inform you that it will be in vain to treat any further upon the Subject, as it would be utterly impossible for me, in compliance with my Duty, to suspend the Jurisdiction of Virginia at Fort Pitt and Country thereabouts, which you make yourselves, following your own Construction of the Royal Grant, to be only five or six Miles within your Limits; and if that should not, but the other which I have given, be the true Construction, then Fort Pitt, by the River Delaware, running very much Easterdly towards your Northern Bounds, will probably be at least fifty Miles without your Limits, which would be a Concession, I really think, too great for me to make, whether it be or not for you to ask.

"I must also inform you that I am clearly of Opinion that, were it possible I could admit your own Construction of the Royal Grant, and your own Surveys and Observations, your ascertaining your Claim under the Former has been done too late, and your ascertaining your Boundary by the latter has consequently been to no Purpose; for, if the Lands described by the Royal Grant, at the Time of the Grant being passed, were clearly within the undoubted Limits of His Majesty's Dominions, which is also a Question, yet still Fort Pitt and Country thereabouts, for want of the Proprietors of Pennsylvania supporting their Claim and ascertaining their Boundary in due Time, was suffered to be claimed and possessed by an Enemy, from whom it was conquered by His Majesty's Arms, and by whom it was confirmed to His Majesty in a Treaty. Consequently therefore, no legal Title, as it appears to me, can be set up to any of that Territory, but under a Grant of the Crown, Subsequent to such Possession, Conquest, &c.

"As to your Idea of the Jurisdiction of Pennsylvania having been first extended and exercised in that part of the Country, it was, indeed, the Jurisdiction of Pennsylvania having been extended and exercised, not only there where you have extended your Claims, but even to a hundred Miles beyond any that you have yet pretended to, that has given occasion to the Inhabitants over whom your Jurisdiction was exercised, and who think themselves, according to the general Sense of Virginia, subject to the Jurisdiction only of the latter, to apply to this Government for protection and redress, which this Government, in duty, could not refuse them, as far as its legal Powers extends. But I am so far from thinking, as you suggest, that the Jurisdiction of Pennsylvania having been first extended and exercised in that Country, is a Reason that should induce the Government of Virginia to suspend its Jurisdiction there; that, in my Opinion, the latter is entitled to some Apology from the former, for attempting a Measure without the participation that ought to have the Sanction of both, as his Majesty had not given his to it.

"I mention not these Circumstances for the Purpose of engaging in a dispute with the Proprietors of Pennsylvania, or of throwing Obstacles in the way of an Accomodation, which I am sensible it is the Interest of both Colonies, and the Duty of the Governors of them, to facilitate; but with the Design of making it appear that I have not, upon very slight Grounds, rejected Proposals for settling the Disputes and Differences subsisting between the two Colonies, and which require no less than that every Thing which is contended for (depending on such a variety of Contingencies) on the Part of Pennsylvania, should be given up on the Part of Virginia immediately.

"I cannot but think that you entertain an erroneous Opinion of the Boundaries of your Province, as described in the Royal Grants, but even if not, that your Proposals are unreasonable, and that the sincerity of your desire to settle all Disputes between Pennsylvania and Virginia would appear less doubtful if you had observed, in your Proposals, an equitable regard to the pretensions of this Government, especially as nothing thereby can prejudice the legal Title of your Government; therefore, unless you are authorized to agree to a Plan that favours as much the Sentiments of this as of your own Government, I see no accomodation that can be entered into previous to His Majesty's Decision, which I shall not fail to join my Application for the obtaining as soon as possible.

"I am, Gentlemen,

"Your most Obedient humble Servant,

"DUNMORE.

"JAMES TILGHMAN and ANDREW ALLEN, Esquires."

(No. 3).

Letter from James Tilghman and Andrew Allen, Esquires, to Lord Dunmore.

"My Lord:

"We are honored with your Lordship's Answer of Yesterday, to our Proposals of a Boundary Line or Lines, to ascertain, for the present, the Jurisdiction between the Colonies of Virginia and Pennsylvania, to which your Lordship will be pleased to indulge us in a Reply, which we are induced to make from a Persuasion that, if we can be so happy as to support the Principles upon which we founded our Proposals, or to point out just Objections to your Lordship's reasoning, We may still come to such an Understanding as may answer the good Purposes for which we waited on your Lordship.

"We thought the Western Boundary of Pennsylvania, when clearly understood, ought to be one of the Lines of Jurisdiction. Your Lordship is in the same Sentiment, by offering to make what you conceive to be our Western Bounds the Line of Jurisdiction; but you are pleased to differ with us in the construction of the Grant If we have a just Apprehension of your Lordship's meaning, you suppose that a Meridian Line, drawn from the end of five Degrees of Longitude from Delaware, at the Beginning of the forty-third Degree of Latitude, ought to determine the Western Boundary of Pennsylvania; We are at a Loss to conceive from what Expression of the Charter your Lordship can collect that the Western Boundary of Pennsylvania should be a Meridian Line, or why that Meridian should be drawn rather from the North than the South Boundary of the Province. The Charter expresses that the Province shall extend five Degrees of Longitude from its Eastern Boundary; The Eastern Boundary is the Delaware in general, but if the Western Bounds are to be determined by a Meridian Line, the Province will extend in some parts more, and in others less than five degrees of Longitude, from its Eastern Boundary; This we conceive to be against the Terms of the Grant, which we are of Opinion cannot be satisfied by any other than a Line or Lines corresponding with the Courses of the Delaware, and this is the only construction we have ever heard made of that Part of the Charter.

"Your Lordship, after expressing a Doubt whether that Part of the Country now in dispute was within the King of England's Dominions at the Time of making the Pennsylvania Grant, is pleased to contend 'that tho' it were possible for you to admit our Construction of the Royal Grant, and the Country we contend for should be within the Limits of Pennsylvania, according to such Construction, yet Fort Pitt and the Country thereabouts, for want of the Proprietors of Pennsylvania supporting their Claim and as-

certaining their Boundaries in due Time, was suffered to be claimed and possessed by an Enemy, from whom it was conquered by His Majesty's Arms, and by whom it was confirmed to His Majesty in a Treaty, and consequently, that no Legal Title can be set up to any of that Territory, but under a Grant of the Crown subsequent to such Possession, Conquest, &c^a.'

"Not to enter into a discussion of the Facts of claim, and Possession by an Enemy, and Conquest by His Majesty's Arms, and the Enemy's Confirmation, or the effect of them upon the Rights of His Majesty's Subjects, which we think needless, we shall only observe that your Lordship's Argument militates equally against Virginia as against Pennsylvania, since there hath been no new Grant that we know of subsequent to such Possession, Conquest, &c^a, and that, therefore, in our opinion, your Lordship ought not, upon your own principles, to have extended the Jurisdiction of Virginia to Fort Pitt and the Country thereabouts. Your Lordship seems to allow that there was a prior exercise of Jurisdiction on the side of Pennsylvania, and you urge that as a Reason for your Interposition, and are pleased to think that Virginia is entitled to an Apology from the Government of Pennsylvania for thus exercising a Jurisdiction without the Sanction of the Crown's participation. Were it undeniably true that the Government of Pennsylvania had knowingly extended their Jurisdiction beyond the Limits of the Charter, we should be far from vindicating such a Conduct; and we are certain that if any of our Officers have acted officially beyond the known Limits of the Province, they will be censured rather than supported by the Government; But assured, as we are, that Fort Pitt must be within our Charter Limits, we cannot be induced to think that our Government were improper in exercising their Jurisdiction there, and we are inclined to be of Opinion that if your Lordship, when an Application was first made to you to take that place under the Government of Virginia, had thought fit to have given the least Intimation of your Design to the Governor of Pennsylvania, much of the disagreeable consequence which has followed would probably have been prevented.

"We are really concerned to find that our Conceptions of the Extent of Pennsylvania are so very different, but we are not without hope that your Lordship will, upon re-considering the Subject, be of Opinion that your Construction is liable to the Objections we have made. And although we are satisfied that we shall be supported in ours, yet we are not so tenacious of our first Proposals as to adhere strictly to them, while we have any Hopes that a reasonable Departure from them will produce so desirable an Effect as the Settlement of Harmony and Peace between the two Colonies. And for that valuable Purpose, we shall be willing to recede so far from our Charter Bounds as to make the River Monongahela, from the Line of Dixon and Mason downward, the Western Boundary of Ju-

risdiction, which would at once settle our present Disputes, without the great Trouble and Expence of running Lines, or the Inconvenience of keeping the Jurisdiction in Suspence. This, We assure your Lordship, is the farthest we can go in Point of Concession, and if your Lordship is determined to adhere to your Proposal of a Meridian Line, or indeed, to insist upon retaining the Jurisdiction of Fort Pitt, or the Lands to the Eastward of the Monongahela, we can treat no farther. But we cannot quit the Subject without expressing our Concern that your Lordship should entertain a Doubt of the sincerity of our Desire to settle all Disputes between Virginia and Pennsylvania, as we are not conscious of having done any Thing that could give your Lordship so unfavorable an Impression. And we beg leave to assure your Lordship that nothing less than a most sincere Wish and Desire to restore Peace and Harmony, and to settle our Disputes, with a due Regard to the just Pretensions of both Colonies, could have actuated our Government to send us hither, or could have induced us to undertake a Journey of such length and so very inconvenient to us. We think the Proposals we have made contain the most reasonable Concessions, and it will give us real Concern should your Lordship's Ideas be so different from ours that the desired Accommodation cannot be effected. We thank your Lordship for your ready Consent to join our Proprietors in an Application to the Crown to settle our Bounds, and have the Honor to be, with Great Regard,

"Your Lordship's most Obedient,

"And most humble Servants,

"JAMES TILGHMAN,

"ANDREW ALLEN.

"His Excellency LORD DUNMORE.

"Williamsburg, May 25th, 1774."

(No. 4.)

Letter from Lord Dunmore to James Tilghman and Andrew Allen, Esquires.

"WILLIAMSBURG, 26th May, 1774.

"Gentlemen:

"I perceive you have fallen into the Error, that from my having alledged the Reasons which induced me to think your first Proposal improper for me to comply with, I would enter into a discussion at length, of all the Points of the Claim of the Proprietors of Pennsylvania, which I must assure you was in nowise my Design, nor can I by any Means consent to.

"I must, nevertheless, repeat here that I think, from the Words of your Grant, that a Meridian Line (which is sufficiently described

in my Answer to your first Proposal,) the Line that should determine your Western Boundary, and the Reason very plain, that this Meridian should be drawn rather from the North than the South, because the Grant directs that the Survey shall begin at a Point on the South part of the Boundary, and proceed Northward as far as three and forty Degrees of Latitude, and it being usual in like Cases, always to proceed, consequently from thence extend five Degrees of Longitude, and not return to the South Point to draw it from thence, which cannot any way be inferred, no more than it can be supposed that it was inconsiderately intended the Grant should extend five Degrees of Longitude from every Part of the River Delaware, which would make a Line so difficult, if not impossible, to trace upon the Land.

"That you should think the Circumstances, which I cannot but be of Opinion must render the Parchment Boundary of Pennsylvania, whatever it were, insufficient now to determine the Limits of the Province, needless to be considered, is a Point which must be perfectly indifferent to Me, for the Reason I have given in the first part of this Letter; but your Idea is a mistaken one, that leads you to conclude that the same Circumstances militate equally against Virginia as against Pennsylvania, there being no less important a Difference than that the one acts for the King, the other against him. The Jurisdiction of Virginia cannot he exercised over any Country but for the immediate Benefit, as well as Interest of His Majesty, to whom that Jurisdiction secures the Quit Rents, and every Advantage which His Majesty had proposed to draw from the granting of his unappropriated Lands, but which I presume, is not meant to be urged in vindication of the Encroachments of Pennsylvania. But in the present Instance, however, Virginia has interfered only, as you knew before, in compliance with the Request and formal Petition of a numerous Body of Inhabitants, who, thinking themselves, from the general Opinion, settled within the limits of this Government, apply to the Authority thereof to be protected against the usurped Jurisdiction of Pennsylvania, which Virginia did not think itself at Liberty to refuse, but which it granted, nevertheless, without the least Design of refusing Obedience to whatever Decision His Majesty may be pleased to make thereupon; the Tenour of which Attempt, Proceeding, and Determination, make another essential Consideration, and which renders, I am inclined to believe, the Case of Virginia in this Dispute impossible to be assimilated, as you would endeavour, to that of Pennsylvania. Your Interpretation of my first Letter, to infer I have allowed there was a prior exercise of Jurisdiction on the Side of Pennsylvania, obliges me to recall to your View the Transactions in Governor Dinwiddie's Time, and to inform you, if you are ignorant of it, of a requisition from General Gage to this Colony as that to which, by the Public Opinion, the Territory belonged, to appoint a Magistrate at Fort Pitt, where there then was none, and which Magistrate was

accordingly appointed, which, while it proves the prior exercise of Jurisdiction to have been, not on the side of Pennsylvania but on that of Virginia, as these were Acts of Public Notoriety, and undertaken under the Authority of public exigence. They prove also more the Impropriety of Pennsylvania's having exercised their Jurisdiction at all in that District without other Authority than their own Opinion and Motive, than their private Advantage, and the Title still stronger of this Government to an Apology for it.

"You proceed to intimate that you are certain if any of your Officers have acted Officially beyond the known Limits of the Province, they will be censured rather than supported, I really think I shall be justified in questioning this Assertion, for although much Pains, as is pretended, have been taken to ascertain your Boundary, It would seem very strange, I think impossible, that even this very Boundary is immediately unknowingly exceeded, I am warranted to say, by near a hundred miles, and yet I have not heard of the Dispensation even of that Gentle Punishment you mention, though we know of one of your Officers being supported and justified in Terms not very decent, in a violent Act that has been the Cause of whatever Disturbances or Disputes subsist between the two Colonies. Nor can I think that, if I had upon Application first made to me to take the Country in dispute under the Government of Virginia, intimated my Design to the Governor of Pennsylvania, (which I rather believe you mention by way of recrimination,) it would have had the Effect you say, for there is surely as great a necessity for preventing all disagreeable Consequences now as there was then, and the pretensions of both Parties were, I suppose, the same then as now; and what are your Proposals to reconcile them? Why in your first propose, that every Thing in dispute shall be given up to Pennsylvania, and in your second, that Virginia shall be content without having any Thing given up to it; at least I can find nothing given up by your proposal of the Monongahela, &c^{a}; what else therefore, can I conclude from both the Proposals, but that no real Intention is meant to avoid the great and reciprocal Inconveniences of a doubtful Boundary, which otherwise would, I conceive, as it was not intended to be final, have been in a Manner that could justify this Government in general with the People for any Departure from the conceived Opinion of the Limits of the Colony, and myself in particular, with His Majesty, for entering into any agreement that may eventually affect his right.

"I join with you in Concern that we should differ so widely in Conception of the Extent of Pennsylvania, as it affects Virginia, but must confess that your Objections have not altered my Opinion of the Construction of your Grant, notwithstanding you are so confedent of being supported in yours. However, I am less anxious about the issue of these different opinions than I am about the Effects of them in the meantime. Your Proposals amounting in

reality to nothing, could not possibly be complied with, and your Resolution with respect to Fort Pitt, (the Jurisdiction over which Place I must tell you at all Events, will not be relinquished by this Government without his Majesty's Order,) puts an entire Stop to further Treaty, and makes me sincerely lament that you have put it out of my Power to contribute to re-establish the Peace and Harmony of both Colonies, and to evince my good Intentions as well towards the one as the other.

"humble Servant,

"My Lord:

"Since your Lordship is determined, as you are pleased to say, at all Events not to relinquish your Jurisdiction over Fort Pitt, a Period is put to our Treaty, and we can only, with your Lordship's, lament the continuance of those reciprocal Inconveniences of clashing and disputed Jurisdictions, which we are conscious of having done every thing which could be reasonably expected of us to prevent, and We have only to add our Thanks for the polite Attention your Lordship has been pleased to shew us, and the Dispatch you have given to our Business. We intend to leave Town to-Morrow, but before our Departure, we shall do ourselves the Honor to wait on your Lordship for your Commands to the Northward, where we shall be ready to render your Lordship any Service in our Power.

MEMORANDUM.

The Committee appointed to draw up the Letters agreed on Yesterday, laid their Draughts before the Governor, which being ap-

proved by him, were fairly transcribed, and ordered to be dispatched without Delay.

The said Letters follow in these Words, Viz^{t}:

Letter from the Governor to Sir William Johnson.

"PHILADELPHIA, 28th June, 1774.

"Sir:

"By the repeated Accounts which I am daily receiving from Pittsburg, and other Parts of our Western Frontier, there seems little room to doubt but the mutual Hostilities which have unhappily taken Place between some of the Inhabitants of Virginia and the Western Indians, particularly the Shawanese, will end in a general War, unless some prudent Measures are speedily taken to prevent it.

"The occasion of this unfortunate Breach, as well as the particulars of the Murders which have been committed on both sides, have no doubt been communicated to you, by the Deputy Agent for Indian Affairs at Pittsburg. It will therefore be only necessary for me to inform you in general, that a great Part of the Settlers in our back Country have fled from their Habitations, and that the Panic is daily increasing, to such a Degree that there is just Reason to apprehend a total Desertion of that Country.

"I have been induced from a Representation of the Distresses of these People, to Issue Writs to call our Assembly to meet at Philadelphia on the 18th of next Month, to enable me to afford them the necessary Relief.

"As it is of the utmost Consequence that this Affair should be properly represented to the Six Nations, and that they should, if possible, be induced to become Mediators between us and the Shawanese and Delawares, I must request you will take such Measures as you shall think most proper to satisfy them that any Injuries which the Shawanese may have received and may consider as a Provocation for the Hostilities committed on their Part, were by no Means done by the Orders or Consent of this Government, but that on the contrary, we have been ever sincerely disposed to preserve Peace and Friendship with them, and are now very willing, notwithstanding what has happened, to listen to Terms of Accommodation, and to renew our Friendship and forget every Thing that is past. Your interposition and influence in this Matter may very possibly have the most salutary Effects. If a Rupture can be prevented, it appears to me it must be through the Six Nations; however, I submit the Matter entirely to your Consideration, and am Sir, with great Regard,

"Your most obedient humble Servant,

"JOHN PENN.

"Sir WILLIAM JOHNSON, Baronet."

A Letter from the Governor to Lord Dunmore.

"PHILADELPHIA, 28th June, 1774.

"My Lord,

"I am very unhappy to find myself under the necessity of writing to your Lordship on so disagreeable a Subject as an Indian War, which is now like to become general, unless the Governments of Virginia and Pennsylvania, by some prudent and timely Interposition, may happily prevent the further progress of Hostilities which have unhappily taken Place. I have taken the best Measures in my Power to keep the Settlements, from breaking up, and have called the Assembly upon the Occasion, in order that every proper Step may be taken, either to compose the Differences between His Majesty's Subjects and the Indians, or to defend the Frontiers if pacific Measures should fail.

"I have so many Complaints of the Behaviour of Doctor Conelly, that I am obliged to wish your Lordship to make some enquiry into his Conduct, which, if my Information be true, is extreamely oppressive and tyrannical with respect to our People, and what is still worse, there is a great Reason to fear his Military Operations may have a dangerous tendency to involve the Colonies in general in an Indian War. He seizes upon the Property of the People without reserve, and treats the Persons of our Magistrates with the utmost Insolence and disrespect, and with Menaces not only of imprisoning them, but even of pulling down their Houses, and it is said he has sent out, or is to send out Parties against the Indians, with orders to destroy all they meet with, whether Friend or Foe. These Matters may be exaggerated, but I cannot doubt but that Mr. Conolly has afforded some Ground for these Complaints, and altho' your Lordship hath been pleased to claim the Jurisdiction of Pittsburg and the country thereabouts, I would fain hope that you would not encourage Mr. Conolly in such exhorbitances and Outrages as are laid to his Charge.

"I have the Honor to be,

"your Lordship's most Obedient,

"humble Servant.

"JOHN PENN.

"To the Right Honorable The Earl of Dunmore, Governor and Commander-in-Chief of His Majesty's Province of Virginia, Williamsburg.

A Letter from the Governor to Arthur St. Clair, Esquire.

"PHILADELPHIA, 28th June, 1774.

"Sir:

"The Accounts which you have transmitted of the Temper of the Indians, and the Murders they have already perpetrated, are truly alarming, and give every Reason to apprehend that we shall not long be exempt from the Calamities of a Savage War. The Desertion of that Country, in consequence of the Panic which has seized the Inhabitants on this Occasion, must be attended with the most mischievous Effects, and prove ruinous to the immediate sufferers, and distressing to the Province in general. Every Measure therefore, should be attempted to stop the Progress of this Evil, and to induce those who have already gone off, to return to their Habitations, and I must rely on you to exert all your Prudence and Activity for this Purpose. The Steps which have been already taken appear to me very proper, and I have no doubt but that you will continue your Endeavors to restore the drooping Spirits of the People, and inspire them with a Resolution to stand their Ground, at least 'till they are satisfied of the Intentions of the Indians towards this Province. You may assure them that Government sensibly feels the Distresses of their Situation, that it will be attentive to their Interests, and afford them every Assistance and Protection in its Power to give. With this Disposition, I have issued Writs for convening the Assembly on the 18th of next month, and shall immediately on their Meeting lay this Matter before them, and have Reason to expect that such Measures will be adopted as may effectually enable the Government to extend to them a Relief adequate to its wishes and their wants. In the mean Time, I shall give orders for such further supply of ammunition to be sent up as will be sufficient for the present Occasion.

"I have wrote to Sir William Johnson, informing him of the Intelligence we had received of these Transactions, and requesting his Interposition with the six Nations, to use their Influence with the Shawanese and Delawares, to prevent further Hostilities on their Part, and to assure them of the sincere Intentions of this Government to continue their pacific Disposition towards all our Indian Brethren. I have also wrote to Lord Dunmore, complaining of Conolly's outragious and tyrannical behaviour at Pittsburg, and representing the dangerous tendency his Military operations may have to involve the Colonies in a general Indian War.

"I am, Sir, your most Obedient humble Servant,

"JOHN PENN.

"To ARTHUR ST. CLAIR, Esquire,
"at Ligonier, in Westmoreland County.

"P. S. My Commissioners who attended Lord Dunmore, could not induce him to come into any reasonable temporary Line of Ju-

risdiction, and therefore Things must remain in the disagreeable Situation of Interfering Jurisdictions. In this unhappy Situation, I am satisfied you and the other Magistrates will act a prudent Part. It is impossible in such a Case to give particular Directions. With respect to the keeping up the Rangers you have raised for the Security of the Inhabitants, I shall recommend it to the Assembly to defray the Expence that shall accrue in that necessary Measure; and I cannot have the least doubt that they will approve of what has been done on this Occasion, as also the continuance of the same Forces, until their Sentiments can be known."

At a Council held at Philadelphia, on Thursday, 14th July, 1774.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

Richard Peters, James Tilghman, } Esquires.
Benjamin Chew, }

The Governor laid before the Board several late Letters from Arthur St. Clair, Esquire, at Ligonier, containing very favourable Accounts of the Disposition and Temper of the Indians, as also an Extract of Mr. Alexander McKee, the Deputy Indian Agent's Journal, of all the Transactions with the Indians at Pittsburg, since the first of May last.

The Governor then acquainted the Board that the Assembly being to meet by Summons, on Monday next, on Occasion of the late Indian Disturbances, he thought it would be necessary that a Message on that Subject should be prepared, to be sent them immediately on their Meeting; Whereupon Mr. Chew, Mr. Tilghman, and Mr. Shippen, were appointed a Committee to prepare a Draught of the same.

Monday, 18th July, 1774.

A Committee of Assembly waited on the Governor with a Verbal Message, acquainting him that the House were met pursuant to His Honour's Summons, and desired a Copy of the Writ by which they were convened. The Governor thereupon immediately sent to the House by the Secretary, one of the Writs he had issued for summoning them, and also the following Message, which had been prepared by the Committee of Council appointed to draw the same, together with the several Letters and other Papers of Intelligence he had received relative to the State of Affairs with the Indians, Viz^t.:

A Message from the Governor to the Assembly.

"Gentlemen:

"The Importance of the Matter I have to lay before you will, I am persuaded, make it unnecessary to apologize to you for calling you together at a Season of the Year of all others the most inconvenient for you to attend the Public Business.

"I am to inform you that in the latter end of April last, about eleven Delaware and Shawanese Indians were barbarously murdered on the River Ohio, about ninety Miles below Pittsburg, by two Parties of White Men, said to be Virginians. As we were at that Time in a State of perfect Amity with the Western Indians, and it does not appear that those who were killed by the above Parties had given them the least Provocation, I am at a loss to conjecture what could be the Inducement to acts so cruel and inhuman.

"As soon as this unfortunate Affair was known on the Frontiers of this Province, Messages were dispatched to assure the Indians that these outrages had been committed by wicked People without the Knowledge or Countenance of any of the English Governments, and requesting they might not be the means of disturbing the Friendship which subsisted between us. This Step had so far a good Effect as to quiet them for the present, and prevent their coming to a Resolution to enter into a general War with us. It did not however, restrain the particular Friends and Relations of the Deceased, who, it seems, contrary to the advice of their Chiefs, in a short Time afterwards took their Revenge by murdering a number of Virginians, settled to the Westward of the River Monongahela. Alarmed at this proceeding, the out Settlers left their Habitations and fled with their Families into the interior Parts, and the Panic soon became so universal that a great Part of the Western Frontier of this Province was totally deserted, and it is impossible to say when the Mischief would have stopped, had not a number of Rangers been raised by the Magistrates and others in the County of Westmoreland, who were stationed in proper Places, to protect the Inhabitants, and act defensively in case of an Attack. This Measure I esteemed a very salutary one, supplied the men with Arms and Ammunition, and ordered them to be kept up 'till the Meeting of the Assembly, under a full persuasion that you would chearfully defray the necessary Expence attending it.

"It would be too tedious to relate the several occurrences which have happened from Time to Time since the first Act of Hostility committed, but I refer you for more particular Information thereon to the Letters and Papers I have ordered the Secretary to lay before you. You will thereby perceive that the Delawares and Shawanese repeatedly made the strongest Professions of a pacific Disposition, and their Desire that Matters should be accommodated; and, as an Earnest of their Sincerity, they not only protected the Persons and Goods of our Traders among them from the Violence of some of

their young Warriors, but actually escorted many of them back to their Friends near Pittsburg, at the Risque of their own Lives. Hence we had great Reason to believe that, by a just and discreet Conduct a Rupture with them might have been avoided, but I am sorry to inform you that I have received Intelligence that the very Indians who thus generously escorted our Traders home were, Contrary to all Faith, pursued on their Return, attacked, and one of them wounded by a Party of Virginians sent out for the purpose by one Conolly, a Militia Captain, appointed by the Government of Virginia, at Pittsburg, who has lately taken Possession of that Place under pretence of its being out of the Province of Pennsylvania and within the Colony of Virginia. By this unhappy Step, there is great Reason to apprehend it will be difficult to persuade the Indians further to confide in any Overtures that can be made, or Assurances given them, and that we shall be involved in the Calamities of an Indian War. Nothing in my Power has been neglected, which I thought might have a Tendency to avert so great an Evil. I have wrote to Sir William Johnson, requesting he would Interest himself on the Occasion, and use his Influence with the Six Nations to assist in healing the Breach with their Western Brethren; and have dispatched a Letter to Lord Dunmore, representing the misconduct of Conolly, and the Dangerous Consequences of his unjust and Violent Proceedings. In this dark and uncertain State of things, what will be the Event Time only can discover, but I think it my Duty most earnestly to recommend it to you to make Timely and effectual Provision for the Security of our Frontier Settlements, that in Case of a War with the Savages, they may have that immediate Protection and Assistance which they look for, and have a Right to expect from the Government under which they live, and that you will also provide for the discharging such Expences as have hitherto arisen by my Orders for their Defence, in which I will readily concur with you.

"Could you devise any other probable Method by which this unhappy Difference with the Indians can be accomodated, it would give me infinite Satisfaction, and nothing could afford me more Pleasure than the being instrumental in accomplishing so desirable an End.

"JOHN PENN.

A Committee of Assembly presented to the Governor for his Concurrence two Bills, entituled "An Act to continue An Act entituled An Act to amend the Act entituled An Act to prevent the Exportation of Bread and Flour not Merchantable;'" And

"An Act for lending the sum of eight hundred Pounds to the several and respective Counties of Bedford, Northumberland, and Westmoreland, for building a Court House and Prison in each of the said Counties."

The Governor having considered and approved the two Bills sent up Yesterday by the Assembly, sent them to the House by the Secretary with his Assent.

Eodem die, at Noon.

A Committee of Assembly waited on the Governor, and delivered him a written Message in answer to His Honor's Message of the 18th Instant, with a Copy of the Resolutions of the House, and at the same Time, acquainted the Governor that the House proposed to adjourn to the 19th of September next, if he had no Objection to that Time, and also requested to know when he would be pleased to pass the Bills which he had agreed to. To which The Governor replied that he had no Objection to their proposed Adjournment, and would go immediately to the Council Chamber in order to pass the Bills.

Council Chamber, P. M.

The Governor having acquainted the Assembly, by the Secretary, that he was in the Council Chamber, and ready to receive the House, in order to pass the two Bills which had received his Assent; the whole House waited on him, and the Speaker presented to him the two Bills entituled

"An Act for lending the Sum of eight hundred Pounds to the several and respective Counties of Bedford, Northumberland, and Westmoreland, for building a Court House and Prison in each of the said Counties."

"An Act to continue an Act entituled 'An act to amend the Act entituled An Act to prevent the Exportation of Bread and Flour not Merchantable," which His Honor enacted into Laws, and appointed the Secretary to accompany two members of Assembly to see the Great Seal affixed to them, and to deposite them in the Rolls Office.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

Benjamin Chew, Andrew Allen, James Tilghman, } Esquires.

The Secretary having, by direction of the Governor, prepared a Draft of a Proclamation offering a Reward, pursuant to the Re-

quest of the Assembly, for apprehending the Persons said to have Murdered Joseph Wipey, a Delaware Indian, laid the same before the Board, which was approved and ordered to be published, and printed Copies thereof sent to Westmoreland. The Proclamation follows in these Words, Viz^{t}:

"*By the Honourable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of Newcastle, Kent, and Sussex, on Delaware:*

"A PROCLAMATION.

"WHEREAS, I have received information that some Time in May last, a certain friendly Indian Man, called Joseph Wipey, was barbarously murdered in the County of Westmoreland; *And Whereas*, there is great Reason to believe that John Hinkson, and James Cooper, of the same County, were concerned in the perpetration of the said Murder; *And Whereas*, it is at all Times, but more especially in the present Situation of our Affairs with the Western Indian Nations, of the utmost Consequence to the Peace of the Province, that the Perpetrators of such atrocious Offences, not only against the Authority of Government, but in direct Violation of the Treaties with those Indians, should be brought to condign and exemplary Punishment; I have, therefore, thought fit, with the advice of the Council, to issue this Proclamation, And do hereby strictly charge and Command all Judges, Justices, Sheriffs, Constables, and other Officers, as well as all other His Majesty's liege Subjects within this Province, to make diligent Search and Enquiry after the said John Hinkson and James Cooper, and to use all lawful Means for apprehending and securing them, that they may be proceeded against according to Law. And I do hereby promise and engage, that the Public Reward of one hundred Pounds shall be paid to any Person or Persons who shall apprehend the said John Hinkson and James Cooper, and deliver them into the Custody of the Keeper of the Gaol of either of the Counties of Lancaster, York, or Cumberland, or the Sum of fifty Pounds for either of them.

"*Given* under my Hand and the Great Seal of the said Province, at Philadelphia, the twenty-eighth day of July, in the fourteenth Year of His Majesty's Reign and in the Year of our Lord one thousand seven hundred and seventy-four.

"JOHN PENN.

"By His Honour's Command.

"JOSEPH SHIPPEN, Junr, Secretary.

"GOD SAVE THE KING."

The Governor laid before the Board a Letter he received from Colonel Guy Johnson, dated 22d July, 1774, which follows in these words, Viz^{t} :

"Guy Park, 22d July, 1774.

"Sir:

"Your Dispatch of the 28th Ult^{o} to Sir Wm. Johnson, arrived when that worthy man was, thro' the Fatigues occasioned by the late general Congress, (which is just ended,) very much indisposed; he nevertheless continued all that day to do Business with them, but in the Evening was seized with a Relapse, which carried him off in a Fit that night. As it was a very critical Period, and that he had strongly recommended me for his Successor to His Majesty's Ministers, I continued to conduct the Business of the Congress, at the earnest entreaty of the Indians, and brought it, I think, to a happy termination; and I have now received His Excellency General Gage's Appointment to the Superintendancy, 'till His Majesty's final Pleasure is known; I enlarged during the Conference on the unhappy Situation of your Frontiers, and represented it as the Duty of the Six Nations to bring those they call their Dependants to Reason; they have accordingly agreed to send Deputies from each Nation to the Southward, who will set out to-morrow, but they complain very much of the ill treatment they receive from the frontier People of Virginia, &c^{a} and of their Encroachments, and demand Redress. The Hurry in which the late sudden Accident has engaged me, and the number of Dispatches I must now necessarily make up for the Post, who is waiting, will not permit me to be more particular at present, but you may be assured, Sir, that whilst I have anything to do in these Affairs, I shall use my utmost Endeavours for the Peace and Happiness of your Province, and from true personal Regard, shall always be glad to serve or oblige you,

"as I am with real Esteem, Sir, your most Obedient,

"and Most humble Servant,

"G. JOHNSON.

"I have taken the Liberty to inclose a Letter to Mr. McKee, on occasion of the present Troubles; as I understand there is no Post to Fort Pitt, and that it might meet with great delay, I shall be glad to have any further Information respecting your Frontiers."

The Council then advised the Governor to write an answer to the above Letter by the next Post, and also to write Lord Dartmouth by the first Packet, informing him of the public Occurrences here since he wrote him last, and transmit him Copies of the Governor's Message to the Assembly, their Answer, Resolves, and the Resolves of the Committee of all the Counties lately met in this City, and also the Instructions drawn up by them to the Assembly respecting the Conduct of the Delegates to be named by the House to

attend the General Congress of Delegates from all the Colonies, proposed to be held at this city in September next.

At a Council held at Philadelphia, on Thursday 4th August, 1774.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

Benjamin Chew,
James Tilghman, } Esquires.
Andrew Allen,

The Governor laid before the Board two Letters, which he received within these three days from Captain St. Clair, at Ligonier, dated the 22d and 26th July, with sundry Papers inclosed relative to Indian and other Affairs in Westmoreland, and the same being read and considered, the Council advised the Governor to order a Town to be immediately laid out in the Proprietary Manor at Kittanning, for the accommodation of the Traders and other Inhabitants of Pittsburg, whom, by Captain St. Clair's advices, would be under the necessity of removing from that Town on Account of the oppressive Proceedings of the Virginians.

It appearing, also by the Intelligence contained in the above mentioned Letters, that though the Disposition of the Shawanese and Delaware Tribes of Indians, towards the People of this Province, were entirely pacific, the former Tribe had separated themselves from the latter, and were removed to the lower Shawanese Towns on the Sciota, in order to prepare themselves for War against the People of Virginia, who seemed determined to pursue Hostile Measures with those Indians, It was the Opinion of the Council that it would be proper for this Government immediately to dispatch Messages to both those Tribes, expressing our great Concern at the late Disturbances, and the friendly Dispositions of this Government towards them, and earnestly advising the Shawanese to a reconciliation with the Virginians; and that a Letter be also wrote to the Earl of Dunmore, recommending it to him to accommodate the unhappy Differences between the Colony of Virginia and the Indians. Mr. Tilghman and Mr. Allen were appointed a Committee to prepare Draughts of the above Letter and Messages.

—

MEMORANDUM, 6th August, 1774.

The Governor this day dispatched by the Express from Ligonier, a Letter to Captain St Clair, and inclosed therein two separate Messages to the Shawanese and Delawares on the Ohio, which had been

prepared by the Committee of Council appointed to draw them, which Messages follow in these Words, vizt:

Letter from the Governor to Captain St. Clair.

"PHILADELPHIA, 6th August, 1774.

"Sir:

"I have received your Letters of the 22d and 26th Ult^{o}, inclosing several Depositions and Letters relative to the present Situation of Affairs in Westmoreland.

"As I find by all the Intelligence you have from Time to Time communicated to me, that the Shawanese, as well as Delawares, have discovered a strong Aversion to entering into a War, either with Virginia or this Province, and, on the Contrary, have given repeated Proofs of their sincere Disposition to live in Peace and Harmony with both Colonies, I have with the Advice of my Council, thought it expedient to send Messages to those Tribes, expressing the great Concern of this Government at the late unfortunate Disturbances between them and some of His Majesty's Subjects belonging to the Colony of Virginia, at the same time declaring our Resolution to preserve the Treaties of Peace and Friendship subsisting between us inviolate, and earnestly advising the Shawanese not to strike the People of Virginia, as they, as well as the People of this Province, are all Subjects of one and the same Great King, who will be as much offended at any Injury committed against any one Part of his Subjects as another, but to exert their best Endeavours to settle the Differences that have arisen between the Virginians and them, and to continue to live in Friendship with all his Majesty's Subjects.

"As to the Proposal of engaging the Service of the Delawares to protect our Frontiers, I would only just observe that it is a Matter, in the present Situation of Indian Affairs, too delicate for me to intermeddle in.

"Since my last Letter to you, I have considered of what you mentioned in a former Letter, and now repeat, respecting the Establishment of some Place of Security for carrying on the Indian Trade, as you say that Pittsburg will certainly be abandoned by all our People; and I am now to acquaint you that I approve of the Measure of laying out a Town in the Proprietary Manor at Kittanning, to accomodate the Traders and the other Inhabitants who may chuse to reside there; and, therefore, inclose you an Order for that purpose. But I cannot, without the Concurrence of the Assembly, give any Directions for erecting a Stockade or any other Work for the Security of the Place, which may incur an Expence to the Province.

"With respect to the Continuance of the 200 Rangers in the Service, it must altogether depend upon the Intelligence we receive of the Situation of our Affairs with the Indians. At present I think

it very improper to discharge them; and it is not improbable that if the Commotions between the Virginians and Indians should not soon be at an End, it may be necessary to keep them on foot for the Protection of our People 'till the Meeting of the Assembly on the 19th of September.

"I herewith send to your Care the Messages above mentioned, with a Belt of Wampum accompanying each, and desire you will engage some trusty, intelligent Person to carry them, and interpret the Messages to the Indians. A young man of the name of *Elliot*, who has been trading at the Shawanese Towns, and lately came from thence, has offered his Service to carry any Messages from Government to the Indians, and may probably be a very proper Person to employ on this Occasion. He was to leave this Place Yesterday on his return to Westmoreland. I should be glad to have his Deposition taken as to what he knows respecting the late Disturbances between the Virginians and the Indians, from the beginning of them.

"You hint something in your last Letter about making Presents to the Indians, but, though such a Step at some future convenient Time might be very useful and proper, I am of Opinion it would be very unadvisable under the present Circumstances.

"I am, with great Regard, Sir,

"Your most Obedient humble Servant,

"JOHN PENN.

"To Arthur St. Clair, Esqr. at Ligonier."

"*By the Honourable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of Newcastle, Kent, and Sussex, on Delaware.*

"*A Message to the Chiefs and Warriors of the Shawanese Indians.*

"Brethren:

"When I heard that you had taken Care of our Traders, and had sent some of your young Men to conduct them Home in Safety, it made my Heart glad, because I was satisfied that you kept fast hold of the Chain of Friendship which was made between our Fore Fathers, and renewed by us, and you may be assured that I shall always remember this Instance of your kindness, and that I shall hold fast that End of the Chain which is in my Hands, so long as you hold yours. But, Brethren, it gives me great Concern, and my Heart is grieved to hear of the Difference between you and our Brothers, the People of Virginia. If any of the wicked People of Virginia have murdered any of your People, you should complain of it to the Governor, and he will have them punished. You should not, in such Cases, take Revenge upon innocent People who have

never hurt you. It is a very wicked Thing to kill innocent People, because some of their Countrymen have been wicked, and killed some of you.

"Brethren:

"If you continue to act in this Manner the People of Virginia must do the same Thing by you, and then there will be nothing but War between you. Consider, Brethren, that the People of Virginia are like the Leaves upon the Trees, very numerous, and you are but few, and although you should kill ten of their People for one that they kill of yours, they will at last wear you out, and destroy you. They are able to send a great Army into your Country and destroy your Towns, and your Corn, and either kill your Wives and Children, or drive them away. Besides, Brethren, the Virginians, as well as our People and you, are the Children of the Great King who lives beyond the Great Water; and if his Children fall out and go to War among themselves, and some of them are wicked, and will not make Peace with the others, he will be very angry, and punish those who are in fault. Therefore, Brethren, let me advise you to forget and forgive what is past, and to send to the Governor of Virginia, and offer to make Peace.

"I shall write to the Governor of Virginia, and endeavour to persuade him to join with you in mending the Chain of Friendship between you, which has been broken, and to make it so strong that it may never be broke again; and I hope Brethren, if he be willing to do this good Thing, that you will be of the same Mind, and then we shall all live together like Friends and Brothers.

A Belt.

"*Given* under my Hand and the Lesser Seal of the said Province, at Philadelphia, the sixth day of August, in the Year of our Lord, 1774.

"JOHN PENN."

"*By the Honorable JOHN PENN, Esquire, Governor, and Commander-in-Chief of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware.*

"*A Message to the Chiefs and Warriors of the Delaware Indians.*

"Brethren:

"I was grieved at my Heart when I heard that some of our foolish young Men had killed our Brother Joseph Wipey, and that the Virginians had killed some of your People below Fort Pitt. I was fearful that you would suffer your young Men to take Revenge upon our innocent People, But when I heard that you had a good Heart, and viewed these Things in their proper Light, and that you

remembered the Chain of Friendship made by our fore fathers, and would not take revenge upon us, for what the Virginians or some of our foolish Young Men had done, it gave me the greatest Satisfaction, and made my Mind easy.

"Brethren:

"You may depend that so long as you are inclined to Peace and Friendship you shall find me in the same Mind, for why should we fall out and go to murdering one another for what our foolish young People do, and what neither of us approve of? In such Cases let us endeavour to find out such foolish young men and punish them for their Wickedness. I have offered a Reward of fifty Pounds a piece for those two wicked People who it is said murdered Joseph Wipey, and if they can be taken I shall do every thing in my Power to have them punished.

"I am very sorry to hear that your Grand Children, the Shawanese, have a Difference with our Brothers the Virginians, and I wish I could make them Friends. I shall write to the Governor of Virginia, and recommend it to him to endeavour to make Peace with them; and I would advise you to go to the Shawanese, and persuade them to forget every thing that is past, and make up all their Differences with the People of Virginia, so that we may all live together in Peace and Quietness like Friends and Brothers, for what can they get by being at War with one another; whoever of them gets the best, both will be very much Hurt.

"Brethren:

"I live a great way from You, and have a great deal of Business to do with my People at home, otherwise I would go to see you and shake Hands with you, and smoak a Pipe with you, under the Tree of Peace, as we and our fore-fathers used to do. By all Means Brethren, be Strong, and keep fast hold of one end of the Covenant Chain, and you may be assured I will keep fast hold of the other, and when any of our People are so wicked as to kill any of yours, or do you any Harm, let me know it, and I will do every Thing in my Power to have Justice done.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

William Logan, James Tilghman,

Benjamin Chew,

The Council having some time since represented to the Governor the absolute necessity of establishing, by an *ex-parte* Proclamation, the Lines of Jurisdiction between the Province of Maryland and the Province of Pennsylvania, and Counties of New-Castle, Kent, and Sussex, on Delaware, according to the Lines and Boundaries agreed upon, run and marked by the Commissioners appointed for that Purpose, by the Proprietaries of the said respective Provinces; and the Governor having, with the Consent and Concurrence of the Honorable Thomas Penn, Esquire, in England, approved of the said measure, a Draught of a Proclamation had been accordingly prepared, and is now laid before the Board, which being read and duly considered, was agreed to be issued, and ordered to be published in the several News Papers of this Province, and a Number of printed Copies thereof made and dispersed through the Province and the lower Counties on Delaware. The Proclamation follows in these Words, Vizt:

"*By the Honourable John Penn, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of New-Castle, Kent, and Sussex, on Delaware.*

"A PROCLAMATION.

WHEREAS, In Pursuance of certain Articles of Agreement made the tenth day of May, Anno Domini, 1732, between Charles Lord Baltimore, Proprietor of the Province of Maryland, and the Honorable the Proprietaries of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware, and of the Decree of the Lord High Chancellor of England, bearing date the fifteenth day of March, Anno Domini, 1750, for the specific Performance and Execution of the said Articles; and also in pursuance of certain other Articles of agreement made the fourth day of July, Anno Domini, 1760, between the Right Honorable Frederick Lord Baltimore, Son and Heir of the said Charles Lord Baltimore, and the Honorable the Proprietaries of the said Province and Counties, and of one other Decree of the Lord High Chancellor of England, bearing date the sixth day of March, 1762, for the specific performance of the said last mentioned Articles; the several Lines mentioned and described in the said Articles, and thereby finally agreed upon

and settled by the said Parties, to be and for ever remain the Boundaries and Division Lines between the said Provinces and Counties, have been run by Commissioners for that Purpose appointed and authorized by the said respective Proprietors, and marked out in exact conformity to the said Articles, with visible Stones, Pillars, and other Land marks, as by the said Articles and Decrees, and the Return of the said Commissioners, under their Hands and Seals, and an exact Plan or Map of the Lines, so as aforesaid by them run and marked, may at large appear: *And Whereas*, in the Year 1771 a joint Petition was preferred to His present most gracious Majesty, by the said Frederick Lord Baltimore and the Proprietaries of the said Province and Counties, reciting the above mentioned Articles and Decrees, and setting forth that their Commissioners were then proceeding in the Work; that they the said Proprietors were desirous, as much as in them lay, to quiet the Minds of all His Majesty's Subjects inhabiting in the lately disputed Parts of the said Provinces and three lower Counties, and to promote the Peace and Welfare those Parts; and in order to give a further Testimony of their firm Agreement, and that a final end and Period had been put to all their Contests and Litigations by the said Agreement of 1760, they, by their said Petition, most humbly prayed his Majesty that he would be most graciously pleased to give His Royal Allowance, Ratification and Confirmation of the several and respective Articles of Agreement, and enrolled Decrees above mentioned, and every Article, Clause, Matter, and Thing in them, and each of them contained, and that the same might be for ever established between them, Whereupon His Majesty, by his Order in Council, dated the eleventh day of January, 1769, was pleased to signify his Royal Approbation of the said Agreements and Proceedings mentioned in the Petition of the said Proprietaries; Whereof, as well the Proprietaries of the said Provinces, as all others whom it might concern, were ordered to take notice, and govern themselves accordingly, as by the said Petition and Royal Order may more at large appear. I have therefore thought fit, by the advice of the Council, to issue this my Proclamation, to publish and make known all and singular the Premises to all whom it may concern, hereby requiring all Persons dwelling and residing to the Northward and Eastward of the Lines and Boundaries so as aforesaid run and marked under the aforesaid Articles and Decrees, between the Province of Maryland and the Counties aforesaid, and to the Northward of the said Lines and Boundaries, as aforesaid, run and marked between the Provinces of Maryland and Pennsylvania, as far to the westward as the Province of Maryland extends, to yield obedience to the Laws of the said Province and Counties, and govern themselves according thereto. And I do also require all Magistrates, Sheriffs, and other Officers of Justice, appointed or to be appointed, in the said Province and Counties, to put in Execution the respec-

tive Laws thereof against all Offenders within the Lines and Limits aforesaid, as they will answer the Contrary at their Peril.

At a Council held at Philadelphia, on Wednesday 5th October, 1774.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

William Logan, Andrew Allen, Benjamin Chew, Edward Shippen, jun^{r}, James Tilghman, } Esquires.

The Returns of the Elections of Sheriffs and Coroners for the Counties of Philadelphia, Chester, Bucks, Lancaster, Berks, Northampton, New Castle, Kent, and Sussex, being made to the Governor, were laid before the Board; but before they were taken into Consideration The Governor acquainted the Board that he had received a Complaint from the Custom House Officers of this Port against William Dewees, Esquire, Sheriff of this City and County, for refusing to give his Aid and Assistance to Richard Swanwick, Commander of His Majesty's Schooner King George, in making a Seizure of a considerable Quantity of foreign Sugars, which had lately been taken from on board the Schooner Felicity, Allan Moore Master, from the Island of Hispaniola, and deposited in the Stores of Jeremiah Warder, without having been first entered in His Majesty's Customs, or the Duties thereof paid before they were landed, notwithstanding the said Swanwick had produced to the Sheriff a Writ of Assistance from the Chief Justice commanding the said Sheriff to give his Aid and Assistance in the Premises.

At the same Time the Governor laid before the Board the Deposition of the said Richard Swanwick in support of the said Complaint.

The Sheriff was thereupon called in, and desired to make an Answer to the Charges alledged against him in the said Deposition. To which he replied that he was entirely innocent, and could produce to them sufficient Proofs of his Innocence, and therefore prayed that he might have Time 'till to-Morrow for that Purpose, which was allowed him.

The Consideration of the Returns for the City and County of Philadelphia was therefore deferred, and the Board proceeded to consider the Returns for the other Counties above mentioned, and the following Persons were appointed and commissionated as Sheriffs and Coroners for their respective Counties, Viz^{t} :

The Honorable JOHN PENN, Esquire, Governor.

Benjamin Chew, Andrew Allen,

William Dewees Esquire, Sheriff, appeared at the Board and laid before them the Depositions of John Clark, William Morris, and himself taken before a Magistrate respecting his Conduct in the affair wherein Richard Swanwick has charged him with misbehaviour in his office. The said Depositions being read and duly considered, it appeared to the Board that the Charge against Mr. Dewees was founded on a misapprehension between Mr. Swanwick and Mr. Dewees, and that the latter had fully vindicated himself against that charge, and therefore they advised the Governor to continue him in Commission as Sheriff; At the same Time, the Governor acquainted him that it was his Duty upon all Occasions to give the most speedy and effectual Assistance to the Officers of His Majesty's Customs, in the Execution of their office, and enjoined him for the future to defer all Civil Business of his Office

that he might afford the most ready assistance to them when required.

The Returns of Sheriffs and Coroners for the Counties of Philadelphia, York and Cumberland, were then laid before the Board, and being duly considered, the following Persons were appointed and commissionated Sheriffs and Coroners for the Counties for which they are respectively returned, Viz^{t}:

Council Chamber.

MEMORANDUM, 15th October, 1774.

A Committee of the Assembly waited on the Governor yesterday, and acquainted him that, pursuant to the Charter and Laws of the Province, a Quorum of the Representatives had met, and had proceeded to chuse their Speaker, and desired to know when and where the Governor would be pleased to receive the House, that he might be presented for His Honor's Approbation. The Governor having appointed this Day, at o'clock for that purpose, acquainted the House, by the Secretary, that he attended his Appointment in the Council Chamber, and was ready to recieve the House with their Speaker.

The whole House waited on the Governor, and presented Edward Biddle, Esquire, as their Speaker, who, after receiving the Governor's Approbation, claimed the usual Privileges in the name and Behalf of the House, to which the Governor replied he thought those Privileges essentially requisite in a Representative Body, and he should be careful to protect the House in the full enjoyment of them, and then the House withdrew.

At a Council held at Philadelphia on Monday 17th October, 1774.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

William Logan, James Tilghman,
Richard Peters, Edward Shippen, junr, } Esquires.
Benjamin Chew,

Upon the application of John Patterson, Esquire, Deputy Collector of His Majesty's Customs for this Port, the Governor, with the advice of the Council, issued the following Proclamation, Vizt.:

"By the Honorable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware.

"A PROCLAMATION.

"WHEREAS, an Information hath been made to me by John Patterson, Esquire, Collector of His Majesty's Customs for the Port of Philadelphia, supported by Depositions taken before one of the Justices of the Peace for the County of Philadelphia, that in the night of the twenty-second day of last month, a considerable Number of Hogsheads of Foreign Sugars, were taken from on

board the Schooner Felicity, Allen Moore, Master, lately arrived from Hispaniola, and put into a Store in the Northern Liberties of this City, the said Sugars not having been first entered in the Custom House, nor the Duties thereof paid before they were landed, and that on the next Day, a great number of People armed with Clubs and Staves, appeared at the said Store, and prevented the Officers of the Customs from breaking open the Doors of the same, in order to make Seizure of the said Sugars, and that afterwards, in the Evening of the same Day, the said Sugars were violently and forcibly taken from the said Store and carried away. I have therefore thought fit, with the advice of the Council, to issue this Proclamation, and do hereby strictly charge, enjoin, and require all Judges, Justices, Sheriffs, and all civil Officers, as well as all others His Majesty's Subjects within this Province, to use their utmost Endeavors, by all lawful Ways and Means, not only to bring to Justice all offenders in the Premises, but to discountenance and discourage all such Violent, outrageous, and illegal Proceedings for the future; and also upon all Occasions, to afford the most speedy and effectual Aid and Assistance to the Officers of His Majesty's Customs in the legal discharge of their Duty.

"*Given* under my Hand and the Great Seal of the said Province, at Philadelphia, the eighteenth day of October, in the fourteenth Year of His Majesty's Reign, and in the year of our Lord one thousand seven hundred and seventy-four.

"JOHN PENN.

"By His Honour's Command.

"JOSEPH SHIPPEN, Jr., Secr'y.

"GOD SAVE THE KING."

The Board being of Opinion it would be expedient and necessary to continue in pay, for a Time longer, the Rangers employed in the Protection of the Western Frontiers of this Province, they advised the Governor to reccommend it to the Assembly to make Provision for that Purpose, and the following Message being prepared at the Table, was fairly transcribed and delivered to the House by the Secretary, Viz^{t}:

A Message from the Governor to the Assembly.

"Gentlemen:

"By the latest Intelligence from the Westward, The Earl of Dunmore was sent out on an Expedition down the Ohio against the Shawanese Indians, and it is very uncertain as yet whether the Troubles on the Frontiers may subside. I therefore find it incumbent on me to recommend to your Consideration the Propriety of keeping in pay, for a longer Time, the Rangers employed by this

Government, or taking such other Measures as you may judge on this Occasion most proper for the Public Security.

"JOHN PENN.

"October 17th, 1774."

—

MEMORANDUM, 19th October, 1774."

The Governor this Day received the following Message and Resolves from the Assembly in answer to His Honor's Message of the 17th Instant, Viz^{t}:

A Message to the Governor from the Assembly.

"May it please your Honour:

"Having taken into Consideration the Matters referred to us in your Message of the 17th Instant, we are of opinion that the Rangers employed by this Government should be disbanded by the first of November next, as their Service on the Frontiers does not appear to us to be any longer Necessary.

"We have provided, agreeable to the Resolves sent herewith, for the Payment of the Arrears that may be due, and for the incidental Charges that have accrued for this Service.

"As the safety of the Province, in a great measure, depends upon having a supply of Arms ready upon any Emergency, we trust your Honor will give orders, that at the Time of disbanding the Men, the Arms with which you supplied them may be collected and deposited in some place of Security.

"Signed by Order of the House.

"E. BIDDLE, Speaker.

"October 19th, 1774."

—

In Assembly, October 19th, 1774.

"*Resolved,* That the Pay of the Rangers on the Frontier be continued 'till the first of November next, and that they be then disbanded; it not appearing to the House that their Service is any longer necessary.

"*Resolved,* That Mr. Hillegas, Mr. Gray, Mr. Mifflin and Mr. Humphreys, or any three of them, by and with the Consent of the Governor of this Province, for the Time being, may draw Orders on the Provincial Treasurer for any Sum not exceeding fourteen hundred and fifty pounds, to be disposed of in discharging the Arrears of Pay and Victualling the said Rangers; the said Sum to be paid out of the Monies remaining in his Hands by Virtue of an

Act passed the 28th of September last, entitled An Act for the Support of the Government of this Province and Payment of the Public Debts.

"Extract from the Journals.

"CHA^{s}. MOORE, Cl'k. of Assembly."

—

New-Castle, October 20th., 1774.

George Read, Esquire, having resigned his Office of Attorney General of this Government, the Governor was this Day pleased to issue a Commission appointing Jacob Moore, Esquire, to that Office.

A Committee of Assembly waited on the Governor with a Message from the House, acquainting him that they had met pursuant to the Charter and Laws of the Government, and had chosen their Speaker, and desired to know when and where they should wait on him to present him. The Governor having answered that he should be ready to receive the House at Mrs. Clay's, they accordingly attended there and presented Cæsar Rodney, Esquire, as their Speaker, who, being approved by the Governor, claimed the usual Priviledges, which were allowed, and then they withdrew.

—

Eodem Die.

A Committee of Assembly having waited on the Governor and acquainted him the House were duly qualified, and were ready to receive any Business his Honor might have to lay before them, the Governor sent the Secretary with a written Message to them in the following words:

A Message from the Governor to the Assembly.

"Gentlemen:

"As the Jurisdiction of this Government is now extended to the Provincial Lines run and marked between these Counties and Maryland, in pursuance of Agreements between the respective Proprietaries and of Decrees of the high Court of Chancery in England, founded on those Agreements, and as the newly acquired tract of Country is not properly within any particular County, there seems to be a Necessity of a Law for establishing divisional Lines between the Counties, from the Western termination of the late reputed Boundaries to what is called the Tangent Line. I must, therefore, recommend the Matter to your immediate Consideration.

"JOHN PENN.

At a Council held at Philadelphia, on Wednesday 2d November, 1774.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

Richard Peters,	James Tilghman,	} Esquires.
Benjamin Chew,	Andrew Allen,	

WHEREAS, on the Petition of sundry Freeholders, and other Inhabitants of the County of Northampton, an Order of Council was issued on the 6th of April, 1771, directing six persons therein named, or any five of them, to view and lay out a Road from the north side of the Blue Mountain in the said County of Northampton to Wyoming, in the most convenient and direct Courses, and to make a Return of the Courses and Distances, with a Draught of the said Road into the Provincial Secretary's Office within six Months from the Date thereof. *And whereas*, another Petition from the Inhabitants of the said County of Northampton had this day been presented to this Board, setting forth that the six Persons named in the Order above mentioned have neglected to view and lay out the Road therein directed, and therefore praying that six other Persons may be appointed to view and lay out the aforesaid Road, (from the North side of the blue Mountain in the said County of Northampton); It is therefore Ordered, that Simon Heller, Casper Dull, Jonas Hartzell, Adam Hubler, Abraham Laban and Adam Joke, do view and lay out a Public Road, or King's High Way, from the North side of the Blue mountain, at a place called the Wind Gap, in the most direct and convenient Courses to Wyoming, so that the Communication between the said Places may be rendered as safe, easy and convenient for Carriages to pass, as the Nature of the Country will admit, and to make a Return of the Courses and Distances, with a Draught of the said Road, into the Provincial Secretarie's Office, in Order to be confirmed, if the same shall be approved.

The Governor laid before the Board a Letter he received yesterday by the Packet, from the Right Honorable the Earl of Dartmouth, one of His Majesty's Principal Secretaries of State, which was read, and follows in these words, Viz^{t}:

(No. 5.)

WHITEHALL, 26th August, 1774.

"Sir:

"It having been represented to the King that the Government of Pennsylvania has taken a Resolution to extend its Jurisdiction up to the Line settled by Commissioners between that Province and Maryland, altho' the Guardians of the Heir of Lord Baltimore have declared their incapacity, in point of Law, to concur in a ratification of that line, and consequent by their inability to take the like Step on their Part; and it being apprehended that such a partial extension of Jurisdiction may have the Effect to disturb the Peace of the King's Subjects settled on the Frontiers of both Provinces, and may occasion Violence and Bloodshed, I am commanded by the King to signify to you His Majesty's Pleasure, that you do desist from issuing any Orders for extending the Jurisdiction of Pennsylvania beyond those Places where it has been hitherto usually exercised, until the present Difficulty on the part of Maryland shall be removed, or until His Majesty's further Pleasure be known.

"I am Sir,

"Your most Obedient humble Servant,

"DARTMOUTH.

"Deputy Governor PENN."

Which Letter being duly considered, The Governor, in Compliance with His Majesty's Pleasure therein signified, issued the following Proclamation, Viz$^{t.}$:

"*By the Honorable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware.*

"A PROCLAMATION.

"WHEREAS, I have just received a Letter from the Right Honorable the Earl of Dartmouth, one of His Majesty's principal Secretaries of State, informing me 'that it had been represented to His Majesty that the Government of Pennsylvania had taken a Resolution to extend its Jurisdiction up to the Line settled by Commissioners between that Province and Maryland, although the Guardians of the Heir of Lord Baltimore had declared their Incapacity in point of Law to concur in a Ratification of that Line, and consequently their Inability to take the like Step on their Part; And it being apprehended that such a partial Extension of Jurisdiction might have the Effect to disturb the Peace of the King's Subjects settled on the Frontiers of both Provinces, and might occasion Violence and Bloodshed, he was commanded by the King to signify to me His Majesty's Pleasure, that I should desist from issuing any

Orders for extending the Jurisdiction of Pennsylvania beyond those Places where it had been usually exercised, until the present Difficulty on the part of Maryland shall be removed, or until His Majesty's further Pleasure should be known;' I have, therefore, in Compliance with His Majesty's Commands, thought proper to issue this, my Proclamation, hereby strictly commanding and enjoining all Magistrates, Sheriffs, and other Officers of Justice, to desist from exercising the Jurisdiction of the Government of Pennsylvania, or the Counties of New Castle, Kent, and Sussex, on Delaware, beyond those Places where the same hath been usually exercised until the present Difficulty, on the Part of Maryland, shall be removed, or until His Majesty's Pleasure shall be known in the Premises, any thing in any former Proclamation contained, to the Contrary notwithstanding.

"*Given* under my Hand and the Great Seal of the said Province of Pennsylvania, at Philadelphia, the second day of November, in the Year of our Lord one thousand seven hundred and seventy-four, and in the fifteenth year of His Majesty's Reign.

"JOHN PENN.

"By his Honour's Command.

"JOSEPH SHIPPEN, Junr Secretary.

"GOD SAVE THE KING."

—

November the 3d, 1774.

The Governor this day sent by the Packet a Letter to the Earl of Dartmouth, one of His Majesty's Principal Secretaries of State, in Answer to His Lordship's Letter of the 26th of August last:

(No. 5.)

"PHILADELPHIA, 3d November, 1774.

"My Lord:

"I have just had the Honor of your Lordship's Letter N° 5, of the 26th of August last, signifying His Majesty's Commands, 'that I should desist from issuing any Orders for extending the Jurisdiction of Pennsylvania up to the Line settled by Commissioners between that Province and Maryland, until the present Difficulty arising from the Minority of the Heir of the late Lord Baltimore shall be removed, or until His Majesty's further Pleasure be known.' I am to inform your Lordship that before the Receipt of your Letter, I had issued the inclosed Proclamation for exercising the Jurisdiction of this Province up to the Boundary Line run and marked out by Commissioners under the Authority of the Proprietaries of Pennsylvania and Maryland, in consequence of Articles of Agreement

executed by them for that Purpose, and the Decrees of the Lord Chancellor for the specific execution of those Articles. As the Commissioners had compleatly finished the running and marking the Lines in the Life Time of the late Lord Baltimore, and the Articles of Agreement between the Proprietaries for settling the Boundary, as well as the Proceedings of the Commissioners had, on the joint Petition of the respective Proprietaries, been ratified by His Majesty in Council, I conceived that a final End and Period had thereby been put to a Controversy which had been agitated for ninety Years, at an immense Expence to the Parties, to the great detriment of the Settlement of this Infant Country, and that nothing was wanting to validate or enforce a Transaction so solemnly established. But I was not induced, my Lord, to take this Step solely on Motives founded on the Interest of my Family. The People living between the antient temporary Line of Jurisdiction, and that lately settled and marked by the Commissioners, were in a Lawless State. Murders, and the most outrageous Transgressions of Law and Order were committed with Impunity in those Places. In vain did Persons injured, apply to the Government of Maryland for Protection and Redress. In this Situation they have of late repeatedly Petitioned to be taken under the Protection of this Province, into which they fell by the Lines run under the Articles and Decrees. Apprehensive lest some Disturbances might possibly arise by my issuing an ex-parte Proclamation for extending the Jurisdiction, I applied to the Government of Maryland to join with me therein, and I deferred the Measure 'till I found there was no Hopes of a Compliance with my Request; and so far, my Lord, has this partial extension of the Jurisdiction been from having the apprehended Effect of disturbing the Peace of the King's Subjects on the Frontiers, and occasioning Violence and Bloodshed, that it has had quite contrary tendency, and, as I have been well informed, has quieted the Disturbances there, and given universal Satisfaction to the People. His Majesty's Commands, however, it is my Inclination as well as Duty, on this, and every other Occasion, strictly, and without hesitation to obey. I have therefore issued a Proclamation, a Copy of which I inclose your Lordship, to counteract that lately published, and shall take no further Steps in the Affair, unless His Majesty on this State of Facts, and re-considering the Matter, shall be graciously pleased to permit me.

"I have the Honor to be, with great Respect,
"Your Lordship's most Obedient
"humble Servant,
"JOHN PENN.

"To The R^t. Honble. the Earl of Dartmouth, one of his Majesty's Principal Secretaries of State, Whitehall."

The Governor laid before the Board two Papers, delivered to him by Captain St. Clair, which were read, and are as follow, Viz^t^:

"*Westmoreland, ss:*

"Before us, Robert Hanna and Arthur St Clair, Esquires, two of His Majesty's Justices for Westmoreland County, personally appeared Samuel Whiteside, keeper of the Gaol of the said County, and being duly sworn according to Law, deposeth and saith: that on this Instant, twenty-fourth of December, a number of armed Men came to the Gaol of the said County, and ordered him to open the Prison Doors, and turn out a certain William Thomas, then in his Custody on sundry Executions; that he believes a certain William Christy and Simon Girty, who seemed to be Officers from their Dress, were at the Head of their Party; That he, this Deponent, refused to deliver his Prisoner, or open the Door where he was confined; that they then talked of throwing down the House, when a certain Major Conolly came up, enquired who resisted the releasement of the Prisoners, threatened to tie and carry off him; this Deponent ordered the Party to fire their Pieces against the House, and strip off the Roof, on which he, (this Deponent,) being afraid of ill Consequences, both to his Person and Property, did open the Door to allow the Prisoner to speak to the Party, and one of them rushed in, seized him, and dragged him out, and also turned out a certain William Dawson, who was likewise in his

Custody on Execution, and that it was Conolly himself who laid Hands on Thomas and dragged him out; and further saith not.

"ROBERT HANNA,
"A^R. S^T. CLAIR."

"WHEREAS, I am well informed that certain Persons, by written Instructions, directed to different People through this Country, under the denomination of Collectors, are apparently authorized to break open Doors, Cupboards, &c^a, and to commit sundry other acts of Violence in order to extort Money from the Inhabitants, under the Appellation of Taxes; These are, therefore, to acquaint all His Majesty's Subjects, that as there can be no Authority legally invested in any Persons for such Acts at this Juncture, that such Attempts to abuse public Liberty are unwarrantable, and that all Persons have an undoubted natural, as well as lawful Right, to repel such Violence; and all His Majesty's Subjects are hereby required to apprehend any Person, whatever, who may attempt a seizure of their Effects in Consequence of such imaginary Authority, to be dealt with as the Law directs.

"Given under my Hand, at Fort Dunmore, this 30th Day of December, 1774.

"JOHN CONNOLLY."

Captain S^t. Clair appearing at the Board and representing that William Crawford, Esquire, President of the Court in Westmoreland County, hath lately joined with the Government of Virginia, in opposing the Jurisdiction of Pennsylvania in that County, the Board advised the Governor to supercede him in his Offices as Justice of the Peace and common Pleas. A Supersedeas was accordingly ordered to be issued.

The Chief Justice having recommended to the Governor, as an Object of Mercy, a certain William Thomas, who was convicted of Burglarly, at a Court of Oyer and Terminer, held the 19th of November last, at Reading, for the County of Berks, the Board advised the Governor to grant him a Pardon, which the Secretary was accordingly directed to make out.

All Endeavors hitherto used for the apprehending the Person who shot and murdered Edward Carey, late of the Northern Liberties, on the 25th of December last, on the Germantown Road, having proved ineffectual, it was the unanimous Opinion of the Board that it would be advisable for the Governor to issue a Proclamation offering a public Reward of one hundred Pounds for apprehending him. The Governor thereupon directed the Secretary to prepare a Draught of a Proclamation for that purpose, in order to be published in the next papers.

January 27th, 1775.

A Proclamation being prepared by the Secretary, agreeable to an Order of Council of the 25th Instant, and now approved, was this day issued by the Governor, and ordered to be published in the several News Papers, and the same is as follows, Viz^{t}:

"*By the Honorable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware.*

"A PROCLAMATION.

"WHEREAS, it appears by an Inquest lately taken before the Coroner for the City and County of Philadelphia, that on the twenty-fifth day of December last, about eight o'clock in the Evening, a certain Edward Carey, late of the Northern Liberties, was inhumanly shot, and murdered in his Waggon on the Germantown Road, within three Miles of this City, by some Person unknown: *And Whereas*, all Endeavours hitherto used for the discovering the Murderer have proved ineffectual, and it is of the utmost importance to the safety and well being of His Majesty's Liege Subjects, that the Authors of such atrocious Crimes should be detected and brought to condign and exemplary punishment, I have, therefore, thought fit, with the Advice of the Council, to issue this Proclamation, hereby strictly enjoining and requiring all Judges, Justices, Sheriffs, Constables, and other Officers, as well as all other His Majesty's liege Subjects within this Province, to make diligent search and enquiry after the Author and Perpetrator of the said Murder. And as an Encourgement for the discovering and bringing the Offender to Justice, I do hereby promise and engage that the public Reward of one hundred Pounds shall be paid to any Person or Persons who shall discover, apprehend, and secure him, so that he be prosecuted to Conviction, according to Law.

"*Given* under my hand and the Great Seal of the said Province at Philadelphia, the twenty-seventh day of January, in the fifteenth Year of His Majesty's Reign, and in the Year of our Lord one thousand seven hundred and seventy-five.

"JOHN PENN.

"By His Honour's Command.

"GOD SAVE THE KING."

PRESENT:

The Honourable JOHN PENN, Esquire, Governor, &c^a^

William Logan, James Tilghman, } Esquires.
Benjamin Chew, Edward Shippen, jun^r^, }

The Governor acquainted the Board that ——— Waterhouse, Esquire, Inspector of His Majesty's Customs, had represented to him that one of the Magistrates and the Sheriff of the County of Chester, had refused their Aid and Assistance to the Custom House Officers of this Port, in preventing the rescue of a Seizure lately made by them in the River Delaware, of the Schooner Isabella, John Ritchey, Master, with contraband Goods from Dunkirk, and had requested His Honor would call those civil Officers to an Account for neglect of Duty, and likewise issue a Proclamation on the Occasion; and as a Foundation for such Complaint Mr. Waterhouse had put into His Honor's Hands the Copy of a letter from Francis Welch, a Tide Surveyor for this Port, to the Custom House Officers, which was laid before the Board, and follows in these words, Viz^t^:

"PHILADELPHIA, February 8th, 1775.

"Gentlemen:

"According to your Orders on Wednesday the 1st Instant, I proceeded down the River in the small Boat, with four Boat men and one Tidesman; coming up with Gloucester Point, I went on board the Schooner Isabella, where I found one John Ritchey, who called himself the Mate of the Vessel, with five more Persons. I desired to know where he came from. He told me he came from Portsmouth, New England, and that he had nothing in but Ballast. I desired that I might search his Vessel; his Answer was, I should not, as the Captain was not on board. I then ordered the People to open the Hatches and search the Vessel; upon that he directly took out a Pistol, and swore the first Man that offered to open the Hatches he would blow him to Hell. About five o'Clock the same Day one Matthew Strong, whom I found was a Pilot, desired that I would let our Boat put him on Shore. My Answer was, I would not let the Boat go from alongside. They then hoisted out their own Boat, and put him on Shore, which was about three miles from Town. I then went down into the Cabbin with said Ritchey. He told me that the Vessel and Cargoe belonged to Captain David Campbell; That he was sole Owner, and what was on board was all he was worth in the world. I then desired him to tell me where they were from. He told me from Dunkirk, in France, and was loaded with dry Goods. I then searched under the Cabbins, where I found a parcel of Keggs, which he told me was Geneva, which I found afterwards was true, and likewise about thirty Pounds of

Tea, done up in Bundles. I then asked him if there was any thing else in the Cabbin. He then shewed me one Trunk of Goods that belonged to the Captain, and another that belonged to a Passenger. I then sent Mr. Powell to you. About eight or nine o'Clock in the Evening Captain Campbell, with the Pilot, and two Gentlemen from Town, came on board, and ordered the Anchor up immediately, and said he was bound to St. Eustatia. Soon after the Gentlemen went away. About an hour after there came another Boat, with three more Gentlemen, unknown to me, desiring that I would not pursue the Vessel, for it would ruin the Captain. They then presented me 25 Guineas, and said they would give me more on Shore. I told them that I would not accept of any Money, but that I would do my Duty as an Officer as long as it was in my Power. They then went away, the Vessel being under Sail, going down the River. About two o'Clock in the Morning, on the second Instant, I seized the Vessel in the King's Name. I then told the Pilot to take Charge of Her in the King's Name, and if he carried her away he must stand by the Consequences, for she was the King's Vessel. I then ordered one of our People to take the Helm, and demanded of the Pilot to take her up to Town. Upon that Captain Campbell said the King never paid for her. He then put a Pistol to the Pilot's Head, and swore by the Eternal God if he did not carry her down, and not run her ashore, he would put him to Death. The next Tide of Ebb we got down to Chester, and came to Anchor. I then went ashore, and Captain Campbell with me, to get something to eat, for he had nothing on board but Bread. I then enquired if there was any Justice in that Place. I was informed there was. I waited on Messrs. Francis Richardson and Henry Graham, the only two in the Place, and demanded their Assistance in behalf of the King. Mr. Richardson was sick, and Mr. Graham said he had no Business to go on Board any Vessel. I then waited on Mr. Vernon, a Sheriff, who told me he would go and get more help, and assist me. He went away, and I never saw him any more. I went on board again without any Assistance. They then weighed Anchor, and went down ''till they came to New Castle, and then came to Anchor again, as the Tide would not serve them any farther, which was about seven o'Clock in the Evening.' I went on Shore with two of my People, and left two on board, and waited on Mr. Montgomery, the Collector, and Mr. Maurice, Comptroller, and acquainted them that I was Tide Surveyor of the Port of Philadelphia, and that I had seized a Vessel from France, and they had taken her away from me, and was going to carry her off, and I desired them to give me some Assistance. They answered they could not, for the Commissioners would not allow them any Men. I told them I wanted only their presence, and I would save the Vessel. The Collector said he would go if the Comptroller would. The Comptroller asked whether I wanted him to go? I told him I did. He then said he would not go. I then demanded of him in

the King's Name, and as an Officer of the Customs, to assist me in holding this Vessel. He went into his House and left me. Mr. Montgomery, the Collector, then said he could not go himself, but would get me a pair of Pistols, which he did. I went on board again. As soon as they found I could not get help, they said it was all their own. They then weighed Anchor, and carried us about five Miles from the Cape, when Captain Ritchie ordered us into the Boat, and that without Delay, or he would put us to Death; so, was obliged to get into the Boat, and they cast off, which was about one or two o'Clock in the Morning, although I begged them for God's sake, to let us stay 'till Daylight. After about three Hours' rowing, we got on Shore, and was taken up the next Day about three o'Clock in the Afternoon by Captain Allen, and brought up to town.

"I am, Gentlemen,

"Your most Obedient humble Servant,

"FRANCIS WELSH.

"Schooner Isabella, John Ritchey Master, 30 Tons, built at Boston, 1773, David Campbell sole owner, Dated London, October, 1774."

The Governor having thereupon desired the Opinion and advice of the Board, the Council, on due Consideration of the Matter, gave it as their Opinion that the River Delaware not being included within the Body of any County of this Province, The Jurisdiction of the County of Chester does not extend into the River Delaware, and consequently that the Magistrates and Sheriff of that County could not legally afford them any such Assistance as was required of them, and that therefore it would be improper to call those Magistrates and Sheriff to Account for any Misbehaviour; and further, that as the Vessel and her Crew were gone to Sea, the issuing of any Proclamation upon this Occasion would be useless and improper.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

James Hamilton,	James Hamilton,	Esquires.
William Logan,	Andrew Allen,	
Benjamin Chew,	Edward Shippen, Junr.	
Richard Peters,		

The Governor having requested the Opinion of the Council whether it would not be advisable for him to recommend it to the Assembly, in the present critical Situation of American Affairs, humbly to apply to the King by way of Petition, for redress of any

Grievances which they conceived their Constituents were subject to by any of the late Acts of Parliament, and the Board having duly considered the Matter, and being of Opinion that such a Measure would be very proper to be taken by the Government, a Committee was appointed to prepare a Draft of a Message for that Purpose, to be laid before the Board for their Consideration, at ten o'Clock to-Morrow Morning.

At a Council held at Philadelphia, on Tuesday 21st February, 1775.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

James Hamilton,	James Tilghman,	Esquires.
William Logan,	Andrew Allen,	
Benjamin Chew,	Edward Shippen, junr.	

The Governor acquainted the Board that a Committee of the Assembly had waited on him last Night, to inform him that the House had met pursuant to adjournment, and desired to know if he had any Business to lay before them, to which he had answered that he had nothing in readiness to lay before them, but that as soon as he had any Matter to propose for their Consideration, he should send them a Message.

A Draft of a Message to the Assembly, prepared by a Committee of Council, was then laid before the Board, and being considered, amended and approved, was fairly transcribed at the Table, and sent to the Assembly by the Secretary. The Message follows in these words, Vizt:

A Message from the Governor to the Assembly.

"Gentlemen:

"At a Time when the Disputes between Great Britain and her Colonies are drawing towards an alarming Crisis, I cannot consistent my Duty to His Majesty, or a proper attention to the true Interests of the People over whom I preside, avoid recommending to you any Measure which occurs to me as proper for the Representatives of the Province to pursue, or which in my Opinion, may have a Tendency to compose those unhappy Differences.

"You will agree with me, Gentlemen, that in all Cases, Wisdom dictates the use of such Means as are most likely to attain the end proposed; On the present Occasion it is conceived that any Grievances which his Majesty's Subjects in America apprehend they have reason to complain of, should be humbly represented to His Majesty by the several Assemblies, as the only proper and constitutional mode of obtaining Redress, and I have the best Reason to believe

that a proper attention will be paid to such Representations, and to any Propositions that may be made through that Channel, on the present State of American Affairs.

"This Mode therefore, I earnestly recommend to you to adopt, and I most ardently wish that the proceedings of this, as well as the other Colonies, may be of such a temperate and dutiful Nature as to afford a Foundation for a Re establishment of that Harmony with the Mother Country which is so essential to the Happiness of both.

The Governor laid before the Board several Letters he had this Day received by Expresses from the Magistrates of Westmoreland County, complaining of further Violences in breaking open the Gaol of that County and discharging the Prisoners, and other outrages lately committed by the Militia and People of Virginia, and inclosing sundry Depositions to support these Complaints, which were severally read, and one of those Letters and Depositions follows in these words, the others being much of the same Purpose, Viz^t^:

"May it Please your Honor:

"Sir:

"Our Difficulties on account of the Conolly Party is now grown to an Extream; all we can do or say in favour of our Priviledges, from Pennsylvania, will not do; the Depositions sent down or transmitted to you will, we hope, give you a sense of their very irregular Proceedings. Ws are sorry to have occasion to repeat our Complaints so often, but William Crawford Esquire, and Dorsey Pentecost, hath each opened a Land Office, and assumed the Title of Deputy Surveyors to execute their Entries. Several surveys they have already made. The People in general hath already given up, and what can we do to support Government, there now being Writs granted for almost every acting Officer in this County, and we are every Day expecting Confinement. In short, any Person applying for Justice to us, may be assured to be arrested by them. James Smith, Captn was taken and bound over to the Virginia Court, for only applying to the Laws of Pennsylvania for to have a Bandite

of Villians punished for pulling down his House. Our Gaol is of no use, the worst Raskel is set at Liberty; so we rest with patience waiting for the opinion of your Honour, with such Instructions as you may think adequate to our present Difficulties. This from S^r^

Here follows the Sheriff's Deposition, Viz^t^:

"Westmoreland County, ss.

"Personally appeared before me the Subscriber, one of His Majesty's of the Peace for the County aforesaid, John Carnahan, Esquire, high Sheriff for the County aforesaid, being duly sworn upon the Holy Evangelists of Almighty God, doth depose and say, that yesterday Morning, he hearing that there were a number of armed Men breaking the Gaol, he went to see whether it was so, and coming up to the Gaol he saw a number of armed Men, (by name as the Party themselves gave them in,) Benjamin Harrison, David Vance, Samuel Newel, Robert Newel, James Peopel, Thomas Bays, Joseph Marshall, Charles Clark, Isaac Justice, David McKaw, John McKaw, William Bays, Charles Kyle, Hugh Newel, (Samuel Warden, Samuel Wilson, John Neil, the three Prisoners,) George Watt, who having broke two of the Gaol Doors, (both being locked,) upon which he the said Carnahan demanded to know by what Authority they broke those Doors; they made answers and told him that they had their Authority; upon which he demanded to see it, when one Benjaman Harrison, who appeared to be their Commander, told him they had their orders from Major William Crawford, and that he could show them if he pleased; upon which he told him, (the said Harrison,) that a civil Question deserved a civil Answer; upon which he, the said Harrison, showed him the said Carnachan, a Paper, and read to this Effect, or near to this substance, for them the Party aforesaid, to press Horses, and what was necessary, and to go to Hanna's Town and to open the Gaol and let the Prisoners go out, and signed by William Crawford; And the said John Carnahan further saith, that the Party aforesaid shewed a Warrant signed by one Dorsey Penticost, as they told him, who acts as a Magistrate under the Colony of Virginia, to take one Captain James Smith, and one Edward Murray, for executing Warrants and takeing one of the People which the Party aforesaid took out of Gaol, (for committing a Riot, and throwing down a Man's House, and almost killing

a Woman), and acting as Constables under the Province of Pennsylvania, and upon which warrant, signed by Dorsey Pentecost, (as they said,) they took the aforesaid James Smith and Edward Murray along with them to answer for the Crime aforesaid, (as they called it,) And the said John Carnachan further saith, that one of the aforesaid Party (David Vance by name) told him that he would be taken soon, and that he, the said Vance, had positive Orders that if any Pennsylvania Officer would offer to take him or any of them, with Precepts under the Government of Pennsylvania, to shoot them, and that he would do it, And further this Deponent saith not.

1st March, 1775.

The Governor this Day wrote a Letter to His Excellency the Earl of Dunmore, Governor of Virginia, inclosing Copies of several Depositions which he lately received, relative to the Disturbances in Westmoreland County, and dispatched the same by Express, which Letter follows in these words, Viz^{t}:

"PHILADELPHIA, 1st March, 1775.

"My Lord:

"When you reflect how many of my Letters to your Lordship, on public affairs, remain unanswered, you must be sensible it cannot be very agreeable to me to write to You on the present Occasion, yet I find myself under the necessity of troubling you once more on the Subject of the Disturbances in the Western Parts of this Province.

"The inclosed Copies of several Depositions will inform your Lordship what recent Outrages have been committed in the County of Westmoreland, under the sanction of your Government, as those who have been active in them publickly declare; and my Intelligence informs me that your Lordship has set up an Office for granting Lands far within the Limits of this Province, and that Lands already patented by me have been granted by your Lordship, which cannot fail to produce the utmost Confusion.

"The Justice due to myself and the other Proprietor, and the Protection I owe to the People who have taken up Lands under this Province, and settled them long before your Lordship thought fit to disturb its Peace by extending the Government of Virginia within our Charter Bounds, oblige me to apply to your Lordship to know if these violent proceedings are the effect of your Orders, or

have your Countenance, that in Case they have, I may take the proper Measures for Redress, or, if they have not, that they may receive your Discouragement. Your Lordship well knows that a Petition is depending before the Crown for settling the Bounds and running the Lines of this Province, which, when done, will put an End to the unhappy Disputes between the two Governments. You must remember that you have engaged to forward that good Work rather than throw Impediments in its way; and I would fain hope that your Lordship, in the mean Time, will use your Power and Influence in composing, rather than inflaming the Differences amongst His Majesty's Subjects of the two Colonies, occasioned by our clashing Jurisdictions, especially when you consider that the Country which is the Seat of the present Disturbances was first settled under this Province, and that our Jurisdiction was extended there, in the Time your Predecessor, Lord Botetourt, and recognized by his Lordship in his sending hither for tryal a Person who had committed a Murder at Stewart's crossings, which is Westward of the Laurel Hill.

"I shall forbear to take any steps in this disagreeable Affair 'till I have the Honor of an Answer to this Letter, which I hope your Lordship will favor me with by the return of the Express.

A Message from the Governor to the Assembly.

"Gentlemen:

"On Saturday last a Number of Indians of the Tuscarora, Nanticoke, and Conoy Tribes, who reside on the Heads of the Susquehanna, came to Town with their Families, on a friendly visit to this Government. They have represented to me that they are very poor, and in great want of Cloathing, and other Necessaries, which they earnestly request to be supplied with; As I think Humanity, as well as good Policy, requires that we should comply with their Request, I must recommend it to you to make immediate Provision for furnishing them with a Present of such Goods as their Necessities demand, and defraying the Expences of their Journey.

"We have, with deep concern, beheld a System of Colony Administration, pursued since the year 1763, as destructive to the Rights and Liberties of His Majesty's most faithful Subjects in America, and have heretofore adopted such Measures as we thought would be most likely to restore the Affection and Harmony between the Parent State and the Colonies, which it is the true

Interest of both Countries to cultivate and maintain, and which we most sincerely wish to see restored.

"We must inform your Honor, that a most humble, dutiful, and affectionate Petition from the Delegates of all the Colonies, from Nova Scotia to Georgia, is now at the Foot of the Throne; And we trust in the paternal Affection and Justice of our most gracious Sovereign, that he will interpose for the Relief of his greatly distressed and ever faithful Subjects in America. And we assure your Honor that this House will always pursue such Measures as shall appear to them necessary for securing the Liberties of Amerrica, and establishing Peace, Confidence, and Harmony, between Great Britain and her Colonies.

"WHITEHALL, 7th January, 1775.

"Sir:

"I am very much obliged to you for the early communication of the Proceedings of the General Congress.

"These proceedings are of a very extraordinary nature, and it is with Concern I see, by your Letter of the 6th of December, that the Resolution for Non-importation has been so generally adopted in the Colony under your Government. Such Measures and Proceedings are but ill calculated to restore Peace and Union between Great Britain and the Colonies. But though they may, in the moment, provoke the Vengeance of Government, I will hope that we may yet, in the consideration of the Business, be led to some proposition that may ultimately bring about a happy accomodation upon some general constitutional Plan.

"Your Letter of the 3d of November, No. 5, states the Case respecting the Boundary Line between Pennsylvania and Maryland in a very different Light from that in which it was represented to me and the King; confiding in your Assertion, that the extention of the Jurisdiction of Pennsylvania, up to the Line settled and marked by the Commissioners, had been so far from having the Effect to disturb the Peace of His Subjects, and occasioning Violence and Bloodshed, that it had a quite contrary tendency, and given universal Satisfaction, is graciously pleased to approve the Arrangement made by your Proclamation of the 15th of September, and to permit you to recall that issued on the 2d of November.

"I am, Sir,

"Your Most Obedient humble Servant,

"DARTMOUTH.

"Deputy Governor PENN."

The Board taking the latter part of the above Letter into Consideration, were of opinion that it would be advisable for the Governor to issue a Proclamation, agreeable to His Majesty's permission, signified in the said Letter, to recall the Governor's Proclamation of the 2d of November last. It is accordingly ordered that a Draft of a Proclamation be prepared, to be laid before the Board at their next Meeting.

The Board then resumed the Consideration of the Supplementary Bill to the Act for acknowledging and recording of Deeds, and several Amendments being made thereto, it is ordered to be returned with the same to the Assembly.

MEMORANDUM.

Two Members of Assembly waited on the Governor, and acquainted His Honor that their Speaker was so much indisposed that he was unable to attend the public Business, and that the House had proceeded to the choice of another Spreaker in his stead, and desired to know when the Governor would be ready to receive the House, that they might present him for His Honor's Approbation; to which the Governor replied that he would be in the Council Chamber in half an hour for that Purpose.

—

Eodem die.

The Governor being in the Council Chamber, sent a Message to the Assembly by the Secretary, to acquaint them that he was ready to receive the House with their Speaker. The whole House immediately waited on the Governor, and presented John Morton, Esquire, as their Speaker, who, after receiving His Honor's Approbation, acquainted His Honor, that as his Predecessor (Mr. Biddle) had claimed the usual Priviledges in behalf of the present Assembly, it was unnecessary for him to renew such Claim, except in respect to his own unwilling mistakes as Speaker, which he desired his Honour would excuse, and not impute them to the House, in which the Governor acquiesced.

—

MEMORANDUM, March 16th, 1775.

The Governor this day wrote to Governor Eden the following Letter, on the subject of the Proclamation to be issued respecting the Boundary between Pennsylvania and Maryland:

"PHILADELPHIA, March 16th, 1775.

"Sir:

"I make no doubt you have been informed, since your return from England, that in the Month of September last I issued a Proclamation for extending the Jurisdiction of Pennsylvania and the Counties of New Castle, Kent, and Sussex, up to the Boundary Lines run and marked by the Commissioners appointed to that Service, and that I afterwards revoked that Proclamation by a subsequent one of the second of November, in Consequence of His Majesty's Orders, signified to me by the Secretary of State, that I should desist from issuing any Orders for extending the Jurisdiction of Pennsylvania beyond those Places where it had been usually exercised, until His Majesty's further Pleasure should be known therein. I am now to inform you that I have received a Letter from the Earl of Dartmouth, by the last Packet, advising me, that His Majesty, 'on further Consideration, is graciously pleased to approve the Arrangement made by my Proclamation of the fifteenth of September, and to permit me to recall that of the second of November;' and I propose immediately to issue a new Proclamation, to make known His Majesty's Pleasure in this Matter, and to enforce that of the fifteenth of September.

"I am, with great Respect, Your Excellency's most Obedient and most humble Servant,

"JOHN PENN.

MEMORANDUM, March 17th, 1775.

Two Members of Assembly waited on the Governor with a verbal Message from the House, desiring his Honor would inform them at what time he would meet the House, in order to enact into Laws the Bills to which he had given his Assent; to which the Governor replied, he would be in the Council Chamber to-morrow at ½ past eleven o'Clock, for that purpose.

—

Council Chamber, 18th March, ½ past 11 o'Clock, A. M.

The Governor being in the Council Chamber, sent a Message to the Assembly by the Secretary, to acquaint them that he required their Attendance there, in order to enact into Laws the several Bills to which he had given his Assent. The whole House immediately attended, and presented to the Governor the following Bills, which his Honor enacted into Laws, and Signed a Warrant for affixing the Great Seal to them. The Laws were afterwards

Sealed and deposited in the Rolls Office, and are entituled as follow, Viz^{t}:

"A supplement to the Act entituled 'An Act for erecting a new Gaol, Workhouse, and House of Correction in the City of Philadelphia.'"

"A Supplement to the Act entituled 'An Act appointing Wardens for the Port of Philadelphia, and for other Purposes therein mentioned.'"

"An Act to regulate the Assize of Bread, and for other Purposes therein mentioned."

"A Supplement to an Act entitled 'An Act for acknowledging and recording of Deeds.'"

"An Act for the relief of William Goddard and Septimus Levering, languishing Prisoners in the Gaol of Philadelphia, with respect to the Imprisonment of their Persons."

"An Act to enable the Trustees therein mentioned to sell and dispose of a certain Tract of Land, and to apply the Monies arising therefrom to the use of the low Dutch reformed Congregation, or a religious Society of Christians, called Dutch Presbyterians."

New Castle, Tuesday 21st March, 1775.

The Governor having been prevented by his attendance on the Assembly of Pennsylvania last Week, from Meeting the Assembly of the Counties on Delaware, on the 13th Instant, the day on which they met pursuant to adjournment, His Honor arrived here this Day, in order to attend the public Business of this Government.

—

Thursday, March 23d, 1775.

The Governor sent to the Assembly by the Secretary a written Message, which follows in these Words, Viz^{t}:

A Message from the Governor to the Assembly.

"Gentlemen:

"At your last Session, in October, I informed You that the Jurisdiction of this Government had been extended to the Boundary Lines run and marked by Commissioners appointed by the Proprietors of Pennsylvania and Maryland, and recommended it to you to establish such Divisional Lines in the Counties as the Settlement of the New Boundary might require. But soon after your last adjournment I was obliged by His Majesty's Commands, signified to me by a letter from the Secretary of State, by my Proclamation, dated the 21st of November, to supersede that which I had issued on the 15th of September, for the above Purpose of extending the

Jurisdiction, until his Majesty's Pleasure should be further known therein. I have now, Gentlemen, the Satisfaction to acquaint you that I have lately been advised by the Right Honorable the Earl of Dartmouth, that His Majesty, on further Consideration of the Matter, is graciously pleased to approve of the Arrangement made by my Proclamation of the 15th of September, and to permit me to recall that of the 2d of November; so you are now at full Liberty to resume the Business I recommend to you at your last Session.

"JOHN PENN.

"New Castle, 23d March, 1775."

Wednesday, 29th March, 1775.

The Assembly having, since the Governor's attendance at this place, sent up to him ten Bills, which they had prepared during their present sitting, they were severally read, and duly considered, and a few Amendments being made to two of them, to which the Assembly having for the most part acceded, they were all at different Times returned to the House by the Secretary, with Messages that the Governor agreed to pass them into Laws whenever they should be presented to him for that purpose, except the Bill entituled "An Act to prohibit the Importation of Slaves into this Government," which the Governor returned to the House, with a Verbal Message that he could not agree to pass it into a Law. The said Bills are entituled as follows, Viz^{t}:

"An Act for easing scrupulous Consciences into the Mode of taking an Oath."

"A Supplement to an Act entituled 'An Act for erecting a Bridge and Causeway over Lewes Creek, from the Town of Lewes to the Cape side of the said Creek, in the County of Sussex.'"

"An Act for the Relief of the Poor."

"An Act for extending an act entituled 'An Act to prevent Swine running at large without Rings and Yokes, in certain Parts of New Castle County, within this Government, to Pencader Hundred, in the County aforesaid.'"

"An Act for supplying a Defect in the Title of John Southers to a certain Tract of Land in Christiana Hundred, in the County of New Castle, upon Delaware."

"An Act for the Relief of Moses Montgomery, a Prisoner in the Gaol of New Castle County."

"An Act to enable the Owners and Possessors of a certain Tract of Meadow Marsh and Cripple, at the North end of the Town of New Castle, to keep the Banks, Dams, and Sluices in Repair, and to raise a Fund to defray the Expence thereof."

"A Supplement to an Act entituled 'An Act for improving the Meadows, &c^{a}, on Tom's Creek, in the Hundred and County of New Castle.'"

"An Act for vesting the Court House and public offices, with the Lots of Ground whereon the same are erected, together with another Lot adjoining the same on the North Side thereof, situate in the Town of Dover, in the County of Kent, in Trustees, for the Uses therein mentioned."

"An Act to prohibit the Importation of Slaves into this Government."

A Committee of Assembly waited on the Governor with a Message, desiring to know when and where he would be pleased to receive the House, in order to pass the Bills to which he had given his assent. To which the Governor replied that he should be ready to receive the House for that purpose at his Lodgings immediately. The Speaker and the whole House attended accordingly, and presented the first nine Bills above mentioned, which the Governor enacted into Laws, signed a Warrant for affixing the Great Seal to them, and directed the Secretary to accompany two Members of the Assembly to see them sealed and deposited in the Rolls Office.

Before the House withdrew the Speaker presented to the Governor an Order on the Trustees of the Loan Office for New Castle County for £150, for which His Honor returned the House his Thanks.

At a Council held at Philadelphia, on Saturday 8th April, 1775.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

Benjamin Chew, James Tilghman, } Esquires.
Edward Shippen, }

Pursuant to an Order of Council, on the 13th day of March last, a Draught of a Proclamation for recalling that issued on the second of November, and confirming the Proclamation of the 15th of September last, agreeable to His Majesty's permission, signified to the Governor by the Earl of Dartmouth, was laid before the Board, and being duly considered, was agreed to, and the Governor, by the Advice of the Board, issued the same this Day, in the following Words, Viz[t]:

"*By the Honorable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania and Counties of New Castle, Kent, and Sussex, on Delaware.*

"A PROCLAMATION.

"WHEREAS, by my Proclamation, bearing date the fifteenth day of September last, I did enjoin and require all Persons residing to the Northward and Eastward of the Lines and Boundaries theretofore run, and marked as Boundaries and Division Lines between the Province of Maryland and the Province of Pennsylvania, and Counties of New Castle, Kent and Sussex, on Dela-

ware, by Commissioners for that purpose appointed and authorized, in pursuance of two Articles of Agreement made between the Proprietors of the Province of Maryland and the Proprietors of the Province of Pennsylvania, and the Counties of New Castle, Kent, and Sussex, on Delaware, and also in pursuance of two several Decrees of the Lord High Chancellor of England, for the Specific performance of the said Articles, to yield Obedience to the respective Laws of the Province of Pennsylvania, and Counties aforesaid on Delaware; And I did further, by my said Proclamation, require all Magistrates, Sheriffs, and other Officers of Justice, appointed, or to be appointed, in the said Province and Counties, to put in Execution the respective Laws thereof, against all Offenders within the Lines and Limits aforesaid, as by my said Proclamation may more at large appear; *And Whereas*, by my other Proclamation, bearing date the second day of November last past, I did, in Obedience to His Majesty's Commands, signified to me by a Letter from the Right Honorable the Earl of Dartmouth, one of His Majesty's principal Secretaries of State, enjoin all Magistrates, Sheriffs, and other Officers of Justice, to desist from exercising the Jurisdiction of Pennsylvania, or the Counties of New Castle, Kent, and Sussex, on Delaware, beyond those Places where it had been theretofore usually exercised, until His Majesty's further Pleasure should be known in the Premises, any thing in my former Proclamation to the contrary notwithstanding; *And Whereas*, I am now informed by a Letter from the Right Honourable the Earl of Dartmouth, dated the seventh day of January last, 'that His Majesty, on further Consideration, hath been graciously pleased to approve of the Arrangement made by my said Proclamation of the fifteenth of September last, and to permit me to recall that of the second of November last,' I have, therefore, thought proper, by the Advice of the Council, to issue this Proclamation, to make known the Premises to all whom it may concern, hereby, in pursuance of His Majesty's Pleasure and permission, revoking my said Proclamation of the second of November last, and requiring all officers, and others, within the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex, on Delaware, to yield Obedience to, and in all things observe the Orders and Injunctions in my said Proclamation of the fifteenth of September last contained, as they will answer the contrary at their Peril.

"*Given* under my Hand and the Great Seal of the Province of Pennsylvania, at Philadelphia, the eighth day of April, in the Year of our Lord one thousand and seven hundred and seventy-five, and in the fifteenth Year of the Reign of our Sovereign Lord George the third, by the Grace of God of Great Britain, France, and Ireland, King, Defender of the Faith, and so forth.

"JOHN PENN.

"By his Honor's Command,

"JOSEPH SHIPPEN, Junr Secretary.

"GOD SAVE THE KING."

The Governor, at the same time, communicated to the Board a Letter which he had just received from Governor Eden, which follows in these Words, Viz^{t}:

[Not in the book.]

To which Letter the Governor, by the Advice of the Council, wrote the following Answer at the Table, Viz^{t}:

"PHILADELPHIA, April 8th, 1775.

"Sir:

"I have the Favor of your Excellency's Letter of the 25th of March. Considering what passed between us the last Summer, on the Subject, I rather wished than expected your Concurrence in a Proclamation, and my last Letter was only meant to give you Notice of my Intention, because I would chuse to act in the most open manner.

"If any dependence is to be had on my Information, there is no probability of a Disturbance between the People of the two Provinces; They are in general satisfied that the Jurisdiction of this Government must take place, and therefore wish to have it hastened; nor can I imagine they will give an opposition to a Measure which I have His Majesty's Permission to take; and I am persuaded such an Opposition will not be countenanced by the Government of Maryland. I therefore flatter myself that your Excellency will not think me unreasonable in persisting to issue a Proclamation, agreeable to the King's permission and the advice of my Council.

"I am, with great Regard,

"Your Excellency's most obedient humble Servant,

"JOHN PENN.

"To His Excellency ROB^{T}. EDEN, Esqr., Governor of Maryland."

At a Council held at Philadelphia, on Friday 28th April, 1775.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

William Logan, Andrew Allen,
Benjamin Chew, Edward Shippen, jun^{r}., } Esquires.
James Tilghman,

The Governor having received by the last Packet three Letters from the Right Honorable the Earl of Dartmouth, with a Copy of a Resolution of the British House of Commons, entered into on the 20th of February last, relative to the Differences at present subsisting between great Britain and the Colonies, the same were laid before the Board and read, and one of the said Letters, with the Resolution therein referred to, follow in these Words, Viz^{t}:

(Circular—Separate).

"WHITEHALL, 3d March, 1775.

"Sir:

"You will have seen in the King's Answer to the joint Address of both Houses of Parliament, on the 7th of February, (which Address and Answer have been already transmitted to you,) how much Attention His Majesty was graciously pleased to give to the Assurances held out in that Address of the readiness of Parliament to afford every just and reasonable Indulgence to the Colonies, whenever they should make a proper Application, on the Grounds of any real Grievance they might have to complain of; and, therefore, I have the less Occasion now to enlarge upon the Satisfaction it hath given His Majesty to see that Address followed by the inclosed Resolution of the House of Commons, which, whatever, may be the Effect of it, (I trust a happy one,) will for ever remain an Evidence of their Justice and Moderation, and manifest The Temper which has accompanied their Deliberations upon that Question, which has been the Source of so much Disquiet to His Majesty's Subjects in America, and the pretence for Acts of such Criminal Disorder and Disobedience.

"His Majesty, ardently wishing to see a Reconciliation of the unhappy Differences which have produced these Disorders, by every Means through which it may be obtained without Prejudice to the just Authority of Parliament, which His Majesty will never suffer to be violated, approves the Resolution of its faithful Commons, and Commands me to transmit it to you, not doubting that this happy Disposition to comply with every just and reasonable Wish of the King's Subjects in America, will meet with such a Return of Duty and Affection on their part, as will lead to a happy Issue of the present Disputes, and to a Re-establishment of the Public Tranquility on those Grounds of Equity, Justice and Moderation, which this Resolution holds forth.

"The King has the greater Satisfaction in this Resolution, and the greater Confidence in the good Effects of it, from having seen that amidst all the Intemperance into which a People, jealous of their Liberties, have been unfortunately misled, they have, nevertheless, avowed the Justice, the Equity, and the Propriety of Subjects of the same State, contributing according to their Abilities and Situation, to the Public Burthens; and I think I am warranted in saying that this Resolution holds no Proposition beyond that.

"I am unwilling to suppose that any of the King's Subjects in the Colonies, can have so far forgot the Benefits they have received from the Parent State, as not to acknowledge that it is to her support, held forth at the Expence of her Blood and Treasure, that they principally owe that Security which hath raised them to their present State of Opulence and Importance. In this Situation therefore, Justice requires that they should in return, contribute according to

their respective Abilities to the common Defence, and their own Welfare and Interest demand that their Civil Establishment should be supported with a becoming Dignity.

"It has been the Care, and I am persuaded it is the firm Determination of Parliament, to see that both these Ends are answered, and their Wisdom and Moderation have suggested the propriety of leaving to each Colony to judge of the Ways and Means of making due Provision for these Purposes, reserving to themselves a discretionary Power of approving or disapproving what shall offer.

"The Resolution neither points out what the Civil Establishment should be, nor demands any specific Sum in Aid of the public Burthens; In both these Respects it leaves full Scope for that Justice and Liberality which may be expected from Colonies that, under all their prejudices, have never been wanting in Expressions of an Affectionate Attachment to the Mother Country, and a zealous Regard for the general Welfare of the British Empire, and therefore the King trusts that the Provision they will engage to make for the support of Civil Government, will be adequate to the Rank and Station of every necessary Officer, and that the Sum to be given in Contribution to the Common Defence will be offered on such Terms, and proposed in such a way, as to increase or diminish, according as the public Burthens of this Kingdom are, from time to time, augmented or reduced, in so far as those Burthens consist of Taxes and Duties, which are not a security for the National Debt. By such a Mode of Contribution, the Colonies will have full Security that they can never be required to tax themselves without Parliament taxing the Subjects of this Kingdom in a far greater Proportion, and there can be no doubt that any Proposition of this Nature, made by any of the Colonies, and accompanied with such a State of their Faculties and Abilities as may evince the Equity of the proposal, will be received with every possible Indulgence, provided it be at the same time unaccompanied with any Declarations, and unmixed with any Claims which will make it impossible for the King, consistent with his own Dignity, or for Parliament, consistent with their constitutional Rights, to receive it. But I will not suppose that any of the Colonies will, after this Example of the temper and moderation of Parliament, adopt such a Conduct; on the Contrary, I will cherish the pleasing Hope that the public Peace will be restored, and that the Colonies, forgetting all other trivial and groundless Complaint which ill humour hath produced, will enter into the Consideration of the Resolution of the House of Commons, with that Calmness and Deliberation which the Importance of it demands, and with that Good Will and Inclination to a Reconciliation which are due to the Candour and Justice with which Parliament has taken up this Business, and at once declared to the Colonies what will be ultimately expected from them.

"I have already said that the King entirely approves the Resolution of the House of Commons, and His Majesty commands me

to say that a compliance therewith by the General Assembly of Pennsylvania will be most graciously considered by His Majesty, not only as a Testimony of their reverence for Parliament, but also as a Mark of their Duty and Attachment to their Sovereign, who has no Object nearer to his Heart than the Peace and Prosperity of his Subjects in every part of his Dominions. At the same time, his Majesty considers himself as bound by every Tye to exert those Means the Constitution has placed in his Hands for preserving that Constitution entire, and to resist with firmness every Attempt to violate the Rights of Parliament, to distress and obstruct the lawful Commerce of His Subjects, and to encourage in the Colonies Ideas of Independance inconsistent with their Connection with this Kingdom.

"I am, Sir,

"Your most Obedient

"humble Servant,

"DARTMOUTH.

"Deputy Governor of Pennsylvania."

Here follows the Resolution of the House of Commons referred to in the foregoing Letter, Viz^{t}:

"*Resolved*, That when the Governor, Council, and Assembly, or General Court of any of his Majesty's Provinces or Colonies in America, shall propose to make Provision according to the Condition, Circumstances, and Situation of such Province or Colony, for contributing their Proportion to the common Defence, (such Proportion to be raised under the Authority of the General Court, or General Assembly of such Province or Colony, and disposable by Parliament,) and shall engage to make Provision also, for the support of the Civil Government, and the Administration of Justice in such Province or Colony, it will be proper, if such Proposal shall be approved by His Majesty and the Houses of Parliament, and for so long as such Provision shall be made accordingly, to forbear, in respect of such Province or Colony, to levy any Duty, Tax, or Assessment, or to impose any further Duty, Tax, or Assessment, except only such Duties as it may be expedient to continue to levy, or to impose for the Regulation of Commerce, the Nett Produce of the Duties last mentioned to be carried to the Account of such Province or Colony respectively.

The Board taking the foregoing Letter and Resolve into Consideration, advised the Governor to lay the same before the assembly at their meeting next Week, accompanied with a Message, and a Member of Council was appointed to prepare a Draught of a Message for that Purpose.

—

MEMORANDUM, 1st May, 1775.

A Committee of Assembly waited on the Governor, and acquainted him that the House had met pursuant to Adjournment,

and were ready to receive any Business His Honor might be pleased to lay before them. To which The Governor replied, that he would lay some Business before the House shortly.

At a Council held at Philadelphia, on Monday 1st May, 1775.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

William Logan, James Tilghman, } Esquires.
Benjamin Chew, Andrew Allen, }

A Member of Council laid before the Board a Draught of a Message to the Assembly, which he had prepared agreeable to an Order of Council of the 28th of April last, which being read and approved, the same was ordered to be fairly transcribed, and carried to the House to-morrow morning, with the Resolution of the House of Commons therein referred to. The said Message follows in these Words, Viz^{t}:

A Message from the Governor to the Assembly.

"Gentlemen:

"I have ordered the Secretary to lay before you a Resolution entered into by the British House of Commons the 20th of February last, relative to the unhappy Differences subsisting between our Mother Country and her American Colonies. You will perceive by this Resolve, not only a strong Disposition manifested by that August Body, to remove the Causes which have given rise to the discontents and Complaints of His Majesty's Subjects in the Colonies, and the dreadful impending Evils likely to ensue from them; but that they have pointed out the Terms on which they think it just and reasonable a final Accommodation should be grounded.

"Let me most earnestly entreat you, Gentlemen, to weigh and consider this Plan of Reconciliation, held forth and offered by the Parent to her Children, with that Temper, Calmness, and Deliberation, that the Importance of the Subject, and the present critical Situation of Affairs, demand. Give me leave to observe, that the Colonies, amidst all those Complaints which a Jealousy of their Liberties have occasioned, have never denied the Justice or Equity of their contributing towards the Burthens of the Mother Country, to whose Protection and care they not only owe their present opulence, but even their very Existence. On the contrary, every State and Representation of their supposed Grievances, that I have seen, avows the Propriety of such a Measure, and their willingness to comply with it.

"The Dispute, then, appears to me be brought to this Point: Whether the redress of any Grievances the Colonists have reason to complain of shall precede, or be postponed to the Settlement of that just Proportion which America should bear towards the common Support and Defence of the whole British Empire.

"You have, in the Resolution of the House of Commons, which I have Authority to tell you is entirely approved of by His Majesty, a Solemn Declaration, that an Exemption from any Duty, Tax, or Assessment, present or future, except such duties as may be expedient for the Regulation of Commerce, shall be the immediate Consequence of Proposals on the Part of any of the Colony Legislatures, accepted by His Majesty and the two Houses of Parliament, to make Provision, according to their respective Circumstances, for contributing their Proportion to the common Defence, and the support of the civil Government of each Colony.

"I will not do you so much Injustice, Gentlemen, as to suppose you can desire a better Security for the inviolable performance of this Engagement, than the Resolve itself, and His Majesty's Approbation of it, gives you.

"As you are the first Assembly on the Continent to whom this Resolution has been communicated, much depends on the Moderation and Wisdom of your Councils, and you will be deservedly revered to the latest Posterity, if, by any possible Means, you can be Instrumental in restoring the public Tranquility, and rescuing both Countries from the dreadful Calamities of a Civil War.

"JOHN PENN.

"May the 2d, 1775."

MEMORANDUM, 4th May, 1775.

A Committee of Assembly this day waited on the Governor, and presented him the following Message, in Answer to His Honor's Message of the second Instant, Viz^{t}:

A Message to the Governor from the Assembly.

"May it please your Honour:

"We have taken into our serious Consideration your Message of the second Instant, and 'the Resolution of the British House of Commons,' therein referred to.

"Having 'weighed and considered this Plan with the Temper, Calmness, and Deliberation that the Importance of the Subject and the present critical Situation of Affairs demand,' we are sincerely sorry that We cannot 'think the Terms pointed out 'afford' a just and reasonable Ground for a final Accommodation' between Great Britain and the Colonies.

"Your Honor observes, 'that the Colonies amidst all those Complaints, which a jealousy of their Liberties has occasioned, have

never denied the Justice or Equity of their contributing towards the Burthens of the Mother Country;' but your Honour must know, that they have ever unanimously asserted it as their indisputable Right, that all Aids from them should be their own free and voluntary Gifts, not taken by Force, nor extorted by Fear.

"Under which of these Descriptions 'the Plan held forth and offered by the Parent to her Children,' at this Time, with its attendant Circumstances, deserves to be Classed, we chuse rather to submit to the determination of your Honor's good Sense than to attempt proving by the enumeration of notorious Facts, or the repetition of obvious Reasons.

"If no *other* Objection to the Plan proposed occurred to us, we should esteem it a dishonorable desertion of Sister Colonies, connected by an Union founded on just motives and mutual Faith, and conducted by general Councils, for a single Colony to adopt a Measure so extensive in Consequence without the advice and Consent of those Colonies engaged with us, by solemn Ties, in the same Common Cause.

"For we wish your Honor to be assured that we can form no Prospect appearing reasonable to us, of any lasting advantages for Pennsylvania, however agreeable they may be at the Beginning, but what must arise from a communication of Rights and Prosperity with the other Colonies, and that if such a Prospect should be opened to us, we have too sincere an Affection for our Brethren, and too strict a Regard 'for the inviolable performance of our Engagements' to receive any Pleasure from Benefits equally due to them, yet confined to ourselves, and which, by generously rejecting them at present, may at length be secured to all.

"Your Honor is pleased to observe, 'that as we are the first Assembly on the Continent to whom this Resolution has been communicated, much depends on the Moderation and Wisdom of our Council, and we shall be deservedly revered to the latest Posterity, if, by any possible Means,' we 'can be instrumental in restoring the public Tranquility and rescueing both Countries from the dreadful Calamities of a Civil War.'

"Your Honor, from a long residence and Conversation among us, must be persuaded that the People we represent are as peaceable and Obedient to Government, as true and faithful to their Sovereign, and as affectionate and dutiful to their Parent State, as any in the World, and though we are not inattentive to the Approbation of Posterity, as it might reflect Honor upon our Country, yet higher Motives have taught us upon all Occasions to demonstrate, by every Testimony, our Devotion to our King and Parent State.

"Still animated by the same Principles, and most earnestly desirous of enjoying our former undisturbed State of dependance and subordination, productive of so many Blessings to 'both Countries,' we cannot express the Satisfaction we should receive, 'if by any possible Means, We could be instrumental in restoring the public

tranquility.' Should such an Opportunity offer, we should endeavour with the utmost Diligence and Zeal to improve it, and to convince His Majesty and our Mother Country that we shall ever be ready and willing with our Lives and Fortunes to support the Interests of His Majesty and that Country, by every Effort that can be reasonably expected from the most loyal Subjects and the most dutiful Colonist.

"Until Divine Providence shall cause, in the Course of His Dispensations, such a happy Period to arrive, we can only deprecate, and if it be possible endeavour by prudence to avoid 'the Calamities of a Civil War;' a dreadful Misfortune indeed! and not to be exceeded but by an utter subversion of the Liberties of America.

Whereupon the Board agreed that they should be immediately sent for, and they were accordingly introduced. Their names are as follow, Viz$^{t.}$:

[The names are not here inserted.]

The Governor then acquainting them that he was ready to hear them, addressing himself to the Governor, first went through some short usual Ceremonies of clearing the Throat and Heart, and opening the Ears, &c$^{a.}$ and then producing a Belt of Wampum, spoke as follows, Viz$^{t.}$: That three of their Company, who were present as the nearest surviving Relations of the old Seneca Sohaes, who lived for many Years with his Family and Connections on a Tract of Land within the Manor of Conestogo, in Lancaster County; that the old Man with his Family and Relations were several Years ago Murdered there by some wicked Men belonging to this Government; and that the said Tract of Land, containing about 500 Acres, now became the Property of his three Relations present, one of whom is Sohae's Brother; that they had come down at this time to see their Brother Onas, and to make Sale of the said Land to him; That the Land is very rich, and worth a great deal of Money, but as their Brother Onas was himself well acquainted with its value, they desired he would purchase it from them for such a price as he thought reasonable, and they would be entirely satisfied. He then delivered the Belt of Wampum to the Governor, and told him that he had finished what he had to say.

The Governor thereupon acquainted the Indians that he and his Council would take their Speech into Consideration, and give them an answer on Thursday morning.

At a Council held at Philadelphia, on Thursday, 18th May, 1775.

PRESENT:

The Honorable JOHN PENN, Esquire, Governor.

William Logan,	Andrew Allen,	} Esquires.
Benjamin Chew,	Edward Shippen, Junr.,	}

The eight Cayuga Indians being sent for, attended at the Board in order to receive the Governor's Answer to their Speech on tuesday last, which the Governor in part delivered to them; but as it appeared to the Board that the Indians did not clearly and fully comprehend his meaning, the Person who undertook to them not being sufficiently acquainted with their Language, and the Indians expressing great Dissatisfaction on being informed that this Land had already been purchased and paid for, it was agreed that Isaac Still, a Delaware Indian Interpreter, should be immediately sent for, to interpret the Governor's answer to the Indians in Council, on Saturday morning next.

The Records of the Conviction of Andrew Stewart and John McAllister, for Counterfeiting the Bills of Credit of this Province, and of Samuel Short, for Felony and Burglary, at the last Court of Oyer and Terminer and general Gaol delivery, held at Philadelphia, on the tenth day of April last, before Benjamin Chew, Thomas Willing and John Morton Esquires, were laid before the Board and considered, and there being no circumstances the least favourable in the Case of either of the said Criminals reported to the Governor by the Judges of the said Court, it was the opinion of the Board that the Sentence of the Court against them should be executed on Saturday the third day of June next, and Warrants for that Purpose were ordered to be issued accordingly.

At a Council held at Philadelphia, on Saturday 20th May, 1775.

PRESENT:

The Honourable JOHN PENN, Esquire, Governor.

William Logan,	Andrew Allen,	} Esquires.
James Tilghman,	Edward Shippen, Junr.,	}

The eight Cayuga Indians, by desire of the Governor, again attended the Board, with the Indian Interpreter Isaac Still, and having taken their seats, the Speaker repeated over the speech he had delivered to the Governor on Tuesday last, which was the same in substance as entered on the minutes of that Day, and the Governor returned them his Answer, which was fully explained to them by Isaac Still, and is as follows, Vizt:

"Brethren:

"The Tract of Land you mention, consisting of 500 Acres, part of the Conestogo Manor, where old Sohaes dwelt, was included in a purchase long since made from the Indians, notwithstanding which, I agree that Sohaes and his Family had the Proprietaries permission to live thereon as long as they chose to remain in the inhabited Part of the Country. Some time after the Death of Sohaes, and all his Family that resided there in the year 1768, there was a Treaty held at Fort Stanwix, to which I was invited by Sir William Johnson, in order to treat with the Indians, concerning the Purchase of a large Tract of Land, part of which lay in the King's Governments and part in the Province of Pennsylvania; At this Treaty the last great Indian purchase was made, for which I then paid the Indians ten thousand Dollars. But before The Treaty was finished, Sir William Johnson informed me that the Indians expected to be paid for the 500 acres of Land, part of the Conestogo Manor, where Sohaes dwelt; I accordingly agreed to pay them for it. The Price agreed on was two hundred Pounds, York Money, or five hundred dollars, the Value of which was then delivered in Goods to Togaiaio, the Cayuga Chief, to be distributed as he thought proper, and the Deed I now shew you, for the land I bought of the Indians at that Treaty, signed by the Chiefs of the Six Nations, expressly includes this five hundred acres of Land.

"Having, therefore, already purchased the Land twice, it cannot reasonably be expected that I should pay for it again. However, as you have come from a great Distance, under an Expectation of selling this Land, and perhaps did not receive so great a Proportion of the Goods I delivered at Fort Stanwix, as should have been paid to the Relations of Sohaes, and to shew you the Desire I have to preserve Peace and Friendship with the Indians, and that when they pay me a visit they should not go away dissatisfied; I am willing to make you a Present, which I hope you will think a generous one; I, therefore, desire you will accept of these three hundred Dollars.

A Belt.

The Indians, accordingly, very gladly accepted the three hundred Dollars, and signed a Receipt for the same on the back of the Deed executed at Fort Stanwix, expressing it to be in full Satisfaction of all claims of Sohaes's Family to the said five hundred Acres of Land.

James Tilghman,		

The Governor laid before the Board a Transcript of the Record of a Court of Oyer and Terminer, held at Chester, for the County of Chester, by which it appears that James Willis was convicted of Felony and Murder, committed on the Body of a certain Daniel Culin, and had received Sentence of Death for the same; and the Judges of the said Court having reported no Circumstances in favor of the Criminal, it was the Opinion of the Board that the Sentence of the Court should be executed upon him on Saturday the thirtieth of September Instant, and the Governor issued a Warrant for that Purpose accordingly.

The Governor having received Imformation from the Prothonotary of Bedford County, that a Man is confined in the Gaol of that County for the murder of his Master's Child, and that as the Gaol is very insecure, it is apprehended he may make his Escape before it may be convenient for the Judges to go up to try him, The Board advised the Governor to appoint special Commissioners of Oyer and Terminer for that Purpose; and the Governor accordingly issued a special Commission of Oyer and Terminer, directed to Arthur St. Clair, Bernard Dougherty, and George Woods, Esquires, to hold a Court at Bedford, for the trial of the said Criminal.

The Governor, by the Advice of the Board, also directed a Commission to be made out, Re-appointing Thomas Willing, Esquire, third Justice of the Supream Court of this Province.

MEMORANDUM, 5th October, 1775.

The Secretary having, by the Governor's Direction, prepared a Draft of a Proclamation, offering a Reward of fifty Pounds for apprehending and securing in some Gaol of this Province a certain Fleming Elliot, who stands charged with the Murder of John Faughnar, late of Chester County, Pedlar, pursuant to a Resolve of the House of the 30th of September last, requesting His Honor to

issue one for that Purpose, the Governor this day issued the same accordingly, and ordered it to be published in the several News Papers. The said Proclamation follows in these words, vizt:

"*By the Honourable JOHN PENN, Esquire, Governor and Commander-in-Chief of the Province of Pennsylvania, and Counties of New Castle, Kent, and Sussex on Delaware:*

"The Committee of Safety appointed by the Assembly of the Province of Pennsylvania, being desirous of performing the important duties of their station in the most satisfactory manner to the Public, beg leave to lay before them certain resolves of the Honorable Continental Congress, dated the 18th July, which have already been published, but it is apprehended have not come to the knowledge of many able-bodied effective Men, aged from 16 to 50 years, that may be very desirous of serving their Country in the present Glorious struggle for Liberty, in the mode pointed out by said resolves, which are in the following Words:

"In Congress, 18th July, 1775.

"*Resolved*, That it be recommended to the Inhabitants of the united English Colonies in North America, that all able-Bodied effective Men, between 16 & 50 years of age, in each Colony, immediately form themselves into regular Companies of Militia, to consist of one Captain, two Lieutenants, One Ensign, four Serjeants, four Corporals, One Clerk, one Drummer, one Fifer, and about Sixty-eight Privates.

"That the Officers of each Company be chosen by the respective Companies.

14th. The Colonels already chosen or appointed in the city and districts, having determined their ranks, with respect to each other, by lot, their and the other field officers' commissions will be dated according to the Lot so drawn.

15th. The Colonels already chosen or appointed in every County, are to determine their Rank, with respect to each other, by Lot, & Commissions for them and their respective field Officers will be dated accordingly.

16th. The Captains in every Battalion to determine their Rank in Battalion by Lot, and their Commissions, with those of their Lieutenants and Ensigns, will be dated accordingly.

17th. All Officers hereafter chosen or appointed, to have their Commissions dated at the time of such choice or appointment, and to take Rank according to said dates.

18th. All Battalions now raised to be compleated as soon as possible, and to consist of eight Companies of about sixty-eight privates each, and one company of Light Infantry, and to have for Officers a Colonel, Lieutenant Colonel, two Majors, a Standard Bearer, Adjutant, Serjeant Major, Drum and Fife Major; and the officers of each company to consist of a Captain, two Lieutenants, one or two Ensigns, four Serjeants, four Corporals, a Drummer and Fifer, except the Light Infantry Company, which, instead of two

Lieutenants and two Ensigns, are to have four Lieutenants, the two youngest of which are to rank as Ensigns.

19th. The Standard Bearer of each Battalion to Rank as eldest Lieutenant of the Battalion.

20th. All National distinctions in dress or name to be avoided, it being proper that we should now be united in this general Association for defending our liberties and properties under the sole denomination of Americans.

21st. Companies to take post in their Battalions according to the date of their Captains' Commissions, if the Captains be present, but if absent such Companies to take post as youngest in the Battalion.

22nd. No Field Officers to have Companies.

23rd. For the better order and Government of Companies which may be raised after the completion of the several Battalions already formed in the City and Counties, such companies are not to be admitted as independent, but are to be annexed to the most convenient battalon, until nine Companies are raised to form a new Battalion, and no number of associators are to be considered as a Company unless they consist of at least Forty Men, but it is recommended that till that number be compleated, the associators join the most convenient Battalion, exercise and do duty with such Battalion.

24th. All Battalions now formed, as well as those hereafter to be formed, are desired to make the necessary returns of their numbers and officers, with their respective ranks, to the Committee of their County, and the Committees are desired to certify such returns, with the respective rank of each Battalion in their County, to this Board, that Commissions may be issued immediately for every officer, in conformity with these rules.

25th. And as there may happen occasions wherein it may be necessary to call out a part of the Associators to actual though temporary service, and not the whole body, and it would be extremely inconvenient and burthensome if upon every alarm where the assistance of part only may be wanted, the whole should come together, or any much greater number than the occasion required, and it would be, therefore, necessary to have such divisions made of the Associators, as that parts smaller or greater, may be distinctly called for, and the service as equally and fairly allotted, and dive'd as the nature thereof will admit, it is recommended not only the Battalions of each County, but also that the Companies of each Battalion be by lot number'd, 1, 2, 3, 4, &ca., so that orders may issue from the Commander-in-Chief to the Colonels, either to march their whole Battalions, or to send to an appointed rendezvous the first, or second, or any number of Companies that shall be wanted, each company serving on such calls in its turn, and for such proportion of time as shall make the burthen nearly equal, and if the associators who are called forth, are not all yet provided with good arms, it is recommended to those who have such, and are not called out, to lend the same for that occasion, at the risque of the public.

Lastly. This Board having drawn up thirty-two articles of agreement for the due regulation and Government of all the Associators in the Province, which is published herewith, they do recommend the same to be adopted, Signed and agreed to by all the said Associators, in order that one general system may prevail in Pennsylvania.

Resolved, That the Rules and Regulations for, and the Recommendations to the Associators, be published by William Bradford, and that he print two thousand of each on good paper, for the use of the Association. Mr. Andrew Allen is desired to give orders for the same being done, and Colo. Roberdeau is desired to get five hundred of each printed in the German Language, for the use as aforesaid.

"By Order of the Committee."

Ordered, That Mr. Bradford print on good paper, one hundred of the Commissions for the Officers to be employed on Board the armed Boats.

A Recommendation to the Associators to make use of Pikes was this day read and approved of, which is in the following words:

"It has been regreted by some great Soldiers, particularly by Marshal Saxe, that the use of Pikes was ever laid aside, and many Experienc'd Officers of the present times agree with him in opinion, that it would be very advantageous in our Modern Wars to resume that Weapon, its length reaching beyond the Bayonet, and the compound Force of the Files (every Man laying hold of the presented Pike) rendering a charge made with them insupportable by any Battalion armed only in the common manner. At this time therefore, when the Spirit of our People supplies more Men than we can furnish with Fire Arms, a deficiency which all the Industry of our ingenious Gunsmiths cannot suddenly supply, and our Enemies having, at the same time they were about to send regular Armies against undisciplined and half Armed Farmers and Tradesmen, with the most dastardly malice, endeavour'd to prevail on the other powers of Europe not to sell us any Arms or Amunition, The use of Pikes in one or two Rear Ranks is recommended to the Attention & consideration of our Battalions. Every Smith can make these, and therefore the Country may soon be supplied with plenty of them. Marshal Saxes' direction is, that the Staff be fourteen feet in length, and the Spear eighteen inches, thin and light, the Staff to be made of Pine, hollowed for the sake of lightness, and yet to retain a degree of stiffness; the whole not to weigh more than seven or eight pounds. When an Army is to encamp, they may, he observes, be used as Tent Poles, and save the trouble of carrying them. The Committee of Safety will supply samples to those Battalions who are disposed to use them. Each Pikeman to have a cutting Sword, and where it can be procured, a Pistol."

Order'd, That a Copy of the above be deliver'd to the Colonels of the different Battalions in this City and districts, which was accordingly done.

Resolved, That it is the opinion of this Committee, That all Pilots of the Bay and River Delaware, ought to use their utmost endeavours to avoid going or being taken on Board British ships of war or armed vessels, during the present struggle for Liberty.

Resolved, That it is the opinion of this Committee, that all Pilots of the Bay and River Delaware, ought to lay up their Boats on or before the 20th day of September inst., and cautiously avoid going on any navigable water or other place on Land or Water, where they may probably fall within the power of British Men of War, armed Vessells or Boats, or within the Power of Men Landed from such.

Resolved, That any Pilot or other person who shall conduct or bring any British Man of war, Armed Vessell, Boat or other Craft, up the Bay of Delaware, shall, on being released from that service, forthwith repair to this Committee, there to prove by such means as may be in his power, that he was compelled by force into that service, and such pilot or other person not appearing to this Board within five days after his first Landing, unless put on shoar at too great a distance, shall be considered as having Voluntarily performed the said service.

Resolved, That any pilot, or other person acting as a Pilot, in Delaware Bay & River, who shall refuse or neglect to lay up his Boat or Craft, or who shall put himself in the way of being forcibly taken on board the King's Ships, or who shall voluntarily serve, or

offer to serve or instruct them in the navigation of the said Bay and River, shall on proof thereof made to this Board, be deemed an Enemy to American Liberty, a Traytor to his Country, and as such published and held forth to the Public.

Resolved, That it is the opinion of this Committee, that the Pilots of the Bay and River Delaware should remain on shore at Cape Henlopen or Cape May, until such Merchants Vessells as arrive send their Boats on shore for a Pilot, when one may repair on Board, provided there is not any Man of War in sight, or in the said Bay and River, but if there is, the Captains of such Merchantman must do the best they can for the safety of their Ships, as no Pilots must go on Board in such Case.

Resolved That it is the opinion of this Committee, that the owners of such Ships as are brought up during the time these resolves remain in force, ought to allow such reasonable additional Pilotage as the Board of Wardens may fix, towards bearing the Pilots expence down to the Cape by Land.

F. F. Resolved, That it is the opinion of this Committee, that the Buoys in the Bay of Delaware ought to be taken up immediately, and that the Wardens of the Port be desired to give orders for its

being done, and to give orders to the keeper of the light to make such Signals by Day or night, as Mr. Henry Fisher and he may agree on, upon seeing Vessells Standing inwards.

The order drawn agreeable to a resolve of the 26th inst., in favour of the Commissioners & Assessors of Cumberland County, for three hundred Pounds, was this day delivered to John Montgomery, Esq'r.

The order drawn agreeable to a resolve of the 26th inst., in favour of the Commissioners & Assessors of Northumberland County, for one hundred Pounds, was this day delivered to Samuel Hunter, Esq'r.

A Memorial to the Assembly was this day drawn up, Read, and agreed to, with an Estimate of the Moneys expended and to be expended for the use of this Province, and are as follows:

"*To the Honorable the Representatives of the Freemen of the Province of Pennsylvania, in General Assembly met:*

"*The Memorial of the Committee of Safety, Respectfully Sheweth:*

"That the said Committee, in obedience to the orders of the House, have taken upon them the Execution of the important trust committed to them, and proceeded to such measures as appear'd to them necessary to effectuate the purposes for which they were appointed. The Minutes of their transactions, together with an Estimate of the Expences incurred for the putting this Province into a proper State of defence, are, with great deference, submitted to the Consideration of the House. From these it will appear that the Sum of Money granted by the House at their last Sessions, has been either wholly expended or remitted for the purchase of arms and ammunition. That a Considerable sum is still necessary to fulfill the engagements already made for the above purposes, and for the paying and vitualing of the Men in the Service.

"It must be obvious to the House, that much yet remains to be done to accomplish their salutary intentions, particularly if the British Ministry should obstinately persist in their present arbitrary Measures. Should this be the case, (which, from the present appearance of things, seems but to probable,) this opportunity may, perhaps, be the only one we shall be poss'd of to prepare the necessary means for the defence of our just rights, for there can be no doubt that vigorous Exertions will be made to intercept future supplies; the Committee, therefore, apprehend it to be their indispensible duty earnestly to recommend it to the House, to grant such

future liberal aids, at their present sessions, as may, in their wisdom, be judged adequate to the exigencies of the Province at this very important Crisis.

"They beg leave, also, to represent to the House, that there appears to be an immediate necessity for constructing a magazine or Magazines to receive the Powder already in the Province, and such as may arrive hereafter; large quantitys are shortly expected, and there is no place where it can be stored with Safety, or any way guarded against accidents, which that article, from its nature, must be exposed to, and which it is of Considerable moment to prevent.

"The Committee having thus laid before the House the steps they have already taken, and their opinion of some measures which appear proper to be adopted, beg leave, before they conclude this report, to submit to the House a matter interesting to the public welfare.

"The Military Association enter'd into by numbers of the Good People of this Province has receiv'd the approbation of the House, & undoubtedly deserves every encouragement, as a Body of Freemen, animated by a love of Liberty, and trained to the use of Arms, afford the most certain and effectual Defence against the approaches of Slavery & oppression. It is to be wished, therefore, that this spirit could have been more universally diffused; but the Associators complain, and with great appearance of Reason, that Whilst they are subjected to Expences to accoutre themselves as Soldiers, and their affairs suffer considerably by the time necessarily employed in acquiring a knowledge of the Military Art, very many of their Country Men, who have not associated, are intirely free from these Inconveniences. They conceive that where the Liberty of all is at stake, every Man should assist in its support, and that where the cause is common, and the benefits derived from an opposition are universal, it is not Consonant to Justice or Equity that the Burthens should be partial.

"The Committee, therefore, would Submit it to the Wisdom of the House, whether, at this time of general Distress and Danger, some plan should not be devised to oblige the assistance of every member of the Community. But as there are some Persons who, from their religious Principles, are scrupulous of the Lawfulness of bearing arms, this Committee, from a tender regard to the consciences of such, would venture to propose, that their Contributions to the Common Cause should be pecuniary, and for that purpose a Rate or assessment be laid on their Estates, equivalent to the expence and loss of time incurred by the associators. A measure of this kind appears to be founded on the principles of impartial Justice, calculated to appease the Complaints which have been made, likely to give general Satisfaction, and be, of course, beneficial to the great cause we are engaged in.

"Your Committee beg leave to represent, that it will be necessary to appoint a Commodore, or Commander-in-Chief of the Armed Boats, which has been delayed hitherto, out of respect to your Honourable House.

"Signed, B. FRANKLIN.

The Congress this day sent to this Committee the following Resolves, which are order'd by the Board to be enter'd on their Minutes, and are as follows:

"In Congress, November 17th, 1775.

"On Motion Made,

"*Resolved*, That the Commission'd Officers taken in the Forts of Chambly and St. Johns, be put upon their parole of Honor, that they will not go into or near any Seaport Town, nor farther than Six Miles distance from the respective places of their residence, without leave of the Continental Congress, and that they will carry on no political correspondence whatever, on the subject of the dispute between Great Britain and these Colonies, so long as they remain Prisoners.

"Extract from the Minutes,

"Sign'd, CHAS. THOMSON, Sec'y."

"Application being made in behalf of Lieut. Symes, now in the Gaol of this City, that he be allowed to reside at Trenton, on the same parole as the other officers there; The same was granted.

"Extract from the Minutes.

"Sign'd, CHAS. THOMSON, Sec't'y."

In consequence of a Resolve of Congress, Lieut. Symes was discharged from confinement, and the following Parole was taken and signed by him, viz't:

"I, James Smyth Symes, Lieut. in the Regiment of Royal Highland Emigrants, now a prisoner in the United Colonies, being enlarged from confinement, do Hereby promise, upon the Honor of a Gentleman, to go to Trenton in New Jersey, after which I will not go to or near any Sea Port Town, nor farther than Six Miles from my place of Residence, without leave from the Continental Congress; That I will carry on no Political Correspondence whatever, on the subject of Dispute between Great Britain and these Colonies, so long as I remain a prisoner.

Clymer wait on the Honorable Continental Congress, and humbly suggest to their consideration an Amendment of the Resolution of the 15th July, respecting the exportation of the produce of these Colonies in lieu of Arms and Ammunition hereafter imported, so as that Lumber may be excepted out of the said Resolve, it being the unanimous opinion of this Committee that the Value of Lumber bears so small a proportion to that of Arms and Ammunition, that such quantities of Lumber may, and probably will be exported, as to destroy the efficacy of the non-Exportation agreement in a most essential Article.

Mr. Wilcocks & Mr. Nixon, the Committee appointed to Inspect the Condition of the Soldiers confined in the Work House and Gaol of the City, now Report: That those Soldiers who are confined in the Work House declared, that they had no complaint to make on account of their accommodation with Provisions and Lodging, except that they had no bedding, & begged that they should be allowed Blankets sufficient to keep them comfortable at this season. The Soldiers in the Gaol complain that the Provisions supplied them was insufficient for their subsistance, and that they wanted firing and bedding.

Your Committee directed the Gaoler to provide them wood for Fire, and upon examination, were of opinion that their complaints were not well founded, and gave such direction for their future supply as will leave them no reasonable cause of Complaint.

distress to which they are exposed by the non-exportation agreement, and praying to be relieved in such manner as the Congress may deem consistent with the Safety of America, Report that they have considered the same, and thereupon came to the following Resolutions :

"That the Inhabitants of the Island of Bermuda appear Friendly to the cause of America, and ought to be supplied with such and so great a quantity of the produce of the Colonies as may be necessary for their Subsistance and home consumption ; that, in the opinion of this Committee, they will annually require, for the purposes aforesaid, Seventy-two thousand bushels of Indian Corn, two thousand Barrels of Bread or Flour, one thousand barrels of beef or Pork, two thousand one hundred bushels of Pease or Beans, and three hundred tierces of Rice, and that they be permitted to export the same yearly.

"That the Conventions or Committees of Safety of the above mention'd Colonies, ought to Superintend the exportation, provide against fraud, and take care that, in exchanging the said Commodities of Salt & Provisions, no undue advantage be taken by either party, of their mutual wants; and farther, that no Vessel employed

in this business, ought to load without their permission, and that when they shall, in pursuance of these Resolutions, permit any of the said Vessels to load, they do give notice thereof to the Committee of inspection of the County, City, or town where such Vessel shall load, and inform them that the same is done under the Authority and by Order of this Congress.

"That these Resolutions ought to be kept as private as the execution of them will admit; that they should be transmitted to the Several Conventions, Assemblies, or Committees of Safety of the United Colonies, and to the Island of Bermuda; and that the Inhabitants of the latter be informed that the Congress will afford them other Necessaries, (such as lumber, Soap, and Candles,) whenever the quality and quantity of each of those articles used in the Island, shall be ascertained.

By order of the Board, an order was drawn in his favour, on Mich'l Hillegas, Esq'r., for fifty pounds for that purpose.

"*To the Honorable the Committee of Safety for the Province of Pennsylvania.*

"Gentlemen:

"According to your request, we proceeded from hence into the Province of New Jersey, to the lower part of Billingsport on the River Delaware, and survey'd the shore from thence to the low-land near Mantua Creek. We determined the bearing and distance of the upper Pier at the Fort from thence, and likewise the breadth of the channel opposite Billingsport, which was readily done by means of the grounded Ice on each side of it. From Billingsport we went to Red Bank, and there by measuring two stations and taking several bearings, we ascertained its distance from the upper Pier aforesaid. From Red Bank we returned to Gloucester, where we took several bearings, which served to compleat the Draught which accompanies this, in which you will see the particular bearings and distances, laid down with as much accuracy as the time would admit. If we may presume to give our judgment with regard to fortifying any part of the Jersey Shore, we are unanimous in our opinion, that it is not adviseable, because any part of Billingsport or Red Bank is at too great a distance from the Chevaux de Frize, for either Friends or enemys to annoy with certainty any Boats, &c., that may be stationed at them. And if a Fort were

built at either of those places, the Enemy could land above or below it, without any difficulty, (unless a superior army could be collected before, on the spot to oppose them,) and oblige our people to spike their Cannon and quit the Fort, or submit to be made prisoners, & the very means of our defence be made to operate against us, or at least, be dismantled; To obviate which, we humbly offer a different manner of defence and annoyance to your Consideration, which is to have a number of Guns, 12 or 18 lb'rs, mounted on strong Traveling Carriages, and previous to the enemy's approach, to raise Breast works at the most convenient places at Billingsport, Manus Hellem's, and other places, from whence those Guns, thus mounted, and well ply'd with Star and Cross Barr'd Shot, &c., will annoy the Enemy much; and if they should land and press hard, our people can retreat, and make a fresh stand at suitable places.

"If the Enemy should land their whole force in the Jerseys, with an intent (as we may suppose) to Bombard this City, in such case the Bridges, after our Cannon are retreated over them, should be destroyed, with Houses, Barns, Fences, &c., which would assist them in crossing. And thus, if our cannon are well supported with Musquetry, every Inch of Ground may be disputed, with great inconveniency and loss to the Enemy.

"DAV'D RITTENHOUSE,
"JOHN McNEAL.

To the Honorable the Representatives of the Freemen of the Province of Pennsylvania, in General Assembly met.

"The Memorial of the Committee of Safety:

"The Committee have, ever since their appointment, applied themselves with the greatest Zeal and Fidelity to the important trust confided to them, in providing Means for the defence of this Province; they were, however, such means only as were thought more immediately requisite for our security against the attempts made by a Naval armament, and were besides, necessarily confin'd within the Limits of the Funds alloted to them by your Honorable House, but they beg leave to represent, that as every day brings with it fresh proofs of the Violence of the British Ministry, and of their fixed purposes to subdue the free Spirit of America, that has yet given much Obstruction to all their Schemes of Tyranny and Despotism, a purpose assisted too by an obsequious Parliament, which may not speak the Genuine Sense of the Nation, that it was unhappily the direction of its Force, it truly becomes us to prepare seriously for the Storm gathering over the Colonies, and which in the uncertainty of its course, may in a few weeks fall upon this Province; this being the Idea of the Committee, they have come to the following Resolution claiming the most earnest attention of of your Honorable House thereto:

"*Resolved*, That application be made to the Honorable the House of Representatives, praying that they will take order for raising two thousand Men to act in the defence of this Province, and this Board will represent it as their opinion, that it will be most for the Public Service, that one Battalion of Regular Troops be formed out of that number, and the remainder be a body of Rifle Men.

"The Committee beg leave to solicit your attention to another Object, also of extensive importance, the Military association, the general sentiments concerning which, they have in the recess of Assembly had an opportunity of collecting, and tho' such numbers already have, and we hope will still engage in it, under its present form, as may prove a considerable addition to our Strength, yet as there are material objections made to it, and as they understand, are to be laid before your Honorable House by divers Bodies of respectable Men, they Submit to you whether it will not be highly expedient and consistent with good policy, immediately to remove every cause of discontent on this Head from the minds of the associators, who, under an apprehension of partial and unequal Burthens imposed on them, have nevertheless had the Virtue not to refuse their services to their Country. In confidence that your Honorable House will reconsider the several Provisions and Regulations complained of, and give them satisfaction therein,

"Sign'd, ALEX'R WILCOCKS, Chairman."

The following Memorial to Congress was this day drawn up, read and approved off, and deliver'd by Mr. James Mease to Mr. Rob't Morris:

"In Committee of Safety, 21st May, 1776.

"*To the Honorable the Continental Congress.*

"*The Memorial of the Committee of Safety of the Province of Pennsylvania, Shewing:*

"That the General Assembly of this Province, having appropriated large sums for the Defence and protection of the same, and of the River Delaware, this Committee, who were intrusted with the application thereof, caused thirteen Arm'd Boats or Gondolas to be built, equip'd and Manned, and have since built, fitted and Manned a large Ship, Floating Battery, several Guard Boats, and a great num-

ber of Fire Rafts, erected Fortifications on deep Water Island, raised a large Artillery Company for their Defence, and sunk Chevaux-de-Frize in the Channel of the River; That the Assembly have raised two Battalions of Rifle Men and one of Musketry, station'd on the Banks of the River Delaware.

"That the Committee perceive, after all these exertions, greatly surpassing, as they believe, any that have been made on this Continent at an Expence merely Colonial, that their defence is still imperfect and far unequal in their Idea, to the probable Force that may soon be employed against this Colony.

"To give, therefore, additional security to this Province and City, and the navigation of the River and Bay of Delaware, the preservation of which must be of the highest importance to the Common Cause of the Colonies, This Committee conceive it necessary that some more Armed Boats or Gondolas, larger than those already built, capable of Navigating in Delaware Bay, and another Floating Battery, should immediately be build. They are also of opinion that some military works should be erected on the Eastern Shore of the River Delaware, and particularly at a place called Billingsport.

"That as the moneys granted by the Assembly for the purposes of Defence must soon be exhausted in supporting the large establishment of Seamen & Soldiers in the pay of this Province, and as the building, equipping, & manning the additional Floating Battery & armed Vessels, & erecting Fortifications on the Jersey Shore, will be too heavy a Burthen for this Province singly to bear, this Committee beg leave to call the attention of the Congress to these important objects, and pray their aid in directing those further Defences, and such other, as in their Wisdom, shall appear requisite, to be immediately undertaken and carried into Execution at the Continental Charge."

Instructions to Mr. William Richards were this day drawn up, read, approved of, and delivered him, and are as follows:

"To Mr. William Richards:

"You are hereby appointed Ships' Husband to the Pennsylvania Fleet, and empowered to do all such matters and things as may be necessary for the due execution of the said Office.

"You are to make known to all Commanders, and other officers employed in the said Fleet, that they are to apply through you for all stores and necessarys required for the service; you are to obtain from them an Inventary of all the articles they have on Board, and an Indent of such as they are in want of, both which you are carefully to preserve, as they may serve you in regulating any future supplies that may be called for; you are to procure the sundry articles of the best qualitys, each in its kind; and it is your particular duty to buy them on the best terms in your power; you are to take each Officer's receipt for the articles delivered to him, and

you are to return the Bills or accounts for those you purchase for this Board, Certify'd by you that the quantities are what you receiv'd and the prices what you agreed for, not being dearer than the Current rates of each respective article at the time of purchase.

"You are empowered to inspect and enquire on the Board the Fleet at least once in every month, and as much oftener as you may think necessary, whether all stores and necessarys are taken proper care of, and not neglected, wasted or embezelled, and make Report according as you find, to this Board.

"This Board, being ever desirous of serving the Public faithfully, do recommend the most prudent economy in the Outfits and Supplies of the Fleet. They must have everything necessary, but avoid all expensive superfluitys, and in the purchase of what is wanted give a preference to such persons as are known to be Zealous Supporters of the American cause, dividing the business amongst as many of such as can be done with conveniency and consistently with the Public good.

On Motion,

"*Resolved*, That Colo. Miles be directed to detach from the Provincial Troops under his Command, a Working party of one hundred Men to Fort Island, to assist in carrying on the Fortifications there, the said party to be relieved by others as often as he may think proper, and they shall be allowed over and above their pay, a quart of 18s. Beer each working day.

"*Resolved*, That Mr. Samuel Howell be requested to keep for the use of this Province, the whole quantity of Salt that he has now for Sale, and that he be allowed 7s 6 ℔ bushel for the same.

"*Resolved*, That the above mention'd Salt be removed to Germantown as soon as possible, and there to be stored, under the care of the Committee of that Town.

"*Resolved*, That the report brought in by Colo. Roberdeau and Colo. Cadwalader, from the Officers appointed to try the Cartridges with which the associators are furnished, be printed in the different News papers, of this City, which is as follows:

It appears clearly from experiment that the Powder is very good, that the above proportion is fully sufficient, and that more would be useless, if not dangerous.

"FRAN'S GURNEY, Capt. 3rd Bat'n.

" Sir :

" We think it proper to acquaint you that Commodore Caldwell has, by his letter of the 27th Inst., resign'd the Command of the Fleet, as his ill state of health will not admit of his giving that attendance which the critical situation of Public affairs require.

" The Chief command of the Fleet, consequently, for the present devolves upon you, and you are hereby directed to see all the orders fromthisBoard or from the Assembly strictly executed. As there is the greatest Reason to apprehend an immediate attack, we think it absolutely necessary that the whole Fleet under your command be in constant readiness.

" The Barracks on Fort Island being now ready for the accommodation of the officers belonging to the Boats, you are directed to order all the Boats to be station'd at Fort Island. No officers of the Fleet are to absent themselves without your leave or the leave of the Commanding officer, and you are not to suffer more than two officers to be absent at one time without some evident necessity, taking particular care that such officers return punctually at the time mention'd in his leave of absence. No officer of the Fleet is to lye out of his Boat, or other Vessel to which he belongs, without your leave or the leave of the Commanding Officer.

" As the safety of this city & Province depends chiefly upon the armament under your command, we direct you to pay the strictest attention to the duties of your important station, and to establish such Regulations as will conduce to promote good order and discipline, without which no military establishment can long subsist."

The Committee appointed to consider of a proper mode of providing Cartridges for the different Bores of Firelocks in the hands of the Associators, Report that the practice of our Commissary, upon the authority of Books, is $\frac{2}{5}$ of the weight of each Ball to a charge of Powder, which proportion has been ascertain'd by actual experiment, as lately reported by a Committee appointed out of the Battalions in this city, as published in the public prints adopted by this Board and enter'd on our Minutes.

That this proportion reduced to different bores, is as follows :

	dwt.	grs.
A Ball, 13 to the shell.	9	20
15	8	12
17	7	12
19	6	16
21	6	2
24	5	8
30	4	6

That in order to Ascertain the Numbers and sizes of each Musket through the several Battalions in the Province, for the Government of our Commissary in making up Cartridges, We take the liberty to recommend to this Board to furnish the Committee of each County with one or two sets of punches, to mark 1, 2, 3, 4, 5, 6, 7, 8 & 10; also, with as many sets of Formers as will answer to the above seven sizes; That each Committee appoint to each Battalion a person to size the Guns and mark each size on the Breech-pin or on the lower end of the barrel.

That each Colonel Issue orders to the respective Captains or Commanding Officer in each Company in his Battalion, to send an exact account of the number of good Firelocks in their several Companies, with the sizes of them, which shall be entered by the Colonel in a book to be kept by each Regiment, to be denominated the Size Book, after the following method:

Capt. A. B's Company of the ( ) Battalion of Associators in ( ) County.

Balls to the pound.		Firelocks of each size.
13		9
15		9
17		7
19		10
21		11
24		15
30		15
	Total,	76

As soon as the sizes are obtained, they must be immediately transmitted to our Commissary, and any increase in the number of Firelocks to each Battalion reported from time to time, that the number of good Firelocks in each Battalion may be always known, and that quantities of Cartridges suited to each Bore may be constantly furnished, tied up in bundles, and marked with the respective sizes.

Resolved, That the above report be confirmed and ordered to be printed, and Copies sent to the several County Committees, to furnish their Colonels of the respective Battalions.

Resolved, That the above Report be approved of, and that 200 Copies be printed, to be sent to the Committees of the different Counties.

Instructions to Commodore Samuel Davison, was drawn up and agreed to Yesterday, and delivered him this day, and are as follows:

"In Committee of Safety, 19th June, 1776.

"Sir:

"The Committee having thought proper to appoint you Commodore-in-Chief of all the Provincial Naval Armaments in the River Delaware, which you are to notify to the Officers of the Fleet by publishing to them your Commission, It becomes necessary to give you some Instructions to Regulate your Conduct in some Points of this Important Trust.

"And first, you are by all possible Means to establish such a proper sense of Subordination in the Fleet, that all the Orders you

think necessary to Issue, be punctually and implicitly obeyed, a loose and Relaxed Discipline utterly enfeebling every Military Establishment, however respectable it may otherwise be in the Circumstance of Number or Force.

"Secondly, As it is the Duty and Inclination of this Committee to maintain the Fleet in a constant state of preperation to receive the Enemy, you must immediately take an exact survey of its present Condition, and whatever may be wanting in its Equipment to make Report of to Capt. William Richards, who is appointed and directed by this Board to supply all its Defficiencies.

"Thirdly, an attack from the Enemy being highly probable, tho' the time uncertain, it is necessary that every part of the Fleet should have its proper station assign'd, in such way as to afford Mutual support, and that the whole may act to the best effect.

"Fourthly, you must particularly attend not only to the situation of the Fleet, but take great care that the Officers and Men are not absent from their respective Vessels any length of time & at any great distance, but as it is probable that some of the Officers of the Boats may be desirous of coming up to this City, you may give leave of absence to them, but only to six Officers at one time, and that no more than three of that number shall be Captains, who shall not be absent more than Forty-Eight Hours at one time from their Respective Vessels.

"Lastly, Should any accident or Circumstance happen in the Fleet that has the least Tendency to effect the service, you are to give the earliest information of it to the Committee of Safety, that, they, if they have the means of Remedy, may apply such as the nature of the Case may Require.

"These being the Principal matters that have occurr'd to the Committee, they confide in your prudence and Discretion, which have directed their Choice, to supply their Omision in those Numberless Circumstances and situations in which you may be placed, earnestly Recommending to you, however, that you endeavour to promote the Utmost Harmony between you and the Officers of the Fleet, and between one another, on which depends so much the success of every undertaking, where Men are to act in Concert, and Mutual Assistance is required.

A letter was this day wrote to George Bryan, Esq'r, Naval Officer, desiring he would grant permits to the Captains of Vessels that may apply for Chevaux de Frize Pilots to the town of Chester, taking a qualification that they will take no Pilot further down the River than Chester, unless it be such Vessels as go down the Bay under Convoy of Continental Ships of War, who are to be allowed pilots on their producing a Certificate from the Marine Committee that they are to be taken under Convoy, and that Privateers will always receive the necessary Papers from this Board.

This application was made by Mr. Morris as declared, By order of the Committee of Safety, and after a debate of Considerable length, and

two Motions made and seconded, one was withdrawn, the other determined in the Negative. In Consequence whereof, I have made this Memorandum immediately on the spot, to appear when it may be necessary, and to prevent blame being cast where it is not merited.

The Committee appointed to prepare an Address to the Public, Reported an Essay, which, being Read, amended, and approved, was ordered to be inserted upon the Minutes, and to be publish'd in the News Papers of this City, and is as follows:

"TO THE INHABITANTS OF PENNSYLVANIA:

"This Committee, too much occupied in the various & multiplied business of the department in which they are placed, have seldom troubled the public with addresses' and indeed little occasion has been afforded for them, especially in Justification of their own Conduct, while general acquiescence in their Authority prevailed, and entire confidence in their integrity and abilities remained, but they are not so blinded by Self Love, or so lost in their own importance, as not to perceive lately that both Confidence and Authority are considerably shaken and impaired; not resting on a foundation altogether popular, their existence has been beheld with Jealousy, & by an opposition formed on mistaken or unworthy principles, their Conduct in almost every branch of the public service has been traduced & Vilified. In the Honest discharge of duty they

have been obliged to stand the unmerited reproaches of many individuals, as well as of some public bodies. After accumulated mortifications, why they still continue to keep their seats, ought to be accounted for, lest they justly be supposed insensible to the feelings of Men of Honour, but it is necessary first to state the transactions which has principally given rise to this Address.

About the beginning of last month the Committee appointed Captain Sam'l Davison Commodore, and Commander-in-Chief of the Naval Armament, equipped for the defence of the River Delaware. The Motives to this appointment, at a Board of thirteen Members, when there was not one dissenting voice, were such as these:

1st. That during his Continuance in the Service as Captain of one of the Armed Boats, he was Conspicuous among the Officers for care and attention to his duty, and, while he maintained a strict discipline, he had the address to concilate the regard & affections of his Crew, and always kept his Boat well manned.

2nd. That having, on the Return of Capt. Davison from a short Voyage, in which he was spared from the service of their Province to go into that of the Congress, and while perfect harmony yet existed between this Board and all its Officers, & on a deliberate estimate of the comparative merits of each, given him, though a Younger Officer, the more important Command of the Floating Battery, in which the same superior good Conduct was observable, the Committee acted but consistently with themselves in elevating him to a still higher Rank.

3rd. A Clamour having been formerly excited against a superior Officer, because, as was said, he had not been of the Fleet, & some of the Officers have since declared they would Yield Ready obedience to any Commodore, if taken from their own Establishment, even though he should be the youngest among them, the present appointment, as it prevented the necessity of going out of the Fleet, was considered rather as Conciliatory than as administering cause of uneasiness and discontent; they were well aware of the obvious Military Maxim, to which they had Run Counter, of Advancing Men according to Seniority, but this Maxim, though perhaps proper in old establishments, where a long course of service in the lower classes are supposed to confer the necessary Qualifications for the higher, may and ought occasionally to be dispensed with in the formation of new ones, where there can be but a slender pretext for Qualifications; from this cause merit is to be sought out and prefer'd wherever to be found, though ambition should be disapointed, or delicacy offended. In many Instances have the Congress departed from this fundamental maxim, and their Country has been benefited by it. The Resistance of the Officers of the Armed Boats to this appointment, and their Indecent remonstrances are well known—they were countenanced and supported by Men whose decision on Publick questions influence in some degree the

public Opinion. Mutiny was justified and abetted, and disobedience triumphed over Authority. The Committee thought it their duty to adhere to the appointment they had made, the Conference of Committees interposed by the following resolution, agreed to immediately before their dissolution.

"That it be recommended to the Committee of Safety of this province, to confine the Command of Commodore Davison to the ship-of-war and floating Battery belonging to the Province, and to Issue no orders to the Captains or other officers of the Row Gallies, Fireships or Fire Rafts, through the said Commodore, until the Convention meets, and that it be recommended to the Captain and other Officers of the Row Gallies, &c., to pay all due obedience to the Committee of Safety, until that time, and until a New appointment shall take place."

The Board, astonished and surprised, would have remonstrated against it, not without Hope that on a fair and impartial state of the Question, those who, from the nature of their appointment, could have nothing in View but the publick hapiness, and who could not have been insensible of the benefit of good order and discipline, would have recalled this hasty determination, which may be so fatal to both, but the dissolution would not allow the necessary time.

The Committee doubt not the purity of the intention which produced this Resolution, and by which their power in so important a Branch is so greatly mutilated, if not altogether destroyed; They well know the regard due to the Representatives of the People, & are disposed to submit to the recommendation, tho' wounded and dishonoured by it, But they would have it understood that the Continuance of many of their Board under such circumstances is of necessity, as no Body of Men can at present be appointed to supply their places, and as they perhaps may, fettered in their Authority as they are, still render some small services to their Country; they however think it incumbent on them to declare that many bad Consequences may probably proceed from a divided Command. Military Authority is not of a nature to be participated, and when attempted, the greatest mischiefs commonly flow from it. Should this unfortunately prove so in our case, the Committee are not responsible; they have performed theirDuty, and look forward with pleasure to the short period of a .few weeks, which is to deprive them of the seats they have held, of late so much to the disatisfaction of some Men, and uneasiness to themselves.

Resolved, That the Title for the Land purchased at Billingsport to erect Fortifications, by order of Congress, be made out in the names of George Clymer & Michael Hillegas, Esq'r, Continental Treasurers.

Resolved, That Colo. Miles be requested to order a Battalion of the Pennsylvania Forces to New Jersey, to encamp at Billingsport,

In order to render the intentions of Congress more Plain & Comprehensive, and to answer their expectations, The Council of Safety have inclosed you their Resolution upon that matter, requesting that you will take such Measures to publish it through your district as will be most Effectual & expeditious, and that you would encourage the Associators to turn out upon this very important Immergency.

"On the 31st day of July, 1776, Before the Council of Safety of the State of Pennsylvania, came John Walker, of the City of Philadelphia, and being sworn on the Holy Evangelists of Almighty God, did depose and say: That about six or Eight days after the time of Colonel Kirkland's escape from the Goal, Mr. John Hale ordered this deponent to fill a Pair of new Saddle Bags with Oats, and Mr. John Hale himself put into the Saddle Bags a Bottle, which this deponent apprehended to be a Bottle of Brandy, or other spirits, and put a Cloth over it: That the Saddle Bags thus filled was put on a Horse belonging to John Hale & the Horse delivered

to a son of Arthur Thomas, and the Horse was (in the evening, about 4 or 5 o'Clock) taken away by Mr. Thomas's oldest apprentice; That some time afterwards, this deponent heard Arthur Thomas, Jun'r say that he had assisted Col. Kirkland in his escape, and also that this deponent did hear the said Arthur Thomas, jun'r say to Mr. John Hale, that Col. Kirkland rode the first night after his escape Forty miles, to the House of a man in New Jersey, who (Mr. Thomas said) had been taken up the day before, for having entertained a soldier at his House: that Mr. Kirkland made his escape thro' some surprise, out of a window; That Mr. Kirkland was lost for several days, and when he was found he did not know the person who found him, and drew his Knife, charging him to keep off, but that on his giving the watchword, Kirkland went with him: That Col. Bouger) not to go off after the Trouble they had taken to send him a Horse: That Mrs Ash told this deponent that she had heard one of the Thomas's say to Mr. Hale that he (Mr. Thomas,) had furnished Col. Kirkland with a Rope, for the Purpose of making his escape from Goal: That this deponent understood the Horse abovementioned was intended for the use of Col. Kirkland, to facilitate his escape; and further this deponent saith not.

"We have sent you an officer in whom we can confide, who will assist in taking him, and also bring to this City, if you shall think it Proper to send him here.

The reward which is offered for taking him is Considerable, and Perhaps may excite some, who would not from other Motives, to endeavour by all Means to secure him. The Council having heard the complaints made against Commodore Samuel Davison, with the proofs brought to support them;

and taking into consideration the situation of the Naval armaments belonging to this State, are of opinion, that most of the Charges made against the said Samuel Davison are frivolous, and discover a dangerous Spirit of Licentiousness amongst the other Officers, inconsistent with The Duty they owe their Country, and not to be justified on Military Principles, which exacts a due Obedience at all times to the orders of superiors; But as it appears to the Council that the Officers of the Fleet in General, have not that respect for, nor Confidence in, the said Samuel Davison, which is absolutely necessary to give Vigour and Efficacy to the Command, and that notwithstanding the Known merit of said Davison, yet the charge of Incompetency to so important a Trust is not altogether without foundation; It is therefore

Resolved, That the said Samuel Davison, Esq'r, be no longer Continued in the Command of the naval armament of this State, and he is accordingly dismissed from the same.

Resolved, That the members of this Board, or as many as Conveniently can, go down to Fort Island to-morrow morning to accompany Commodore Seymour to the Fleet; That Instructions be drawn up to deliver the Commodore with his Commission.

The following are the Instructions deliver'd to the Commodore, viz't:

"In Council of Safety, Septem'r 26th, 1776.

"The Council having thought proper to appoint you Commodore & Commander-in-Chief of all the Naval Armaments of this State in the River Delaware, which you are to notify to the Officers of the Fleet by publishing to them your Commission, It becomes necessary to give you some Instructions to regulate your Conduct in some points of this Important Trust.

"And First: You are, by all Possible means, to establish such a proper sense of Subordination in the Fleet, that all the orders you think necessary to Issue be punctually and implicitly obeyed, a loose and relaxed discipline utterly enfeebling every Military Establishment, however respectable it may otherwise be in the Circumstance of number & force.

"Secondly. As it is the duty and Inclination of this Council to Maintain the Fleet in a Constant preperation to receive the enemy, you must Immediately take an exact survey of its present Condition, and whatever may be wanting in its equipments to make report to Capt. Wm. Richards, who is appointed and directed to supply all its deficiencies.

"Thirdly. An attack from the Enemy being highly Probable, tho' the time uncertain, it is necessary that every part of the Fleet should have its proper Station assigned, in such way as to afford Mutual Support, and that the whole may act to the best effect.

"Fourthly. You must particularly attend not only to the situation of the Fleet, but take great care that the Officers and Men are not absent from their respective Vessels any length of time and at any great distance, but as it is probable that some of the Officers of the Boats may be desirous of coming up to this City, you may give leave of absence to them in such number and for so long a time as the service may admit, so that not more than one-third be absent at any one time or longer than Forty-eight Hours, from their respective Vessels.

"Lastly. Should any accident or Circumstance happen in the Fleet that has the least tendency to effect the service, you are to give the earliest Information of it to the Council of Safety, that they, if they have the Means of Remedy, may apply such as the nature of the Case may require."

These being the Principal Matters that have occured to the Council, they earnestly recommend to you however, that you endeavour to promote the Utmost Harmony between you and the Officers of the Fleet, and between one another, on which depends so much the success of every undertaking where men are to act in concert, and Mutual assistance required.

Resolved, That the Officers of the Fleet belonging to this State be allowed the same pay that the Officers in the Continental Service have, from the first of October next.

David Rittenhouse,

WHEREAS, the Honorable Congress have resolved that the account of the Militia of this State shall be paid as soon as Certificates can be produced to the Committee appointed to settle the same, of their having returned all the public stores in their Possession; And as many poor people, who chearfully turned out in

the service of their Country, may be deprived of their Pay for a Considerable Space of time, to the prejudice of their families and affairs, in Consequence the officers of the several Companies not being acquainted with the before-mentioned resolutions in time; Therefore,

Resolved, 1st. That the State of Pennsylvania will be accountable to the Congress for all the Continental Stores not delivered to the Deputy Q'r Mas'r General, that the payment of accounts of the associators may meet with as little delay as Possible.

2nd. That the officers of the several Battalions do forthwith apply to the Committee appointed by Congress for payment of their Accounts, and when received that they immediately pay off their men.

3rd. That the Commanding officer of every Battalion of Associators, which has been in the Service, do return to Robert Towers, Esq'r, Commissary, as speedily as Possible, all such Continental or State Stores, (arms excepted,) as were delivered to his Battalion, in order that such as belong to Congress may be restored.

As it is not improbable that General Howe may detach part of his army by Water from New York to invade this State, & as we should be unable to make any defence against them by Land in our present unarmed Condition, and as not only the Safety of this State, but the preservation and security of great part of the military Stores belonging to Congress, is thereby endangered,

Resolved, That Mr. Rittenhouse, Col. Bayard & Mr. Biddle, be appointed to confer with a Committee of Congress, on the expediency of having a Body of Troops stationed near the City of Philadelphia, for the defence of this State, and that a General Officer of some Experience be appointed to have the command of said Force.

Resolved, That this Council highly disapprove the Conduct of those mercenary men, who, regardless of the public Good & the Interest of their Country, in this Unreasonable and avaritious manner, monopolize those articles so necessary to the Community, and lay on such enormous Profits as puts it out of the power of the Industrious Poor to procure a necessary supply for their Families, and therefore this board do further *Resolve*, that the aforesaid purchase is and shall be void, and the Cargoe of Salt shall be purchased from the Captain at the price aforesaid, & sold out to the Inhabitants in such Quantities as may be necessary for their Families at the Prime Cost, adding thereto so much only as will defray the necessary Expence of unloading and measuring it, & that in future no person be admitted to make purchase of any Goods or merchandize coming from Sea to this port, untill the vessell arrive and regularly enter at the Custom House, & untill report of the Cargoe on said vessell, be made to this Board.

"The Council of Safety for the State of Pennsylvania Propose to the Honorable the Board of War, that the Following force be Continued in this State, or at Trenton or Billingsport, in New Jersey, as Necessary defence of this City, not only against the British Troops, but the growing party of disaffected persons, which unhappily exists at this time; also for the protection of the vast Quantity of Stores belonging to Congress that are now in the public Magazine; and at the same time to carry on such Works of defence as have been or may be thought necessary, viz:

"The two Virginia Battalions.

"The German Battalion.

"Four Companies of Marines."

And it is proposed to raise four Battalions of Militia, to be taken into pay for the Immediate defence of this State, to be furnished by the following Counties, vizt:

One from York County of Five Hundred men.

One from Cumberland County of Five Hundred men.

One from Lancaster County of Five Hundred men.

One from Berks County of Five Hundred men.

It is apprehended that the above force, with the Assistance of our militia, might obstruct the progress of any Body of Troops that General How might detach from his army, untill reinforcements could arrive from the Flying Camp or General Washington's Army. And it is presumed that a less force than the above mentioned will by no means be adequate to the support of the present Government In this State against the opposite party, should Gen'l Washington's Army be defeated, and they would beg leave earnestly to urge the Necessity of retaining for that purpose the Continental Troops now in this State.

As there are no persons of Military experience amongst us, it is Proposed that General Stevens be appointed to the Command of this force.
